

OFFERS from any PRIVATE DISEASE visit DR. FAY, 41 Wash. Av. S., Minneapolis, Minn. Treatment by mail.

WHO IS DR. FAY?

A graduate of Harvard College, Cambridge, Howard Medical College, two years post graduate course Columbia Medical College, wide practical experience in large Eastern Hospitals, employed by U. S. ARMY, U. S. MEDICAL DEPT., SURGEON GENERAL, U. S. INDIAN RESERVATION, Sisson, N. D. Over twenty years engaged as a qualified physician and surgeon in CURING SPECIAL CASES. Is examiner for the Druggists and Woodmen of the World.

Dr. Fay, a physician in good standing, of good ability, is worthy of full confidence. -Rev. F. Bylesby, Browns Valley, Minn. Dr. Fay possesses excellent attainments and unusual skill. -U. S. Senator Wm. P. Frye. I would recommend Dr. Fay to anyone upon certain nervous diseases. -J. L. Smith, St. Paul. I will publish to the world how Dr. Fay cured me of an old disease everyone said could not be cured. -Mrs. Peter Hess, 1813 N. Second St., Minneapolis.

SCREENS AT NIGHT

TRAGEDY OF SOME KIND SUSPECTED BY RESIDENTS OF PORTLAND PLACE

Residents of Portland place, between Twenty-sixth and Twenty-seventh streets, Minneapolis, vainly endeavored yesterday to discover the source of the wild screams for help which disturbed their rest between 1 and 2 o'clock Saturday morning. They were persuaded that a tragedy had been enacted in that neighborhood, but morning failed to expose any evidences of a death struggle.

BIG DAY FOR BADGE FUND

Nearly a Thousand Dollars Added to the Total Raised in Minneapolis for the Return of the Thirteenth

—Eli Torrance to Respond to the Address of Welcome to the Grand Army.

Residents of Portland avenue, between Twenty-sixth and Twenty-seventh streets, Minneapolis, vainly endeavored yesterday to discover the source of the wild screams for help which disturbed their rest between 1 and 2 o'clock Saturday morning. They were persuaded that a tragedy had been enacted in that neighborhood, but morning failed to expose any evidences of a death struggle.

At the time in question the majority of the people in the block were aroused by the screams of a man, accompanied by the clatter of hoofs as a horse went by, driven at a furious pace. The first cry came at about the time the horse and buggy crossed Twenty-sixth street. Then came two loud calls for help, which were followed by a piercing yell, which was kept up until the horse and carriage had crossed Twenty-seventh street, and were speeding toward Twenty-eighth.

As suddenly as the disturbance commenced it ceased. The horse was apparently reined up abruptly, and for a brief space there was not the slightest sound. The silence was broken when the horse again started off, at the same breakneck pace, urged, as it appeared, to the limit of its speed. It kept going straight on out the avenue until the sound of its hoofs died away in the distance. At the same time another horse and carriage turned into Portland from the direction of Park avenue on Twenty-seventh, and followed after the other vehicle.

The only police protection in that portion of the Eighth ward at night is that afforded by a lone mounted officer, who has a wide territory to cover, and cannot make the rounds more than three times a night. The unusual occurrence between the rounds, and the officer on the night shift consequently knew nothing about it.

BIG DAY FOR BADGE FUND

Nearly One Thousand Dollars Added to the Minneapolis Total.

Yesterday was a big one for the Thirteenth Minnesota regiment transportation fund. It was benefited day, and nearly \$1,000 was added to the money now on hand, making the total at the end of the second week about \$10,500.

The Banda Rossa concert at the Exposition building were both well attended. The excessive heat kept many away, but particularly during the afternoon, but notwithstanding this fact nearly 1,800 people were present at the matinee and 3,900 at the evening entertainment. At the conclusion of Maude Umer Jones' rendition of "The Star Spangled Banner," the audience were enthused. Handkerchiefs were waving and applause was deafening. Mrs. Jones was recalled three times.

A feature was the presentation by Mayor Gray, on behalf of the Twin City Rapid Transit company, of a beautiful gold medal to Sig. Sorrentino, leader of the stage was the occasion of an outburst of applause in recognition of his efforts in behalf of the Thirteenth fund.

COAL DEALERS DENY.

Say Lack of Bids Was Not Due to Any Agreement.

Whatever Minneapolis may conclude to do in the matter of laying in a fuel supply for the winter, it is all one to the fuel dealers. They claim to be on an easy street, along with the lumbermen and other dealers, and quite indifferent regarding the city's course.

That explains why they made no bids in answer to the second invitation of the council. It was no concerted movement, they claim, simply a business proposition in each case.

ELL TORRANCE HONORED.

Will Respond to the G. A. R. Welcome at Philadelphia.

Judge Eli Torrance, of Minneapolis, judge advocate general of the National G. A. R. organization, has had a high honor conferred upon him. The acting commander in chief has selected him to respond to the official welcome of the governor of Pennsylvania and the mayor of Philadelphia to be extended by them to the national encampment at Music hall, Philadelphia, Sept. 8.

FIVE-CENT FARE.

The Street Railway Makes Reduced Rates for the Fair.

The street railway company has announced that the fare to the state fair this year will be five cents from each

HOW'S THIS?

We offer One Hundred Dollars Reward for any cure of Catarrh that cannot be cured by Hall's Catarrh Cure.

We, the undersigned, have known F. J. Cheney for the best fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WEST & TRUAX, Wholesale Druggists, Toledo, O.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 50¢ per bottle. Sold by all Druggists. Testimonials free.

Hall's Family Pills are the best.

ONE, TWO OR MORE

THE NUMBER OF WIVES OF DR. GWIN, OF FALL RIVER, MASS.

SOMETHING OF A PUZZLE

Most Remarkable Mixture of Divorces, Elopements, Requisitions and Habeas Corpus Proceedings, Involving the Laws of Three States—The Man in the Case a Fall River Dentist.

In the matrimonial entanglements of Dr. Walter R. Gwin and his wife, nee Eva May Lake, of Fall River, Mass., there is material for a Sardan drama of mediæval interest. It includes an elopement, a midnight marriage, a flight across the continent, an arrest for bigamy, alleged kidnaping at the hands of a deputy sheriff and the groom's forcible return to the state of Maine, where at the present time he is in duress via, separated from the bride of his heart by 4,000 miles. The case is set for trial Sept. 19, and startling disclosures are promised, involving the legal machinery of three states.

THE MAN IN THE CASE.

Dr. Walter R. Gwin is a dentist of Fall River, Mass., a well-to-do, fastidious, and successful man, and prosperous in his profession. He is a native of Maine, and has been a resident of Fall River for several years ago, and entered the dental office of a Frenchman, Mr. M. A. Congdon. The latter had a very pretty and capable wife, and he neglected her for another known as "The Princess." Mrs. Congdon sued her husband for divorce, obtained the decree, where-

he had given Gwin any such advice as the accused had claimed. The answer came back "No," so the requisition papers were signed, the doctor re-arrested and given into the hands of Inspector Medley.

Then the California lawyers took a new hand in the case, gaining a point in another writ of habeas corpus on the ground that there were no sworn statements under oath in the affidavits, and on this technicality Dr. Gwin was once more released to pursue his dearly earned moon. But after the technicality was pointed out, which was accomplished by Governor Gage with a stroke of the pen a day or two later, Medley made another dash for Dr. Gwin, and to insure his safekeeping, spirited him away over the border of Nevada at hot haste, with the help of the sheriff of Santa Barbara, just as another writ of habeas corpus had been granted by a California judge. But it was now too late, and from the arms of his bride, the prisoner was in his desolate way eastward on the overland mail in the keeping of Inspector Medley and Counsel Swift. This was the coup de grace of the Bennett Lake contingent.

SIGHING FOR HIS BRIDE.

Dr. Gwin's constant thought was his girl bride. The fact that he was not allowed to know whether he was being spirited bore heavily upon him, and he claimed that, until he was well out of the state of California, he did not realize what was happening to him. On Friday, August 4, the prisoner was taken to police headquarters in Boston and that same evening delivered up to the authorities of Piscataquis county, Maine. The next day he was arraigned at Dover on the charge of bigamy, pleaded not guilty and committed in default. There will be the amount of two thousand dollars. The prisoner's father has come on from California to assist his son, and has secured eminent legal advice.

THE BRIDE IS SECURED.

As for the girl bride, whose devotion and charm have won hearts on every hand, her flight and her high challenge long her enemies and delighted her romantic friends. She is to be accompanied, namely, bringing Eva Lake Gwin back to her home, parents and friends, has not been accomplished. She steadfastly refuses to leave California, con-

vote for their local favorites the McLean men claim not less than forty-five more, making their vote 523, or 121 more than necessary. The contested votes will not change the results as the contests are said to be between McLean men mostly. The principal contest is over the fifty-four votes in Plymouth county.

Advice from different parts of the state tonight concede the nomination of McLean and show a general sentiment for Charles Kilbourne for lieutenant governor.

MR. BRYAN'S PLATFORM.

He Makes It Clear in an Interview at Kansas City.

KANSAS CITY, Mo., Aug. 25.—William J. Bryan stopped here between trains today while en route to Denver.

"I shall continue to discuss silver," said Mr. Bryan in response to a query, adding: "There was a story from Des Moines, Ia., recently, that I was putting silver in the background. I am not. I will not. I was incorrectly reported. Silver will be placed alongside of the other great issues, and it will be given its due share of consideration. I stand by the Chicago Democratic platform."

"When a new baby is born in a household, the parents do not expel the other children. Because the Democratic party is making a fight on imperialism, militarism and trusts is no reason why we should send from our household the other children. We should gather all these children into our arms and fight for them."

FIGHT NEWS CONFIRMED.

Dominean Revolutionists Worsted the Government Forces.

CAPE HAYTIEEN, Hayti, Aug. 26.—News has just been received here confirming the report of yesterday's fighting in Santo Domingo, between the government forces and those of the revolutionists.

Gen. Pacheco, at the head of 400 men of the revolutionary troops, fought the government troops for three days, inflicting heavy losses. It is reported that the government force lost 150 men killed and wounded, and that the revolutionists captured two field pieces. In addition, Gen. Antonio Calder, one of the govern-

MRS. JOSEPHINE DE CONAGUE GWIN DR. WALTER R. GWIN. EVA-MAY LAKE

ment commanders, was killed and severely wounded. The revolutionists lost only thirteen men killed, besides several wounded.

GEN. FUNSTON'S MEN.

They Will Sail for Home About Sept. 5.

KANSAS CITY, Aug. 25.—A cablegram from Manila today says: "The Twentieth Kansas regiment and Gen. Funston have been assigned to sail on the United States transport Tartar about Sept. 5. The Tartar will go to San Francisco by way of Hong Kong. Nine officers and 800 men of the regiment have been discharged to date and 150 are sick. None of the invalids are in danger."

REACHED NO DECISION.

George H. MacRae, assistant general passenger agent of the Omaha, returned yesterday from a meeting in Chicago, called to consider military rates. The meeting was held in Chicago, and the Omaha rates were discussed, but no action was taken.

CHICAGO EARNINGS.

CHICAGO, Aug. 25.—The net earnings of the Chicago system for the month of July were \$78,113—an increase of \$48,129 over the net earnings of the same month last year.

RAILWAY NOTES.

President Mellen of the Northern Pacific will return Monday from New York. S. W. Burn, general counsel of the Northern Pacific, is expected home from Europe on Tuesday.

G. H. MacRae, assistant general passenger agent of the Omaha, returned yesterday from Chicago.

S. L. Carman, of the Queen and Crescent route, was in the city yesterday.

Oscar Vanderbilt, general agent of the Northern Pacific in St. Paul, returned yesterday from Fargo.

The Great Western's spur into Fairbury, to give connection with a new depot which is being built there, is well advanced, and will be completed before snow flies. Donald Grant of Fairbury, has the contract for the work.

DANCING EGGS.

Remarkable Phenomenon of Insect Life Found in California.

San Francisco Cal.

The sulphur smoke and arsenical fumes thrown off into the otherwise clean atmosphere of Shasta county by the smelting and roasting operations of the Mountain Copper company have been responsible for more than one strange phenomenon in plant and insect life. The latest expression is perhaps the greatest novelty of all.

It has just been discovered that the leaves of the common oak tree hereabouts are swarming with embryonic life. Masses of eggs, so small as to give the appearance of an unhealthy spottedness, adhere to the under side of the leaf, and as they advance toward maturity they drop to the ground and dance about like electrical automata. By holding an oak twig containing any number of eggs to one ear a crackling sound may be heard, like the spitting of electric sparks. The shell contains a tiny grub, working for release, but what shape it takes upon reaching maturity is unknown.

The curiosity is attracting a great deal of local attention. In many places in town collections of the eggs are on exhibition. A quantity is laid on a table and immediately they begin to disport themselves, bounding about and springing into the air sometimes to the height of sixteen inches. They are particularly active in the early morning.

No one is able to account for the phenomenon. A theory is advanced that this embryo parasite is a result of the abundance of its natural enemy, the common insect life, which long ago fell a victim to sulphur smoke and arsenical fumes. The latest insect novelty takes rank with the sulphur bug, which 's at home in the red-hot roaster piles stretching along the mountain side above Keswick.

AMERICANS AMBUSHED.

Three of a Party of Four Killed by Filipinos.

MANILA, Aug. 26.—Four men of the Twenty-third regiment, stationed at Cebu, were ambushed by natives in the hills and three of them killed. The fourth man succeeded in making his escape. Details of the affair are lacking.

DENIES THE STORY.

Col. Shepherd Says Union Veterans Indorse the President.

SIoux CITY, Ia., Aug. 26.—The statement is absolutely false that the national gathering of the Union Veterans union, at its session in Des Moines, just closed, passed resolutions criticizing President McKinley in regard to the current war, and denounced his efforts to suppress the insurrection in the Philippines," declares Col. A. Shepherd, of Bryant, S. D., who was in the city on his way here from Des Moines, where he had been as a representative of the South Dakota organization in the union. "The fact is," said Col. Shepherd, "the sentiment of the gathering was altogether favorable to support the administration in the conduct of the war against the Filipinos."

CONCEDED TO McLEAN.

Results of County Conventions Were Favorable to Him.

CINCINNATI, O., Aug. 26.—At the county conventions in different parts of the state, today, the list of delegates for the Democratic state convention at Zanesville, next Tuesday and Wednesday, was completed, showing the following results: Lane, 28; McLean, 27; Sherman, 26; Seward, 25; Chapman, 7; Hasbani, 8. Of the 55 delegates, 40 voted for McLean over the first ballot, or seventy-six more than necessary.

After the delegates once record their

Rheumatism, Lumbago, Sciatica, Kidney Complaints, Varicocele, Lamé Back, Etc., Dr. Sinden's Electric Belt

With Electro-Magnetic Suspensory. Latest Patent. Best Improvements.

Will cure without medicine all weakness resulting from over-taxation of brain nerve forces, excess or indigestion, as nervous debility, indigestion, languor, headache, kidney, liver and bladder complaints, lamé back, lumbago, sciatica, all febrile conditions, general ill health, etc. The Electric Belt contains Wonderful Improvements over all others. Current constantly fed by wear, or we forfeit \$5,000.00, and will cure all the above diseases. Thousands have been cured by this marvelous invention after other remedies failed, and we give hundreds of testimonials on this subject every other state.

Our powerful new ELECTRIC SUSPENSORY, the greatest boon ever offered weak men, restores vigor and vitality. It is used and Health Belts.

Use it and Health Belts.

Restored to you in from 60 to 90 days. Dr. Sinden's method of full information regarding this method of cure, and root of cure, "Free" at office or by mail, call on or address Sinden Electric Belt, 133 Nicollet St., St. Paul, Minn. Send for Free Office Book.

THE BRIDEGROOM ARRESTED.

Constable Stewart, of Santa Barbara, Cal., was instructed to arrest Gwin at sight, and did so while the lawyer and detective were en route from Los Olivos, arriving there after a terrible all night ride over mountains 5,000 or more feet above sea level.

Dr. Gwin was arrested at daybreak, as he and his wife were taking the train from Los Olivos, and when the prisoner taken thence to Santa Barbara jail.

Not long did the dentist remain in duress via. His pretty and plucky bride rode seventy miles to the home of her father-in-law and told the tale of her troubles. Help came to her rescue. State Senator Boyce was retained as counsel, a writ of habeas corpus obtained, and Gwin was released.

By this time Mr. Swift and Inspector Medley, of Fall River, had arrived at the office of Gov. Gage at Los Angeles. There they found their prospective prisoner, his clinging and courageous bride, his father and counsel, and together they

THE LAWYER DENIES IT.

The governor telegraphed to the Fall River lawyer, Alvin G. Weeks, asking if

A MAN WITH TWO HEARTS

The two headed girl has become a commonplace of the dime museums, but there is a remarkable man with two hearts who has been going the rounds, who is probably the greatest anatomical wonder of the age.

He is a colored man, William King by name, and he hails from Bedford, Mass. The other day he stepped into the office of Dr. John H. Lawrence, of Brooklyn, to be

movements with his instrument, and could hear plainly the thumping of the organs wherever they were placed.

"I have not the slightest doubt that the man really possesses two hearts," said Dr. Lawrence to me the other day, "but I am going to make a practical and convincing demonstration of the fact by taking an X ray photograph of this extraordinary phenomenon."

King is at present up in Boston, but the doctor proposes to get him to Brooklyn again and then reveal the inner man by means of the X ray. This, of course, will be the best possible proof that Dr. Lawrence's opinion is correct, says the New York Herald.

But Dr. Lawrence is not the only physician who bears testimony to King's remarkable plurality of hearts. Some time ago King visited a cousin who lives in Plainfield, N. J., and there he was examined by the medical staff of the Mulienberg hospital.

Dr. Munroe B. Long, a member of the staff and a physician of high repute, said:

"The medical fraternity has found instances where the heart was on the right side and the liver on the left, and some with the stomach turned around, and others with organs misplaced in various ways, but this man King is the wonder of them all."

"King has one heart on the right and one on the left side of the chest, which separate beats in unison could be plainly determined. By certain muscular contractions King let one heart drop to the left iliac region, where I clearly heard the beating; then let the other heart drop to the right iliac region, where its beating was also plainly heard, both beating in the lower part of the abdomen in unison."

"Next King threw over the interior of the abdomen in order to a hundred years ago King visited a cousin who lives in Plainfield, N. J., and there he was examined by the medical staff of the Mulienberg hospital.

"The medical fraternity has found instances where the heart was on the right side and the liver on the left, and some with the stomach turned around, and others with organs misplaced in various ways, but this man King is the wonder of them all."

"King has one heart on the right and one on the left side of the chest, which separate beats in unison could be plainly determined. By certain muscular contractions King let one heart drop to the left iliac region, where I clearly heard the beating; then let the other heart drop to the right iliac region, where its beating was also plainly heard, both beating in the lower part of the abdomen in unison."

"Next King threw over the interior of the abdomen in order to a hundred years ago King visited a cousin who lives in Plainfield, N. J., and there he was examined by the medical staff of the Mulienberg hospital.

Dr. Munroe B. Long, a member of the staff and a physician of high repute, said:
