

Schuneman & Evans THE NORTHWEST'S GREATEST STORE

A SWEETENING CUT-PRICE SALE OF TOILET PREPARATIONS, DRUGS AND SUNDRIES.

Owing to the war and stamp act, which law went into effect July 1, 1893, making it necessary for all manufacturers and dealers to affix an internal revenue war stamp on every package of patent medicine, Madame Yale's Toilet Articles and perfumes sold after that date, all the manufacturers have advanced their prices from 15 to 25 per cent, thus making it necessary for the dealer to advance his selling price to the public. Anticipating this condition of affairs, and conforming with our usual method of looking after and protecting the interests of our patrons, we purchased the largest assortment of Toilet Articles ever sold at one time to any one house in the country, so as to secure them at their former prices. We now propose to give the public the benefit of this purchase, selling THIS ENTIRE LOT AT A SPECIAL CUT PRICE. WE OPEN THIS SALE MONDAY, JULY 25th, and shall continue it for two weeks, ending Saturday night, August 6th, provided the goods last that long. The price of every article has been cut way down; after this sale ends, August 6th, we will advance our prices on all Toilet Articles and sell them as usual.

- Toilet Articles. On Sale Monday and Tuesday. \$1.50 Oriental Cream... 92c 50c Malvina Cream... 33c 50c Hind's Honey and Almond Cream... 33c 50c Viola Cream... 33c 50c Milkweed Cream... 33c 50c Pozzoni's Face Powder... 29c 25c Pozzoni's Parisian Cream... 12c 50c Meyers' Exora Powder... 31c 50c Meyers' Exora Cream... 31c 25c Glycedonia... 10c 50c Al-Ki... 25c 25c Camphor Balm... 10c \$1.00 Pinaud's Eau de Quinine... 60c 50c Pinaud's Eau de Quinine... 35c

CAMP THOMAS ALL ASTIR

Continued from Second Page. First sergeant of a Colorado national guard company, and saw some hard service at the Leadville and Cripple Creek strikes. Lieut. Tenvor was made sergeant for a larger lot. He had his company out for drill yesterday. On the drill ground was a colonel and major of some Dakota. They both said they could hardly believe that the recruits had only been drilling a little over two weeks. However, when they learned that the lieutenant and one of his sergeants were from Camp Thomas, they both remarked, simultaneously, "How good!"

DR. CAINE'S NEW WORD.

What the Popular Surgeon Told the Twelfth Regiment Boys. Special Correspondent of The St. Paul Globe. CAMP THOMAS, July 19.—The non-commissioned officers and privates of the Twelfth regiment gave to Capt. Caine, as an evidence of their appreciation of his efforts in their behalf, one of the most splendidly carried by an officer of our regiment. Capt. Caine has been transferred to the 10th in hospital, and the expression of his regard for the Twelfth in favor of his return. There is not a man in the regiment who is not led in his private life, and there is not a man who has not seen him and tells of his kind words and actions. When we are sick, in a division hospital, or in quarters, to have our ailments attended to by a man from any one is appreciated, and it is more so when the man is a doctor. Dr. Caine has spent his entire time working about the sick and diseased, and he has done so with a kind and gentle word, and a kind deed. The presentation was an honor and a privilege. Dr. Caine is on the lips of every man in the regiment. I need not say that the splendid success you have had, for every man who has been under your care has spoken for me. This meeting of your care has been a blessing to the Twelfth, and you have accomplished, and, secondly, to express the wish that you be returned to this regiment. "Now, captain, in behalf of the non-commissioned officers and privates of the Twelfth Minnesota volunteers, I have the honor of presenting you this sword. Accept it as a token of sincere and highest esteem." Dr. Caine, in accepting the gift, said: "It is difficult for me to frame language adequate to convey to you the depth of my appreciation of this token in evidence of your respect for and confidence in my efforts to prove myself the friend of all sick or wounded soldiers, whether they be in the public or the non-commissioned of those who, by their military skill and long service, have won the respect and admiration of their fellow soldiers, and I am proud to be able to do my duty in the battles to come in which we shall participate, and should I be spared, to continue doing my duty in the days of peace which are to follow."

OFF FOR MANILA.

South Dakota Volunteers Depart on the Transport Rio de Janeiro. SAN FRANCISCO, July 23.—The transport steamer Rio de Janeiro, bearing two battalions of South Dakota volunteers, recruits for the Utah light artillery, and a detachment of the signal corps, sailed today for Manila. The vessel was accorded the same ovation which had been given to the other transports which have sailed for the Philippines, and nothing unusual occurred as the vessel steamed down the bay. The expedition will be under the command of Brig. Gen. H. G. Otis, who has stated that he will make all possible speed to join the United States forces in the Philippines. The Rio will stop at Honolulu to take on fresh supplies and to refuel her coal bunkers.

Death of Corporal Newcome.

SAN FRANCISCO, July 23.—Corporal Daniel Newcome, of Company D, Fifty-first Iowa, died at Camp Merritt today, of pneumonia.

Another Prize Taken.

KEY WEST, Fla., July 23.—The British steamer Regulus, of about 1,500 tons, was captured by the United States auxiliary gunboat Hawk, fifteen miles from Sagua Grande, province of Santa Clara, last night. The vessel was brought in here today. She had a cargo of sugar in her hold, and was coming out when taken. The Hawk hailed her by megaphone and took her aboard as a prize for running the blockade. No test was made to this, and Ensign Schell is now on board with a prize crew. The Regulus was from St. John, N. B.

Yale Beauty Leads.

Madame Yale's celebrated preparations are well represented in this lot and we shall be able to supply the ladies with these world-famed beautifiers and natural health givers at the lowest prices ever offered. These special prices prevail, however, only during this sale. After that time our prices on all of Madame Yale's goods will be advanced. We are Madame Yale's special agents for the sale

GARCIA'S FORCES ROUTED.

Defeated in an Ambuscade Attack on Surrendered Spaniards. NEW YORK, July 23.—A special from Santiago says that Gen. Garcia's forces, consisting of fully 4,000 Cuban insurgents, were routed in an engagement with Spanish troops bound for Santiago to surrender. In this battle, which took place at a point several miles to the north of the city, forty-one Cubans were killed and many more wounded. The Spanish loss, it is informed, was much smaller. Nothing happening in this vicinity recently has taken the American officers...

GARCIA'S DISAFFECTION.

Details of It Have Not Yet Reached Government Officials. WASHINGTON, July 23.—It is stated positively at the war department that the letter which Gen. Garcia is reported to have addressed to Gen. Shafter announcing his withdrawal from further co-operation with the American troops, has not yet reached the war department. The officials are inclined to believe that, if the letter really exists, and of that they have little doubt, it will reach the department only through the mails from Santiago. So far no mail report of any character...

ers and troops so completely by surprise as to be between the Cubans and the Spaniards. This disastrous defeat of the insurgents is the first result of Gen. Garcia's petulant disagreement with Gen. Shafter and of his decision no longer to cooperate with the American forces. When the Cuban general withdrew his troops to the mountains he resolved to move on to Holguin, about sixty miles to the northwest of this city. If the Americans would not allow them to wreak vengeance on the Spaniards in Santiago the Cubans propose to storm some other important place and take possession of it on their own account. It was with this object in view that Gen. Garcia withdrew his troops from the American lines and refused longer to act as an ally of Gen. Shafter. He decided to attempt to carry the Spanish position by assault, and the first troops pressed forward when the word was given. Their progress was firmly resisted at every point by the Spaniards, who, after several hours' fighting, put the Cubans to rout with a loss of forty-one killed and many wounded. The Spaniards suffered a smaller loss. This battle, with its disastrous results, has greatly excited the Cubans. They are demanding vengeance, and cannot understand why the Americans do not annihilate their Spanish prisoners of war.

has come from Gen. Shafter since his landing in Cuba, to the great disappointment of the officials, who are looking for detailed accounts of certain events in the programme of the campaign that were only obscurely outlined by Gen. Shafter. It was hoped that the St. Paul, which arrived yesterday at New York, would bring along a lot of mail, but she did not do so, probably from fear of yellow fever. The only word that has come from Shafter over night was the statement that Gen. Duffield left Santiago for home yesterday, and that Gen. Corbin's son, who was reported to be better, would leave for home as soon as he could be transported safely. He and Gen. Duffield are said to have suffered the only two pronounced cases of yellow fever in the American camp. No word has reached the department from any official source relative to the reported attack by Garcia's Cubans upon the body of Spanish soldiers who were marching into Santiago to surrender to Gen. Shafter. In the absence of a reliable report on the occurrence, which, if true, may be fraught with the gravest consequences, and affect the attitude of the United States Government toward the Cubans. There

is a decided disposition to refuse to discuss the matter at the war department. DUMB WITNESSES. Spanish Ships Destroyed at Santiago Tell How the Maine Was Lost. OFF SANTIAGO DE CUBA, July 12.—No doubt that many have existed under the batteries that for weeks had outside explosion has been dissolved by the examination of the destroyed Spanish ships," said a member of the board of survey that examined the remains of Admiral Cervera's fleet. "Of four ships examined three had been blown up by their magazines," he continued, "and of these one had every magazine exploded and torpedoes in addition; yet one none of them was there the same effect as that produced by the explosion of the Maine. There was no upheaval of the keel, and little bulging of the plates, except in the immediate vicinity of the explosion. The effect was nearly altogether upward, in some cases the protective deck being lifted, but outside of the springing of a few plates the hulls were intact. The record of damages to these ships is one of great interest. The fight started at a range of 6,000 yards, or three times the range of the 500-yard torpedoes and two cruisers were annihilated. The closest fighting was done at 1,100 and 1,500 yards. By the Brooklyn and Viceroy a annihilating effect on the Spanish ships. But two projectiles larger than eight-inch struck a vessel, both of these either twelve or thirteen-inch being put through the infante Maria Josefa. The eight-inch, six-inch, five-inch and six-pounder projectiles did the bulk of the work and were frightfully destructive. Some idea of the effect can be obtained from a brief summary of the injuries to each ship as found by the examining board. The board had upon its staff capable men as Executive Officer Seeger, from the Iowa; Executive Officer Mason, of the Brooklyn; an expert on the effect of shells on armor; Lieut. Huessler, of the Texas, who has spent some special time in the study of gun-firing on that ship; and Naval Constructor Hobson, of Merrimack fame, who has a reputation for knowledge of ship construction. WAR A NECESSITY. Every Important Naval Victory Won by Americans on Sunday. SANTIAGO DE CUBA, July 17.—The Sabbatharian may not find it as good a reason for thankfulness and congratulation as do the men of the American fleet off Santiago de Cuba, but the singular fact remains that every event of supreme importance that has happened in our naval operations during the war with Spain has fallen on Sunday. On Sunday, May 1, Dewey won the great victory at Manila. On Sunday, May 29, Schley found the fleet of Cervera in Santiago harbor, and said: "They will never go home." On Sunday, July 3, a portion of Admiral Sampson's fleet under Commodore Schley defeated the attempt of Admiral Cervera to escape, and destroyed his squadron; and on Sunday, July 17, (today) the Spanish flag on Morro castle, Santiago, was hauled down forever, beginning the finale of Spanish control in the Western hemisphere. This Sunday morning was beautiful, among the most beautiful that have fallen to the lot of our ships before Santiago. The blockade was depleted, the two flagships, New York, with Admiral Sampson's flag flying, and the Brooklyn, known to the Spaniards as the "three-horned devil," flying Commodore Schley's broad pennant, being the only warships in sight. The little Vixen, Capt. Sharpe, omnipresent, and the Gloucester, Capt. Wainwright, filled out the quota of our ships. Sunrise developed the fact that the red and yellow flag of Spain still floated over

TO FIGHT SPAIN IN COURT.

Litigation Over Transportation of Spanish Prisoners Threatened. NEW YORK, July 23.—A lawyer has been retained by the steamship companies who were unsuccessful bidders for transporting the 22,000 captured Spanish prisoners from Santiago to Spain, and will begin an action today to have the contract made by the government with the Compagnia Transatlantica Espanola set aside.

WAR A NECESSITY.

Some idea of the effect can be obtained from a brief summary of the injuries to each ship as found by the examining board. The board had upon its staff capable men as Executive Officer Seeger, from the Iowa; Executive Officer Mason, of the Brooklyn; an expert on the effect of shells on armor; Lieut. Huessler, of the Texas, who has spent some special time in the study of gun-firing on that ship; and Naval Constructor Hobson, of Merrimack fame, who has a reputation for knowledge of ship construction.
