A GREAT TRIUMPH.

The agreement of the powers in conference at The Hague on a plan of mediation and arbitration represents a great triumph for the advocates of international peace.

GOOD ADVICE.

The Democracy of the nation is now, and will continue for the next year or so to receive advice in great volume and variety as to the principles which it should present for acceptance by the people of the several states in the coming presidential contest.

What is left undone by the limitations agreed on of the arbitration principle is fairly well provided for by the very broad scheme of mediation which has been worked out.

Of all the advice thus far tendered to the party in this behalf that offered by Editor Morse, of the Indianapolis Sentinel, seems to us to be at once the most level-headed and best expressed.

When I say, therefore, that the commission of 1899 will be the party which will not mean that politicians will or can manufacture this issue.

Later the world will know which powers have stood in the path of the organization of a general arbitration body.

In the particulars of both mediation and arbitration, the ends accomplished are far in advance of what the most sanguine looked for, especially in view of the recognized opposition of the past two weeks.

Americans have much reason to congratulate themselves on the great moral force which their representatives, standing for the peaceful intentions of this people under all circumstances, have exercised on the deliberations of the powers.

Our disinterestedness could not be impeached, while the blessing of peace this nation presents of the blessings of peace as the guiding principle in national life.

has wrought at The Hague enduring service to the cause of humanity.

A SHAMEFUL AFFAIR.

Do the good people of St. Paul ever stop to consider the situation which prevails at the present moment and has prevailed for the past two or three months regarding one of the principal offices of their county government? It would be hard to exaggerate the utter degradation of our political life which is represented by this situation.

EVERY AGENCY.

Every agency, from an armed midnight raid on a public office to shameless special legislation and the decision of the supreme court, has been resorted to in the struggle to get control of the funds of the county and their expenditure.

GLEANED BY A GIRL.

TAYLOR SLATE SAFE

IT WILL PROBABLY BE PUT THROUGH BY THE KENTUCKY REPUBLICANS. QUICK WORK IS ANTICIPATED. Surprises Promised by the Opposition, but All Indications Are That the National Administration Election Will Be Able to Organize and Control the Convention—The Delegates Will Meet Wednesday.

LEXINGTON, Ky., July 9.—The Republican state convention, which meets here next Wednesday, may be a record breaker for quick work.

Col. Stone and Judge Pratt are expected here Monday, and their friends promise some surprises, but the present indications are that the Taylor men will organize the convention and be able to carry through what is known as "the Taylor slate." Taylor is called the national administration man, while Gov. Bradley and other state administration men are considered as favoring some other man.

If the results of the county conventions are ratified, the convention will be as brief as the recent convention at Louisville was protracted. Since both Stone and Pratt were distanced in the race before the county conventions there have been efforts to concentrate on Hon. John W. Yerkes or some other dark horse, but so far these movements have collapsed.

MAYOR JONES PREFERRED.

Ohio Laboring Men Want Him to Run for Governor. CINCINNATI, O., July 9.—On June 1 a committee of twenty men, appointed by the Central Labor union, of this city, went to Columbus, O., to propose to the labor convention that certain paragraphs they desired to be engraved in the platform of the Republican or Democratic party as a condition of reviving the support of the labor element.

Today a meeting of this committee was held at which resolutions were passed expressing a lack of confidence in the executive committee of the labor convention and disavowal of its inactivity and that this committee take steps at once to call a convention and nominate an independent candidate for governor. Subcommittees were appointed to secure the co-operation of all labor organizations in Ohio for this purpose.

Ministers Draw Line. PASTORS WILL MARRY DIVORCED PEOPLE ONLY IN SPECIAL CASES. ANN ARBOR, Mich., July 9.—In view of the recent Belmont-Stoane wedding in New York, which has caused so much denunciation from the pulpit, the Methodist, Baptist, Congregational, Presbyterian, Church of Christ and Trinity Lutheran clergymen of Ann Arbor held a meeting a few days ago, when the question of marrying divorced parties was thoroughly discussed.

It was the sense of the meeting that the wholesale divorcing now in vogue for any cause from the scriptural one to a desire for separation is to be condemned, and hereafter the ministers will refuse to marry any couple where either party has been divorced, unless the divorce was granted by a court of law and the party applying is not the one at fault.

The Congregational and Presbyterian ministers said that they would not adhere to that strict standard, but that they would have to be an extreme case where the rule is deviated from.

The meeting was not public, and only a few ministers were present. A divorced woman applied last night to two ministers to perform a marriage ceremony and was refused by both.

HOST AT HAVANA.
