

GUMPTION.

ONE does not have gumption till one has been properly cheated. Persons of gumption are using Ivory Soap, women who have trusted themselves too near the precipice of false economy and who can now appreciate the true economy in a soap made of pure vegetable oils and other high-class ingredients, but made in such quantity as to bring the price within the reach of the very poorest family. Indeed it is the very poor who most need it, for they can least afford the extravagance of common soap.

In Labor's Field.

The union carpenters held a big meeting at Assembly hall last night, and after initiating six new members received and referred for investigation the applications of ten others who wish to join the union. On the recommendation of the local union the national officers allowed a cash benefit of \$50 to P. O. Two other members of the local union were allowed the regular benefits on account of illness. Working expenses of three, composed of Messrs. Morrison, Lindstrom and Albrecht, was appointed to secure the use of a larger hall in the Assembly building, as the one now in use by the union is too small to accommodate the increasing membership.

PHILLIPS IS ARRESTED FOR LACK OF INTEREST IN HIS WIFE'S CONDITION CAUSES A CRIMINAL CHARGE

ARRAIGNED IN POLICE COURT

He is Released on His Own Recognizance Pending a Hearing of the Case on Saturday.

Robert Phillips, whose wife wandered away from home in a fit of dementia and was so badly frozen that it was necessary to amputate both of her feet, was arrested yesterday on the charge of neglecting to provide for his wife. Complaint was lodged against Phillips by Humane Agent Moon, and the warrant was issued by the county attorney. Phillips was arraigned in the municipal court and pleaded not guilty to the charge of non-support. He was released on his own recognizance until Saturday.

The attitude of Phillips toward his wife has aroused much criticism. The woman was found, nearly dead from exposure, in a stump of woods at the end of Marshall street, a week ago. When taken to the city hospital she said her name was Mrs. Robert Phillips and that she lived on Robert street. Beyond this she could give little account of herself. Phillips was notified of the plight of the woman giving his name shortly after she was found, but he declared she was not his wife, and that his wife was at home and well. For two days the woman remained unattended at the city hospital, without the husband making any inquiry at the institution. Then Dr. Rogers recognized her and Phillips finally went to see her, at once admitting that she was his wife. Mrs. Phillips was in a much weakened condition and her feet were so badly frozen that it was necessary to amputate them.

When it was first proposed to have Phillips arrested an effort was made to get Mrs. Phillips to sign the complaint. Clerk of the Municipal Court Conroy and Humane Agent Moon went to the hospital to see Mrs. Phillips, but she could not be induced to sign the complaint. Agent Moon then made the complaint. Mrs. Phillips has been subject to insanity, temporary insanity and it is believed her mind is more seriously affected now than ever. If she survives the amputation of her feet she will be a lifelong helpless cripple.

REPUBLICANS ON THE RUN

J. P. Baker says they are on the defensive now.

J. P. Baker, Democratic national committee man from North Dakota, was a visitor in the city yesterday. Mr. Baker believes the outlook for Democratic success in the next presidential campaign looks very bright. He said the Republicans are trying to force a money issue, but there is no money issue to discuss. Under no circumstances can free silver be made an issue for six years, or four years, at the least. The Republican majority of the senate, and will continue in power for at least four years. It will be very readily seen from that that no change can be made, however willing the Democrats might be to make it. The money question is very clearly out of the range of discussion.

Democrats are making the campaign an anti-Republican one very easily. They are, and were never better united than now. All this talk started by Republicans of factional differences is without foundation. Today the Democratic party in a united party and will carry a well-defined platform at the election next November.

The Republicans have claimed in the past that the Democratic party had been a disturber of prosperity, and have even accused it of wrecking the business interests of the country on money issues. That is a patent reason why they should leave the money issue alone this year. We are making an anti-Republican, and it must necessarily be so, as the Republicans have control of every department of the national government. We are not making our course, but it is the Republicans who are on the defensive. Already there are a large number of anti-Republicans in the Democratic party, and if the disaffection continues we will win very easily. We are annexing a great many anti-Republicans, and are willing to welcome them to our ranks. We believe in a tariff to strengthen their grip on the people and their monopoly of the industrial field. It is quite another matter. It is quite natural that the trusts will favor the moderate degree of tariff, but will give them a better, more extensive and almost more exclusive market for their product of American and Hawaiian sugar than the market was flooded with the Puerto Rican sugar.

Have Faith in Phillips.

In view of the unfortunate events of the past ten days, which have brought so much sadness to so many of our friends, Mr. and Mrs. Charles and Mr. Robert Phillips, the undersigned wish to express their sympathy to the families of these families for many years past they deem it just to express the confidence and faith in the ability of Mr. Phillips as one who is both anxious and willing to do all his duty in the various relations of life.

SOCIAL REFORM UNION

Holds a Meeting at Church of the Good Shepherd.

George E. Eglewold, of the Social Reform union, spoke last evening at the Church of the Good Shepherd. Mr. Eglewold deplored an industrial and social system that gave to the profit-taking classes 75 to 80 per cent of a workingman's earnings and left him only an amount sufficient for his sustenance. The bondsman was, he believed, no more of a slave than the laboring man whose earnings were gobbled up by the few.

Rev. W. C. Pope also delivered an address. He said: Socialism is the extension of Christianity and republicanism. Its purpose is to secure equal rights for all. Its opposite extreme is slavery.

The Social Reform union, under whose auspices this meeting is held, concerns itself with the laws. Legislators have in all ages been in the habit of enacting laws to promote their own interests and keep down the people.

GEN. DIMENT SUGGESTS LOCATION OF HEADQUARTERS BY A. O. U. W.

GRAND LODGE IN SESSION

Degree of Honor is Also Holding Its Annual Meeting at the State Capitol This Week.

The Minnesota grand lodge of the A. O. U. W. convened yesterday at the state house with a very large representation of the order from all over the state. The day's session was chiefly occupied with reports by officers and matters of routine importance largely, preliminary to the important business of the order, which will be transacted today and tomorrow.

At the morning session the grand lodge degree was conferred upon 250 members. Grand Master Workman J. M. Diment, of Owatonna, presented his annual report, full of matters of interest to lodgesmen. He recommended an increase in the working field staff and suggested that the grand master workman be authorized to employ such assistance as is necessary to properly facilitate the business of the organization. He advised the construction of a headquarters for Workmen at the fair grounds, estimating the cost at about three cents per member. A recommendation had been made by the finance committee and grand lodge officers that the per capita be increased from 20 cents to 25 cents. Gen. Diment thought, was scarcely enough to properly carry on the work intended.

The claim of the order against the Altemanna bank for \$1,846.98 was compromised during the year for \$1,800, on a basis of 36.91 per cent.

During the year new lodges were chartered at Golden Valley, Okawa, Evan and Cedar Lake, in addition to five other applications upon which no action had been taken. Grand Rapids and Aitkin lodges are reported as having surrendered their charters. Gen. Diment also recommended that a traveling auditor be appointed to visit all lodges in Minnesota and go over their accounts.

During the annual period 247 lodges were visited once at least, and in some cases two and even three visits were made. Grand Recorder Olaf Olson recommended that the recorder and receiver of each lodge be compelled to submit a semi-annual, instead of an annual report, failing to do so to result in the loss of the lodge's charter. He reported that the grand lodge had \$48,000.00 worth of insurance among the members in Minnesota. Collections during 1899 amounted to \$50,000. The order has about 2,400 members and 247 lodges in Minnesota. Five applications have been received for new lodges. There were 145 deaths during the year.

Upon assembling in the afternoon a committee was appointed to escort Gov. Lind to the hall, in response to an invitation to address the gathering, which he has previously accepted. The governor was cordially greeted and cordially welcomed the lodgesmen. Briefly calling attention to the fact that the gathering was the last meeting of the grand lodge this year, he pointed to the wonderful developments of the period and to the innovations wrought by steam and electricity in commerce and industry as well as the lives and affairs of men. He spoke of the development and growth of fraternal organizations and of the benefits accruing from the concentration of numbers and forces.

The grand master workman announced the winners of cash prizes for securing the largest number of delegates as follows: Dennis Lane, Hiawatha, a St. Paul lodge; G. A. Gunderson, Minneapolis; Christopher E. Conrad, Minnie F. Wagner, and C. J. McDougal, St. Anthony, Minneapolis.

Today's session will have for its principal feature the election of officers, and it is predicted that all the executive officers will be honored with another term. The report of the committee on credentials included the names of about 450 delegates.

WOMEN'S AUXILIARY HELD ITS MEETING YESTERDAY, TOO.

Simultaneous with the meeting of the grand lodge of the A. O. U. W. the ladies' auxiliary, the Degree of Honor, was called to order by Mrs. Ella H. Mantor, grand chief of honor. The senate chamber was well crowded with ladies, in the neighborhood of 200 presenting credentials.

By a unanimous vote the meeting decided to issue \$500 beneficiary certificates, in addition to the \$1,000 certificates Mrs. Mantor read her report, which told of the organization of twenty-nine new lodges, and two lodges were reported as having surrendered their charters. Miss Buel, grand recorder, stated in her report that Minnesota is the second largest grand jurisdiction in social membership and third in beneficiary membership.

A report was made by the finance committee that the beneficiary department has increased 50 per cent, and it recommended that the salary of grand recorder be increased to meet the increased business of the office. The A. O. U. W. Guide, published in St. Paul by David Ramaley, was made official paper of the Degree of Honor for another year.

An evening session was held in the hall of representatives, attended by a very large number of subordinate members in the Twin Cities. The entertainment was provided by Nicollet Lodge No. 47, team and drill work being the principal feature of the programme.

CRIPPLED IN MACHINERY.

James Carney, a Federal Prisoner at Stillwater.

Gov. Lind received a reply this morning from the United States attorney general's department in answer to a letter written some time ago asking for executive clemency in the case of James Carney, a United States prisoner, now confined at Stillwater. The case was referred to the United States attorney and the trial judge.

Carney was sentenced to a fine and three years' imprisonment for a postoffice robbery. His right arm was torn out some time ago by the machinery in the twine factory at the prison. His term will expire in the fall, and Gov. Lind wrote, asking for the prisoner's release, so that he would not have to face a hard winter upon his discharge.
