THE NEW COLONIALISM.

Senator Lindsay, of Kentucky, has enriched the literature of imperialism by a very heavy, even if seemingly profound, constitutional dissertation on the right of the United States to go into the colonial business.

FORCING JOSEPH'S HAND.

Unregenerate son of a Dutchman, as Paul Kruger, of the Transvaal, is the old Boer, for all that, shows a pretty shrewd insight into the noble Anglo-Saxon character.

THE GASOLINE CRIME.

The lady who uses the gasoline fluid after the fashion in vogue among the Chinese for providing roast pig is again in evidence.

AT THE THEATERS.

METROPOLITAN.

The Banda Rossa played Verdi last night at the Metropolitan, and played it as only great artists can. Tonight a magnificent programme of Wagner's music is to be given.

GRAND.

Yesterday's matinee at the Grand gave evidence of the popularity of Mathews Bulger with feminine theatergoers by the large number of women present.

DR. CAINE MAKES A SUGGESTION REGARDING OUR COMING CELEBRATION.

To the Editor of the Globe:—I am glad to see your valuable paper what the expense is for taking the "Nelson Cure," or getting a clearance through the national bank.

ONLY ONE BALLOT.

Continued from First Page. We demand a return to rigid economy in the administration of public affairs and a proper reduction of all fees and salaries.

NEWS OF A DAY IN BRIEF.

London.—A consignment of carrier pigeons for military service was sent today from Dover to the United States.

succession of such occurrences as those which have just taken place in Minneapolis through the misuse of gasoline. There never is any explanation to offer which does not involve the criminal carelessness and folly of the person using the fluid.

These cases call for the most stringent regulations both on the part of municipal authorities and on the part of the insurance companies. Of course the fluid is harmless and useful if it is only used with any reasonable degree of care.

Whatsoever may be the proper additional regulations it is quite apparent that until the local ordinances governing the use of gasoline are rendered much more stringent we will continue to have just such lamentable experiences.

TRUE DEMOCRATIC DOCTRINES.

There is so much to approve in the declaration of principles adopted by the Democracy of Ohio that those who do not agree with that declaration in its entirety have reason to rejoice that the principal dangers which beset American institutions as the result of the reckless and irresponsible course of those who control our national administration are set forth so clearly.

Not only are the Ohio Democrats strong in their statements of their hostility to the dangerous tendencies of the imperialists, but in the positive policies advanced as indicative of the position of the party, the declarations made are such as must appeal successfully to the sober judgment of the American people.

The time has undoubtedly come for the assertion by the party of the doctrine that United States senators should be chosen through the popular voice. The scandals which have attended the present mode of selection, and which have more particularly distinguished such contests in the state of Ohio, make a change in this behalf a matter of public decency.

There was considerable farce comedy business in Mr. McKinley's confession of his Philippine policy to the sea waves at Ocean Grove, N. J. Statistics show that the number of hatpin murders is decreasing, and the number of engagements increasing. The girls are captivated.

A Cleveland man proposes to consolidate the trusts. Of course this idea originates in Ohio—the home state of Mr. McKinley. Come fight home, Mark. The Republican party is seriously snagged on the Capt. Carter case.

It is reported that Gen. Wheeler has taken command of Gen. Funston's brigade. But can Gen. Wheeler swim? Sir Thomas Lipton has left for America. The next time he is left will be duly recorded in the Globe.

Perhaps the administration would compromise the Carter case on a basis of 50 cents on the dollar. Affairs are said to be critical in the Transvaal, but Oom Paul is still chewing ultimatums.

The Carter case is up to Mr. McKinley. Hereby hangs a tale. The Sultan of Sulu is fast growing into a big political issue.

The "crisis" in the Transvaal seems very prolonged. Democratic Leaders See the Light. The Journal prints today a significant article from the pen of Mr. Clark Howell, editor of the Atlanta Constitution.

It is claimed that Gen. Mercer is game. He seems to be for Mr. Labor. The Carter case is up to Mr. McKinley. Hereby hangs a tale.

The old issues which stand in no need of definition, should be reaffirmed in a paragraph, and the new ones clearly and definitely defined. The Democratic position will be in no danger of doubt or misdirection.

Mr. Howell is a leader of the young Democracy of the South. His paper is one of the most influential in that section. He has said that he is Bryan's devoted friend. The article is a fine silver man, cannot charge him with being a traitor or a coward.

Steadily and inexorably this great natural diplomat and seer is forcing the astute secretary of the British colonies into the position that his appeal to force, if it ever comes, must be regarded by their

well. Let not the magnitude of the coming reception of the Thirteenth cast a fog around the people that will cause other regiments which participated in this war to be forgotten.

During the effervescence of sentimentality would it not be just and fair for the people of this great commonwealth, particularly those residing in the Twin Cities, Stillwater, Red Wing and St. Cloud, who have been sparing no effort to raise the funds for transportation and the grand reception for the gallant Thirteenth to reorganize the regiment as a quota in the calls for volunteers, made by President McKinley, consisted of four regiments of infantry—the Twelfth, Thirteenth, Fourteenth and Fifteenth—also the Twelfth Minnesota was the first regiment mustered into the service of the United States in the war with Spain.

Another feature is the elimination of John P. Aitgold from the national committee of the ways and means committee of the Democratic national committee. His appointment was announced by W. J. Stone today, it being one of the features of the reorganization plan decided upon at the Chicago meeting July 29.

DEMOCRATIC WORKERS.

Reorganization of the National Committee is Daily Announced.

ST. LOUIS, Mo., Aug. 30.—John R. McLean, Democratic nominee for governor of Iowa, was named as the new head of the ways and means committee of the Democratic national committee. His appointment was announced by W. J. Stone today, it being one of the features of the reorganization plan decided upon at the Chicago meeting July 29.

INVITE ALL REGIMENTS.

To the Editor of the Globe:—I am glad to see your valuable paper what the expense is for taking the "Nelson Cure," or getting a clearance through the national bank. I am a subscriber.

ONLY ONE BALLOT.

Continued from First Page. We demand a return to rigid economy in the administration of public affairs and a proper reduction of all fees and salaries. Political bosses are to be detested and are inimical to our form of government.

NEWS OF A DAY IN BRIEF.

London.—A consignment of carrier pigeons for military service was sent today from Dover to the United States. Harrisburg, Pa.—The American Iron and Steel Manufacturing company of Philadelphia, filed notice in the state department today of an increase in its capital to \$20,000,000.

DELIGHTFUL CANDOR.

There is a whole lot of dreadfully poor lines being mentioned for governor, says Editor Pease of Anoka, which is a pretty hard "knock" considering the fact that he is one of the most prominent of those mentioned.

DAVIS' BIG PURCHASE.

Why should the sultan of the Sulu islands, a portion of the Philippine group, be offered a liberal sum of money to relinquish his title? Didn't Cash Davis buy the whole territory, Christians, Pagans and Mohammedans, bag and baggage? Is our Uncle Samuel going to buy off the Mohammedans and kill off the Christians in the name of the United States?

MUSCLES IN A MOTH.

As many as 4,061 muscles have been counted in the body of a moth. For attorney general, the names of W. H. Dora, of Seneca; J. C. Ridmore, of Allen; P. E. McKranz, of Loras; R. Rockwell, of Portage; A. R. Bolin, of Pockaway; and Charles R. Caldwell, of Perrin, were polled.

STREET CAR WRECKED.

DYNAMITE AGAIN BROUGHT INTO REQUISITION IN THE CITY OF CLEVELAND.

INNOCENT PATRONS INJURED.

Five Passengers Are Badly Hurt by the Explosion—Crew of the Car Escaped Uninjured—Car Was Torn to Pieces and a Panic Ensued—Noise of Explosion Heard Three Miles Distant.

CLEVELAND, O., Aug. 30.—A Consolidated street car on the Wilson avenue line was blown up at the corner of Scoville and Shilby streets this evening. There were twenty passengers on board at the time, five of whom sustained broken legs. The other passengers on board and crew escaped injury.

HAPPY THOUGHT.

But It Was Taken Advantage Of by Another Than Its Author.

New York World. A stranger appeared in the New York club house at Long Branch and indulged in a game of roulette. He lost \$100 in as many seconds. Then he went over to the cashier and asked if his personal check of \$1,000 would be accepted. His check was not cashed.

TO A CLAM.

O thou who dwellest in the mud Down by the salty sea; Thou clam, why all the poets slight, I'll sing a song to thee.
