CHANCE TO DONATE

APPEAL TO THE SATURDAY NIGHT CROWD ON STREETS OF MINNEAPOLIS

MECHANICS' NATIONAL BODY

The United Order Will Assemble in the Mill City on Tuesday—Delegates Are Expected From All Parts of the Country—Elaborate Programme of Entertainment Arranged—The News of Minneapolis.

GLOBE'S MINNEAPOLIS OFFICE, 20 WASHINGTON AVENUE, SOUTH

The Saturday night crowd on Nicollet avenue was given an opportunity to show sympathy for the New Richmond fire sufferers last evening. Ten ballot boxes, guarded by as many stalwart police officers, were located at each street intersection, from Washington avenue to Eighth street. Every one was invited to deposit spare change in the boxes by banners labeled: "Donate here; New Richmond sufferers."

UNITED AMERICAN MECHANICS.

They Will Hold Their Annual Convention in Minneapolis.

The national council of the Junior Order of United American Mechanics will meet this week in Minneapolis. There will be upward of 500 delegates to the national council and the national commandery, and with them will come a number of ladies and friends. The visitors will be cared for largely by the members of the Lincoln, Jefferson and Garfield councils, of Minneapolis, who have arranged various forms of entertainment. The national council sessions will be held in the First Unitarian church, Eighth street and Mary place, and will begin on Tuesday morning at 10 o'clock. Previous to this, however, Monday the national commandery, or the unformed branch of the order, will hold its annual meeting at the same place. Headquarters will be established at the West hotel. As far as possible, the Minneapolis Mechanics will meet the visiting delegates at the depots and escort them to the hotel. An informal reception to the visitors will be held at the West Monday evening at 8 o'clock.

At the opening session on Tuesday morning welcome addresses will be made by Gen. Lind, Mayor Gray, O. S. Clark, H. A. Towne, Titus Mareck, State Councilor E. H. Godfrey and O. S. Derringer, to which National Councilor F. W. Peterson will respond. While the delegates are transacting business their ladies will visit the Walker art gallery, after lunch at the convention hall there will be a trolley car junket to Lake Harriet, Minnehaha park and the Soldiers' home. The ladies will be taken to the principal points in the city Monday and Tuesday and in the afternoon all the strangers will be given opportunities to see four miles and sawmills in operation. The

after party for the ladies will be the event of the evening.

Another reception to the ladies will be given at Hotel Ryan, St. Paul, Thursday afternoon. All business matters will probably be cleared away by Friday noon and, if so, the delegates will afterward be shown the reservoir, the steel plant and Como park.

Expressmen Fined.

Several men who were arrested for doing an express business without the proper license from the city authorities were brought up in the Minneapolis court yesterday morning and given small fines.

Seven Thousand Dollar Loss.

Fire was discovered in the building at 27 Second street south, Minneapolis, occupied by the Lyman Oil company, shortly before noon yesterday, and before it could be extinguished had destroyed about \$7,000 worth of property. The blaze was not discovered until the smoke was seen issuing from the windows.

MINNEAPOLIS BREVITIES.

Funeral services for Mrs. Anna E. Herlund will be held this afternoon, at 3 o'clock, at First Swedish Baptist church. Mrs. Talulah Waldron, wife of C. Waldron, and daughter of Mrs. J. H. Herlund, died yesterday at her residence, 2625 Garfield avenue, aged twenty-nine years.

The annual fourth of July picnic of the Immaculate Conception church will be held this year at Nelson's grove. The Christian Endeavor societies of Oliver Presbyterian, Welsh Presbyterian and Immanuel Baptist churches will hold a union temperance service in Immanuel Baptist church from 6:30 to 7:30 this evening.

Bid Rejected.

The attempt to sell the Edison building has thus far called forth only one bid, that of Carter Rice & Co., of Boston, for \$475,000. The other bidders, upon the advice of the attorneys for the creditors and the insurance company, rejected the bid and extended the time for receiving bids until July 15.

PROFITS OF PIANISTS

And Freakish Appearance of Many Visiting Artists.

New York Sun. One of the returning pianists who is leaving this country after a stay of several months admits that he has earned \$60,000. This is not to be regretted, as he was an admirable artist, and such an evidence of the material prosperity of the country is agreeable. It is a little discouraging to have the estimate of his profits followed by the announcement of his intention not to come back here for at least four years more, as such a disposition to neglect the opportunity to make a fortune is very rarely encountered in the case of visiting celebrities. They are likely to return regularly so long as there is anything to be earned, and rarely evince a disposition to allow the ground to lie fallow for years. But there can be no room for doubt of the amount the pianist earned. There never is in the earnings of great musical artists. Nothing is more painful than the present attempt of appearing pianist visitors to make their appearance as weird as possible. They train their hair into the most freakish ways of growth, assume the most uncanny expressions of face and look generally as miserable as they can—at least so long as they are in front of the camera. In the case of men provided by nature with the merely common features possessed by the majority of mankind, these efforts at distortion are especially distressing. They rarely manage to suggest anything more interesting than impending nervous prostration and the urgent need of a comb and brush.

English Letters Lead.

Two-thirds of all the letters posted in the post-offices of all the world are English.

DULUTH'S GALA DAY

GOV. LIND AND SECRETARY ALGER GUESTS OF THE ZENITH CITY

THOUSANDS OF EXCURSIONISTS

Parade of Visiting Military Companies, Launching of the Largest Cargo Carrier on the Lakes at Superior and the Arrival of the North Land Features of the Day—News of the Northwest.

DULUTH, Minn., June 17.—Duluth was in dul today, the presence of some 6,000 excursionists from the West and the visits of Secretary Alger and Gov. Lind combining to make a brilliant holiday. Gov. Lind and the members of his staff, accompanied by Col. Van Duse, of the Third regiment, and the members of his staff, arrived in Duluth early this morning. Military companies also came in from Morris and Anoka, Minn.; Hillsboro, N. D., and Eau Claire, Wis. These companies, with the three Duluth companies of the Third regiment, the secret and civic societies of Duluth and the city fire department, joined in a parade at 11:30, which was reviewed by Gov. Lind, Secretary Alger and Adj. Gen. Lambert. Another attraction of the morning was the arrival of the steamer North Land, for her first trip of the season. Hundreds visited the handsome craft, and she was crowded during her stay. This afternoon many went to Superior to witness the launching of the largest vessel ever built at the yards of the American Steel Barge company. Gen. Alger and Gov. Lind were given a reception this evening at the Spaulding. Representative Laybourne and A. H. Comstock assisted them in receiving. The governor stood at the right of the secretary of war, and hundreds of people shook them by the hand. Gen. Alger said tonight, before going to his train, that he had never had a more enjoyable trip nor one that was of greater interest. The parade which was given in honor this morning was repeated tonight for the benefit of many that had not been on hand to witness it at 11 o'clock. The city was handsomely decorated, and the streets tonight were brilliantly illuminated. The visiting military companies from St. Paul and Anoka left for home tonight, as did Gov. Lind and staff. Gov. Lind set up his card to Gen. Alger soon after his arrival in the morning. The general and the governor had a pleasant chat for about fifteen minutes, and then they parted, to meet again to view the parade by the St. Louis hotel. Gen. Alger has been petitioned not to allow the proposed transfer of Maj. Sears, in charge of river and harbor work on Lake Superior, to Porto Rico. Gen. Alger said tonight in reply to a question that the matter will be held in abeyance until his return to Washington. The Republican club and the G. A. R. poets of Duluth paid their respects to Gen. Alger today. Gen. Alger and party left tonight on a special train for Marquette and the Sault. The secretary has never examined the new lock at the Sault and will do so tomorrow.

GREAT CARGO CARRIER.

Largest Vessel on the Lakes Launched at the Superior Yards.

WEST SUPERIOR, Wis., June 17.—The steel barge John Swenson, the largest cargo carrier on the lakes, was successfully launched here this afternoon at the yards of the Superior Shipbuilding company. The launch was witnessed by fully 7,000 people, including the excursionists who are here today. She is completely equipped with the latest machinery for handling the wire mooring lines; she has steam steering gear, a steering engine, two steam windlasses, powerful ballast pumps and a complete electric lighting plant. Her five and a half-foot water bottom will hold 3,000 tons of water ballast. On a draft of 18 feet of water at the Soo the Swenson will carry 8,400 tons of ore or 280,000 bushels of wheat, while on 20 feet of water she will take 22,000 bushels of wheat or 3,670 tons of iron ore.

MURDER MYSTERY.

The Mutilated Body of a Man Found Near Fountain City.

WINONA, Minn., June 17.—(Special.)—The mutilated body of a man, supposed to be a victim of the late storm, was found on the banks of a creek a short distance below Fountain City. An examination made by the authorities revealed the fact that he was murdered, the terrible mutilation of his body being apparently to hide his identity. When found he was lying in a clump of bushes, and it was thought that he had been washed up by the overflow of the creek, the mutilation being the result of buffeting he received while in the water. A thorough examination of the body showed that the face and a part of the skull had been removed, while the arms and legs had been cut and slashed in a terrible manner. The body was entirely devoid of clothing, and though a strict search of the vicinity was made, nothing in the shape of clothing was found. The physician who examined the body was of the opinion that the victim had been dead about a week. The body has been taken to Fountain City, and will be held pending an investigation.

SYNOD AT SPRING GROVE.

Question of Church Government Discussed by Lutherans.

SPRING GROVE, Minn., June 17.—The Norwegian Lutheran synod today continued the discussion of the right principles of church government, which were stated to be the following: "Christ has constituted no other government in His church than that which is exercised by His own people. This word is entrusted to the congregation, not to any particular class in it, although the public preaching of His word according to His command is to be done by persons who have particularly been called to do this. In all things not decided by the word of God the congregation is the highest authority. The church government, which demands obedience because it is the government, sets up a hierarchy or tyranny. The formation of a society of congregations is not directly commanded by God, but follows from the nature of faith and love. A society of congregations has no right to curtail the liberty of the individual congregation, as a society of congregations is governed according to the same principles as the individual congregation."

Boy With a Gun.

SAUK CENTRE, Minn., June 17.—While little Kenneth Apple, ten years of age, was playing with a single-barrel, muzzle-loading shot gun, he probably attempted to fire it off, when the barrel exploded, driving the breech-pin into his forehead and badly crushing his skull. He was carried to the home of his grandfather, S.

Pendergast, and medical aid summoned, but he died in about an hour.

Epworth Convention.

ALEXANDRIA, Epworth league convention in session here. The big session was tonight, when Bishop Joyce delivered an address on the "Missions of the Church in the Orient." Sunday evening, Presiding Elder McKaig will preach.

Pastors in Session.

WACONIA, Minn., June 17.—A conference of pastors of the Evangelical Lutheran in session here. There are 175 pastors from Minnesota and the Dakotas present. Meetings will be held daily till Wednesday next.

Fire at Lead.

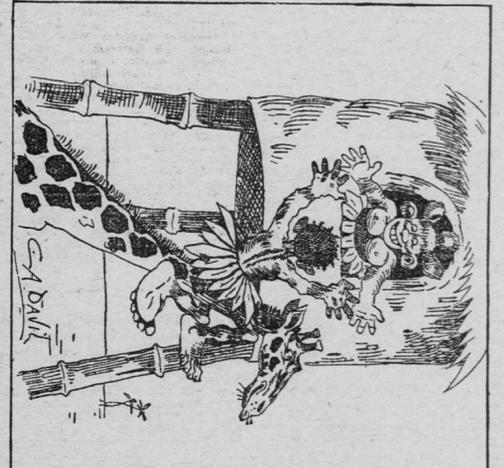

LEAD, S. D., June 17.—Fire destroyed the buildings, machinery and lumber of the Fish & Hunter Lumber company, located in this city. The cause of the fire is unknown, but it was probably the boiler. Loss, \$2,000; insurance, \$1,000. The company carries on business over the entire hills.

MEALS FOR LIFE SAVING.

Heroes and Heroines Come From All Sections of the Country.

From the Century. For many years before the United States life-saving service was established the Massachusetts Humane society maintained, along the coast of that state, houses of refuge for shipwrecked sailors, and stations equipped with life-saving apparatus in charge of keepers, who, when the emergency arose, summoned volunteer crews. This volunteer life-saving service is still kept up and is able not only to render effective assistance to the regular government crews, but occasionally also to save life when the nearest United States life-saving station is too far from the scene of disaster for the crew to arrive in time. Between these two corps has been most generous. There have been no bickerings, no attempts of one to outwit the other, but a singleness of impulse to serve in the cause of humanity. Naturally, the gold and silver medals awarded by the United States government for heroism displayed in saving life have been more frequently bestowed upon members of the regular service, as this extends along our entire seaboard and lake coast, but the volunteer corps has had its share of honor. But by far the greater number of medals for heroism displayed in saving life from drowning have been awarded to individuals—people from the most varied walks of life, men of high social position, Western Indians, a Southern negro, pleasure seekers along the coast, a Japanese cabin steward, steamboat men and officers and men of the United States army, navy and revenue service. Every section of the country seems to have contributed its share of heroes on that roll. A number of women hold silver medals, and two women the gold medal. Silver medals have also been awarded to mere boys and girls for displays of daring far beyond their years. Frederick Kernochan was a lad when he received a silver medal for saving a woman from drowning in the Navesink river, near High Falls, N. J., and Marie D. Parsons, a girl of only ten years, when she rescued a child at Fireplace, L. I. Nor was Edith Morgan, of Hamline, Mich., much beyond girlhood when she tried, with her father and brother, to row to a vessel capsized three miles out. Beaten back by the heavy waves, she aided in clearing away the logs and driftwood from the beach so as to make a track for the surfboat. At a previous rescue she had stood for six hours in the snow hauling at the life line. Would it could be to this record those unknown heroes—greater than those who are known—whose heroism lacks a human reward because they not only risked but lost their lives in the endeavor to save others. Would there were a roll

RACING EXPRESSION.

"Won by a Neck"

Umbrella Diplomacy.

A man with an umbrella was walking in the rain; an umbrella friend joined him and shared the protection. The umbrella owner noticed that now he was getting only half protection, as the rain and the drippings from the umbrella, a well felt one should notice, were falling on one shoulder. Seeing a friend without an umbrella he invited him in front of the wet, saying: "There is a vacancy in my room for three." By this arrangement he now had complete protection, as he had above the umbrella, in the position he carried it when he was using it alone, and a friend on either side protected him from the rain while receiving the drippings from the umbrella.

Advertisement for Senden Electric Co. featuring an illustration of a man and the text: "MAN! Where is Your Strength? Where is the vigor given you by nature? Where is your manly bearing, your hearty grasp of the hand? Have you wasted it in excesses and dissipation? Is it gone? Is the world full of bitterness to you? Are your days spent in brooding over your trouble and your nights in restless tossing? Can You Buy From Experience the Remedial Power of the Bell. Dr. A. T. Senden, Minneapolis, Minn.—Dear Sir: I received the suspensory and return thanks for the same.
