FIRES ARE STILL RAGING

MINNEAPOLIS LUMBERMEN SUFFER HEAVY LOSSES IN THE NORTHERN WOODS

SUNDAY IN THE SISTER CITY

News of Interest in the Community at the Falls of St. Anthony Yesterday.

GLOE'S MINNEAPOLIS OFFICE.
20 WASHINGTON AV. SOUTH.

M. J. Scanlon, of the Scanlon-Gipson Lumber company, returned Saturday from a trip through the northern part of the state, where he investigated the extent of the serious forest fires now raging in the pine woods.

While the situation is not quite as bad as reported in the papers, Mr. Scanlon says that considerable damage has already been done. As the fires are still raging fiercely, a still greater loss of timber is in prospect. The ravages of the fires have been greatest in the Leech Lake Indian reservation, where a big hole has been made in the 2,000,000,000 feet of standing white and Norway pine.

There have been timber losses south of Walker and west of Bemidji," said Mr. Scanlon, "but so far the lumber interests have gotten off easily. We have most to fear from the prospect of continued drought. There has been scarcely any rain in the woods this season, and a good heavy rainfall at this time would be a godsend. Unless we have rain pretty soon the worst is probably yet to come.

There was a slight rainfall near Bemidji a few days ago, but it was not heavy enough to check the advance of the fires, which jump from place to place. The fires have been burning for about two weeks, and, as everything is very dry, they have gotten such a start that they must burn themselves out at the sacrifice of much valuable pine, unless rain in sufficient quantities intervenes. Lumbermen are most apprehensive as to the safety of logs awaiting the drive with which all of the streams in the infected district are lined. The fire burns down to the water's edge, and that means the consumption of all logs in the path of the flames. Some damage has already been done in that respect—how much I cannot say.

The biggest loss yet reported, aside from that which the Indians have suffered in the reservations, has occurred on the north shore of Lake Superior, above Duluth. The forest fire in that region burned close down to the lake shore, and licked up a large quantity of logs which were to be towed to Duluth. These logs were owned by George W. Potter & Co., of Neeshah, Wis. The actual loss was about \$100,000.

"The people who are interested in the proposed national forestry reserve should know that a large part of the 2,000,000,000 feet of timber in the reservation, into which the fire is making such inroads, is included in the protected park. I would suggest that it would be an excellent idea for the forest reserve commission to take a run up to that country now and size up the situation. It will give them a good idea of the extent of the damage on their hands in attempting to prevent fires of such magnitude, where it is an impossibility to prevent fires. It would be a herculean task to attempt to keep a sufficient patrol to stamp out the fires in their incipency. Once they get started it is practically an impossibility to check their advance."

SERVICES SAD, INDEED.

Many Mourners Attend Funeral of Mrs. Sindell.

Beautiful and impressive were the funeral services yesterday over the remains of Mrs. Christine Sindell. Thrice during the service the friends of Mrs. Sindell gave her a surprise party, and shortly after the guests had assembled, she was stricken with heart failure, and she died within a few minutes.

The funeral services were held at the Zion tabernacle at 2:30 o'clock yesterday afternoon, and at that hour the church was filled with friends, many of whom believe in the doctrine of divine healing, a faith which Mrs. Sindell adhered to in life.

The services were conducted by Rev. W. E. Riley, of the First Baptist church. Among the mourners were Rev. Martin Sindell, a son of the deceased, and who is a Baptist minister, of Dannel, N. J., who arrived in the city yesterday morning.

MISSIONS IN AFRICA.

BISHOP HARTSELL DELIVERS AN INTERESTING SERMON ON WORK

NEW YORK, April 28.—Bishop Hartsell, the missionary bishop of Africa of the Methodist Episcopal church in this country, preached a sermon at St. Paul's M. E. church, here, on Sunday, April 28, on the subject of "The Work of the Church in Africa."

He said: "England—God bless her—the friend of missions everywhere, with Germany and France and some of the smaller powers, dominating the influence of the strong, just government to bear in regions which never knew law before. Only recently a German official of high rank murdered a black man who now in their eyes is sentenced to some punishment. The sentence was submitted to the emperor, but he refused to sanction it, because the punishment was not sufficient. A few months ago a British official shot a black man, but now the German emperor regards his standing as a Christian monarch requires that justice should be done."

CAPE NOMA DUCK BOATING

FIRST STEAMER OF THE SEASON DUE TO LEAVE SEATTLE TODAY

SAILING VESSELS ON THE WAY

Twenty-Five Steamships Scheduled to Leave for the Land of Gold During the Month of May.

SEATTLE, Wash., April 28.—The formal rush of the gold fields of Cape Nome will be inaugurated tomorrow when the steamer Jennie, of the Pacific Steam Whaling company, the first steamer to start on the trip this year, is scheduled to sail, providing she arrives in the meantime from San Francisco. This vessel will take eighty passengers and 400 tons of freight from this port, and expects to be one of the first to reach Nome when the obstructing ice has broken.

For the last several weeks people have been arriving here by the hundreds to get ready to make the northward trip, and have filled the hotels to such an extent that it is difficult for transient travelers to get accommodations. The steamship offices have been crowded with applications for berths and for freight room, and many of the companies have been refusing passengers for several weeks. It is stated that there are not more than 200 tickets on hand for the steamer that are scheduled to leave here in May. This means that all those wishing to go to Nome, except those who secure the few berths left, must wait until June sailings, unless they embark on sailing craft, which are leaving this port at the rate of two a day, and have been doing so for the last week.

Twenty-five steamships are scheduled to leave here for Nome in May, two promising to get away by the 1st, seven the 10th, one on the 17th, two on the 19th, five on the 20th, one on the 21st, two on the 23rd, one on the 30th, one on the 31st. The vessels to sail on the 1st have already departed, carrying 4,900 tons of general merchandise. This probably will be the liveliest day for vessels will also leave that day for Skagway.

The most conservative estimates of the total gross revenue during next month of the vessels state that they intend to make four trips each, and the remaining one trip, they will have already completed. The net registered tonnage of the vessels to sail next month is 25,623 tons, or a quarter of the entire tonnage departing for Alaska last year. The value of the freight booked for the May sailings, estimated at \$1,100,000, is a conservative figure, would be \$1,322,500.

FORMER MAYOR'S SUICIDE.

Herman Erb Jr., of Appleton, Ends His Life.

MILWAUKEE, Wis., April 28.—A sensational special feature of the Wisconsin Herald, published here today, is the report that Herman Erb Jr., a former mayor of Appleton, committed suicide today by shooting himself in the head. He had just returned from a Milwaukee sanitarium, where he had been receiving treatment for mental trouble. His condition was said to have been caused by worry over the Appleton library building imbroglio.
