## LABOR'S FIELD

Mr. Louis Nash was to attend the lecture of Rev. S. G. Smith, Friday night, when he discussed "The Production of Wealth." President Donaldson, of the Trades and Labor assembly, had asked him to attend. Mr. Nash was unable to be there, but after reading the report in yesterday's Globe, he wrote the following:

"Man is as much better than a dollar, as the truth is better than a lie, and in spite of this fact the whole trend of legislation is to elevate the dollar and debase the man. 'Costed rights' are paramount to human rights.

Trade follows the flag. Men are not free who are compelled to pay tribute to a trust. We have enthroned Mammon as our king and he is enslaving us as he has enslaved all the people who bow down before him. We have put gold above God and conquest above conscience. We have made money the god of the age and the robbers of mankind have bound us hand and foot. The output of coal is reduced to enhance its price to the consumers, the Lord's own children, who must pay tribute or freeze. Dazzled by the glitter of empire, our country has forgotten the rights of man. In God we trust, has been changed to suit the times by the addition of 'and the world' to it. We have the shell of liberty without the substance.

By the force of unholy combinations of capital, the price of every ton of coal, pound of beef, gallon of oil, load of bread, truck of clothes, yard of shoes and burial casket is enhanced to the consumer more than its legitimate price, after allowing for legitimate profits and interest on the capital actually invested. The necessities of life among our halls of legislation to corrupt our representatives. I noticed where an association volunteered from the results of the secret sessions of the convention of the American Federation of Labor at St. Louis, that they have even corrupted the workmen who serve by their unscrupulous disregard of human rights.

"Ironclad contracts," denying to men the right to join the organization of their craft, are still exacted by many of our giant corporations before a man can secure employment at their hands. Men are not free who are bound by the terms of the prostitution of their manhood. The Bible tells us the laborer is worthy of his hire. Every man should be paid like it is worth just as much as he can command the other fellow to pay, or in other words, as little as the market will bear. It is willing to work for. The Golden Rule, 'do unto others as you would they should do unto you,' is the same in the Commercial Rule, do others as they would like to do you, and do it first. (David Hartman)

Love thy neighbor as thyself has given weight to the idea that competition is the life of trade, which means that the wages of your neighbor, honestly if you can, if not, get the better of him anyway.

We are asked to pay for the wages paid today with those of a decade ago, and the professional and political economy in their efforts to sustain their wages are higher than they are a decade ago, but I venture the assertion that they have not increased in proportion to the increased requirements and needs of the wage-earner. The wage rate of our fathers was not more than their necessities and responsibilities than we live. Our requirements become greater, necessitating more money for their fulfillment, and we must not overlook this fact. The same ratio to wages today that was paid ten years ago is not an equal ratio to the needs of workers, because of the increase in their needs beyond those of ten years back, and the same ratio to wages ten years hence. Remember that good ten percent of present years will not be more than ten percent of the future, and that children that are those of your father's day for you.

Free education and industrial partnership will not go hand in hand for very much longer, and it behooves the trust magnates and corporation kings to heed the voice of warning that is evidenced on in the anti-trust general interest taken here has been held of late. I am no pessimist, but I bespeak for these commercial corporations such a surprise as their future as will shake the very foundation of our present industrial structure if a halt in the direction of their control is not soon called. We are sleeping in a social volcano that is liable to burst into an eruption of fire and brimstone that will be a glad day for all.

### A WOMAN'S BACK.

The Aches and Pains Will Disappear if the Advice of This St. Paul Citizen Is Followed.

A woman's back has many aches and pains. Most times 'tis the kidney fault. Most Backache usually kidney aches. The 'That's Why Doan's Kidney Pills Cure It.' Many St. Paul women know this. I find what one has to say about it: Mrs. Henry Klotzmann, of 222 1/2 St. Airy street, says: 'In the spring of 1898 my attention was called to Doan's Kidney Pills by an advertisement in our daily papers. Mr. Klotzmann got me a box from F. M. Parker's drug store, corner of Wabasha and Fifth streets. The treatment was quick and thoroughly ended the pains for such a length of time. I gladly recommend such a valuable remedy to others.'

### Pressmen's Meeting.

St. Paul Pressmen's Union No. 29 held a short session last evening in Hall No. 1. Assembly rooms. Very little but routine business was transacted. There was some discussion concerning the success of the nine-hour day rate, which went into effect in the city on Nov. 21. No trouble whatever has been experienced so far concerning the new system, and the best of harmonious appears to prevail between employers and pressmen.

### Bricklayers' Entertainment.

On Friday night next St. Paul Bricklayers' union will give an invitation social entertainment at Assembly hall for the members and friends of the union exclusively. There are fourteen numbers on the programme, including songs, instrumental music, and a variety of other things there will be dancing and refreshments. Invitations will be issued by the secretary of the union.

### LOCAL NOTES.

The following twenty-eight union meetings are scheduled for the coming week at Assembly hall: Sunday afternoon, Typographical Union No. 30; musicians, Evening, hack and cab drivers. Monday, Trades Union No. 1; electrical workers; press helpers. Tuesday, blacksmiths, street cleaners, bricklayers, barbers, bookmakers and sawyers, amalgamated sheet metal workers. Wednesday, cabinetmakers, plasterers, bookbinders, Friday, bricklayers, horsehoes, stereotypers, pressfeeders, Friday, Trades and Labor assembly, cadymakers, painters, coremakers. Saturday, bakers, iron makers, brewers.

St. Paul Black and Cab Drivers' Union No. 6055 will give its annual ball next Monday evening at Assembly hall. Music will be furnished by the Typographical Union No. 30; Musicians' union, No. 30; Musicians' union, No. 30; St. Paul Hack and Cab Drivers' union.

### THE WORLD OF LABOR.

Boilermakers and iron ship builders have gained twenty new organizations during the summer. The American Railway union is reorganizing the American Railway union—just now.

A former union of boilermakers and iron ship builders at Cincinnati was reorganized last Monday.

Employees of Dallas, Tex., have notified employers that after Dec. 1, 1900, they will demand an eight-hour work day.

Last week's convention of the Knights of Labor at Boston, Mass., was a success. The general officers full power in ordering and managing strikes.

Trade displays in New York city between the board of delegates and the Building Trades council prevent the annual meeting of the two bodies.

George N. James, a fireman on the Peoria, Decatur & Evansville railroad, died at Easton, Ill., has fallen heir to an estate of \$2,000.

A 30-cent per capita tax will be levied by the United Hatters of North America to pay the expenses of the national convention, which will assemble in May, 1900.

Three thousand miners are idle in Brazil (Ind.) block coal mine district. A demand for an advance of \$20 per month and early contracts.

Over 400 employees of the tinopolis sugar refining works at Pekin, Ill., went on strike last Saturday because the wages of skilled mechanics were being cut. Some time to time and cheap labor was also introduced.

Fires started the past week in the Pittsburgh plants of the American Glass company. Glass will be turned out from some of the factories at least, during the first week of December.

Congressman Gardner, of New Jersey, is the sole of the American Federation of Labor as chairman of the House committee on labor and that body will ask the Senate to refer the bill to report him to that position.

Twenty-five employees of the Lesh Manufacturing company at Easton, Ind., went on strike last Saturday for an increase of 5 cents per day in wages. They claim they cannot live on the present wages of \$1.10 per day.

State Labor Commissioner Rixey, of Missouri, has started the United States district court at Jefferson, Mo., in an endeavor to wipe out the circulation of a "company store" money in the mining camp of that state.

The labor movement is progressing in a general way in San Francisco. Nearly every union is preparing for its annual convention to meet in January. The National Typographers' union of America, workday throughout the United States and Canada went into effect last Tuesday. The reports from all over the country indicate a very active and energetic movement. The only city where a strike occurred.

### GET RICH QUICK.

Another Mushroom Financial Concern Is Closed.

PHILADELPHIA, Dec. 2.—A third attachment was issued today against the Investors' Trust, a get-rich-quick concern, on the basis of the same report learned today that the business of the concern was much more extensive than was at first supposed. It was believed that there was between 4,000 and 7,000 subscribers to the stock. Miss E. Carson, who acted as cashier in the office of the "trust," was today closeted with a private detective, who has been investigating the matter for some time. She explained in detail her connection with the company, and said that the lowest interest offered by the promoter was 5 per cent. Charles L. Work and J. Wells Leffert, managers of the trust, are still missing, and the office remains closed.

### AMERICAN UNIVERSITY A SUCCESS.

INDIANAPOLIS, Ind., Dec. 2.—The Methodist college president discussed the great American university at its regular session this afternoon. Bishop Hurst, in charge of the movement, says all but a small amount of the necessary \$50,000 has been raised. The history building is already up, at a cost of \$25,000, and the bishop says it is now worth \$100,000 more than he expects. The institution to be assured within a year.

### EXPORT EXPOSITION CLOSING.

PHILADELPHIA, Dec. 2.—The national export exposition, which opened here Sept. 14, closed tonight and the managers report that the affair has been entirely successful in every respect. The attendance has been about 1,700,000.

and coffee, cocoa, or water would by this time have ousted beer and spirits as national drinks on this island. The Merry Monarch has been the theme of the celebration movement with "brown October" and French wine.

The mention of "Coffee House" shows that coffee was well on the road to establishment. It is stated in an old hand book of London that the first coffee house was opened in 1657, in St. Michael's alley, Cornhill. The Sultan's Head Coffee House is shown by the advertisement to have been well known in 1668, though not mentioned in this hand book of London, which names a second, as set up at the Rainbow, in Fleet street.

### TEA AND COFFEE

Introduced in London at the Middle of the Seventeenth Century.

London Fortnightly Review.

The author of "Curiosities of Literature" throws doubt upon the story that Lord Arlinton and Lord Ossory, who were said to have a small package of tea from Holland in 1666, were the first to introduce it into this country. He heard of a collector who was in possession of Oliver Cromwell's teapot. An advertisement sets at rest the 1666 discovery, and gives ground for the elder Scotch collector.

"That excellent and by all Physicians approved China drink called by the Chinese Tcha, by our nations Tea, alias Thea, was first introduced into this country by the Hon. East India Company, by the Royal Exchange, London."

This is from the Mercurius Politicus of Sept. 20, 1668.

Tea is no longer approved by "all the physicians." The Puritans could enjoy their cup of "tea." They were under Cromwell, but we are under the microscope. It is not we who can drink, but the microscope; and as tea no longer suits the microscope we have had to give it up and try him with cocoa. Had the commonwealth continued it is probable that tea would have been a success.
