SECOND BREAKS CAMP

AFTER TEN DAYS OF DRILL AND DISCIPLINE AT CAMP LAKEVIEW

SOLDIERS RETURN HOME

The Encampment One of the Most Successful Ever Held—The Team Marksmanship Trophy Carried Home by the Spring Valley Company—Five Sharpshooters and Thirty Marksmen Qualified.

Six companies of the Second Infantry, N. G. S. M., arrived in St. Paul yesterday afternoon at 4 o'clock from Camp Lakeview, on their way to their respective stations. The companies arrived on a special train over the Milwaukee road, and were accompanied by Col. Bobleter, of New Ulm; Lieut. Col. Meade, of Mankato; Maj. Whitney, Fairbairn; Maj. Wood, Austin; Lieut. Vogel, New Ulm; Acting Adjutant, Lieut. Wells; and Capt. Dorsey, of Genoa, regimental surgeons and other members of the field and staff. The train also brought into St. Paul the Second Regiment band, of New Ulm. The different companies left the city yesterday afternoon and evening for their stations. Company H, St. James, being the last to leave.

The companies starting in St. Paul yesterday were: A, New Ulm, Capt. Bushner; B, Fairbairn, Capt. Klemmer; E, Waseca, Capt. Childs; F, Spring Valley, Capt. Viall; G, Austin, Capt. Page; H, St. James, Lieut. Plekta commanding. The special train left camp at 1:20 yesterday afternoon. Company D, Rochester, also left with the companies which came through St. Paul, but was cut off and sent on to its station. Company C, Winona, left camp early yesterday morning and was taken to go away.

On arriving in St. Paul Companies A, E and B transferred to the Minneapolis & St. Louis road. Companies B, F and G continued over the Milwaukee and Company H left over the Omaha at 7:45 last evening. Each company brought its baggage, and three cars were necessary to transport the equipment. The officers and men of the second alike agree that the encampment has been one of the most successful which has ever been held. The returning members of the guard were greeted upon the work of the sun, until they looked like regulars. Their uniforms and accoutrements also showed use, and as they formed on the platforms at the Union station after the train pulled in, they looked every inch soldiers. Company F carried home the colonel's medal, the team marksmanship trophy, which they wrested from the hands of Albert Lea. The regiment qualified five sharpshooters, three of them being from Company I. Thirty marksmen qualified and the returning members of the company liberal sprinkling of marksmen's badges. The regiment has been ten days in camp and has been put through a severe system of drill and discipline, under conditions as near actual war as could be attained. The third regiment will go into camp on Monday.

PLEA FOR SCHOOLS

PRESIDENT ZIMMERMANN SENDS IT TO THE MAYOR WITH THE BUDGET

TO LET THE FIGURES STAND

That is considered by the School Board as essential to the well-being of the city—New School Buildings Urged to Relieve the Pressure in Central Localities.

President Zimmermann, of the school board, yesterday filed with the mayor the annual budget of the board. Accompanying the budget, the detailed figures of which have been published in the Globe, was a letter calling the attention of the mayor to the needs of the board and urging that no change be made in the amount asked for.

Under the charter the budget is first submitted to the mayor and by him in turn sent to the council with such recommendations as he may deem proper. In ten days after its being received, the council can reduce the total amount asked for by the school board, but it is not expected there will be any change made in the figures this year.

The letter accompanying the budget was signed by President Zimmermann, and after setting forth in detail the expense per capita per pupil from 1891 to 1898 and the average of teachers' salaries for the same period—showing a decrease in the first case from \$2.49 to \$1.75 and in the second from \$94.72 to \$93.77—states:

"These figures need no explanation nor discussion nor could the board of school inspectors offer better evidence of a careful and economical expenditure of the money placed at its disposal. As a further showing of the urgent demands made upon the board the following report of the superintendent of schools is submitted.

NEEDED REPAIRS.

"For repairs, betterments and permanent improvements the sum of \$25,460 is asked. The estimates presented in the report of the superintendent of repairs submitted to the real estate committee show that the cost of this expenditure and those who know the actual condition of the buildings cannot doubt that much more is really needed.

"The aggregate amount asked for this year has been allowed for several years past and the system being maintained, but it is impossible that this should longer continue.

"To provide a less sum for the betterment and repairs of the buildings would be to subject them to an injury that would be incalculably wasteful; and our people have a right to require of us a betterment of the buildings in comparison with the cost of the repairs. No less sum than is asked for maintenance would preserve unimpaired our splendid system of public instruction.

"The superintendent of schools has continued in the future would be inadequate. The growth of our school population alone, is so considerable that we are unable to meet the increased expenditure for maintenance of the system. We do not believe that there is any such impairment of the school work as to justify the St. Paul desire it, and we earnestly hope to see the work continually strengthened and improved by the addition of school inspectors can have no other object, as a matter of fact has no other object in view, than the highest welfare of the school work, and at the lowest possible cost.

"After considerable labor on the part of members of the board and some patriotic citizens, the tax levy was increased by the last legislature and one-half mill. This additional allowance is sorely needed for the maintenance of the school work, and it is our earnest trust that the budget submitted will not be reduced."

VENTILATION.

"The superintendent of buildings has suggested to the real estate committee the needs of the several buildings in respect to ventilation, the same having been placed before you for consideration. It is therefore unnecessary for me to say more than that the general condition has been good, though far from perfect, in some of the buildings. The care that the teachers have exercised has prevented any bad effects so far as we are able to discover. No one of any building has been traced to this source, but notwithstanding this, the greatest care should be taken to have the ventilation in all buildings as near perfect as possible.

LIGHT.

"Some of the old buildings of the city, and, unfortunately, some of the most crowded, admit insufficient light for school purposes. This is owing to the fact that at the time of building less consideration was given to the lighting required for study than to the heat necessary for comfort. Large windows are uncomfortable and costly. As additional light is

SECOND MOVES OUT.

The Third Will Be the Next Regiment at Camp Lakeview.

CAMP LAKEVIEW, Lake City, July 1.—(Special.)—The Second regiment's encampment in the city is drawing to a close. The regiment returned to their company stations. This proved a very enjoyable as well as helpful encampment for the men of the Second, and Col. Bobleter, who demonstrated that a great deal of good can be derived from these ten-day outings. At dress parade last evening, Col. Bobleter, through the adjutant, complimented the regiment very highly upon the work done, and especially for the efficient manner in which guard mounting and guard duty had been carried out.

The incident took place on guard mount ceremonies were carried out, and the detail remained at their post until the command broke camp.

The camp was a scene of activity this morning. Men were packing their personal and company property for shipment, teams were seen here and there, the wagons loaded to their full capacity with boxes and trunks, and the regiment was being loaded on wagons and returned to Lake City, to await the arrival of the next regiment.

Acting Brigadier General Bierman, with a squad of men, accompanied the regiment to remain in camp until the arrival of the Third. They will maintain a guard over the entire camp each night to keep prowlers from entering and molesting the property.

Food Cure

NATURE'S WAY.

See Diet List Below.

HEALTH REGAINED VIA FOOD.

A man may try all sorts of drugs to help him get well, but after all the "food cure" is the method intended by Nature.

Anyone can prove the efficacy of the food cure by making use of the following breakfast each morning for fifteen or twenty days.

A dish containing not more than four heaping teaspoonful of Grape-Nuts, enough good, rich cream to go with them, some raw or cooked fruit, not more than two slices of entire wheat bread, and not more than one cup of Postum Food Coffee, to be stirred, not drunk hurriedly. Let this suffice for the breakfast.

Let one meal in the day consist of an abundance of good meat, potato and one other vegetable.

This method will quickly prove the value of the selection of the right kind of food to rebuild the body and replace the lost tissue which is destroyed every day and must be made up, or disease of some sort enters in. This is an age of specialists, and the above suggestions are given by a specialist in food values, dietetics and hygiene.
