Venezuelan Boundary Settlement Doesn't Affect Minnesota Company. Their recent establishment of the Venezuelan boundary by the Anglo-Venezuelan company, which does not affect the interests of the Minnesota company, which several years ago secured a very valuable concession from the government of that country. The company was organized with Donald A. Cameron as president, and G. M. Baxter and T. B. Clement, of that place, and James P. Elmer, of St. Paul, as the other promoters of the scheme. They acquired through grant, several million acres of valuable timber and mineral land.

One of the gentlemen interested in the "Orinoco" scheme, which is the name of the company, is a minority stockholder, and the settlement of the boundary dispute does not affect the company, as their lands are not tributary to the territory in dispute.

ST. PAUL FIGHTING POPE. ASSAILANTS OF THE PUBLIC EXAMINER PURSUE GUERRILLA TACTICS NOW.

But It Was Ineffective, and the Investigation Pursued by the United States Fidelity and Casualty Has Resulted in Acquitting Gen. Pope of the Charges—New Bond Is Accepted at Baltimore.

Guerrilla warfare is the latest resort of the antagonists of Gen. E. M. Pope, who first tried to secure the official denunciation of the present public examiner and superintendent of banks and, failing in that, have resorted to the by-paths in the hope of waylaying him and securing his scalp.

When the American Bonding and Guaranty company tried to back out of its contract with the company, the promoters of the original attack were not content with defamatory publications, but that some one, whose interest in the affair, unless actuated by private malice, must have been founded on the broad ground of state patriotism, telegraphed to the United States Fidelity and Guaranty company, when the G. I. Co. was announced the issuance of the new bond to Gen. Pope, urging that the acceptance of the bond be held up by the home office of the company at Baltimore.

This was before the papers in the case had been received at the home office of the United States company at Baltimore, showing the haste of the parties interested in having the new bond of the superintendent rejected at the home office of the company of the company, perhaps, and primarily to lend an apparent basis of truth to the assumption made by an evening paper that the lack of a condition of affairs precipitated by the American's attempted cancellation of its bond disqualified the public examiner from continuing in office.

The United States Fidelity and Guaranty company of Baltimore has investigated the Pope matter, and by the Pope matter of the company, it is not unreasonable to assume that it investigated all the charges against the rectitude of Gen. Pope's former official conduct, and the result of the investigation is briefly stated in this telegram, which explains itself:

Kirks & Bryant, General Agents, St. Paul, Minn., April 10, 1899. The following report is submitted to you by Edmund M. Pope, President of the United States Fidelity and Guaranty company, in connection with the investigation of the Pope matter.

Two bonds, one of date last January, in the amount of \$100,000 and Trust company, of Baltimore, and one of date September 1, in the amount of \$100,000, were issued by the United States Fidelity and Guaranty company, of the same Maryland metropolis, are now in effect. That is Gov. Lind's view of the situation.

Rev. S. G. Smith's First Lecture on Municipal Questions. An audience of 150 greeted Rev. S. G. Smith at the Y. M. C. A. auditorium last evening for his first lecture on a talk on the subject of "Social Forces."

Rev. S. G. Smith in his opening remarks wanted it understood that he did not appear as a reformer and the purpose of his lectures was to make people think about the question of municipal affairs. He said in part:

"Man is a social being and this distinguishes him from other animals. His social nature is his birthright. The rank of any people is to be measured by their social capacity. The social interests of any group of people are the interests of the community as a whole. Civilization is a comparatively few people, who have the power to lead the people. Civilization is a comparatively few people, who have the power to lead the people. Civilization is a comparatively few people, who have the power to lead the people."
