CHICAGO, Sept. 27.-Wheat was firm

CHICAGO, Sept. 27.—Wheat was firm from beginning to end today and closed at an advance of %c. The falling off in receipts with many heavy receiving points attracted a good deal of attention and gave an undertone of strength to trading all day. Corn declined 1½c for September, but was unchanged for deferred futures. Outs declined &c for September and statement of the second form of the secon ferred futures. Oats declined &c for September and advanced &c for December. Provisions were firm and closed 21/207/20 which showed but a slight decline as market was firm to the end of the sesand more, too. This notwithstand-sterday's decline. Northwestern reespondingly heavy arrivals later the time being had no effect on The Liverpool firmness was re-y an opening advance of ½05% ecember starting at 731%073%c, December starting at 13%463%c, ander good buying, mostly by pro-nils, a further slight advance took December getting to 73%c. Realiz-less caused a temporary setback, ber reacting to 73%c, but the buy-vement soon became general and no marked advance took place from to the end of the sesrket was firm to the end of the ses 74%c, an advance of %c over yester-

bu for the French crop, the largest ever known, having some influence on traders. Corn was quite active and firm for the more remote futures, but decidedly weak for September. There were heavy additions to the contract stocks out of private houses, and elevator concerns offered freely, the price declining sharply under the liquidation. Early in the session there was considerable December liquidation, but later that option became firmer, helped by wheat and the immense exportengagements, 150 loads. Receipts were 791 cars. December ranged from 294/46304c to 20%c, and closed unchanged at 30c. September ranged from 33c to 344c, and closed 1½c lower, at 33c.

Oats were inactive and steady. There was a fair demand from shorts for December and an inclination to dispose of September, which resulted in a disappearance of the slight September premium. Receipts, 224. December ranged from 224/4223c.

STOCKS AGAIN DULL

MARKET TOOK ANOTHER STEP IN THE DIRECTION OF ABSOLUTE STAGNATION

SOME FIRM SPOTS SHOWN

the Opening Higher, and the Announcement of an Additional Engagement of Gold for the United States Was Also a Helper-Dullness, However, Soon Set In.

NEW YORK, Sept. 27 .- The stock market fell a degree further towards stagna-tion today and the activity, such as it was showed an added tendency to center in a few speculative specialties. Tennessee Coal was relatively much more prominent than for some time, and registered an ex-treme decline of 6½ points. American Tebacco showed the continued effects of the pressure to which it has recently been subjected up to the time of the announcement of the declaration of the regular dividends. The weakness in these two stocks served to hold back the market, which showed a tendency to advance which showed a tendency to advance from an early period in the day. Better advices from abroad made the opening higher, and the announcement of an additional engagement of \$750,000 in gold in London for import added to

of an additional engagement of \$755,000 in gold in London for import added to the conviction that the exchange situation admitted of regular import operations. The continued high price for money in spite of gold announcements acted as a setback to the advance as was the case yesterday. But late in the day rumors were industriously circulated of the approach of gold imports on a large scale. At the same time the money rate was quickly offered down by successive stages to 3 per cent, but before that call loans had been made at all the way from 12 to 20 per cent. It was said that money could be had at lower rates on some high grade railroad stocks, but the higher range was that quoted on the stock exchange. Even on the higher grade of collateral the margin required was widened materially. Under cover of this requirement and of what were called commissions there was room for considerable manipulation of the quoted rate. This was true in the time loan market. Very little is doing in mercantile paper, but rates are firm. Predictions of a favorable bank statement tomorrow, upon which date the cleaning house institutions orable bank statement tomorrow, upon which date the clearing house institutions are to make their weekly return, were a factor in the firmness of the market. The outgo to the subtreasury will be something less than \$50,000,000. Shipments to the interior have continued for to the interior have continued large. So far as stock market operations go there has evidently been a further contraction of loans. The character of the statement will largely depend on how far the demand for accommodations in preparations for October first settlements has offset

for October first settlements has offset this contraction.

The movement of prices in the railroad list was very narrow. Atchison preferred enjoyed a belated demand on account of its August statements, and Southern Pa rose quite strongly late in the day, stringency of the money market resulted in a decline in the sterling ex-change rate in spite of the further ad-vance in the private discount rate in London.

Oats—No. 3 oats, see, the for choice.

Rye—No. 2 rye quoted at 54½c.

Barley ranges from 39½dic. Choice malting held a little higher.

Trade is getting better and from now on should increase gradually.

Coarse corn meal and cracked corn, in sacks, per ton, sacks extra, to jobbers only, \$12,250/12.50: No. 1 ground feed, 2-3 corn. 1-3 oats, 80-lb sacks, sacks extra, The bond market was without any special feature, but was inclined to firmness.

Total sales, par value, \$1,050,000. United States 3s declined 1/4c, and old 4s coupon 1/4c in the bid price.

Ware & Leland, Chicago, telegraphed the following to Edwards & Bedell, Stock Brokers and Commission Merchants, 110 Endicott Arcade, St. Pau. Minn.: "The only feature in the market during the middle of the day was the strength in Brooklyn Rapid Transit, and the general indifference of the market to the high rates for money. There were rumors of some announcement to be made in regard to new interests in the property. Insiders say they do not anticipate anything of the kind. The decline in T. C. I. was considered due more to dear money than to any other one cause." FOREIGN FINANCIAL—New York, Sept. 27.—The Commercial Advertiser's London financial cablegram says: "The market was dull early today on the settlement, but improved on hardening of Americans due to the light account in them and a rally in Africans. Americans began dull, except for Atchison preferred. I Louisville & Nashville. Later they railied. New York came as a buyer of Atchison, and the close was cheerful."

HOG PRICES AVERAGED FIVE CENTS LOWER, WITH HEAVY RECEIPTS

CATTLE MORE COMMON

Receipts Were Heavy and Brought in a Good Many Common Bunches -But Little Butcher Stuff Was In -Buyers Bought Fairly Liberal, but Insisted on Sorting - Prices Steady at the Decline.
