VETERANS ASK FOR NEW LAW

They Want the Legislature to Repeal the Old Appropriation of \$20,000 a Year for the Soldiers' Home Fund, Which Was Cut Off at the Session of 1897—Solutions Offered by the G. A. R.

Members of the G. A. R. posts attending the state encampment of the order made a sortie on the legislature yesterday. They did not exactly declare war on the lawmakers, but intimated that unless the legislature appropriate \$20,000 annually for the support of the soldiers' home the official lives of the members would be cut short by the present session.

The visit of the old soldiers to the house was heralded by the adoption of a resolution presented by Mr. Winston (Dem.), of Hennepin, "that an invitation be and is hereby extended to the members of the Grand Army of the Republic, now in attendance upon their annual encampment in this city, to visit this body and for the purpose the privilege of the floor be extended to such members."

At 11:30 500 veterans marched into the hall with Commander Scarle and Past Commander Mortimer in the lead.

Speaker Dare welcomed the visitors and said the members of the house were glad to have the old soldiers here.

John Day Smith said: "A few of us have come up to greet you and ask that provision be made for the soldiers' home and the soldiers who fought not only in 1861, but in the war now being fought. We performed our duty and now we are here to ask that you do the work which is yours to do."

Samuel R. Van Sant alluded to the \$15,000 which had been appropriated to erect a monument to the honor of the old soldiers.

Former Lieut. Gov. Barto said when legislation in their unwisdom cut off the appropriation for the soldiers' home, in order to make up for this the trustees had to take the appropriation for relief of the old soldiers.

"We represent 15,000 voters and the highest type of citizenship ever known to man. We are also politicians, and if from the floor of the legislature will tumble over us the money we want, we will take it."

Ell Torrance said the veterans came not as politicians but as citizens with a message and with the belief that the right would triumph.

At the time it was not known that the appropriation for the soldiers' home had been done away with at the request of the board of trustees of the home, for what was then supposed to be for the best interests of the home.

THEIR DOCTORS USE IT.

Relief Society of Chicago Endorses Paine's Celery Compound.

The work of the average woman, whether she be in charge of a household, where the work is always doing, but never done, or behind a counter, or in a schoolroom, is of a sort that rarely leaves her with strength or inclination for anything else.

The strain upon most women's nerves is so great that a breakdown stares many of them constantly in the face, which means loss of work, doctor's bills and discouragement.

One of the earliest and one of the most infallible indications of failing nervous strength is the inability to sleep soundly.

No fact is more clearly established than that sleep repairs the tired nervous tissues and that the loss of sleep deranges the health more quickly and more seriously than any other privation the body can suffer.

The fact that hundreds of men and women in every community have been cured of insomnia by Paine's celery compound tells its own story of the invigorating effect of this wonderful remedy, not only upon the nerves, but upon the entire nervous system.

Physicians prescribe Paine's celery compound where the nerves have become so exhausted that not only sleep but digestion is interfered with. Its immediate invigorating effect in such cases is shown in the following letter from Mrs. Fannie West, president of the South Side relief society of Chicago. The letter is dated December 13, 1898.

"We feel very glad to acknowledge the fine qualities of Paine's celery compound. It is the best remedy we know of for building up the nervous system. Our doctors prescribe it, and it always gives immediate relief."

Back of nervousness, sleeplessness and many of the peculiar ailments of women is poverty of the blood. Paleless, thinness of body and weakness are evidences of poor blood, in some cases palpitation of the heart is complained of, and when the poverty is greatest, the lips are pallid and the tongue almost colorless.

In these cases of anemia if Paine's celery compound is used the gain from day to day is plainly noticeable. Its tonic effect in renewing the blood and restoring the strength has been little short of miraculous in cases of extreme emaciation and nervous prostration.

If a woman feels that she is losing ground in weight and strength she should set about increasing the blood supply at once with the aid of Paine's celery compound.

This is the greatest of all remedies a trial.
