THE MOST CHRONIC DISEASES

Are Produced by Catarrh of Some Internal Organ.

MRS. JANE GIFT OF HEBBARDSVILLE, OHIO.

Mrs. Jane Gift of Hebbardsville, Ohio, writes the following:

"I think I would have been dead long ago if it had not been for Peruna. Six years ago I had a grippe very bad. The doctor came to see me every day, but I gradually grew worse. I told my husband I thought I would surely die if I did not get relief soon. One day I picked up the newspaper and accidentally found a testimonial of a woman who had been cured of grippe by Peruna. I told my husband I wanted to try it. He went directly to the drug store and got a bottle of Peruna. I could see the improvement in a very short time and was soon able to do my work. I continued using it until I was entirely cured."

Catarrh has been so generally thought to be a disease confined to the head and throat that it is very difficult to get many people to understand that catarrh may affect any part of the human body. All the organs of the body are lined with mucous membrane; all the passages of the body are also lined with mucous membrane. Wherever there is a mucous membrane there catarrh may exist.
