

ADAMS OPPOSES IMPERIALISM.

The Policy "Hands Off" and "Walk Alone" Is Distinctly American--The Policy of the McKinley Administration Un-American.

One of the strongest letters of the year on expansion was written some time since by Charles Francis Adams to Carl Schurz. It is as follows:

My Dear Mr. Schurz: In a recent letter you kindly suggest that I submit to you a sketch of what, I think, should be said in an address such as it is proposed to put forth by the Anti-Imperialist League to the people of the United States.

I last evening read a paper before the Lexington Historical Society, in which I discussed the question of extra-territorial expansion from the historical point of view. A copy of this paper I hope soon to forward you.

As I have said to you, and to my mind, the all-important aspect of the question, which, in addressing an historical society, was not germane. I refer to the question of a practical policy to be pursued by us, as a nation, under existing conditions.

There has, it seems to me, been a great deal of idle "Duty," "Mission," and "Obligation" on the subject of our recent acquisition of "Islands Beyond the Sea," and the necessity of adopting some policy, commonly described as "Imperial," in dealing with them.

I refer to the course pursued by us towards Mexico in the year 1848, and again in 1898; towards Hayti for seventy years back; and towards Venezuela as recently as three years ago.

When Frank Day begins to quote Shakespeare, it is high time for Deputy Warden Lemon, of the state prison, to pack his trunk and slide down the rear wall.

The feudist in the legislature--there are no feudists in the legislature--is the nose adjusted for them by J. E. Jacobson when they accepted places on the twin investigating committees.

Representative Jacobson might profit a little if he would take some of the advice he offers to others home to himself. Jake is a good representative and wise legislator.

A noteworthy provision of Senator Hanna's shipping bill is that which extends to other vessels owned by American citizens a protection similar to the one under which the foreign-built steamships New York and Paris were admitted to registry.

There is no doubt that that law was wise. Under it the St. Louis and St. Paul were built, and both they and their foreign-built rivals were used to our advantage.

Minnesota Press Pungencies

Editor Pease of the Anoka Union desires it distinctly understood that any person that questions the desirability of Anoka as an asylum site is-- An unmitigated liar.

Prosperity Still Here. Minnesota has had a governor elected on the Fusion ticket for nearly a month now, and still the Republican paper dares to claim that our credit has been ruined.

Not Likely to Pass. Representative Pease, in the house, has introduced a bill to make saloons license in cities over 10,000 inhabitants \$1,500 per year.

Would Reform Everybody Else. A member of the legislature from Hennepin county, named Peterson, the latter part of last week introduced a bill in the house to prohibit the acceptance of railroad passes by members of the legislature and state officers.

Women Barbers Nothing New. Don't think for a moment that women barbers who are becoming more numerous in Chicago by only a slow rate, are an end of the century innovation.
