FAIRBANKS' A GUEST

CHAIRMAN OF THE JOINT COMMISSION IN MINNEAPOLIS SEEKING FOR INFORMATION

JUST HOME FROM ALASKA

Collecting Information Which Will Be Used When Negotiations Are Resumed With the Canadian - Findings in the Industrial Exposition Suit Filed, Fixing the Liability of the Stockholders.

GLOBE'S MINNEAPOLIS OFFICE, 20 WASHINGTON AV. SOUTH Advertising - Tel. 5796 J-1. Subscriptions - Tel. 2790 J-4

Senator Charles Fairbanks, of Indiana, chairman of the joint lumber commission, paid a visit to Minneapolis lumbermen yesterday in his official capacity.

Boundaries, however, do not represent the only issue before the commission. The dominant lumber interests have always resented bitterly the action of the American congress in imposing a tax of \$2 a thousand on their pine.

It was this particular matter which brought Senator Fairbanks to Minneapolis yesterday morning. The American white pine lumbermen maintain that \$2 a thousand is necessary to their prosperity and well-being; their Canadian neighbors are disposed to insist that the least Uncle Sam can do, granting that he is moved to be fair and impartial in his attitude before the international tribunal, is to split the difference and consent to a tax of \$1 a thousand.

With Congressman Fletcher, C. A. Smith, S. T. McKnight and others, Senator Fairbanks made a visit to the plant of the C. A. Smith company. Here the senator inspected not only the mill, but went down to the river bank and viewed the operations of the crews handling the logs in the water. Then Gen. A. Smith contacted the Illinois group to the yard where the various grades of the product were inspected. Senator Fairbanks desired especially to be informed on grades of lumber and the percentages on each grade.

It was the comment of those who talked with Senator Fairbanks that there was little about the manufacture of pine with which he was not familiar. He talked with intelligence of grades, of the output of the various sawing districts of the country, and of the problems of supply and demand.

On his return from his sightseeing tour

IT NEEDS STEAM. If there's no steam in a fire-engine it won't do its work. Heavy machinery needs metal or larger wheels won't help it. It needs steam. It's the same when a man's strength is gone. He wants new life - fresh vitality. It makes no difference how large his frame may be or how big the muscles on his arms and legs; if the inner power and force of life is lacking he can't do his work; he is practically a sick man. You can't make him well by feeding him with oily emulsions. There's no use in flabby fat. His proper weight will come after he gets well. The first thing he needs is strength, force, steam.

About a year ago," says Mr. John Brooks of Boylston, Mass. "I was taken with a bad cold which settled on my lungs. The doctors said I was in consumption and could not get well. I took emulsion of cod liver oil and it did me no good. After taking it for four months I heard of Dr. Pierce's Great Peppercorn Cure and wrote to him for advice. I have taken this medicine and it saved my life. I felt so sick when I wrote to him I thought I would not live the winter through.

"In the morning I would raise an awful lot and spit all the time, with pains in my chest all the time. My bowels would not move more than once or twice a week; my strength was nearly all gone; I could not do a whole day's work. Now my bowels are regular every day, and I feel no more pains in my chest. I feel a great deal stronger. I am working hard every day, driving a team in the woods, and I owe my thanks to Dr. Pierce's Great Peppercorn Cure. I know it saved my life. I can't praise it enough. I am proud to tell my friends what cured me."

The way this great remedy acts in bronchial and lung diseases is more fully described in Dr. Pierce's great 1000-page Common Sense Medical Adviser, sent FREE for 21 one-cent stamps to pay the cost of mailing only. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y. He is always ready to give free advice by mail.

Senator Fairbanks was tendered a luncheon by a dozen or so of the big lumbermen of the Minneapolis club. Among those who sat at the table were B. F. Nelson, C. A. Smith, Charles A. Pillsbury, Judge M. B. Koon, Congressman Fletcher, J. S. McMain, H. G. Evans, Arthur Rogers, E. W. Backus, W. F. Hill and Mr. McCormick, of Wisconsin.

Senator Fairbanks left last evening for Chicago. Mrs. Fairbanks, who is with him, spent the day with Mrs. R. G. Evans.

The St. Paul delegation will turn in and help the Minneapolis delegation and the whole state will join in the effort to get the convention for the North Star state.

If Minneapolis is successful in securing the convention it will be made a "Twin City" affair. The convention proper will be held in Minneapolis, but there will be a grand rally in St. Paul one night and a reception and entertainment for the delegates one day.

LIABILITY FIXED.

Findings Filed in the Industrial Exposition Stockholders' Suit.

Judge Simpson yesterday morning filed his findings in the industrial exposition stockholders' suit, begun several months ago. The findings fix the remaining liability of the stockholders at about \$18 per cent of the stock issued, the amount claimed by the plaintiffs, T. B. Janney, B. F. Nelson, Lucian Swift, L. S. Donnan, executor, and F. B. LeVings, trustee. The court's findings provide that executions shall not issue on the judgment except for a pro rata share of the corporate debts and expenses as determined by the liability of each stockholder, and later for such additional amounts as are necessary to meet any deficiency that may arise through the insolvency of any of the stockholders.

The findings also show that about 18 per cent of the stock issued, the amount claimed by the plaintiffs, T. B. Janney, B. F. Nelson, Lucian Swift, L. S. Donnan, executor, and F. B. LeVings, trustee. The court's findings provide that executions shall not issue on the judgment except for a pro rata share of the corporate debts and expenses as determined by the liability of each stockholder, and later for such additional amounts as are necessary to meet any deficiency that may arise through the insolvency of any of the stockholders.

Directory Population.

Minneapolis has a population of 220,000. This is the result attained by multiplying by 24—a very small multiple—the number of families shown in the new city directory. For the big book will be out on Thursday next.

The new directory contains 97,800 names, exclusive of the names of business firms and of the persons who have died or removed from the city during the past twelve months, as well as a large number of the names of the transient population. A last year the directory contained 96,750 names, or 1,050 less than the new directory. This shows that the Central Avenue population amounting to nearly 2,400.

Problem of Taxation.

The Minneapolis board of equalization was confronted yesterday with a legal problem which it was unable to solve on its own. It is shown that the city and its brothers receive for their water power the sum of \$10,000 a year from the Pillsbury plant, and that the city is entitled to the power necessary to operate its milling machinery. The water is conducted through a tunnel through the city, and the land bordering this canal belongs to other parties. It is not real estate, the question that bothers the board is, can I be taxed as persons?

Fales-Peck Wedding.

The marriage of Miss Alice May Peck, daughter of H. G. Peck and Bingley Russell Fales, of Detroit, Mich., is announced to take place Wednesday evening, Aug. 3, at the home of the bride's father, on Hawthorn avenue. Miss Georgia Peck will be the honor and Frederick Elliott Wadsworth, of Detroit, best man. The service will be read by Rev. Marion D. Shutter, of Detroit, and bridegroom will take an extended lake trip before going to their new home in Detroit.

Interested in Glymont.

Mrs. E. A. Russell, who left Minneapolis about three weeks ago to spend some time in the east, has, according to the Glymont Evangelist, of Washington, become considerably interested in Glymont, Md. The people of that place evidently believe that Mrs. Russell intends to settle there, as the Evangelist notes that she came to select a place where she will build a house, adding that she proposes to become a resident there.

The artillerymen are located on their grounds south of the infantry camp, and have already commenced to enjoy camp life.

The first guard mount was held at 2 o'clock this afternoon. The ceremonies were performed in the open space in front of the staff officers' tents.

The Minnesota State band is acting as the regimental band and is the finest musical organization that ever visited Camp Lakeview.

The staff officers of the Fourth infantry who are present at camp are as follows: Lieut. Col. Marsch, of Litchfield; Maj. W. B. Hendley, of Minneapolis; Maj. Clayton H. Stearns, of Owatonna; Capt. CLOSE OF BOXELL CASE.

It Will Probably Go to the Jury This Afternoon.

BUFFALO, Minn., July 17.—(Special.)—The Boxell case will probably go to the jury tomorrow. The trial was resumed promptly at 10 o'clock this morning. The defendant, although weak from his recent illness, was in court and gave close attention to the proceedings. Dr. E. A. Shannon, one of his physicians, says his case shows that the state is in a better position to sue than it is in a rebuttal, but nothing important was brought out.

Judges at Odds.

ARMOUR, S. D., July 17.—Judge E. G. Smith, in the circuit court, has made a ruling on the state liquor law which is contrary to the decision of Judge Moore, of the Black Hills circuit. Judge Moore held that the dispensary amendment to the liquor law is unconstitutional under the state law, and that as the legislature failed to provide for carrying out the provisions of the amendment, the state is in default. Judge Smith holds that the dispensary amendment is valid, and that the legislature requires legislative action to give it effect, and that in the absence of such legislation the former liquor law continues in force.

New Wheat Pest.

SNOUX FALLS, S. D., July 17.—Patrick Carney, a Clark county farmer, reports that a strange pest is doing some damage to wheat in his locality. He has 100 acres entirely destroyed, while a few other farmers also suffered losses. The insect seems to sap the life out of the plant, causing it to fall over and wilt. No one seems to know where the pest, which has thus far confined itself to a limited area.

NO CARS FOR THE STRIKE

Continued from First Page. ment of the strike was still a bone of contention, however, and a crisis was reached yesterday when, it is claimed, a number of union men were discharged for refusing to go out on a car with non-union men. A meeting followed last night, and at 3 o'clock this morning the decision to strike, was reached.

All the lines were held up from 3 o'clock until after 8, when the operation of the Euclid avenue line with non-union men, under police protection, was undertaken. Cars were run at five-minute intervals on that line until evening, but no attempt was made to move cars on other lines.

Henry Everett, president of the company, issued a statement, this morning in which he says the terms of the agreement with the strikers had been fully agreed upon, but that it was impossible to inaugurate all the reforms promised, because of the continued interference with the non-union crews, and he holds the union men directly responsible for the situation.

He says that he will operate the cars if he is given police protection. Protection has been promised by Mayor Farwell, and it is said that the militia will be called out if the police are unable to preserve order.

WARDNER STRIKE.

President Is Called Upon in Connection Therewith.

WASHINGTON, July 17.—President McKinley today was called upon by Senator Carter, of Montana, and Senator Helfferich, of Idaho, accompanied by Edward Boyce, executive secretary of the Western Federation of Miners, and W. R. Goldsmith, secretary of the local miners' union at Wardner, Idaho. The named gentlemen are a committee representing the strikers, and were engaged in the strike at Wardner, which resulted in calling out troops under Gen. Henry.

The committee informed the president that the presence of the troops had been represented in a false light, and that in their opinion the federal authority was being asked in an illegitimate manner.

The president told the committee that the troops had been sent only upon the request of the governor and were there for no other purpose than to preserve the peace.

MURDERED HIS RIVAL AWFUL CRIME GROWING OUT OF THE LOVE TWO MEN BORE THE SAME WOMAN VICTIM'S BODY IN RIVER

Harry Chadwick Attacked and Killed by Joseph Hough, Who Afterward Cut His Own Throat—Miss Mary Smith the Innocent Cause of the Tragedy—Hough Confesses His Crime.

CHESTER, Conn., July 17.—Harry Chadwick, aged twenty-four years, of New Britain, was murdered last night by Joseph Hough, aged thirty, who then attempted to kill himself by cutting his own throat. Chadwick's body has not been found, and the details of the tragedy are not fully known.

Chadwick came here Saturday night to visit Miss Mary Smith, to whom he was paying attention. Hough boarded with the Smith family, and was also enamored of the young woman. Chadwick left the Smith house at about 10 o'clock last night, and this was the last seen of him. This morning a ladder was found leaning against the window of the room occupied by Hough. There were spots of blood on the ladder, and when the man's room was entered he was found lying on the bed in a pool of blood. He had a cut five inches long in his neck. His bicycle was also found to be covered with blood, and an investigation was begun.

In Tyrtville the searchers found the bicycle owned by Chadwick, his watch and cuffs. There were also several pools of blood and evidences of a struggle. It looked as if a man's body might have been dragged through a potato field near by, and the trail was followed to the river, where it was found a row boat had been taken.

HOUGH CONFESSED. Late this afternoon Hough admitted to a brother of the girl that he had killed Chadwick and had thrown his body into the river. He is stated to have said that he tried to scare Chadwick, and an altercation ensued, during which Chadwick drew a razor and cut him on the side of the face. He then choked Chadwick until, as he supposed, he was unconscious, but later found he was dead. He then dragged the young man's body to the river, where he threw it in. Riding home he took his own razor from a drawer, intending to commit suicide, when he felt himself growing faint and called for help. When the family entered his room a razor was found in his hand. He is in a critical condition.

It is believed that Hough left the house by means of the ladder, before Chadwick, UP TO OTIS. British Press Comment on Failure of His Campaign.

The Daily News says: "The moral of it is that the correspondent will turn left free to act on the card as he thought best. Nothing, he adds, has been heard from Gen. Otis on the subject."
