

The Great Beady Plague.

HOW IT IS BEING SUBDUED.

Consumption Can No Longer Claim the Majority of Its Victims From Among the Vast Army of People Afflicted With Catarrh.

This and all Other Diseases of the Air Passages Are Now Cured by the New Method of Treatment.

All medical men acknowledge that nine-tenths of the people who are today afflicted with Consumption can trace the beginning of this terrible plague to either Catarrh, Bronchitis or Emphysema, and claim that if these diseases could be permanently cured, death from consumption would be almost unheard of. This is undoubtedly true, but until a few short months ago no remedy or treatment ever discovered could show even four persons out of every hundred treated who had been afflicted. This is no doubt due to the fact that nature will not allow medical force of any kind to enter the bronchial tubes or lungs, and as all the old methods consisted in the application of liquid medicines in the form of sprays, douches, atomizers or vapors, the diseased parts were never reached. Since the discovery of the new method, the new germicide, and the Australian Dry Air method of conveying it to all parts of the head, throat and lungs in the air, the change has been so complete that respiratory diseases, and a great decrease noted in the number of persons afflicted with such diseases. In fact, so thoroughly convincing has been the success of this new method of treatment, that it has been given free treatment daily, until convinced that by the inhalation of HYOMEI alone can disease of the air passages be reached and cured.

A Few Letters from New England People:

The Best Remedy on Earth. Shirley, Mass., Feb. 20, 1893. Gentlemen: In only four days of use, "Hyomei" every day, but I wish to say to you that I have not had a cough since I have used it for many years, and during the past year have been attended by local physicians, who have bought all the remedies, yet none of them have afforded me any relief. When in Springfield, Mass., last week I purchased one of your "Hyomei" Pouch Inhalers. I have used it faithfully one week, and now I would scarcely know that I have had such a cough. One hundred dollars would not buy the little inhaler if I could not get another, and I shall at once purchase another. I am afflicted with catarrhal trouble in my form, throat, chest, and lungs. I am, S. SPARROW, 100 South Main Street, Springfield, Mass.

From the Hon. Samuel Roads, Jr.

Dear Sir:—I have used your "Hyomei" for several years, and it has given me great relief to my catarrh of the nose, throat and chest. I have received great benefit from its use, and am recommending it to many of my friends. It is the best remedy I have ever used for colds in the head, catarrh and bronchial affections. I have used it for many years, and it has given me great relief to my catarrh of the nose, throat and chest. I have received great benefit from its use, and am recommending it to many of my friends. It is the best remedy I have ever used for colds in the head, catarrh and bronchial affections.

Wanted To Be Convincd.

TO BE BURIED TODAY

FUNERALS OF THE THIRD REGIMENT MEN KILLED AT BEAR ISLAND

TAKE PLACE THIS AFTERNOON

Maj. Wilkinson and Sergeant Butler's Remains to Be Temporarily Placed in the Vault—Rev. Pleasant Hunter, of Minneapolis, to Officiate—Feeling of Sadness Felt Throughout the Fort.

The funerals of Maj. Wilkinson, Sergeant Butler and Privates Schwaenke, Stocker, Love Omsstead and Ziebel will take place at Fort Snelling this afternoon and the bodies laid at rest in the picturesque little cemetery at the fort. All arrangements were completed yesterday for the funeral by Capt. Gerlach. The services will be held in the post chapel, and conducted by Rev. Pleasant Hunter, of Westminster Presbyterian church, Minneapolis, at 2:30 p. m.

Grief prevades all quarters at the fort, and today's exercises, which will be eminently of a military nature, will add a closing chapter to the Bear Island carnage. The post flag flutters to the autumn breeze, at half mast, and the cooling warmth of the October sun bespeaks of life and immortality beyond.

Not for years have the people at Fort Snelling so fully felt the horror of war. Maj. Wilkinson, who but a few days since, stood in the health of manhood, lies in state in the little chapel, just back of the headquarters building, alongside of his five comrades, who fell with him before the warfare of savagery.

Maj. Wilkinson's family have been in California for some time and were advised of the major's death as soon as the news was officially confirmed. A telegram was received yesterday by Capt. Gerlach from Gertrude B. Wilkinson, at San Francisco.

Soldier's funeral vault. Best of them without acclamations. Save carefully arranged, and the funeral will be held in the post chapel, just back of the headquarters building, alongside of his five comrades, who fell with him before the warfare of savagery.

In addition to the services at the chapel, a short prayer and service will be held at the graves. The funeral will be held in the post chapel, just back of the headquarters building, alongside of his five comrades, who fell with him before the warfare of savagery.

The caskets are all shrouded in black, but have all been wrapped in huge American flags. The funeral will be held in the post chapel, just back of the headquarters building, alongside of his five comrades, who fell with him before the warfare of savagery.

At the post hospital all of the wounded were reported resting quietly. A reporter for The Globe visited the ward where the wounded were quartered, and they were to a man cheerful and anxious to know the latest news from Leech lake. In nearly every case their wounds are such that the will was none the less popular in the regiment, and it is with bowed heads that by one or two members of the garrison viewed the remains in the fort's twilight of autumn.

A number of ladies at the fort yesterday, draped in black and draped with national colors, with a background of mourning. It is thought that Maj. Wilkinson's remains will be taken to Redlands, Cal., for final interment.

Several of the Third who were killed at Leech lake were members of Ivy Lodge, Knights of Pythias, at Fort Snelling, and a large number of Minneapolis Knights will attend the funeral this afternoon. Members of the order will assemble at Masonic Temple at 12:30 and proceed to Fort Snelling in a body.

PREDICT A SURRENDER.

Visiting Flatheads Do Not Think the Chippewas Will Hold Out. Three Flathead Indians from Kipp, Mont., are visiting the Moriches at Fort Snelling. The party came to this city yesterday from Chicago, where they took a train load of cattle and horses to the train load and came to the Indians and William Kipp and Jack Miller, and their companions from Astoria and Pomona, who were all interested in the war with the Chippewas, but when a reporter asked them about the war, they said, "understand all about the war, and they think it will soon be over. They do not believe the Chippewas will prolong a hopeless struggle and will shortly give in."

University Branches Busy.

The first week's enrollment at the school of agriculture shows a total of 20 for the week of which about are girls. The faculty are highly gratified with the support which the institution is receiving and expect that quite a number more will be included in the school rolls during the coming week.

IN DEFENSE OF THE DOGS.

Michael Conner, 11 years old, was arrested yesterday afternoon by Officer Sainfor for striking a city dog-catcher on the head with a rock.

CATARRH CAN BE CURED.

Catarrh is a kindred ailment of consumption, long considered incurable, and yet there is a remedy that will positively cure catarrh in any of its stages. For many years this remedy was used by the late Dr. Stearns, a widely noted authority on all diseases of the throat and lungs. Having tested it, a complete and attractive program describing the course of ten events to be given for \$1 has been prepared and Mr. Ferris is of the opinion that there will be an unprecedented demand for the tickets.

AGGRESSIVE CAMPAIGN

THE DEAD SOLDIERS.

Brief Sketches of the Men Who Will Be Buried Today.

Sergeant Butler was born in Palmyra, Mich., and has relatives living at present in Adrian, of the same state. He was one of the exceedingly popular men of the regiment, and enjoyed a wide acquaintance in military circles. For several years he has been detailed to accompany the national guard during their annual camp to instruct new men in the drill. Ten years ago he enlisted as a trooper in the First cavalry, and upon being discharged joined the Third United States infantry some time in 1870. He was appointed corporal by Gen. Edwin C. Mason Dec. 8, 1883, and on Sept. 22, 1885, he was made sergeant.

Sergeant Butler bore an enviable record during his entire service. He was recognized at the fort as one of the steadiest men in the command, and it was partly for this reason that he was detailed to accompany Maj. Wilkinson to Leech lake. Albert Ziebel was one of the new members of the regiment. He enlisted in Milwaukee in July and was assigned to Company E. Little is known of him, except that he was born in Germany and was 27 years of age. He was well liked by the men of Company E, which was composed largely of new men.

John Omsstead was born in Christiana, Germany, and was 31 years of age. He served three years and a half with Company B previous to his last enlistment, which was at Moorhead, April 19, 1892. Private Lowe soldiered three years in Company F previous to his enlistment last July, when he was assigned to Company E. He is 25 years old and has relatives living at Rock Island.

Daniel F. Schwaenke joined Company E, Third infantry, June 28, 1893, at West Superior. He was born 27 years ago and nothing is known of his relatives.

INDIANS VERY UNEASY. Such a State of Affairs Has Not Existed for Years. Staff Special to The St. Paul Globe.

WALKER, Minn., Oct. 7. (via Brainerd, Oct. 8).—Flatmouth, the leading chief of the Pillager tribe, who has been exiled several years, but who recently returned, has made his headquarters at Squaw point, about eight miles north of Walker on Leech lake, and is directing the officers. Those who have been of the most intimate and friendly terms with the Indians say such a state of affairs has not existed in many years. A council is being held at the agency this afternoon, but those acquainted with the Indians claim that if there is to be trouble, the council that decides this point will not meet.

INDIAN VERSION OF IT. WALKER, Minn., Oct. 8.—Among the chiefs who came in this morning was Ob-Dis-Zan-e-Kershing, who has all along been endeavoring to keep his men out of trouble. Through an interpreter he gave the following story of the fight as he saw it from the Indian's side.

Indians were present, and one of these, Gay-Giva-Ohe-Way-Bin-My, said the young men had refused to attend the council and had gone back to the island. Flatmouth talked strongly for peace. Many of the so-called peace talkers, however, were painted up and decorated with feathers, which was directly at variance with what they said. The grave mood talked about was the dead and down timber law, which was denounced as an injustice. "Things look much better than they did about twenty-four hours ago," was the way Maj. Sutherland put it after the council was over.

A temporary hospital has been fitted up near the lake shore, and at 6 o'clock this evening twelve patients were being cared for. All of the sick soldiers went south with the regiment, and are suffering from malarial fever; only one serious case of typhoid. One of the captains stated that not 10 per cent of his company was fit to march five miles. Dr. Darling, the regimental surgeon, is in charge.

Three of the Indians wanted by Marshal O'Connor, May-Dwa-We-Wind, Bah-Dwa-We-Dung and Wah-Be-Sha-Zhenc, have sent in word that they will give themselves up at the agency. Indian Agent J. H. Sutherland received a telegram at midnight from Clerk Ledebon, of White Earth agency, saying that the Indians on the White Earth reservation were quiet, but very anxious to have a full report of the condition of affairs at Leech lake. Runners had been sent out and a big camp called. The younger Indians were advised not to join the Bear Island and hostiles, but no decision was reached as to whether the bucks would act on the advice.

Agent Sutherland replied with a telegram. He was born in Germany and was 27 years of age. He was well liked by the men of Company E, which was composed largely of new men.

JOHN CAVANAUGH, Democratic Nominee for Judge of the Probate Court.

deceased, every woman who went by the coffin bent down and impressed a kiss on the dead man's forehead. It is difficult to see how this matter is any nearer solution than it was a week ago. All the men but two for whom warrants are out are still at large on Bear Island, where the dancing continues. With the force at his disposal, Gen. Bacon cannot accomplish his task. If another thousand men were available it might be done, but it would be consummated only after hard fighting. The Indians have plenty of guns, and as soon as a landing was effected it would only be necessary for them to retreat to the opposite side of the island or a new position on the mainland. They know every inch of the country around here; they are dead shots, and their fighting strength is measured by the full membership of their tribe, including the squaws, who are almost as efficient as the men.

"Grateful to the Palate."

Says a Fancy Grocer, of Grape-Nuts. The famous food.

A SECOND DISH Showed the Value of Condensed Food.

"It is a delicious novelty and very grateful to the palate. I found, about midway in my second dish, that I had sufficient for a meal and realized for the first time that I was eating a condensed food that supplies one's wants and his two appetites and does not require anything like the volume to furnish the amount of food required, as when any of the ordinary forms of cereals are served. Grape-Nuts are an elegant food and the Postum Cereal Co., Ltd., are to be congratulated upon the discovery," said a well known fancy grocer of Grand Rapids.
