BASE BALL BRIEFS. There will be three Western league clubs playing in Chicago on Sunday.

It has often been observed by the critics of the game that the star left-handed batsmen, such as Kessler and Burckett, are not handicapped by left-handed twirlers, though the media left-sided hitter always favors his in a double play when he faces a port-winger pitcher.

It is said that the Western league will have a five-months schedule next season. The magnates now realize that four and a half months is too short a season, and that neither the players nor the patrons

are satisfied. September is one of the best baseball months of the season, yet before it is half over the Western league clubs are disbanded.

The drafting season begins Oct. 1. From the present indications few players will be drafted from the Western league, all of the desirable men have already been taken. Cincinnati has the majority of them. Just what Manager Ewing contemplates doing with his kindergarten is known only to him. He has the best collection of young talent in the country.

There will be three Western league clubs playing in Chicago on Sunday. Grand Rapids, Minneapolis and Indianapolis.

Archie Latham is said to be very yellow on balls and strikes, but he's there all right on the base decisions.

Manager Mack would like to trade George Nicol for George Hogreiver. Manager Allen considered the proposition as a joke, as Hogreiver is worth three Nicols.

The Western league came nearer completing its schedule this season than any time since it was organized. Only eight games remain unplayed. Of these Indianapolis is shy four.

President Young of the National league says that he has made his last effort to hold Gaffney in line, and the king of the umpires has been finally turned away. His work this season has not been up to his former standard. His eye is not so keen.

Bretenstein will officiate on the rubber for a few more times. He is slated to fill the right field position for the Reds next season. The southpaw twirler's stickwork has been hard all season, and Bretwill will try to develop a fly-chaser out of him.
