CHAUNCEY CHAIRMAN

AT THE HEAD OF ALL THE VANDERBILT LINES.

Retires from the Presidency of the New York Central to Accept a Position Hereafter Held by the Owners of the Various Properties—Step Regarded as a Well-Earned Promotion for Him.

NEW YORK, March 30.—President Depew authorizes the following statement: To carry out the policy of greater unity of administration in the Vanderbilt system the following adjustment of the management will be made after the annual election of the New York Central and Hudson River Railroad company, which occurs on the 20th of April.

Chauncey M. Depew will retire from the presidency of the New York Central and Hudson River Railroad company and become chairman of the board of directors of the New York Central and Hudson River, Lake Shore, New York, Chicago & St. Louis, and the Michigan Central railway; S. R. Calloway

will succeed Mr. Depew as president of the New York Central and Hudson River Railroad company. Mr. Ledyard will remain president of the Michigan Central; the presidents of the Lake Shore and of the New York Central & Hudson River Railway company, and of the Michigan Central company, and William K. Vanderbilt, in retiring from the chairmanship of the Lake Shore and of the New York Central & St. Louis companies, will remain in the directorates, and continue their interests in the property with which their names have been so long identified, and in which they have such large investments.

NEW YORK, March 30.—The idea is one that has been contemplated for many years without, however, the time ever having arrived, until recently, when it could be practically put in operation. It has always been felt that such a union would insure to the benefit of the people of the state, and to the public. It strengthens in the general traffic of the country, the position of New York's great road, which lies wholly within the state, and which benefits the state and the city. It also gives the strength which always comes from harmonious administrations, both to general and local business.

For Mr. Depew, after thirty odd years of service, it is regarded as a distinct promotion and a recognition of his energy and wisdom. The Messrs. Vanderbilt, by putting Mr. Depew in the official position, which they have occupied so long in their own practical way, effect the unity of administration which they sought. It is believed that this policy will add greatly to the efficiency of the system in its service to the public.

It does away with the frictions which have frequently arisen between the presidents of the several lines because the chairman of the several boards of directors will be the arbiter through whom must necessarily come a settlement of any differences that may arise.

TO HELP OUT HORST.

Feldhauser and Kiefer May Throw Their Strength to Doran.

The chances for the renomination of Mayor Doran are said to be looking much brighter than his friends had thought, with the fight between Kiefer, Donahoe and Feldhauser, the convention will be forced to turn to Doran as the only way out of the middle.

As an indication that Doran will be the ultimate choice of the convention, the statement is made that an understanding has been reached between the managers of the Kiefer and Feldhauser people to the effect that, as soon as it becomes apparent in the convention that neither of the candidates can carry the convention by their own strength, both will throw what votes they can to Doran, for the sake of helping Horst out.

This scheme is said to have been proposed and worked up by the friends of City Treasurer Horst, who are the ones who are in favor of securing a renomination to have Doran named to head the ticket.

Assemblyman Johnson, who in case of Kiefer's nomination, is slated for the treasurer's post, says there cannot be anything to the reported combination, or, if there is, the colonel has not acquainted him with the scheme.

A publican politician from the Fifth ward threw a little light on the Donahoe boom yesterday in this way: "It has been a woman to me who has done the work to keep the Donahoe movement up in such good shape. From what I learned today, however, it's a guess no longer. Back of Donahoe and his candidacy is the Van Sant crowd, and this explains why such an interest exists to have things their own way. Certain members of the city and county committee, with Donahoe elected mayor the machine expects to have things their own way for the state convention and a fall campaign."
