" LABOR'S

It cannot be denied that present indus trial conditions in St. Paul are in a more satisfactory condition than they have been for many years. This fact is admitted by union officiers and by labor leaders ted by union officiers and by labor leaders generally. There are in St. Paul, at present, twenty-two trades unions, representing the printers, musicians, hack and cab drivers, barbers, boiler-makers, leather workers, furriers, carpenters, coopers, broom-makers, machine woodworkers, plasterers, sheet metal workers, lathers, cigar makers, stone cutters, brick layers, stone masons nainters, fron moulders. cigar makers, stone cutters, brick layers, stone masons, painters, from moulders, brewers and bakers. With the exception of bricklayers and, possibly, the stone masons, these unions, covering so wide a field of industries, at their regular and special meetings invariably report the state of trade as good. Many of them state that not a single member of their union is out of work. As an illustration of this fact it is noted that on Sunday last the musicians' union. which was scheduled that day for a meeting, found it impossible to hold one, owing to the demand on that day for their professional services.

It might not be judiclous, from the working man's point of view, to publish such local facts to the outside world, were not the conditions existing in St. Paul equally true all over the country. Therefore there is little danger of attracting competition in local industrial circles from outside cities. Throughout the entire northern portion of the United States trades unions are strengthening them selves in all the cities and making their influence felt to a degree hitherto unap-

at, on the other hand, while a slight advance in wages is heralded as a cer-tain indication of increasing prosperity, t should not be forgotten that in too many instances such advances are but a partial restoration of wages which have been ruthlessly and ruthously cut by em-ployers and contractors in the past. In few instances has the wage scale in restored to the standard of a few ars ago. Since 1893 the trend of wages been steadily downward, and now there are slight advances it must e some time before they are restored to their original figures of the '80's.

Nor should it be forgotten in this con-nection that just at present is the busiest portion of the year, and that it follows the close of one American war, and is in the midst of another of indefinite dura-tion. It is not, therefore, surprising that there should be at this time an added impetus to industrial pursuits. It may not last; very likely it will be succeeded by a period of depression. This contingency is presaged by the following extract from

one of Dun's recent reports:
"It is not inconsistent nor strange if business halts, because it has been crowded to the utmost for four months in anticpating future needs on account of new combinations proposed. In some cases combinations proposed. In some cases prices have been advanced so far as to check business and in others the works have been engaged so far ahead that new orders cannot be taken. Yet new business in amount which would have been astonishing two years ago is still coming forward and the voluntary advance in wages by sixteen Bessemer firms of the central association and by the Frick coke works. by sixteen Bessemer firms of the central association and by the Frick coke works, whose shipments in April, 80,452 cars, were the heaviest ever known, show confidence in the future. Welcome Their President.

Companies 1 and 3 of the Central Presbyterian boys brigade gave a reception and campfire last night in the church parlors in honor of J. M. Smith, president of the organization, who has recently returned from a trip to England. A programme of literary and musical selections was given, which was preceded by an exhibition drill by both companies. A large attendance of the brigade made the evening a pleasant one and the programme was enthusiastically received.

Little Daisy Wright, whom the boys have adopted as "daughter of the company" was present and gave several entertaining recitations. After the programme, refreshments were served in the dining room of the church by the ladies. Those in charge were Mesdames Barrett, Benham, Strane, Catanach and Moeller and Misses Bischoff, Doty, Teigen, Bratton, Schneider, Falkenburg, Dickson and Grant.

Adjt. Gen. Lambert yesterday received a report from Col. The report refers to the regiments engaged as follows:
"This regiment having been relieved from duty as a part of the provost guard on the 19th, went into camp on the following day on the grounds of the Paseo Lucia. "At 5.15 the command forward was given and the entire regiment moved to the front, steadily and without haste, keeping to the right as instructed. After advancing about 300 yards the insurgents opened fire upon our line, from heavily entrenched positions situated on high ground, in bamboo thickets directly in front of our line. Their fire was answered with heavy volleys from our regiment, and a continued advance in several instances amounting to a charge, until the rebels in our front were forced to retreat, but only after a stubborn reto retreat, but only after a stubborn re-

During the engagement, owing to the thick growth of bamboo, the Second and Third bat-talions had to execute an almost direct flank movement to the right to preserve the line. In executing this movement Companies E and H, on the extreme left,

"I think the movement which was designed was successfully accomplished. The topography of the country was such that food and ammunition had to be brought up from Mariquina road by means of relays of men taken from the firing line, which was very exhausting, and it was late in the evening before the bull trains were brought successfully through the rough trails. The regiment camped for the night on the ridge where the original halt was made. During the night the First battalion was ordered to support two companies of the First Colorado regiment, who were attacked by a strong body of insurgents the morning of the following day. March 28 I was directed to put my regiment in battalions and return to their original stations.

"At 7 p. m., the entire regiment assembled at the water works, under orders to proceed to Caloocan, at which station it arrived at 11:15. Marching a distance of fifteen miles around about Manila the following morning, the regiment boarded a train and rode to Mariloa, eight miles north. From this station the regiment is camped in battalions and companies along the railroad track for a distance of almost ten miles, guarding the bridges and patrolling the country from one to three miles on either side of the railroad."

Charged With Larceny.

Charged With Larceny.

Sam Sargent and Louis Goodman, both well known to the police, were arrested last night on Sixth street near the government building. Detectives Werrick and Wells noticed the men going down the street and followed. As soon as they noticed that they were pursued, they made for the railing surrounding the excavation for the new wing of the government building and tossed a bundle over the fence. It proved to contain silks believed to have been stolen. Both were held on the charge of larceny.

KING COFFEE

Caused Weak Heart and Other Trouble.

Our family is a large one and we have all been greatly helped and benefited by the dismissal of coffee and the daily use of Postum Food Coffee. I formerly had a very weak heart that troubled me greatly, and the trouble was gradually getting worse while I was using coffee.

I also had frequent headaches and sleepless nights. These have all gone since the drug (and one may well call coffee a drug) has been dismissed. A neighbor, Mr. A. Woodruff, was a confirmed dyspeptic for years until he quit coffee and began to use Postum. Now he is entirely cured and thanks Postum tor it. Mrs. M. Munson and Mr. D. S. Barclay, friends, have found great relief from leaving off coffee and using Postum

I have made many inquiries among quite a list of persons who have been using Postum, and always find good accounts where it has been prepared properly. You canont impress that point too strongly on the people where they once make a trial of Postum, for if it is not thoroughly boiled it has a flat taste and that drives them away from it, whereas, if they only knew how delicious it is when well made, and how their health would be improved by its use, they would do almost any way to insure getting good Postum. I can send you a long list of names of those who really know how to make Postum and use it every day, if you care for them. M. E. Woodruff, 353 Crescent ave., Grand Rapids, Mich.

Supreme Board of Managers-Mary Fay Hawes, Rock Island, Ill.; Irene Bentley, Oelwein, Io.; Jennie G. Franks, Peoria, Ill.; Mrs. C. E. Allen, Omaha; Agnes Blazer, Manitou, Ill.

All the old ticket was re-elected with the exception of the vice oracle, Mrs Randall succeeding Mrs. T. M. Frisch, of Kansas City; the supreme chancellor, Miss Winters succeeding Mrs. Myra Enright, of Kansas City; the supreme inner sentinel, Mrs. Hammond succeeding Mrs. L. M. Parks, of Menasha, Wis.; the supreme outer sentinel, Mrs. Kellet succeeding Mrs. Ida Hamblin, of Pendleton, Or. The two supreme physicians, Dr. Morrill and Dr. Snyder, were re-elected. Dr. Kiefer was elected as third physician, an office made by a recent amendment to the by-laws.

Though the whole ticket is now elected it must not be understood that the members of the convention found it an easy matter to come to a conclusion in the matter. The convention commenced balloting yesterday morning at 10:30 for vice oracle, supreme chancellor, supreme inner sentinel and supreme outer sentinel. At noon, when the votes were counted, it was discovered that there was no election, and immediately after dinner the members again took up their weary task. There were so many candidates for each office that the votes were scattered. But all obstinately refused to pull out of the contest, and thus shorten the work. A little before six yesterday afternoon the tellers finished counting the votes, and the result was amounced as given above. The election of efficers once out of the way the convention went to work with a will and at the evening session last night almost finished the consideration of the amendments to the by-laws. Gust Sather Arrested at the Instance of a Liftle Girl's Father.

After dealing out a liberal allowance of straight-from-the-shoulder justice, Theo. Reker, 274 East Seventh street, last Theo. Reker, 274 East Seventh street, last evening delivered over to the police a man who for the past year, Mr. Reker claims, has been annoying his six-year-old daughter. He was taken to the central station, where he gave the name of Gus Sather, claiming to be a laboring man 40 years old. He was held on the charge of attempted criminal assault.

40 years old. He was held on the charge of attempted criminal assault.

Ever since early summer a year ago Mr. Reker has received complaints from his little daughter at frequent intervals that a man whom she did not know, was offering her very unwelcome attentions. Yesterday afternoon, after an interval of several months, he again appeared.

In company with Annie Millerberg, 415 Rosabel street, little Emma Reker was playing in an alley between Sixth and Seventh, near Rosabel, when the man again made his appearance. He entered into a conversation with the children and, upon the promise of candy, lured them further into the alley. One of the girls got frightened and ran away, and, upon her raising an outcry, the man suddenly left her and disappeared down the alley. The child immediately reported to her mother what had occurred, and when Mr. Reker returned from his work at supper time, he was given the particulars. He made an attempt to find the man, but was unsuccessful.

About seven oclock last evening, as he was sitting at the window with his

About seven o'clock last evening, as he was sitting at the window with his daughter, a man passed on the other side of the street. The little girl noticed him and at once pointed him out at the man who had assaulted her. The father left the room at once and followed. Near the middle of the block he caught up with the man and, without any preliminary argument, struck him a blew square in the face, laying his cheek open and felling him to the pavement. An officer was notified at once and he was placed under arrest.

After being taken to the central station, Sather refused to talk, neither admitting or denying the charge. When searched, \$66.50: in bills and silver was found in his peckets. Sather will have a hearing in police court today.

DITS TO MAKE A RAID ON A VILLAGE FOR REVENGE

HE WAS REFUSED FORAGE

Asserted That He Desired to Punish the Villagers in Order That There Might Be Less Opposition to the Demands Made Upon Other Places -Detectives Find a Large Number of Guns and Cartridges.

HAVANA, May 12.- The official inquiry into the recent bandit raid at Caimate, where two men were killed, has been completed. It appears that a Cuban general, whose name the authorities decline to disclose at present, had expressed a desire a few days before the raid to billet twenty-five of his men on the village. But the townspeople protested, threatening to inform the Americans, and the general concerned is supposed to have instigated the raid as a punishment and an example to other villages afflicted by having to quarter Cuban soldiers. Gov. Gen. Brooke's agents had considerable difficulty in getting at the facts, on account of the timidity of the people, and the testimony is even yet insufficient to form the basis of a prosecution.

Companies E and H, on the extreme left, became separated from the regiment and met with very stubborn resistence for a time, succeeded in routing the insurgents, and eventually joined the rest of the command, which had halted to wait for them. It was found that the regiment now covered the positions which was the objective point of the movement, and a halt was made awaiting orders. During the engagement many rebels were reported by the officers and men killed and wounded, some being found on the fields, but most of them were carried away by the retreating insurgents. So it is impossible to use the question of the amount to which the different officers were entitled in return for the performance of their cases of the salary of supreme oracle in the case of the salary of supreme oracle wounded, some being found on the fields, but most of them were carried away by the retreating insurgents. So it is impossible to a convention believing that 500 per month, the salary of supreme oracle will receive 100 per month and expenses, instead of \$50.
