Boy Fatally Injured. NEW PAYNESVILLE, Minn., July 20.—(Special.)—George Preese, the twelve-year-old son of George Preese, of Forah, was fatally injured late last evening. The Wintermute circus was showing at that town and the lad was riding one of the Bar association's cars. A man who was far from assistance, but mounted another horse and rode twenty miles before he could secure any other method of travel. The circus was changed from horseback to a jolting lumber wagon, and traveled another forty miles in that conveyance before he could secure the assistance of a physician.

Effective Address. FARGO, N. D., July 20.—The second day of the stock raisers' convention showed last evening. A number of the speakers were made, chief of which was by United States Senator Hansbrough. The President of the convention, an unpublished statesman devoted largely to North and South Dakota and Minnesota. He called attention to the commercial expansion for greater markets by presenting the political side of the matter, and made a most effective address.

Death of A. H. Adams. Andrew H. Adams, a well known attorney of Minneapolis, died Wednesday evening at his residence, 312 Second street south. Mr. Adams was sick about ten days, having suffered an attack of acute nephritis while on his way home from his office the evening of July 10. Since that time he had been confined to his bed, falling rapidly until his death. Funeral services will be held at the family home this afternoon at 2 o'clock. The remains will be taken to Brooklyn for interment.

First Case of Sunstroke. The first case of sunstroke of the season in Minneapolis occurred yesterday. The victim was Olaf Backen, an employe of the Akeley Lumber company, residing at 216 Bryant avenue north. After toiling all day in the boiling heat of the sun, Backen started to walk home, but fell unconscious on the sidewalk at twenty-sixth avenue north. He was carried to his home, two blocks away, where he was attended by Dr. Tenyson. He was in such a serious condition that he was finally removed to St. Mary's hospital here. At a late hour last night he was insensible.

Death Due to the Heat. HURON, S. D., July 20.—Mrs. Mouser, wife of District Attorney H. Mouser, dropped dead on the lawn of the family residence here of heart failure, occasioned by the intense heat which has prevailed for the past four days, the temperature ranging from 96 to 104.

WYNLEY WILL COME

PRESIDENT PROMISES MR. LOWRY HE WILL VISIT MINNESOTA THIS FALL

TO GREET THE THIRTIETH That the Principal Object of the Trip, and No Other Engagements Will Be Allowed to Interfere With the Programme—Street Railway Magnate Silent as to Proposed Improvements.

GLOBE'S MINNEAPOLIS OFFICE, 20 WASHINGTON AV. SOUTH Advertising—Subscriptions—Tel. 2796 J-1. Tel. 2790 J-4

Thomas Lowry returned from the East yesterday, and it is promised that the affairs of the Thirtieth Minnesota will now be given prompt consideration. President McKinley, Mr. Lowry reports, stands ready to redeem his promise to meet the boys in Minneapolis upon their return, and there seems now to be nothing to stand in the way. "I saw the president in Washington," said Mr. Lowry, "and he assured me that he would surely be on hand when the Thirtieth reached home. He had made no other engagements, he said, and would not make any that would in any way interfere with his trip to the Northwest. Neither would he make any plans for the trip until it was definitely known just when the regiment would be home. The sole purpose of the trip, he assured me, was to meet the boys of the Thirtieth and all his plans would be made with that end wholly in mind.

The president explained that various delays had arisen in the arrangements for sending the regiment home and that there might be others. At the same time he gave me to understand that we could look for them to be on their native soil in August or early in September. I think it will be so arranged that the regiment will not have to stay in San Francisco longer than a week. "I understand that the governor has been making some moves in the matter. Now, so far as I am concerned, he isn't stealing any one's thunder, and I hope no one will so look at it. All business must work harmoniously in the matter. All the cities and people interested should co-operate with the best of feeling, and there isn't a doubt in my own mind that they will. I won't have time today to meet with the committee, but probably we can get together tomorrow."

Regarding the plans of the street railway company for an extension to Minnetonka, Mr. Lowry declared that he was not prepared to discuss the matter, but positively nothing to announce at the present time. Neither had it been determined as yet just what settlement should be made in the rival contentions of the Como interurban and the street car line. The street car line is on the Eighth street southeast lines through St. Paul cars.

INDIANS ARE EXCITED

REDS AT WALKER DO NOT TAKE KINDLY TO THE NEW ORDER

FLATMOUTH IN WAR PAINT Chief Calls a Council to Consider the Latest Development in the Cass Lake Case—Protests Against the Additional Time Which Has Been Granted by the Secretary of the Interior—Northwest News.

WALKER, Minn., July 20.—Chief Flatmouth has discarded citizens' clothes and appeared here this morning arrayed in war paint and feathers. In a most excited and determined mood. He said that he had called a council of all the Leech Lake Indians to assemble at the old agency on Monday, the 24th, to protest against the revocation of the edict order.

He claimed that the government would not respect the rights of the Indians; that the reservation was their territory, and that if the settlers were permitted to remain in one part of the reservation there was no excuse why they would not be permitted to go to other places.

HOPPERS PLOWED UNDER.

The Wheat Crop of North Dakota Is in No Danger. FARGO, N. D., July 20.—Immediately after the statement was made by Prof. Luger, of the Minnesota experimental farm, that thousands of grasshoppers were to be found in each square foot of soil in the Turtle mountain country, Prof. Waldron, of the North Dakota agricultural college, went to the mountains to investigate. After a careful investigation he reports that "something ought to be done to quiet the grasshopper scare which has taken possession of the Twin City papers."

RANGE RIDERS' GRIT.

Travels Sixty Miles to Get Sargent Aid for a Broken Saddle. PIERRE, S. D., July 20.—Tom Milican, one of the range riders for the Dakota & Minnesota Cattle company, came to this city Saturday for surgical attendance, and in doing so showed himself possessed of extraordinary courage and power of endurance.

While sixty miles out on the range he was run over by a wild horse and had his saddle broken in the accident. He was far from assistance, but mounted another horse and rode twenty miles before he could secure any other method of travel. The circus was changed from horseback to a jolting lumber wagon, and traveled another forty miles in that conveyance before he could secure the assistance of a physician.

His case required the assistance of John Holland, a rancher, several years ago. It was in the winter with the mercury way below zero, and he was driving across the Missouri river on the ice. The team broke through, and in getting them out he was soaked with water, and one of his legs was broken. With great difficulty he managed to crawl upon one of the wild bronchos, which he had been driving, and rode seven miles with his clothing frozen to him before he reached the nearest ranch and secured assistance.
