Meat Inspection Measure is Admitted to Be Advantageous to American Interests—Equitable Treatment of American Products Assured—Samoan Question is a Puzzle.

Copyright by the Associated Press. BERLIN, March 4.—The United States ambassador, Andrew D. White, calls attention to the fact that for some time past there has been an evident tendency on the part of the German government to be very conciliatory towards American commerce.

In the first place, regarding American insurance companies, which formerly were forbidden to do business in Prussia, the government has conceded that the case which was supposed to be closed may be reopened, and also, what the insurance companies have been urging, it has sent representatives of Prussia to New York to investigate the methods of American companies.

Regarding American meats, said Mr. White, "the meat inspection bill has a number of features favorable to American interests, showing good will towards the United States. The concession regarding oranges, raisins and dry fruits, and the raising of them in bond without inspection, is

TALE MOSTLY WIND.

Iowa Romance of an Inventive Farmer and His Devisers.

WEISSERT CITY, Io., March 4.—In order to satisfy his wife, who has accused him of being of no use around the house, Emanuel Stotely, a farmer living near here, has so arranged the windmill near his home that it will rock the baby's cradle, run the sewing machine, do the churning, mix flour for bread, feed the chickens, sweep the floors, start the fires in the morning, kick the dog out of the house when necessary, and do several other things.

When he began to connect with the windmill the crank of a talking machine, into which he had hung the latest song, and to rig up an attachment whereby the windmill was to get breakfast every morning, Mrs. Stotely objected, saying her "poor, dear husband had worked hard enough."

The addition of a provision to the army appropriation bill, forbidding the granting of property franchises in Cuba, was also an important legislative act.

Among the important projects which failed to receive favorable attention in the closing days were those providing a Pacific cable, for government armor plate plant, for an anti-scalping law, for an eight-hour law and for a government for Hawaii.

The navy personnel bill completely reorganizes the navy, and is the consummation of years of earnest effort by the navy department. The original bill was introduced in the senate with some want for the army supplied to the navy by the personnel bill, but it failed, and the present bill is considered defective in that it only a temporary measure.

GEN. WHEELER IGNORED.

Speaker Reed Gives the Cavalry Hero the Cold Stare.

WASHINGTON, March 4.—There was a dramatic episode in the house today when Gen. Wheeler, of Alabama, who has carefully refrained from exercising his privileges as a member of the house, pending the determination of the question as to his right to a seat in the chamber, was called down to the floor near the front of the Democratic side and loudly asked for recognition.

The speaker's face was flushed slightly, but he looked straight ahead, as if he did not hear.

HIGH CLASS BOHEMIA

APARTMENT BUILDING WHERE GOODFELLOWSHIP AND CULTURE RUB SHOULDERS.

CHICAGO'S "LATIN QUARTER."

Many People Gathered Under a Single Roof Known for What They Are—Have Done or What They Are—Woman Who Designs Jewelry—War Time Wooling—Temple Affairs Are in Statu Quo.

CHICAGO, March 4.—(Special.)—The Plaza, situated on north Clark street, covers more interesting people than any other apartment house of its size in Chicago.

of the guests in the house at present is the Countess Schimmelmann, who is aloft on the religious tide at present sweeping along the society women of the city.

The countess occupies apartments on the eighth floor of the building and her attendants are all men, sailors from the yacht which rests at anchor at the North avenue dock. Countess Schimmelmann is tall and dark with a bit of red showing in each cheek. She speaks with a decided accent, which accounts for the charm of her "public readings," have for those fortunate enough to attend.

These readings are given each Wednesday morning at the Borden home on the Lake shore, and are quite a fad. The countess makes no apologies for her broken English, impressing one again and again with the fact that she speaks so many languages she can read her own precious jewels and given the money to the work.

A sailors' home for the lake-faring men of Chicago is another attractive scheme, for which she is earnestly working.

During the week Mrs. S. E. Gross, 48 Live Shore Drive, gave an attractive luncheon in Countess Schimmelmann's honor, the colors used in the decorations being blue and white. The countess' own tiny blue flairs decorated the supper cards. Some fifty guests attended. Among them, Mrs. Carter Harrison, Mrs. P. D. Armour, Mrs. William Borden, Mrs. Theodore Shontz, Mrs. John Yahnke, Charles J. Sarah Hackett Stevenson, Dr. Julia Holmes Smith, Miss Josephine Locke and others.

INTERESTING PEOPLE. Miss Josephine Locke also resides at the Plaza. Miss Locke is not only a reformer along educational lines, but affects extremely short gowns and keeps her hair cropped close to her head in a very mannish way.

Harriet Monroe, who wrote the Columbian Ode, and is an active club woman, is another interesting woman who has apartments in the building.

Baron Carl Buentz, the German consul, has handsome apartments on the fourth floor.

WAR TIME ROMANCE.

On the fifth floor are Col. and Mrs. W. A. Elderkin, the most popular people in the house. Col. Elderkin is almost totally paralyzed, but is still a very handsome man, with eyes as clear and cheerful as when he was twenty years younger. His wife is a beautiful woman with snow-white hair and great blue eyes.

Col. Elderkin was with the Seventh artillery during the Civil war. He had just graduated from West point when the war broke out, and having twelve hours leave of absence took himself to the home of Miss Frances Gurley, to marry her.

At the reception, which followed, were present President Lincoln and his cabinet and all the foreign ministers.

EMPEROR AT BREMEN.

Emperor William arrived at Bremen, this afternoon, and was received at the railroad station by the burgomasters and the principal civil and military authorities. He then drove to the famous Ratscher, amid the hearty cheers of the crowds assembled.

MILITARY COURT.

The reichstag today agreed by a large majority to the bill providing for the establishment of a special Bavarian division of the military court in Berlin. This is an outcome of the arrangement made by the emperor when he was passing through Munich, on his return from Palestine, with the Bavarian minister, Herr Lorchfeld.

The long-pending difficulty with Bavaria concerning the procedure of military courts.

QUAKERESS ARTIST.

Mrs. William E. Klapp also resides at the Plaza. Mrs. Klapp is a most charming woman. She is a Quakeress and very retiring. A funny story is told about her. Some time ago she was on a street car with her husband when a woman turned to her and asked: "Can you tell me if this car goes to Washburn avenue?" Mrs. Klapp looked at the woman blankly and said: "Oh, I don't know, I'm sure; I'm with my husband."

Mrs. Klapp has the most exquisite taste in dress, but it is on account of her work in jewel setting and jewelry designing that she is best known.

Mr. and Mrs. Wilber Hagens have dainty apartments on the second floor of the Plaza. Mr. Hagens is the son of Mme. Hagens, one of the Temple trustees, and his wife is prominent in the social circles.

Mr. and Mrs. Hagens has a full mezzo soprano voice and is a pupil of Mme. Marchesi. Owing to much time spent abroad, Mr. and Mrs. Hagens are well known in Europe.

In the beginning of the settlement of the Minnesota valley, in the early '50s, a man located at Traverse des Sioux named Tom Cowan. His name will be at once recognized by all old settlers. He was a Scotchman and had been in business in Baltimore. Financial difficulties had driven him to the West to begin life anew and grow up with the country.

"LONG DISTANCE" HECKER OUT

Man Who Bought Army Transports Over the Telephone. WASHINGTON, March 4.—Col. Frank J. Hecker, quartermaster, United States volunteers, known to all shipping men and contractors as the "Long Distance Operator," is to leave the service of the United States, and there is consequent rejoicing throughout the entire quartermaster's department.

Col. Hecker perhaps achieved more fame by his purchase of transports than by any other single act. He was never in conference with the owners of vessels, but conducted all his business with them over the long distance telephone. He paid exorbitant prices for transports chartered vessels for the government at figures unheard of in maritime circles.

Col. Hecker spent for the government's transportation because he was the president of the Consolidated Company of Michigan, a company which manufactures freight cars. He had little knowledge of moving troops, and had never endeavored to enlighten the United States.
