Address all orders to **W. C. SCHWEYER & CO., 609 St. Louis St., CHICAGO.**

Orders for Ariz., Col., Cal., Idaho, Mont., New Mex., Nev., Ore., Utah, Wash., Wyo., and Alaska, must be accompanied by express receipt.

HEALTH IN JEOPARDY

THE GARBAGE PROBLEM HAS BECOME A SERIOUS MATTER IN MINNEAPOLIS

ACTION DELAYED ONE WEEK

Hearing in the Matter of the Injunction Proceedings Was to Have Been Held Yesterday, but Was Put Over—Woman Killed by a Train—The Fall of an Elevator Operator Fatal.

GLUEBE'S MINNEAPOLIS OFFICE, 20 WASHINGTON AV. SOUTH

"Neither the council nor the public at large appear to realize that the city's health is in jeopardy and that we are standing over a magazine," was the startling statement of Health Commissioner Norton, of Minneapolis, yesterday afternoon in referring to the garbage injunction matter.

"So far as the city is concerned," he resumed, "we are placed in a peculiar position and have not the power to act as long as the matter is in the hands of the court, although something must be done in the way of disposing of the garbage without delay."

Dr. Norton intimated that it will become necessary for the department to act in order to protect the health of the community, and it is likely that the first of the week he will employ teams to have the garbage removed to the farm of Contractor Frame, or some other point, for out of the city it must go.

Yesterday afternoon a hearing on the writ of injunction was to have taken place before Judge Brooks, but upon the agreement of counsel the case was continued for one week, so that the situation is more complicated than ever.

Frank M. Nye, appeared for the people of Robbinsdale, and A. H. Noyes was present for Contractor C. T. Frame. The latter asked for a continuance, which was agreed to with the understanding that Contractor Frame would have had any more garbage in the meantime.

The action of the court in postponing the hearing for a week will make it necessary for immediate action on the part of the health officers, and late yesterday afternoon Dr. Norton held a conference with City Attorney Healey, but no definite plan was decided upon. In order that the matter may be passed upon by the higher court, it is probable that decisive steps will be taken tomorrow, as the matter is one that will admit of no delay.

KILLED BY A FALL

Elevator Operator Drops to Death in a Minneapolis Hotel.

David W. Burkholder, an elevator operator employed by the North Star Boot and Shoe company, was instantly killed about 9 o'clock last evening by falling over the banister on the fourth floor of the Grace hotel, 49 Washington avenue south, to the second floor, a distance of over fifty feet.

Ernest M. Weyl is the name of a guest at the old Washburn residence, on Seventh street and Fifth avenue, Minneapolis. The house is now a private hotel, and M. Weyl is staying there with his wife. M. Weyl is a cousin of Capt. Dreyfus, the victim of the Ile du Diabie, who is now being tried before the international military court at Rennes. The presence of the former in Minneapolis suggests a connection between him and the mysterious Weyl who is held by the anti-Dreyfus club in France to have figured as a chancy man in the transmission of state secrets between Dreyfus and Esterhazy. M. Weyl states that he is a relative of Dreyfus, but says he has not been in France for twenty years.

BIG STORE BENEFIT

Entire Proceeds Will Go to the Thirtieth Regiment Fund.

Next Wednesday evening at Olson's Big Store there will be a military concert. One of the city will be engaged and an admission of 10 cents will be

516 Guaranty Loan Building.

MINNEAPOLIS, MINN.

Special Attention Given to Country Orders.

Monday evening and the regular business session will be held throughout the day Tuesday, in the city office, about the city and a sailing during the afternoon on the lake.

Lost a Leg. MOUNTAIN LAKE, Minn., Sept. 2.—Brakeman Ross Conroy had his right leg cut off and his left leg broken by a freight train. Two freight cars met the passenger here, and there not being room on the train for the injured man he was left out as baggage, and fell asleep on the track. The injured man's home is in Worthington, where he has a wife and two children.

Bird Island Not Broken. REDWOOD FALLS, Minn., Sept. 2.—It is now stated that Bird Island will apply to the courts for a mandamus compelling the Reville county commissioners to call an election on the petition of that town asking that the question of removing the island be referred to the voters of the county.

New Mill Located. FARGO, N. D., Sept. 2.—The Northwestern Electric Light & Power Co. has located another mill at Arden, in the northern part of the county. This is the third mill located by the company at Moorhead. The company will put in six altogether and have them in operation this fall.

Killed His Brother. ALBERT LEA, Minn., Sept. 2.—While two sons of a farmer near Chickadee, of Rice Lake township, were out hunting ducks on Rice lake, the younger, a lad fifteen years of age, was shot and instantly killed. The older boy took aim and discharged the gun just as his brother raised up, missing the entire charge in his head.

Prison Report. PIERRE, S. D., Sept. 2.—The report of Public Examiner Taylor on the penitentiary management under N. E. Hill, besides a mass of detail, charges the board of charities and corrections with having in November, 1898, a large number of the warden from \$1,300 to \$2,000 per year and issuing a voucher to Phillips for \$1,300 back pay for five years.

Miner Suffocated. DEADWOOD, S. D., Sept. 2.—The dead body of George J. Johnson, an old timer in the Bear Gulch mining district, was found in the bottom of a shaft on Beaver creek, the first of this week. It is supposed that the man descended the shaft before the bad air had been driven out.

Shot Herself Twice. FARGO, N. D., Sept. 2.—Celia Anderson, a young woman domestic, attempted suicide this afternoon by shooting herself twice with a revolver. Despondent was the cause. Her parents are farmers near Buffalo, Minn. The girl may recover.

Finally Successful. FERGUS FALLS, Minn., Sept. 2.—C. J. Olson, who was released from the insane hospital here last week, has succeeded, after several unsuccessful attempts, in committing suicide.

Sudden Death. FERGUS FALLS, Minn., Sept. 2.—John Erickson, of the town of Aastad, dropped dead just as he had finished some threshing work on a farm near here. He was twenty-two years of age.

Killed While Hunting. WILLMAR, Minn., Sept. 2.—Harry Williams, son of Fred Williams, of the local telephone exchange, was accidentally shot and instantly killed near Raymond. The young man was hunting in company with his father and President Tallman, of the Minnesota Central Telephone company.

Fire Anniversary. SANDSTONE, Minn., Sept. 2.—Yesterday was the forty-first anniversary of the Hinckley fire, and appropriate services were held in the afternoon in the cemetery in memory of the six men who died whose remains are interred there.

CRAMPS ARE CRAMPED. Notify the Government of the Strike at Their Yards.

WASHINGTON, Sept. 2.—The Cramp Ship Building company of Philadelphia has given formal notice to the navy department of the strike now occurring in their shipyards. This is in accordance with the contract for the building of the battleships Maine and Alabama, which provides heavy penalties if the ships are not turned over to the government on time, but a proviso makes the penalty applicable only when the delay shall "not be caused by a strike or standstill of workmen."

TERRIBLE COST In Health and Suffering of Foolhardy Athletic Feats.

New York Weekly. Dr. Edward G. Clifton, attending physician at the Northeastern dispensary, in Fifty-ninth street, is an authority on heart diseases and has taken a keen interest in the recent experiment of Charles Murphy, who rode a mile on a bicycle in 57.45 seconds behind a locomotive, as well as the feat of a woman who completed a bicycle ride of 100 miles in forty-eight consecutive hours. Dr. Clifton said yesterday:

"It might be well for those who contemplate similar foolhardy feats to fully consider the cost to the human body, to say nothing to the immediate risk to life. There is the effect upon the heart, the most important of the vital organs. Do these athletes realize that they understand that the human heart in a healthy adult, normally beating from seventy-two to eighty times per minute, must necessarily, under the enforced labor, increase its speed to double or more that number of pulsations, and that such an enormous and sudden increase must have a profound effect upon such a sensitive organ?"

"The effect is, first, a dilation of the ventricles of the heart and an increase in the tension of the valves. Either the ventricles or valves rupture, producing instantaneous death. But suppose this extreme does not happen. The athlete perhaps thinks that from that one violent spurt of a few seconds or minutes, which has brought him temporary fame, he may have to suffer the remaining years of his life spending from heart disease and endocarditis, the direct result of that superhuman effort against Father Time. When he has once developed chronic endocarditis he is at all times liable to sudden death."

"All the organs of the body suffer in their turn. The disease produced in these organs may become chronic and make life miserable for the victim. There may be a rupture of the blood vessels in various parts of the body; the brain may be attacked, which would produce what is commonly known as apoplexy. Death may result from a hemorrhage of the lungs. This is known to have happened in cases in which the exertion was less than in the cases referred to. I have considered the heart because it is the organ that feels the effect first and because it is the organ that is most that causes death in the majority of cases."

"Athletics, as practiced at the large universities and colleges, is a science and promotes the highest type of physical and mental development. In these institutions there is a physician to examine the candidate. Careful measurements are made, systematically, and the effect upon the heart and lungs is noted. It is when a man has not this care and then makes some violent effort to accomplish a certain feat out of proportion to his training that disastrous results may be expected. Physical endurance has its limit, and only the foolhardy who will force the limit."

"A woman is, by her more delicate construction, less adapted to these strains than a man, and in her case she is liable to diseases not to be reckoned upon in man. Even if she survives she is unable to and usually has some chronic disease."

"I consider feats similar to the ones cited as foolhardy and unsportsmanlike."

NEWS OF THE LODGE ROOMS.

MACCABEES. I. N. Chellev, state deputy supreme commander of the Maccabees, has been transferred from Duluth to this city, and has opened up offices at No. 716 Globe building. Arrangements are being made with the local tent to get up a large class of candidates—at least 500 is expected. Supreme Commander D. P. Merkey and Supreme Medical Examiner R. E. Moss will be present at the initiation of this class to take a prominent part in a literary and musical entertainment and banquet which is being arranged for the following evening. A committee from each tent will receive Mr. Chellev's office today at 10 a. m. for the purpose of making preliminary arrangements. The order of the Maccabees is in a very prosperous condition, having nearly 400,000 members and a surplus and invested in government bonds of nearly \$1,000,000. It has reached its eighteenth year and has a general jurisdiction over the entire continent. It has over 6,000 subordinate tents and lives in forty-five states and provinces of North America; it has an equitable, graded rate for assessments, so that the young man does not pay more than his share; the expense of membership as compared with the old; it requires a thorough and careful medical examination of every applicant for beneficial membership; members pay assessments

monthly. The objects of the order is to unite fraternally all white persons of sound body and good moral character, who are socially acceptable, between 18 and 70 years of age, and to provide for death, sickness, accident, disability and old age benefits to those between the ages of 18 and 55 years, and to educate the members socially, morally and intellectually. The business of the order is conducted through a "supreme tent," "great camps" and "subordinate tents and hives." It is not a close corporation by any means, as the members, through the representatives of Memorial day, the laws and elect all their officers. The supreme tent is the lawmaking body of the order. Its officers are elected every two years by representatives chosen by the camps and state conventions. A great camp may be organized in any state or province where there are 100 subordinate tents and 3,000 members, and when organized the general control of the order within such state or province. Subordinate tents may be instituted with not less than twenty members, at least fifteen of whom must be life members. Persons can only participate in the benefits of the order through membership in some subordinate tent.

A. O. U. W. An enthusiastic meeting of the committee of the A. O. U. W. and D. of H. lodges of the city, appointed to arrange for the appropriate observance of Memorial day on the 24th inst., was held on Sept. 1. Every member of the committee was present and subcommittees were appointed to perfect all the details of arrangements. There is a great amount of interest taken in the movement this year, and there is no doubt that the day will be observed by a much larger number of workers and members of D. of H. lodges than was the case last year. The people's church has been selected as the most fitting place of meeting. An appropriate parade is to take place, the lodges appearing in regalia and with their banners. A band will head the parade and an appropriate programme has been prepared for the exercises at this event will be the largest gathering of Foresters which has taken place in St. Paul for some time.

INDEPENDENT FORESTERS. Court Minnesota No. 453 will celebrate its tenth anniversary at Bowley hall on Saturday evening, Sept. 9. The programme will consist of speeches and reminiscences by the charter members of the court, interspersed with musical selections and readings. Refreshments will also be served. The members of the high standing committee and all the courts of the city have been extended an invitation, and it is expected that this event will be the largest gathering of Foresters which has taken place in St. Paul for some time.

KNIGHTS OF PYTHIAS. Washington Lodge No. 74, K. P., reports another good-sized and quite enthusiastic meeting on last Wednesday evening, which was held at the lodge. Brother Pampenny, received instructions on several important matters to be brought before that body. We received two more applications for initiation and will have work in the first rank at our next meeting on Wednesday, Sept. 6.

On Wednesday next Capital Lodge No. 8, K. P., will continue the first rank and will work every meeting in September one or more ranks, excepting Wednesday, Sept. 7, when a concert and smoke social will be given to the grand lodge officers and representatives, who will be in this city at that time attending the session of the grand lodge. On that night there will be no work, but a good time for all.

ORDER IRON CHAIN. Link No. 19, O. I. C. will hold its next regular meeting Wednesday evening, Sept. 6, in Central hall.

ODD FELLOWS. Union Lodge No. 48, I. O. O. F., will confer the third degree on three new members at their hall. The degree team is being excellently worked. Members who attend can surely feel encouraged, as

A CURE FOR ASTHMA. Asthma sufferers need no longer leave home and business in order to be cured. Nature has produced a vegetable remedy that will permanently cure asthma, all diseases of the lungs and bronchial tubes. Having tested its wonderful curative power, I can report that I have a record of 90 per cent. permanently cured, and desiring to relieve human suffering, I will send you a copy of the full particulars of my cure for Asthma, Consumption, Catarrh, Bronchitis and nervous disorder, in English, with full directions for preparing and using. Sent by mail. Address: W. C. Powers, 307 E. 10th St., St. Paul, Minn.

A Chinese Soup. Fried wasp soup is considered a great delicacy in China. It is necessary to cultivate a taste for it.

Veragua Distinguished. The Duke of Veragua has two claims to distinction in his own country—he is a direct descendant of Columbus, and the principal breeder of bulls for the national sport of Spain. He has immense herds of splendid animals, which are under the charge of his brother, Christopher Columbus.

Automobiles in 1740. Vaucanson is said to have invented the first horseless carriage about 1740 years ago. The celebrated mechanician had the honor in 1740 of exhibiting the vehicle to Louis XV. of France, who was so pleased with its working that he promised Vaucanson his patronage.

NEWS OF THE LODGE ROOMS.
