

NEWS FOR DAIRYMEN

NEXT BUTTER SCORING AT OMAHA TAKES PLACE SEPT. 12

DETAILS OF THE LAST ONE

Minnesota Buttermakers Made a Most Remarkable Showing That Time—Selection of Austin for the Next State Dairymen's Convention

The September scoring of butter exhibits at the Omaha exposition will take place on Sept. 21, and Supt. James A. Harris has issued another call for exhibits from Minnesota creameries.

Table listing butter makers and their scores, including names like W. J. Bangs, W. L. Noyes, and others with their respective scores.

The annual state convention of the Minnesota State Dairy Association will be held at Austin on the second Tuesday in December, and it is expected that the attendance will surpass any convention that has ever been held in the state.

Austin was decided on as the place for holding the convention only after the earnest efforts of the state association, which was held at the state fair grounds last week.

The dairy hall was one of the principal attractions at the state fair last week, and from the morning until Saturday night there was hardly an hour in the day that the hall was not crowded with sightseers and people interested in butter.

The two largest exhibitors were the Milton Dairy company, of St. Paul, and the Minneapolis Dairy company, of Minneapolis. The first carried off the first prizes for the best display of granular butter and ornamental butter, and in each instance the Minnesota state company was second.

Large premiums are to be offered this year on live stock and dairy products by the Grand Forks Free Street Fair association, and a number of prominent lecturers from outside the city will be engaged to lecture to the farmers on the advantages of dairying.

The chances for exporting are not especially encouraging when extra special goods are quoted at 19 cents arrival, and the same goods in London are weak and sell slow.

Pain's "Cuba" closed a week's series of spectacles last night to a very poor attendance. It was thought that this was to be the final performance, and as the receipts were to go to the citizens' committee, that the people of St. Paul and Minneapolis, especially those who were unable to attend during the week days, were very disappointed at the result of the special performance.

Very Slim Attendance at the "Cuba" Spectacle Last Night—Performance Was Smoother.

How many cows there are about the streets' someone has asked, and then he is calmly informed that the number of cows is simply being delivered, says a writer in Ladies' Home Companion.

sheep, its tip being concealed in the hollow of the milking hand. Only a gentle pressure upon the bag of water within is needed to thus cause both milk and water to flow from the cup at the same time.

Now that Sioux Falls has been formally named as the place for holding the next annual meeting of the National Buttermakers' association, interest in that meeting is picking up greatly.

There is no question but what this meeting will be a great success. This is the big year and the meeting is bound to be in the swim. Secretary E. Sudendorf, who is always conservative in his estimates, places the number of outsiders who will be present at the meeting at from 2,000 to 2,500. He also thinks that not less than 1,000 twenty-pound packages of butter will be on exhibition and entered in the prize competitions.

There is certainly one co-operative creamery in Bluff Earth county that has been a success. It is the Prescott, and the Blue Earth City Post has the following to say of it: The Prescott started in business in the spring of 1886, with John Domes as president and Charles J. Schroeder as secretary.

One or two signs will denote a good cow, as well as twenty, says Prof. Haecker. In a poor cow the thigh runs down straight, no space between the thigh and the side of the udder.

Indian Summer Drew a Large Crowd to the Lake.

Revival at Como.

Blame is Blanco's.

Would Not Go Sunday.

SABRASH IN SOUTIDE

MRS. YARNELL IS CONFINED IN THE COUNTY JAIL UN- VISITED

DAUGHTER THREATENS SUIT

She Intimates That She Will Resort to the Courts if County Attorney Anderson Persists in His Refusal to Let Her Mother Be Visited—Burglar Theory Obtains Some Credence.

There were practically no developments yesterday in the Middleton murder case. Mrs. Yarnell spent a quiet day at the county jail, while the detectives worked assiduously in the search for evidence to prove her guilt, but so far as could be learned, their industry was unrewarded.

There is certainly one co-operative creamery in Bluff Earth county that has been a success. It is the Prescott, and the Blue Earth City Post has the following to say of it: The Prescott started in business in the spring of 1886, with John Domes as president and Charles J. Schroeder as secretary.

ONE DAY IN MANILA

EXPERIENCES IN THE CAPITAL CITY OF THE PHILIPPINES

CHARACTERISTICS OF ITS OWN

Prof. Dean Worcester, of the University of Michigan, Sees Some Strange Sights—The Trouble Tourists Have in Securing Their Baggage—Disagreeable Odors Numerous.

From the Detroit Free Press. Prof. Dean C. Worcester, of the University of Michigan, contributes to the New York Independent an account of "A Day in Manila." Some interesting experiences are related in the narrative, which is appended.

One of our first days in Manila finds us thoroughly tired out. We can hardly keep our eyes open until our dinner is swallowed, and we flatter ourselves that we shall sleep soundly; but we are doomed to disappointment, for the problem of making ourselves comfortable on the Philippine beds is not one that we shall solve the first time trying.

Breakfast is served in our room. It consists of bread, thick chocolate, and a "pair of eggs"—pasado por agua. Inevitably, the water is so hot that the temperature of that water must have been very moderate, and the passage of the eggs very expeditious, for they are warm, and they are very slightly frosted with white.

Blame is Blanco's.

Would Not Go Sunday.
