WHEAT MADE BEST PRICES ABOUT THE OPENING, AND CLOSED WITH DECLINE. MARKET ACTED PECULIARLY.

Enormous Western Movement Became the One Factor as the Session Progressed—Minneapolis and Duluth Receipts Showed Heavy Gains—Market Grew Very Weak Toward the Close.

CHICAGO, June 12.—Wheat today made best prices around the opening. It was near the bottom at the close, and showed a decline of 1/4c. Corn declined 1/4c. Cattle were strong and advanced 1/2c. Provisions closed unchanged to 1/4c higher.

The effect of the unexpectedly bullish government report given out Saturday was apparent at the opening in wheat, but it was soon shown that other influences had superseded it in the minds of speculators. The opening in July wheat was at 75 1/2, compared with Saturday's closing price of 75 1/2. It sold at once at 75 1/2, but rallied almost immediately to 75 1/2. In this little spasm of nervousness, it indicated all the effort of the government report. Selling was heavy on the bulge. Commission houses were in the market with big lots. For a short time, the market held up under the liquidation, but finally broke, 75 1/2 being touched before any reaction occurred. Heavy flour sales reported from the Northwest caused a cessation of liquidation from that section, but in the meantime local holders had apparently lost confidence, and the offerings at all times exceeded demand.

The enormous Western movement became the one factor as the session advanced. Minneapolis and Duluth reported arrivals of 750 cars, against 374 last week, and 120 a year ago. Chicago receipts were 112 cars, 8 of contract quality. The visible increase amounted to 1,616,000 bu., about 100,000 bushels, and this helped in pressing prices to a lower level. World's supplies for the week were 7,500,000 bu. Atlantic port clearances amounted to 356,000 bu.

The Manitoba government report gave an increased wheat acreage, with an almost perfect condition. Domestic crop news of expected record was regarded as rather wheat, but favorable as to spring wheat. The market became very weak toward the close, on the announcement of expected record of 1,616,000 bushels, and July finally sold down to 75 1/2, and closed at 75 1/2.

Corn early was steady with wheat, but weakened toward the close. Receipts were 34 cars. July ranged from 75 1/2 to 76, and closed 75 1/2. Corn 2 1/2, and closed 2 1/2. Corn 2 1/2, and closed 2 1/2. Corn 2 1/2, and closed 2 1/2.
