

HE HEARD IT IN A CAR.

And Like Captain Little Made a Note of It.

It was in a trolley car. "Oh yes," said the drummer who sat next to the man on the other side, "I heard of the life, of course. One year of the racket with his hustle and racket is enough to take the glamour off it, but it was the effect on my health that bothered me most until I learned the remedy. Whether it was the constant change of drinking water, or ill-regulated habits, I cannot say, but I certainly lost the regularity of that personal habit without which no man—or woman either—can retain perfect bodily health.

"However, a friend advised a course of Beecham's Pills and today in spite of nearly twenty years of hustling, I am as regular as a clock work. I would not be without a box of Beecham's for the world. My wife knows about them too, and she says they are the remedy for women."

"I had to get the car just then, but I made a note of the remedy—Beecham's Pills—for I am dyspeptic myself, and if any one likes good living, it's I."

GLOBE IN MINNEAPOLIS.

Subscribers and Dealers Will Be Served With the Daily and Sunday Globe by the Minneapolis Book Exchange, 20 Washington Avenue South—Change of Address or Orders for Delivery Should Be Sent at That Office.

WHITE PINE TRUST

FACTORS

OPEN HEARTH STEEL PLANT

Minneapolis Concern to Equip Itself to Manufacture by the New Process Mysterious Murder Near Minneapolis Probable—Widow Is Under Arrest—Flour City News.

MINNEAPOLIS, Oct. 8.—That plans for the incorporation for a gigantic organization of manufacturers of white pine lumber have been in progress is fully admitted by lumber dealers in this city, but whether it will ever materialize is yet a matter of conjecture. It is stated by some of the larger dealers that the scheme is only the idea of some of the smaller manufacturers and will not be realized.

If the plan as given out by its promoters is ever realized, it will result in making Minneapolis the center of the greatest combined lumber companies in the country, or for that matter, in the world. Briefly stated, it is as follows:

It is proposed to unite leading manufacturers of white pine lumber into one incorporation, the combination to take effect Jan. 1. The effect of this combination is far-reaching, and while it might and probably will not cause the price of lumber to go up appreciably, it would save the manufacturers immense expenses to which they are now subjected.

The plan in brief is simply this: The entire white pine district has already been divided up into what are called selling districts. An entire floor of the lumber exchange, Minneapolis, is to be fitted up for general headquarters, and all the work will be directed from these offices. There will be a main office in each selling district, from which the sales in that particular district will be handled. The different lumber companies are to be organized into a general corporation, and the only interest they will have in the sale of lumber is furnishing the stock that the central organization may require.

OPEN HEARTH STEEL.

Minneapolis Concern to Equip Itself With a Modern Plant.

MINNEAPOLIS, Oct. 8.—The Minnesota Iron and Steel company has decided to go ahead with the erection of a large open-hearth steel plant in connection with its rolling mills at Columbia Heights. Ground will be broken the early part of the week and the work will be pushed forward to early completion. The new additions will consist of one main building, 40 feet by 180 feet, in which will be located two fifteen-ton O. H. furnaces, with all the necessary casting arrangements.

The new department will be equipped with the latest improved machinery for this class of work, including electric power, traveling cranes and charging machines. In fact, electric power will be used throughout the new plant, and will, to some extent, be adapted in the

MINNEAPOLIS, Oct. 8.—Charles Hall, a switchman in the employ of the railroad, was killed while coupling cars early this morning. The accident occurred just as he was about to couple a train of lumber cars which he was coupling between the early part of the week and the work will be pushed forward to early completion.

MINNEAPOLIS BREVITIES. MINNEAPOLIS, Oct. 8.—Patrick J. McCann died today at his home, 1713 Washington street, at the age of 72 years. The funeral will be held at 10 o'clock tomorrow at St. Ann's church. The deceased was a native of Ireland and had resided in this city for many years.

MINNEAPOLIS, Oct. 8.—The demolition of the old Westminster church building, Nicollet avenue and Seventh street, was completed today. The building, which was erected in 1850, had been used as a warehouse for many years, and had become a fire hazard.

MINNEAPOLIS, Oct. 8.—The fair will be given by the Commercial club this afternoon. It is intended by Col. Theodore Roosevelt, the Republican candidate for governor, declaring his intention to support Col. Roosevelt. Mr. Furrow formerly was a Tammany leader, but during the campaign he broke with Tammany and supported the Republican ticket.

other departments, all of which will be very much simplified and thereby cheapened the handling of raw materials and the finished products of the entire plant.

The contracts for the iron buildings for the new plant have been placed with a local company, the order for the electric cranes, charging machines, etc., going to a Michigan concern. Mr. Lash, president of the company, leaves for the East tonight, where he will place additional contracts for furnaces, casting machinery, etc.

The new department will be completed and ready for operation Jan. 1, and will have a capacity of 20,000 tons per year of finished steel. In addition to the production of steel, the company will continue to manufacture a considerable tonnage of refined bar iron. The product of the Rolling Mill company, with the aid of its new steel department, will cover practically all the requirements of the Northwest—consisting of both bar iron and soft steel bars, flats, plates, wagon and buggy tires, nuts, bolts, drift pins, harrow teeth, and castings, etc.

The new additions will be built out flush with the present buildings fronting Central avenue, and the entire plant, when finished, will present a frontage of nearly 350 feet on the east by a depth of over 350 feet running westerly, and all of the buildings will be of iron and steel, and consequently unburnable.

MAN'S BODY FOUND. The Discovery Points to a Mysterious Murder Near Minneapolis.

MINNEAPOLIS, Oct. 8.—M. C. Helmut, a farmer, residing near Edina Mills, on the Eden Prairie road, made a startling discovery. He dug the body of a dead man, who he believed to be a stranger, from a hole he had dug in the ground near his farm. Helmut, after making a superficial examination, started for the city to report the discovery to the police.

The position of the body points to a foul crime and the police are inclined to believe that investigation may disclose a murder case. Helmut was evidently much excited when he told his story to the police. He said he had gone to the stack to get hay for his ducks, and while he was there he noticed a hole in the ground. He dug it out and found the body of a man. He was very much surprised to find a man's body in a wood-pile situation. Mr. Helmut said that he had been dead some time. He could not give even a meager description of the body. He did not notice the features and could not give an idea as to age. He was sure the body had been placed there by some one. The position in the stack precluded the possibility of a man going there to get hay. Helmut had been hidden there in order to catch a thief. The detectives do not think there was foul play done. There were no marks on the body, that would indicate a violent death. The dead man had met a tragic death. The detectives and coroner Dennis searched the body, but found nothing. The man was living near by and looked over the straw for evidence, but nothing developed. The man who was the man or by what means he met his death.

SHE USED AN AX. A Novel Method of Wooding Adopted by a Minneapolis Woman.

MINNEAPOLIS, Oct. 8.—Mrs. Betsy Johnson, a widow, living at 709 Twenty-third avenue south, is a prisoner at the central police station. She is held on a charge of assault with a dangerous weapon. The woman, who is a native of Sweden, was arrested while cutting wood. She used an ax to cut the wood, and the ax head struck a man who was standing near by. The man was injured and the woman was arrested.

CHAFIN LOCKED UP. MINNEAPOLIS, Oct. 8.—Samuel J. Chafin was locked up in the central station this morning upon a warrant placed in their hands by Sheriff A. W. Nelson of Douglas county, Wis. The warrant was sworn out by Chafin's wife, who is a native of Sweden. Chafin was arrested while cutting wood. He used an ax to cut the wood, and the ax head struck a man who was standing near by. The man was injured and Chafin was arrested.

NEELSON'S APPEAL. MINNEAPOLIS, Oct. 8.—John W. Arctander, counsel for the defendant in the case of the state against Peter Nelson, has completed his brief, and the paper book is probably the most complete ever filed in a criminal case. Mr. Arctander thinks he has found vital defects in the trial of the case, which will result in a new trial.

SWITCHEMAN KILLED. MINNEAPOLIS, Oct. 8.—Charles Hall, a switchman in the employ of the railroad, was killed while coupling cars early this morning. The accident occurred just as he was about to couple a train of lumber cars which he was coupling between the early part of the week and the work will be pushed forward to early completion.

NEW YORK, Oct. 6.—In a letter addressed to Robert Leslie Moffett, of this city, Lieut. Beach, of the Baltimore, describes the condition of affairs at Manila after the battle, and gives his impressions of men and things in the Philippines after three months of observation. The letter is dated: "United States Steamer Baltimore, Manila, Philippine Islands, July 30, 1898." It says in part:

If, when our fight here of May 1 was finished, at about 11:30 o'clock a. m., I had been asked as to when we would take Manila, I probably and undoubtedly would have replied: "After luncheon of course."

We drew off in the morning, after we finished the fleet, and the explanation of the forts; why was it not natural to think that after we had once more filled our stomachs we would complete our work? So we ate lunch, and then we prepared for the afternoon fight, which consisted of capturing and disabling the remaining forts held by the Spaniards, and from a three-pronged assault, the Spaniards were driven out of Manila. The Spaniards expected to surrender that day and were willing to do so, but the Americans, who were assisted by the Spanish governor general that the least act of hostility on the part of any Spaniard would result in the immediate bombardment and destruction of Manila. The Spaniards expected to surrender that day and were willing to do so, but the Americans, who were assisted by the Spanish governor general that the least act of hostility on the part of any Spaniard would result in the immediate bombardment and destruction of Manila.

The population is large. The area is equal, roughly, to about that of Ohio, and the population is about that of Ohio. The population is large. The area is equal, roughly, to about that of Ohio, and the population is about that of Ohio. The population is large. The area is equal, roughly, to about that of Ohio, and the population is about that of Ohio.

Manila must have surrendered had we demanded it. There is great wealth in Manila, both of the church, which has been wrung from the life of the natives, and of the Spanish residents, which had been wrung from the life of the natives. Had we taken Manila we could not have landed a force sufficiently strong to police or patrol it, and the greatest loot of modern times was to have been approached by the Spaniards. The Spaniards would have been pillaged; murder, robbery, fire and rapine would have held full sway, and thousands upon thousands of lives would have been lost. The population is large. The area is equal, roughly, to about that of Ohio, and the population is about that of Ohio.

Had we taken Manila we could not have landed a force sufficiently strong to police or patrol it, and the greatest loot of modern times was to have been approached by the Spaniards. The Spaniards would have been pillaged; murder, robbery, fire and rapine would have held full sway, and thousands upon thousands of lives would have been lost. The population is large. The area is equal, roughly, to about that of Ohio, and the population is about that of Ohio.

Manila must have surrendered had we demanded it. There is great wealth in Manila, both of the church, which has been wrung from the life of the natives, and of the Spanish residents, which had been wrung from the life of the natives. AGONCOLLO SAILS.

Bound for Paris to Appeal to American Peace Commissioners.

NEW YORK, Oct. 8.—Felipe Agoncollo, the representative of Aguinaldo, the leader of the Philippine revolution, sailed today for Paris on the French liner, La Touraine. He is accompanied by his secretary, Sixto Lopez. Agoncollo said that his visit to Europe had been very pleasant, and he had been kindly received by President McKinley. He expects to be able to present the appeal of the Philippines to the American peace commissioners.

"We have had enough of Spanish misrule," said Agoncollo, "and if the United States will have Spain's independence, like the Cubans, then we Tuesday will be satisfied with annexation."

Agoncollo is the insurgent leader here, and he has a thorn in our side. We believe now that his ambition here was to loot Manila. We prevented him from that, and would permit him to enter Manila with such intent. He has been in Manila since our arrival here. He had thousands of Spanish prisoners, who were starving, which was in violation of his promise to the Americans. We furnished physicians and rations to the starving people, and during the next night Aguinaldo moved out with between 2,000 and 3,000 Spanish prisoners, and had them all sent to the United States. We know by what right Americans land on the soil of the Philippine republic without his permission.
