

WON IT IN A WALK

ST. PAUL EASILY OUTPLAYED THE PRODIGALS OF THE WEST—ERN LEAGUE

POLICE VICTORS AT BUFFALO

The Game Between the Millers and Hisons Stopped at the End of the First Inning and the Players Put Under Arrest—A Double-Header Divided by Washington and Cincinnati.

St. Paul, Grand Rapids 2, Detroit 6, Kansas City 5.

Table with columns: Played, Won, Lost, Per Cent. Rows for Indianapolis, Grand Rapids, Detroit, St. Paul, Milwaukee, Kansas City, Buffalo.

GAMES SCHEDULED FOR TODAY.

St. Paul at Grand Rapids, Minneapolis at Buffalo, Kansas City at Detroit, Milwaukee at Indianapolis.

GRAND RAPIDS, Mich., July 23.—(Special.)—Before the largest crowd, with one exception (Memorial day, 1898), that ever attended a ball game in Grand Rapids the Saints defeated the Western League prodigals at Recreation park this afternoon.

Fisher pitched a steady, effective game, and was given good support. Shugart's fumble, a single and a double by Tebeau allowed the locals their only runs in the first inning. Geler, Burke and Lally performed star work in the outfield, and Pickering distinguished himself by pulling down five hard ones and throwing two men out at bases from the outfield.

People lined the right field fence, and a two-base ground rule was made, which accounts for so many two-baggers, that section being the mark of the batters. Glenavlin and Spies, the old Grand Rapids players, were given a warm reception from the fans when they went to the bat.

Table with columns: AB, R, H, PO, A, E. Rows for Grand Rapids, St. Paul, Detroit, Kansas City, Milwaukee, Indianapolis.

McAuley batted for Cross in the ninth. Stolen bases, Pickering, Geler, Isbell; doubles, Glavin, Isbell; two-base hits, Tebeau at Buffalo, Cross, Baggett, Spies, Geler 2, Glenavlin, Lally; double plays, Pickering to Geler, Pickering to Tebeau to Isbell; runs, Pickering, Geler, Cross, Crawford; bases on balls, off Fisher, Buckley; off Cross, Glenavlin, Ball, Fisher; off Shugart, 2; off Spies, 2; off McAuley, 1.

POLICE WON AT BUFFALO.

The Game Stopped at the End of the First Inning.

BUFFALO, N. Y., July 23.—(Special.)—The Minneapolis and Buffalo base ball clubs started to play their scheduled game here this afternoon, but after two men had been to bat for the visitors in the second inning, a police sergeant stopped the game and placed all the players under arrest. They were taken to the station house, where all were admitted to bail and released for the appearance in police court tomorrow morning.

This is the first Sunday game this season that has not been finished, and had it not been for the stupid work of the police sergeant there would have been no arrests today until the game had been finished.

Capt. Regan, in whose precinct the ball grounds are situated, received orders from his superiors to arrest all persons who violated the law by playing ball on Sunday.

steal second. Nance and Andrews retired the side by tying out. Menefee started the excitement in the second by making a hit, but he no sooner touched first than the sergeant called out to the field, shook hands with Catcher Coleman, and informed him that he and his comrades were under arrest.

FORTUNE FAVORED TIGERS.

Close and Well Played Game Won From the Blues.

DETROIT, Mich., July 23.—(Special.)—A close, exciting and brilliant game was played today by Detroit and Kansas City on the rough Sunday grounds. The home team won in spite of fewer hits and more errors. Hulien and Elberfeld did sensational work in the infield, while the batting of Gettman, Hulien and Stallings was a feature. Score:

Table with columns: Det., R.H.P.A.E., K.C., R.H.P.A.E. Rows for Detroit and Kansas City.

NATIONAL LEAGUE.

Double-Header Divided by Washington and Cincinnati Teams.

Brooklyn Played, Won, Lost, Per Cent. Boston, Philadelphia, St. Louis, Chicago, Baltimore, Cincinnati, Pittsburgh, New York, Louisville, Washington, Cleveland.

GAMES SCHEDULED FOR TODAY.

Philadelphia at Pittsburgh, Cleveland at Washington, Boston at Cincinnati, Brooklyn at Louisville, Baltimore at Chicago, New York at St. Louis.

CINCINNATI, O., July 23.—The Senators won the first game by hitting Brettenstein at work, doubling, single and a double, while the Reds were given a warm reception from the fans when they went to the bat.

McAuley batted for Cross in the ninth. Stolen bases, Pickering, Geler, Isbell; doubles, Glavin, Isbell; two-base hits, Tebeau at Buffalo, Cross, Baggett, Spies, Geler 2, Glenavlin, Lally; double plays, Pickering to Geler, Pickering to Tebeau to Isbell; runs, Pickering, Geler, Cross, Crawford; bases on balls, off Fisher, Buckley; off Cross, Glenavlin, Ball, Fisher; off Shugart, 2; off Spies, 2; off McAuley, 1.

Marshall, as usual, did good work with the stick, and Jimmy Burke and Charles Delaney also got their share of the hits. For the Brewers, Fleetham and Fleetman led the batting, and Breyette at short did some pretty work.

All Kinds of Flowers and Northern Grown Seeds. L. L. May & Co., 381-383 Minnesota.

That an Observant Teacher Took Away From a Pupil. New York Tribune.

The boys had assembled in the big study hall for the annual examination, and the questions had all been distributed, when the teacher in charge said: "Now, gentlemen, you know that the proper method of passing without change or interference through materials which are non-conductors of electricity, such as glass and rubber, and producing the same effect as if there had not been any foreign substance between the body and the photographic plate, while the substance is used as a conductor volume, is to pass through it, but the same result is attained as if it did, apparently by the communication of the vibration of the ray to the sensitive film."

During the tests made by Mr. Hofmann several hundred persons were given a reversal of the current of the electric current, and some of the persons gave a faint demonstration of the film, others a very strong one, and a few gave no result, and yet after the lapse of a few hours the results were reversed, showing the presence of the chemical energy in the same body on different days. The temperature and moisture in the air apparently had no effect in the production of the rays.

A Stamp Saved Her. Cincinnati Enquirer.

"It used to make me mad," said a lady teacher, "to find the backs of new-bought periodicals disfigured by the aniline stamp of the newsdealer. 'What right,' I used to say, 'have these fellows to print their advertisements on things I pay for?' Now I feel differently. It came about through a visit which I paid to another city last week. I passed through the depot I bought a magazine at the news stand, and later on, when I was up town, had occasion to step into a large department store and have been holding it at a counter, and while looking at a book that caught my eye I laid my magazine carelessly on top of a pile of periodicals. When I was walking away a strange man stepped up hastily and asked me to sign my name, but you have forgotten to pay for that magazine. 'Why I didn't get it here,' I replied, greatly startled, 'I had my money with me, and I gave it to you to hand all the time.' As soon as I spoke I realized that that wasn't strictly true, and the girl clerk, who had rushed around the counter, contradicted me at once. 'It isn't so!' she said, breathlessly. 'I wasn't holding it in her hand! I saw her pick it up myself, right off the top of the pile!' 'I trusted that myself,' said the floorwalker; 'madame has probably forgotten,' he added, ironically. 'I thought I should faint. A thousand things rushed into my mind. Of course, I could prove my innocence by the man at the depot, but that would involve the scandal of an inquiry—probably an arrest—and some people would always have doubts. On the other hand, payment of the bill—a confession of guilt. The affair would certainly cost me my position and blight my character forever. I held out the magazine to the clerk, and she said: 'Excuse me, but the big, hideous, blotted stamp of the dealer. We all saw it at once, and oh! I wish you could have witnessed the embarrassment of the floorwalker! He groveled before me, and I saw the man who had been holding it in her hand, and she said: 'Ha, ha, ha! Wher's the depot for Boston?'"

The old man dropped his grip, and the conductor, who had been holding it, stepped up "so instantly that it knocked off his hat."

HUMAN LIGHT. Strong Enough for Photography is the Latest Remarkable Discovery. New York Journal.

Outar Hofmann, of Argentine, Kan., who is well known in the West as a civil and mining engineer, has made the remarkable discovery that the human body possesses a hitherto unknown power which operates the same as light in photography. Pictures have been taken by this human light, or body glow, by Mr. Hofmann which are distinct, and the limit of the accuracy and fineness of the reproductions varies, depending, so the experiments have conducted indicate, entirely upon the state of the body. Mr. Hofmann has not given a name to the newly discovered force, but simply confines himself, in discussing the many interesting experiments which he has recently made, to the statement that a human body emits rays of some sort, which act upon a photographic sensitive plate in a way which is both interesting and puzzling. This discovery opens up an entirely new field for experiment and investigation by physiologists, and it is believed

HE KNEW.

is so his never been explained, yet we see parallel instances everywhere in nature. All kinds have in the middle a small, round, pea-shaped, or seed-like cell, which contains the insect that is the real cause of the growth. The irritation to the leaves or twigs caused by these insects gives these abnormal growths the distinctive and appropriate name of "galls," by which they have long been known.

Gall flies are among the most peculiar of all the insect tribes. They belong to the great order that includes the bees, the wasps, the gnats, and the ichneumon flies, but they never sting or harm men or animals. The female gall fly, impelled by the law of nature to provide for the safety and welfare of her offspring, cuts away the outer skin or bark of a leaf or twig, and deposits therein an egg. From

the water until after the session," the teacher extended his hand while the young man detached the hunting-case watch from the chain and passed it over the head of a fellow-student to the teacher.

Masked Pitfalls. Of Quicksand Found in the Desert of Arizona. Chicago Record.

Curious but dangerous freaks of nature frequently found in the desert of Arizona are called "masked pitfalls" and "masked pitfalls." They are mask d pitfalls of quicksand that occur in the form of a shallow, level, and are the result of the crust of clay that has been broken up over them in the particles by the wind and baked dry by the sun.

Gall Insects. How They Make Material for Various Inks and Dyes. Oak apples, so-called, are familiar objects to almost every one, yet few understand their real nature. Many persons suppose them to be a sort of fruit-growth of the tree on which they are found.
