

No woman who wishes to escape misery, to avoid suffering, to replace delicacy and weakness with health and strength, can afford to-day to be without WARNER'S SAFE CURE.

It never fails and has proved to be woman's best friend.

TO DECIDE IT TODAY

MINNEAPOLIS CHAMBER OF COMMERCE WILL VOTE UPON THE ANNEX PROPOSITION

LOWRY OFFER COMES NEXT

In Case It Is Decided Not to Build, the Matter of Moving to a New Site Will Be Taken Up—Retail Merchants Losing Their Flour Trade—The News of Minneapolis.

GLOBE'S MINNEAPOLIS OFFICE, 10 WASHINGTON AV. SOUTH, Telephone 2798 J-1.

This will be a very important day for the Minneapolis chamber of commerce. A vote of the membership is to be taken to decide whether or not an annex shall be built to the present building.

The two factions have been waging a lively war. Circulars have been issued by each party. Several new ones were out yesterday. The latest covers all the points raised by the earlier ones, and after going deep into details sums up all in the following paragraph:

"A vote to the annex means the loss of a dividend of \$300 at least, and an assessment in the amount of \$200 to every member. How can any person not having other interests to serve advocate the construction of the annex."

A great number of the members seem to feel that other things being equal, they would rather move up town into a new building.

The result of today's vote will be eagerly awaited, for it means much for the future of the principal trade organization in the Northwest. The polls will be open from 9 a. m. to 4 p. m.

LOSING THEIR FLOUR TRADE.

The Minneapolis Grocers Will Take Steps to Protect Themselves.

The retail grocers of Minneapolis are losing their flour trade. This fact was demonstrated at the grocers' association meeting last night, the reason for it being explained by the statement that country flour sells upon the Minneapolis market at a figure considerably below that asked for the Minneapolis brands.

Divided

If the blood in sufficient quantity leaves the body because of a wound or hemorrhage of the lungs the result is death.

Life depends on the blood because the blood carries to all parts of the body the nutritive elements necessary to sustain it.

What if these nutritive elements are absent?

What if they are supplanted by poisonous, effete matter and disease germs?

The first result is disease—partial death. The final result is the same as from loss of blood.

All disease is traceable to impurity or weakness of the blood and that is the reason why the "Golden Medical Discovery" cures so many different diseases—it purifies and vitalizes the blood—makes it rich, red and healthy—this is the nutritive element for the starving nerves and tissues.

Consumption is properly a disease of the blood—so is scrofula—so is rheumatism. They look like different diseases but one medicine will relieve all three.

"I am using a good many of your medicines in my practice," writes Dr. Joseph Pike, of Lost Springs, Marion Co., Kansas. "Ten years ago a patient of mine was badly affected with that dreadful disease, scrofula. Her mouth and throat were in an awful condition, and there were lumps on the outside of her face the size of a hen's egg. Other doctors said she was incurable. I felt confident that none of my remedies would benefit her. I came to my mind that Dr. Pike's Golden Medical Discovery was recommended for such cases, so I gave it to her as directed. Five bottles cured her and she is well to-day. She is married now and has three healthy children."

NEW PABEY PLANT

MILLION DOLLARS TO BE INVESTED IN AN ELEVATOR AT DULUTH

SITE IS ALREADY SELECTED

Cement May Be Used for the Storage Tanks, in Which Case They Will Be Unique in This Country—The New Elevator to Have a Capacity of Five Million Bushels—North-west News.

DULUTH, Minn., April 24.—F. H. Peavey & Co. will build an elevator plant of 5,000,000 bushels capacity here this summer.

The working house, to be of wood, 1,400,000 bushels, will be built ready for operation before October. The storage tanks, to be built as soon afterwards as possible, may be built of wood, steel or cement.

and, if used, it will be for the first time in America, although it has been successfully used in Russia and Germany.

It has better fire proof qualities than steel and is cheaper. The completion of this plant will give Mr. Peavey capacity for storing 12,000,000 bushels of grain at the head of the lakes.

The new plant will be erected on Rice's point, near the Imperial mill.

The total cost of the system as planned is estimated at \$1,000,000.

MISSOURI STILL RISING.

Two Inches Added to the Gauge at Omaha Since Sunday Night.

OMAHA, Neb., April 24.—The Missouri river has risen two inches since 7 o'clock Sunday night. The slag crusher is completely surrounded by water, which has reached the door knob of the office.

United Pacific tracks in the vicinity are covered with water, and trains cannot be run. The plant of the Great Paving company, at the foot of Paul street, is nearly a wreck.

A dozen more families were driven out of the bottoms today.

KANSAS CITY, April 24.—The river continues to rise today, but so slowly that conditions are not perceptibly changed from yesterday.

At Plattsmouth, Neb., the river has been stationary for twenty-four hours, and at St. Joseph it has risen six inches.

At Kansas City the gauge has been pushed up two inches since Sunday morning, and is now seven inches over the danger line.

Beyond the flooding of cellars and the overflow of bottom lands, no apprehensions are entertained here. At the packing houses, men are kept constantly at work pumping out the water.

DOUBLE DAKOTA TRAGEDY.

Suicide and Probable Murder Reported From Emmons County.

STEELE, N. D., April 24.—News has reached here of another tragedy in Emmons county, a result of which two well-known settlers are dead.

The real situation leading to this tragedy can only be surmised. The brothers, James and Joseph Cowell have for several years lived alone on their place some fifteen miles east of the Missouri in Emmons county.

At a dinner given at the home of a friend, the recent flood had caused a removal of the family, and he went to another place on the high prairie land, and there took shelter, complaining of being sick. He grew worse rapidly, and finally, after stating that he had drunk carbolic acid before leaving home, died with great suffering.

A messenger was at once dispatched to notify his brother, but when the place was reached what was the horror and amazement to find Joseph dead in the house, with his bowels protruding and all the signs of having been shot to death by a shotgun aimed at his abdomen.
