

# In Labor's Field.

The local branch of the Painters, Paperhangers and Decorators' Union of America had the most remarkable meeting in its history last night. At the regular weekly meeting given tonight by the members were initiated and twenty-five applications were received and filed, as the hour was too late to prolong the meeting further. No union in the city ever made such a record on conditions to membership at a single regular meeting and the Painters' union now stands second in size only to the Carpenters' organization in St. Paul.

The union entertained a committee of three from the Minneapolis organization, which brought over a general invitation to the St. Paul union to attend a smoker and entertainment given tonight by the Minneapolis union. The invitation was accepted and a large delegation of the local Painters' union will assemble at the Ryan hotel tonight at 7:30 o'clock, from which to place a charter for membership in the members to the Mill City. Receipts of last night's meeting were \$130; expenses, 16.

### Two Members Expelled.

### Boxmakers Still Out.

The strike of boxmakers at the Osgood & Blodgett Manufacturing company's mill is still on. The men are as determined as ever to hold out for what they consider is right. They say the factory is running, but no one working at the saws, with the exception of one saw, where one non-union man is working who is not a rigger or Sawyer. The men periodically have received letters from the firm to come back to work, but they say they will not do so until the firm has an

### Agreement with the executive committee.

There are indications that the present employed in the mill will walk out for sympathy, although the strikers have not asked them to do so. The men have no grievance against the firm whatever, only the discharge of the two union men and the employment of two non-union men. The matter will be laid before the executive board of the Trades and Labor assembly and all the friendly unions in this city and Minneapolis will be notified.

# Arbitration Was Refused.

P. R. L. Hardenbergh, owner of the big shoe factory where a lockout of union workmen was made two weeks ago, appeared before a joint meeting of the Leatherworkers' union and executive committee of the Trades and Labor assembly last night. He reiterated his former declarations, refused arbitration and left the meeting. Then the executive committee of the Trades and Labor assembly made a boycott vote of the union, and will make a report at the meeting of the central body two weeks hence. If the central body concurs in the report, a boycott on all products of the Hardenbergh establishments will be officially declared.

# BOARD OF PUBLIC WORKS RETURNED YESTERDAY TO THEIR OFFICIAL DUTIES

# BIDS ARE ADVERTISED FOR

Contracts Are Signed Which Have Been Waiting for the Signature of President Ames for a Month.

The Republican primaries and the city convention being over, the members of the board of public works and the clerical force in the office returned to their official duties yesterday from the arduous duties of "plugging" for Kiefer. Commissioners Sandell and Mabon endeavored to appear cheerful and act as though they would be reappointed, but neither of them was hilarious over the outlook. Commissioner Pottgiesser deprecated the failure of the convention to place a German on the ticket, either for the three head officers or for a member of the assembly. He was promptly called down by an outsider present, who inquired what was the matter with Pottgiesser. Mr. Pottgiesser offered to wager that beyond asking for a glass of beer from Hambley to Pascoe avenue, he would not be in the language of the Fatherland. Mr. Pottgiesser was not able to speak three words of "your mayors'" native tongue.

After transacting no business for the past ten days, the board made rapid headway on the matters at hand and directed the clerk to advertise for bids for the following improvements:

Grading and improving Van Buren street, from Fry to Hamline; grading alley in block 10, Schiffmann's subdivision to Laysan street, from Hamline to Pascoe avenue; putting in stone gutters on the south side of Concord street, from State to Ada; paving alley in block 21, Wool-lawn Park addition; constructing a sewer on Dale street, from Edmund street to a point 20 feet north; constructing a sewer on Mississippi street, from Jassamine to Magnolia; grading alleys in blocks 20 and 21, Merriam Park outlots; grading Colorado street, from Hall to Windsor; constructing a sewer on Greenwood avenue, from Isabel street 125 feet north; paving with asphalt Sibley street, from Seventh to Eighth.

President Ames was seized with a spurt of energy and signed contracts which have been waiting for his signature for a month for the following work:

Paving and shelving parking with brick, Broadway, from Seventh to Grove, at a cost of \$12,000; vacating street, from Union depot grounds to Seventh street, at a cost of \$10,000; vacating street, from Cedar street to eastern terminus, at a cost of \$3,000; vacating street, from State to Rice, at a cost of \$3,000; the James Forrestal company, paving with brick, vacating street, from Seventh to Ninth, at a cost of \$4,500; east Ninth street, from Locust to Broadway, at a cost of \$3,400.

The treasurer reported \$146 receipts, \$111 expenses, \$35 balance on hand.

The secretary made a short address, complimenting the division chairman on last year's work.

The Women's Foreign Missionary Society of the St. Paul Presbytery met yesterday in the Westminster church, with an attendance of about 150 women. Mrs. R. P. Lewis, the president, occupied the chair.

# FOOD RULES COMPLEXION.

# Medicines of No Avail When Improper Food Is Persisted In.

A young lady whose first name is Blossom, and who was for many years, mis-named, but is now properly named, tells some interesting facts about her efforts to clear up her complexion, which in spite of all sorts of medicines and washes, face bleaches, etc., were ineffective, because the root of the difficulty was not removed.

Her own story is interesting: "From childhood up, I, with my sisters and brothers, have been allowed the use of both tea and coffee. After I became a young lady of course it was no more than human that I should wish for a beautiful complexion like several of my companions, but which I did not have. Many different courses were taken to accomplish my end, such as applying face bleach, taking bottles and bottles of cleansing medicines, etc., all to no purpose.

"My older sister had learned before me that coffee was the root of the difficulty, and urged me to begin taking hot water. I tried it, but could find little satisfaction in so weak and unpalatable a beverage. While visiting a friend one day, I accepted a cup of coffee (as I supposed), when I noticed that this particular coffee had a hundred per cent better taste than that of coffee we had been in the habit of using. Upon inquiring for the receipt of this very pleasing beverage, I learned that I had partaken of the noted Postum Cereal Food Coffee.

"I had struck the goal at last. This was the morning beverage that I wanted, and this, it turned out, was the secret of the beautiful complexion of my friend. Of course, we immediately commenced using it in our home, and I want to say that today not a more healthy, robust family is to be found in the United States, and the fact is attributable to our abandonment of coffee and the use of Postum Cereal Food Coffee."

"We do not feel disposed to publish the full name of Miss Blossom, but the name can be given to those interested, by letter to the Postum Cereal Co., Ltd., Battle Creek, Mich. The young lady lives in Traverse City, Mich.

It may be of interest to know that many of the young ladies' seminars throughout the country have discontinued the use of coffee and are using Postum Cereal Food Coffee. A letter from Rev. Alex. Burr, Secretary of the Seattle, Wash., Young Ladies' Seminary, recites: "We are using Postum Cereal Food Coffee on the table, greatly to the satisfaction of the faculty and a large number of boarding students."

# CHARTER COMMISSION CONSIDERS QUESTION OF INCREASING MAYOR'S REVENUE TO \$5,000

# NO ONE OFFERS AMENDMENT

# County Commissioner Lott Appears as Representative of St. Paul Trades and Labor Assembly.

County Commissioner Lott appeared at the meeting of the charter commission last night as the representative of the Trades and Labor assembly.

Mr. Lott requested the commission to insert in the charter provisions requiring the abolition of the contract system on a public improvements and the doing of the work by day labor. Also that eight hours constitute a day's labor on all city work.

The members of the commission informed Mr. Lott that the request would be taken under consideration and called his attention to the provisions made in the new charter putting it in the power of the council to say whether street paving and street sprinkling should be done by the city or by contractor.

Messrs. Childs, Zimmerman and Doran favored raising the salary of the mayor from \$2,500 to \$5,000, by neither of the trio were willing to go on record as offering the necessary amendment.

The amount for clerk hire under the commissioner of public works has increased to \$30,000, instead of \$25,000. The salaries for clerk hire and incidental expenses of the board of public works was fixed at not to exceed \$12,000. The amount to be expended annually from the street and sewer fund was increased from \$150,000 to \$175,000. The increase being made in order to allow the commissioner of public works to take care of the garbage or rubbish.

A section was added allowing \$40,000 to be raised by direct taxation annually to pay for street sprinkling. Mr. Doran wanted the salary of the city clerk fixed at \$2,500, contending that neither the time nor talents of the city demanded a higher salary. The commission, however, refused to make the change.

Mr. Doran wanted the amount for clerk hire in the treasurer's office reduced from \$8,000 to \$5,000, but the other members would not agree to this. It was agreed by all members that the municipal court as now constituted, was an expensive luxury, but under a decision of the supreme court no change could be made by the commission. A chapter on the financial department of the city was adopted.

The chapter place the deposits of city funds in banks to be selected by a committee on bank deposits to consist of the mayor, comptroller and treasurer. Instead of the common council as now provided. The amount to be deposited in any bank was limited to one-third the amount of its bill paid for the unimpaired capital stock and surplus. The present charter permits deposits to be made in banks to the amount of the assessed capital stock of the institution by a committee consisting of the mayor, comptroller and treasurer.

No certificates are to be sold or issued more than four weeks in advance of the actual date of the election. The certificates are to be sold or issued after the close of the year in which the tax levy against the same was issued was made.

The death is announced, at his late residence in Highwood, of John Matheis, one of the oldest and best known business men in St. Paul. Mr. Matheis was born in Wetsbaden, Germany. He came to this country and settled in Rochester, N. Y., in 1854, and in 1855 came to St. Paul. He engaged in the retail paper, curtain and drapery business, being the oldest merchant in this line in the state. In 1889 he met with business reverses, and subsequently removed to Highwood, where he died. He leaves a family of wife, two sons and two daughters, one son residing in Los Angeles, Cal., and the other in St. Paul. The father of Mr. Matheis died in 1822. John Matheis was sixty-two years of age. His death occurred at 6 o'clock yesterday evening. Notice of the funeral will be given later.
