

TRADE RATHER QUIET

WEATHER CONDITIONS HAVE BEEN FAVORABLE IN THE "BETWEEN SEASONS" PERIOD

NOTHING TO COMPLAIN OF

Bradstreet's Summing Up of the Bus. Outlook Shows Good Retail Distribution of Spring and Summer Goods - Demand From First Hands is Quieter - New Demands Notably Quiet in Iron and Steel.

NEW YORK, April 28.—Bradstreet's of tomorrow will say: Favorable weather conditions find reflection in reports of good retail distribution of spring and summer goods, and in fair filling in orders from jobbers. Demand from first hands for 2 months' merchandise is if anything quieter, in keeping with the "between seasons" period now at hand. Industrial activity continues specially checked, a pleasing feature this week being the practical absence of the unrest, particularly in the building trades noted for many years past about May 1. While favoring retail distribution, the spring-like weather conditions, however, have been the reverse of stimulating as regards quotations of two of the country's greatest staples, wool and cotton. In those and in hog products the tendency of values has been toward a lower range. Winter wheat crop advices have continued irregularly unfavorable, and good weather, enabling a large area to be planted in spring wheat, coupled with rather less active export demand, and details of damage to European crops, has weakened quotations of wheat and flour at leading eastern and interior markets. Cotton has weakened on better reports. Rather more is doing on export account, and bled goods are specially firm. The regular print cloth market is steady and unchanged.

New demands had been notably quiet in iron and steel this week. The strength of the lumber markets shows little impairment. Wool, as a whole, is quiet and steady. A fair trade in boots and shoes and the slight advances announced earlier are well maintained. Leather is firmly held. Partially compensating for the falling off in exports of natural products, particularly wheat and cotton, is the expansion in exports of manufactured goods. Shipments of such goods in March aggregated over \$36,000,000, or 25 per cent of all our exports, a proportion rarely if ever approached before. Wheat, including flour, shipments for the week aggregated 3,928,283 bushels, against 2,822,852 bushels in the corresponding week of 1898; 1,555,866 bushels in 1897; 1,200,494 in 1896, and 2,555,989 in 1895. Since July 1, this season, the exports of wheat aggregated 196,290,581 bushels, against 185,852,865 bushels in 1898; 4,216,056 bushels in 1897; 3,877,495 in 1896, and 2,142,395 bushels in 1895. Canadian failures number 27, against 30 last week, 22 in this week a year ago; 31, in 1897, 29 in 1896, and 26 in 1895.

Business Has Been Little Affected Thereby.

NEW YORK, April 28.—R. G. Dun & Co.'s review of trade will say: All indications are that the business has been set back a little. The uncertainty about Samoa, and the prolonging of the difficulties in the Philippines, might have been expected to do something, the rising imports and falling exports for something. But there has been full faith that foreign difficulties would soon be cleared away, and the movement in exchange is generally connected with speculative rather than legitimate operations, since accounts of trade still indicate a large excess of exports.

POCKET KNIVES FREE

TO BUYERS OF OUR GARDEN SEEDS

T. M. ROBERTS' SUPPLY HOUSE,

MINNEAPOLIS, MINN.

Advertisement for 'SANDEN'S' medicine. Text: 'It Drains Vitality, Makes Life a Burden, Causes Despondency, Forces Early Decay. Don't Let This Dread Disease Cause It At Once.' Includes an illustration of a man and a woman.

Winona, March 2, 1899. DR. A. T. SANDEN—Dear Sir: I bought one of your \$20 Belts for VARI- COLELE and RHEUMATISM, of which it cured me in a few months.

Hickson, N. D. March 27th, 1899. DR. A. T. SANDEN—Dear Sir: I thought it would be not worth far if I let you know that the No. 5 Electric Belt purchased of you Dec. 30th, 1897, has completely cured me, and you may be sure that I am very thank-

DR. A. T. SANDEN—Dear Sir: I gave your belt a thorough test, using it about six months, and found it greatly benefited my lame back, and drove away all the varicocele from which I suffered at that time, hence I am very grateful to you for your interest in my case, and the great cure which has been effected for me. With best wishes, I remain yours respectfully.

DR. A. T. SANDEN—Dear Sir: I thought it would be not worth far if I let you know that the No. 5 Electric Belt purchased of you Dec. 30th, 1897, has completely cured me, and you may be sure that I am very thank-

DR. SANDEN will send a book describing the Disease and its cure by his famous Belt. It is sent sealed, free, on application.

SANDEN ELECTRIC CO., 233 NICOLLET AV., COOL WASHINGTON, MINNEAPOLIS, MINN. Office Hours—9 a. m. to 6 p. m. Sundays—10 to 12 a. m.

After every rise in prices, manufacturers have to consider whether a hindered consumption with increased production will make them difficult, but confidence with which combinations are formed and extended will show prevailing belief that the danger point is near.

The date of foreign trade justifies confidence rather than apprehension. The presence of English merchants in Boston trying to sell English hosiery wool, which could be delivered there at about 32c at the same time that English buyers were taking a little fine territory on the west coast, shows the opposite trend of popular taste in different countries.

Without business, Bessemer pig is unchanged at Pittsburg, and green forge strong, though 13,000 tons Southern have been sold at \$14.50. There are some large structural orders at Philadelphia building for 1,000 tons of western bridge for 5,000 tons, a Duluth elevator and the St. Lawrence bridge at Quebec, though the general run of orders in this line is light.
