

CHILD LOVE. Munyon Tightens Home Ties. He Brings Repose and Relief to Mothers Mind.

Can children love their parents too much? The little ones look to their mother for food and shelter and for wisdom and example. The sense of dependence and gratitude is the foundation of childish love. How happy are parents who can make their children look to them also for relief from danger from disease! Munyon has made a special study of the diseases of children and has prepared specific remedies for fevers, croup, cholera, morbus, diarrhoea, coughs, colds, sore throats, worms and other childhood ailments. Mothers should keep all these remedies in the home for protection against emergencies. There is nothing in doctoring children. A weak remedy given at the right time will prevent long and dangerous spells of illness. Save many a dollar in doctor's fees. Munyon's Homeopathic Home Remedy Company, 250 Broadway, New York, N. Y. They are for sale by druggists, mostly for 25 cents each. Personal letters to Professor Munyon, 1000 Philadelphia, Pa. are answered with free medical advice for any disease.

A PECULIAR FACT.

Thousands of People Have Dyspepsia in Its Worst Form and Do Not Know It. A weak stomach is the cause of about nine-tenths of all disease, yet it is the cause of the wrong thing is treated and the true cause overlooked. This becomes a weak digestion produces symptoms resembling many other diseases because it weakens and disturbs the action of every nerve and organ in the body; poor digestion causes heart trouble, kidney troubles, lung weakness and especially nervous breakdown or nervous prostration, the nerves cannot stand the wear and tear unless they are fed by well digested, wholesome food. Keep the digestion good and no one need fear the approach of disease. Mrs. H. M. Lee, of Rochester, N. Y., writes: "I have a very weak stomach, threw up my food very often after eating and after a few years nervous dyspepsia resulted and for more than twenty years I have suffered indescribably. I tried many physicians and advertised remedies with only temporary relief for nervous dyspepsia, but not until I commenced taking Stuart's Dyspepsia Tablets last September, six months ago, have I been free from suffering caused by this disease. My stomach and stomach; in short, chronic nervous dyspepsia. I have recommended Stuart's Dyspepsia Tablets to many of my friends and they all want to know where to get them. They are the safest, pleasantest and I believe surest cure for stomach and nerve troubles. I write my honest opinion and will gladly answer any letter of inquiry at any time and for free. I am, in my small way, helping on a good cause. Send to Stuart Co., Marshall, Mich., for little book describing causes and cure of stomach troubles giving symptoms and treatment of the various forms of indigestion."

MURDER IN PRISON.

The Wife of a Convict Closes Her Husband and Loses Her Life. NEW YORK, March 5.—Adrian Braun, a convict in Sing Sing prison, killed his wife, who was paying him a visit at the prison this afternoon. Braun is a German, thirty-five years old and a cigarmaker. He was sentenced for a two years' term for a second degree, and was received at Sing Sing on Sept. 1. He was convicted for the murder of his wife, but notwithstanding this, Braun forgave her husband and expressed sorrow because of his imprisonment. She has been living in New York city with three children, but her two other children having been placed in an asylum. Mrs. Braun decided to visit her husband this afternoon and arrived at the prison at 3:20 o'clock. She went to the State Detective Jackson's office and inquired for her husband. He had been serving in the mess room, acting as a potato peeler. When they met they kissed each other and were very friendly. They sat for half an hour conversing, only a few feet away from the desk of Detective Jackson, who was present. Finally Detective Jackson informed Braun that his time was up, but Braun pleaded for a little time longer, saying, "Can't we have a few minutes more?" Because of the trouble Mrs. Braun had taken to pay her husband a visit, a plan was granted. Suddenly Braun raised his arm, and with a dagger, the glimmer of a long thin knife, Braun brought it down with fearful force against the left side of his wife's neck. One cut severed her jugular vein. He seized, and almost instantly the woman was dead. Detective Jackson sprang upon Braun, but the convict had time to reach the woman's head several times. Two other convicts who were in the corridor came to the detective's assistance and the murderer was subdued. Warden Sage had him removed to the death house, but not, however, before another knife, similar to the one he had stabbed his wife with, was found concealed in his possession. Warden Sage questioned Braun as to why he killed his wife, but the man refused to say anything. Later he seemed to be sorry for what he had done. Army Officer Killed. BURLINGTON, Ia., March 5.—Lieut. Frank Kalka, of the United States army, commanding the Iowa Wesleyan university, at Mt. Pleasant, attempted to board a freight train here today. HENNEPIN BAR MOURNS.

Appropriate Services in Memory of Judge Vanderburgh. There never was such a gathering of attorneys for any purpose in Minneapolis as there was in the main court room yesterday morning, at the meeting of the bar, called to do honor to the memory of a judge. Charles E. Smith, McGehe and Lancaster occupied the bench, and the meeting was given dignity by having court for the occasion. For an hour attorneys took the floor and spoke feelingly of the pure life, simple habits and high character of the deceased. He had left them in the ripened years of his life. Among those who took part in the memorial services was Judge C. E. Pfander, of St. Paul. The following memorial was adopted and ordered spread upon the minutes of the court: "The bar of this county, through their committee, desire to present in suitable form of the great sorrow which comes to them in the death of one of their fellows, the Hon. Charles E. Vanderburgh, which occurred at his home in this city on the third day of the present month of March, 1898, and to ask that appropriate action may be taken on the part of the court. The fact that our deceased brother for 22 years filled with great respectability the office of presiding judge of this court, and for nearly a same length of time occupied with honor a place upon the bench of the highest court of the state, and his eminence as a lawyer and jurist, and his sterling character, as a just and true citizen among his fellow men, together fitting that this should be done as a deserved and fitting honor to his memory. We as lawyers and citizens are glad to testify to his eminent worth as a man, a law- yer, a jurist and a citizen. He was a true and a just man, and all the ends he aimed at were his country's, his God's and his truth's. His wife and his children are to be commended. We respectfully ask that the court permit this brief expression of our appreciation and regard for our honored brother to be entered upon the record." Court will probably adjourn Monday, when the funeral occurs.

Ye Sing accepted the decree of the court and left disappointed, but without comment.

Cause of Yellow Jack.

CHICAGO, March 5.—Dr. Edwin Klebs, professor of pathology and bacteriology in the post-graduate medical school, has discovered the cause of yellow fever. As a result of a series of experiments extending over two months, he has isolated the amoeba, which is without doubt responsible for the disease, and he has been able to trace its development through a number of stages in the various organs of the body. Prof. Klebs made his experiments on the stomach of two patients who had died of the fever in Mobile. The material was sent him by Dr. Herman Koch, of that city. The professor first brought the amoeba, known as tannalsis, and Strubergs, to the attention of the board of health, and by the aid of a special dye composed of fuchsin, eosin and blue and methyl green, he succeeded in isolating the desired germs. The germ is not a bacillus, but an amoeba, it causes inflammation of the stomach.

Electricity vs. Rheumatism. How It Relieves the Pain and Strengthens the Kidneys—Reasons for the Great Success of Dr. Sanden's Electric Belt and Suspensory. A mild current of electricity passing through the body soon relieves the pain and strengthens the kidneys, thus driving from the system all trace of the disease. It is more penetrating than a liniment; more warming than a porous plaster; more potent than drugs, and will not ruin your stomach. It has cured thousands and will cure you. Following two testimonials speak VOLUMES for the curative power of Dr. Sanden's Electric Belt:

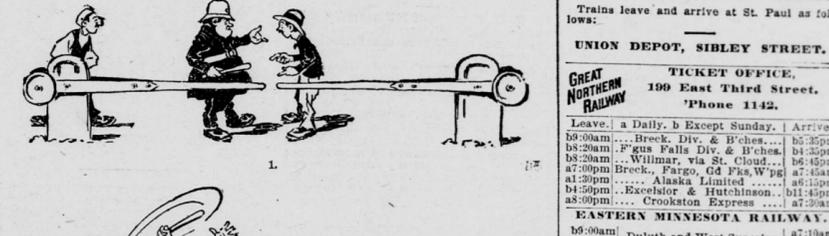

DR. SANDEN: When I got your Dr. Sanden Electric Belt I was crippled with rheumatism, the muscles of my body were all knotted and big lumps stood out on my wrists and limbs. After a few weeks' use of the belt the rheumatism was all gone and a natural and normal muscular condition has prevailed ever since. Aside from curing my rheumatism, the belt has been a great help to me in other respects. At the time of getting it I was very nervous and my vitality very low. This is all changed now, and at 57 I am stronger and healthier in every respect than I was at 40. I deliver 3 sermons each Sunday to different congregations, traveling 30 miles on horseback to reach them. This is quite a task, but does not fatigue me in the least. While I have no particular need for the belt now, I wear it occasionally, as I consider it an excellent thing to tone up and invigorate the system. Yours truly, REV. H. BUNSE, Mayer, Minn.

DR. A. T. SANDEN: Your belt has done me the only good that I have ever received from doctoring. It has done everything that you claimed for it. I was suffering from weak kidneys, Sciatica and other pains. I had never seen a well man. You can refer any one to me, as experience has taught me that the belt is worth more than all medicines. Pardon me for having hesitated such a long time in sending in report, but I wanted to be sure that I was permanently cured. I give you complete credit for the successful cure. Yours respectfully, CHAS. BABCOCK, Locomotive Fireman, Northfield, Minn., Jan. 4, 1898.

CURES TELL THE TALE. Beware of the quack whose chief ability is to guarantee cures that he always fails to accomplish. The cures that are reported daily by Dr. Sanden's Electric Belt are bona fide, and will bear a thorough investigation. If you are weak, get Dr. Sanden's "Three Classes of Men," which tells how the strength is restored. It has hundreds of cures. It is free, either by mail or at the office. If you cannot call and examine the Belt, send for the book free. Address Sanden Electric Co., 235 Nicollet Av., Cor. Washington, Minneapolis, Minn. Office Hours—9 a. m. to 6 p. m. Sundays, 10 to 12 noon.
