

SAINTS WERE SHUT OUT

ADONIS TERRY WAS A MYSTERY TO THEM

First Time This Season They Have Piled Up a Basket of Goose Eggs

Milwaukee 4, St. Paul 0. Detroit 6, Minneapolis 1. Columbus 4, Kansas City 3.

Table with columns: Played, Won, Lost, P.C. for various teams.

GAMES SCHEDULED FOR TODAY. St. Paul at Milwaukee. Minneapolis at Detroit.

Special to The St. Paul Globe. MILWAUKEE, Wis., May 19.—Adonis Terry's drop ball had all the Saints on their tip-toes today, and while they were able to make only two hits and garner a basket of goose eggs, the Brewers rapped out thirteen singles from Hon. Frick's delivery and secured four tallies.

It was the first time the St. Pauls have been shut out this year, but try as they would, only one man reached second base. Outside of the second inning, when Stafford started the fireworks with a two-bagger and four other men made singles, Frick pitched in magnificent form and kept the hits widely scattered, and his support was almost perfect, the only error being Glasscock's muff of Gillen's throw in the ninth, which helped Speer to score. Geier, Shugart and Gillen played brilliantly, and the infield of the Brewers was impregnable, Leewe doing the bulk of the work.

In the second inning the Milwaukee clinched the game, a double by Stafford, singles by Waldron, Speer, Terry and Nicol and Leewe's sacrifice giving them three runs in the first. Speer singled, stole second, went to third on Nicol's hard drive to Frick, and scored on Glasscock's error. The ball that Nicol hit to Frick was a red-hot liner and struck him on the right wrist, dislocating the bone, and he retired from the game. Phyle pitching the inning, Frick was disabled for a week at least, and Comiskey tonight wired Mullane to join the team here tomorrow. The score:

Number of hits made off Frick: two-base hit, Stafford; single, Weaver, Nicol, Speer; bases on balls, by Terry 2; Frick 1; hit by pitched ball, by Terry 2; wild pitches, Frick 2; errors, Frick 1; Frick 1; sacrifice hits, Terry, Leewe; in-lings pitched, Frick 8 1/2; Phyle 1/2; umpire, Sheridan; time, 1:45.

SAVED A SHUT-OUT. MILLERS IN BETTER LUCK THAN WERE THE SAINTS.

Special to The St. Paul Globe. DETROIT, Mich., May 19.—Both Cook and Hahn pitched good ball today, but the unsteadiness of Speer's catcher at several stages and the three errors made by Rice made the tigers look as if they were having an easy time winning and almost shutting out the Millers. At that they were favored ably by the distribution of their base hits. Campan twice cracked out beautiful long hits, but David phenomenally fast fielding on the one in the fourth kept him at third when it looked like a homer, and Frick's throw would have saved him from nothing in the sixth had not Kuehne dropped a throw by Hahn and let Frick to first, on which he scored, and saved the Millers from a shut-out. Three-base hits, Nicol 1; Campan 2; sacrifice hits, Tweinham, Davis; stolen base, Dungan; first on bases, Detroit 6; Minneapolis 6; struck out, by Cook 4, by Hahn 7; double plays, by Cook 1 and Hahn 1; Carey; wild pitches, Cook 2; time 2:00; umpire, Manassau; attendance, 1,300.

STOPPED IN THE FIFTH. Rain Aided the Buckeers to Win From the Blues.

COLUMBUS, O., May 19.—Rain interfered in the first inning, but play was resumed.

Catcher George Yeager, of Boston, spends most of his leisure time in reading scientific books.

Gray is not proving a great find for Pittsburgh. His fielding has been very bad and he is not hitting up to his minor league level.

Three hits, one of them a double, and nine chances, several of them difficult, without an error, shows what a great man Steinfield is at hitting to give the runner in and fill any vacancy that may occur. He's the best utility man in the country.—Cincinnati Enquirer.

Manager Mack completed the deal last Thursday whereby Pitcher Volinoff, of the Brewers, was sold to the New Haven club, of the Connecticut State League, managed by "Chip" McEarty, the old Cleveland and Columbus third baseman.

"So Van Derbeek has sent Kuehne to his St. Paul farm to develop him," said Comiskey yesterday, when he heard of the "Count's" disposition by the Detroit manager. "Now that may be a good thing. The leader of the Saints continued, and perhaps I may try that on Glasscock. Since Van Mullane and he have been doing in a minor league."

"Van Derbeek formerly suspended his ball players on rainy days when he managed a team in California years ago," said Comiskey yesterday in referring to the Detroit manager.

the game being ended in the fifth inning by rain, Columbus punching him in the third and fourth and winning out. Score:

Scorecard for Columbus vs Kansas City game.

INDIANAPOLIS, Ind., May 19.—Indianapolis-Ohio, no game; rain.

NATIONAL LEAGUE. Senators Slaughter Isbell in a Single Inning.

Scorecard for Senators vs Isbell game.

GAMES SCHEDULED FOR TODAY. Pittsburgh at Baltimore. Washington at Chicago.

Chicago, May 19.—The Senators batted Isbell off the rubber in the first. They scored two in the second on a gift, wild pitch and two hits. The Orphans made two on battery errors at the start, but could do nothing more with Mercer except in the seventh, when they batted five hits. Attendance, 1,100. Score:

BALTIMORE, May 19.—Kittson made his initial bow in league company today and has a shut-out to his credit. The team fielded well in spots. Attendance, 1,347. Score:

Scorecard for Baltimore vs Kittson game.

CINCINNATI, O., May 19.—Jack Beckley Seneca's game by batting, driving in two runs and scoring three himself. Brettstein retired after the fourth. Steinfield's third base play was marvelous. Attendance, 4,364. Score:

Scorecard for Cincinnati vs Seneca game.

LOUISVILLE, Ky., May 19.—The Brooklyns narrowly escaped a shut-out today. A triple by Tucker and an infield out gave them their only run. Cunningham pitched a fine game. Attendance, 500. Score:

Scorecard for Louisville vs Brooklyn game.

CLEVELAND, May 19.—The game scheduled for today between Cleveland and Philadelphia national league teams was not played on account of rain.

Des Moines capital is scheming to get the Omaha club. The "hotter" rules have not entirely squelched Toban, but have worked a promising improvement in his behavior at once.

Kuepper has been released by Indianapolis and Columbus. One day last fall Lottus took his team to Kitchestown, Ind., to show the country boys how the game is played, but Kuepper, who is a pitcher, and Columbus was shut out. Lottus wants to see the youth do the trick again, but when pitching for Columbus.

Nordyke, of Detroit, has been released to Grand Rapids, and Richter can go where he listeth. Nordyke is a promising third baseman, but he lacks experience. A year in a minor league will probably develop him for faster company. Kuehne is playing third like a veteran he is, and there is no opinion here for his retention. Richter, too, is not fast enough, and with Dungan, he is not a good enough outfielder, his chances would be slim.

The New York players tell wonderful tales of Murphy, one of the new Philadelphia pitchers. It seems that the youngster waves both hands and says to the pitcher, "You have the ball, and from somewhere the batter gets a home run. The number of grand slams. Another double of Murphy's, it is alleged, is to do himself up in a bunch, with back turned to the pitcher, and let the ball go. The pitcher, the batsman is too busy watching the pitcher to think about batting.

Manager Flaher has given out that he has signed four ex-national league players, a pitcher, a catcher and two outfielders. Chauncey may have been sending contracts to some base ball boneyard.

Vanderbeck says he has signed Charley Nye. Lester German has been released by Rochester. The pitching of Griffith and Young this season has been marked by their perfect control.

Doyle has declined the captaincy of the Senators, and the catcher will do the talking and bossing.

Cleveland has more men who can punt successfully than any other team in the league, so they claim in that city.

Joe Herndon, after a year's absence from the Eastern League, is back with Springfield this season, pitching better than ever.

Some funny man has made the announcement that President McKinley will divide \$1,000,000 among the St. Louis players if they land in first place.

Earl Wagner says that Gus Wehring should have won all three games in which he took part this season.

Catcher George Yeager, of Boston, spends most of his leisure time in reading scientific books.

NEWS OF THE RAILWAYS.

ORDER A SWITCH AT JASPER DECISION OF THE RAILROAD COMMISSIONERS

Have Concluded There is a Need of a Link to Connect the Willmar & Sioux Falls and the Burlington, Cedar Rapids & Northern—Another Effort to Patch Up the Transcontinental Rate War.

An important step was taken by the state railroad and warehouse commission, yesterday, when that body filed an order in the matter of the petition of the Jasper Milling company to require the Willmar & Sioux Falls Railroad company and the Burlington, Cedar Rapids & Northern company to build a connecting track at Jasper, so that commodities could be transferred from one line to the other. Jasper is in Pipestone county.

The order was filed yesterday with the great Northern and the Burlington and a strong contest, it is said, will be made against it by the two defendants.

The taking of the testimony on the cross has been completed, and the commission at Jasper on Dec. 9, 1892. The case was not included until the supreme court filed its decision in the Hanley-Palmer case, which was pending at that time.

The Hanley Falls case was one of great importance and the decision of the supreme court established a precedent. It sustained the validity of the law requiring railroad companies building connections at grade crossings where the tracks are not in immediate proximity to a connecting track.

The Jasper case has been thoroughly considered by the commission on its merits and it was only a matter of time before the body determined to order the connecting track to be built as prayed for in the complaint. Commissioner Gecker was present at the hearing and did not participate.

TIRED OF THE RATE WAR. Another Effort to Patch Up a Peace. General Passenger Agent Whitney, of the Great Northern railway, has gone East from Chicago to attend a conference of the transcontinental committee, of which he is a member, and the Eastern trunk lines, with regard to the Pacific coast.

The committee consists of Mr. Whitney, Assistant General Passenger Agent Merrill, of the Milwaukee, and General Passenger Agent Eustis, of the Burlington. The committee is to discuss the rate war.

Great efforts are being made to bring the Klondike rate war to a conclusion. Since the beginning of the conflict between the Canadian Pacific and the American lines, it has cost the roads a barrel of money, not because of the very low rates quoted, but because of the business that has been demoralized.

It is said that the Canadian Pacific is getting 25 per cent of the San Francisco and Seattle business, making a terrible cut in the earnings of the Southern Pacific, which has appealed to its Eastern connection to bring pressure to bear on the Canadian Pacific, so the latter road will come to an agreement with the American lines.

But the prospects for peace are very slim. The Northern Pacific and Great Northern railways insist upon their point that the Canadian Pacific must do without its differentials, while the Canadian line has repeatedly announced its determination to refuse to remove the differentials.

The trunk lines can, it is claimed, bring the fight to a speedy termination by shutting out the Canadian Pacific from their territory. Up to this time the trunk lines have shown no disposition to do so.

HOME FROM MONTANA. President Mellen Back From a Trip to Anaconda. President Mellen, General Manager Kendrick and Superintendent of Motive Power Herr, of the Northern Pacific railway, returned last night from a trip to Montana.

The party left St. Paul Saturday and went immediately to Anaconda, Mont., where they conferred with Marcus Daly, president of the league of the short lines, and the latter, in turn, hereafter a part of the Montana Union company, which road is owned by the Northern Pacific, to Mr. Daly. The news of this transaction was published in yesterday's Globe.

The Northern Pacific party came home by way of the Great Northern railway from Great Falls.

EASTERN LINES COME DOWN. Give the Government Better Than the Tariff Rates. The Eastern lines have agreed upon reasonable rates for the transportation of freight for the government during the war.

The following rule has been adopted by the Joint Traffic association: "The duly authorized published freight rates for government cargo and equipments and supplies, other than powder and explosives, when transported in car loads at the minimum weight established by the official classification."

The duly authorized published freight tariff rates, less 15 per cent, for equipments and supplies, other than powder and explosives, when transported in less than car loads."

The Western Freight association demands full tariff rates on all supplies during the war, and the rate on flour, which is the highest for car lots. Full tariff rates are charged for less than car load lots if consignments are shipped in less than car load lots.

ONE ROUND OF PLEASURE. Trip of the Twelfth Regiment to St. Louis. Charles E. Smith, Northwestern passenger agent of the Mobile & Ohio road, with headquarters in St. Paul, returned yesterday from St. Louis, where he accompanied the Twelfth Minnesota regiment to St. Louis from here.

He was relieved at that city by J. N. Conzart, traveling passenger agent, and M. H. Bohrsdt, district passenger agent of the Mobile & Ohio, who will accompany the boys to Chickamauga.

"We had a G. I. B. reporter," remarked Mr. Smith to a Globe reporter, "and it was a continuous ovation. It seemed like wholly boys turned out to give us a greeting."

MAY INCREASE BUSINESS. War Developments and Oriental Steamship Trade. The report that the Santa Fe is about to establish a steamship line between Detroit and Yokohama has been confirmed by Chairman Walker of the board of directors of that road.

The recent war developments will materially change the plans of this new line.
