

BOERS IN FULL FLIGHT

Vaal River Successfully Crossed by British at the Town of Windsorton

Boers Abandon Stronghold Are Fighting for All They Are Worth as They Retreat to the Northward

Raise Great Clouds of Dust From This It is Judged That They Are Numerous—Relief of Making is Hourly Expected.

WARRENTON, May 5.—The Vaal river has been successfully crossed at Windsorton, by Barton's bridge, with whom is Gen. Hunter, commanding the division. The Boers have evacuated Windsorton and Klip Dam. They were trekking northward and are fighting for all they are worth. Barton is hanging on to their rear and shelling them vigorously. Judging from the clouds of dust, the retreating Boers must be in very large numbers.

The Boers today vainly attempted to reach the British with their artillery, but some shells from the high gun effectively silenced them. Natives report that the Boers are evacuating Christians, many of them admitting that the situation is hopeless and apparently are trekking from Klip Dam and Windsorton northward.

MAKING RELIEF EXPECTED. LONDON, May 6.—London has been confidently expecting to have news of the relief of Mafeking before midnight, but the war office stated that no further intelligence had been received of Hunter's column, to which the public believed had been assigned the work of relieving the town. Beyond further details of the occupation of Brandfort little or no news has been received. A dispatch from Thaba N'Chu, May 5, says the situation is practically unchanged, the Boers holding their positions and sending occasional shells into the British camp. From the top of Thaba N'Chu one can see over the Boer camp. The country over which the Boers are retreating is exceedingly difficult. It is learned that the Boers are trying to draw supplies from the Ladybrand district.

The Seventeenth brigade has moved four miles south, presumably to assist Gen. Brabant, if necessary. A dispatch from Alwal North, dated May 5, says: "Three hundred captured cattle and horses were brought in last night. The wounded are being gradually moved here from Mafeking."

A dispatch from Cape Town says: "The general feeling here in which official circles participate is that Lord Roberts' advance towards Pretoria will be rapid. The Boer prisoners do not anticipate that any serious opposition will be encountered."

Much anxiety is felt regarding the fate of Mr. Bezbe, who has been arrested in connection with the blowing up of the shell factory at Johannesburg. Consul Hay is watching the accused man's interests.

GEN. HAMILTON'S ADVANCE. Lord Roberts reports to the war office, under date of Brandfort, May 4, as follows: "Hamilton advanced today to Balakhat. He was engaged with the enemy throughout the march. He speaks in terms of praise of the behavior of the troops, especially Broadwood's brigade of cavalry and the mounted infantry."

SENSATION IN CAPE TOWN. CAPE TOWN, May 5.—The South African News says that a policeman who was guarding Premier Schreiner's house has been shot, adding that the policeman was smoking a cigar at the time, upon which fact is being an investigation. The bullet was evidently intended for the premier, who is an inveterate smoker. The African Bund papers are making a sensation out of the affair, declaring that an anti-Dutch plot is on foot.

TO SHOW A FENIAN PLOT

THAT WILL BE EFFORT IN WELAND CANAL HEARING.

TORONTO, Ont., May 5.—The evidence which will be produced at the trial on Monday of the three men charged with attempting to blow up Lock No. 24 in the Welland canal, it is understood, will show that the prisoners were in instruments of the labor element of Buffalo, supposed to be antagonistic to a Canadian route for grain traffic, but the agents of a Fenian plot. It is learned that the three men concerned in the outrage arrived at Buffalo from a city on the Atlantic seaboard. They were accompanied by Buffalo and left for Niagara Falls at the earliest possible moment after their arrival in Buffalo.

COLONY OF POLES

It Will Be Established at Ellis Junction, Wis.

MILWAUKEE, Wis., May 5.—What is known as Ellis Junction, Marinette county, Wis., was today sold by H. Zeck, of Marinette county, to the Polska Industrial company. The village is suburban to Crivitz and is included in a tract of land from Milwaukee, Chicago and the old country. The transfer includes houses, sawmills, general store and all the lumber and other property. The tract will be colonized by a co-operative community of Poles being interests on the tract. The amount of money paid for the tract is not stated, but is estimated at considerable over \$100,000.

GOEBEL MURDER HEARING.

Much Corroborative Testimony is Introduced.

FRANKFORT, Ky., May 5.—J. B. Matthews was recalled today by the defense in the Goebel murder trial, and testified that telegram signed by George Denzer, of Lexington, and filed immediately after the assassination were sent to persons in different parts of the state, saying that the right hand boys had been ordered to send different numbers of men to Frankfort at once. Telegrams sent or received by parties indicted for assault by agreement of both sides. Duane Sinclair, of the Postal Telegraph company, testified that on the morning of the assassination he sent a number of telegrams to commanders of two Kentucky regiments, which said: "All

Emperor William and Emperor Francis Joseph of Austria left the Anhalt depot promptly at 8 a. m., arriving on the immense plain of Juterbock, where the sham fights were arranged, by 9 o'clock. The exercises occupied an hour and a half, after which the emperors lunched at Juterbock, returning to Berlin at 1 o'clock. Both emperors appeared to be in good health and fine spirits. Most interesting features of sharpshooting were witnessed and explanations were given to the Austrian emperor by Emperor William and Gen. von Gossler, the minister of war.

Every man that attempted to enter the works was assaulted. A number of shots were fired by the rioters, but no one was hit. The police and deputy sheriffs had been guarding the works repeatedly charged the rioters and used their clubs with vigor. Two of the ring leaders of the strikers were arrested, they were George Kark and Daniel Sord, both Hungarians. The two men attacked Joseph Matzke, who is also a Hungarian, and who was about to enter the Standard Oil grounds for the purpose of going to work. Matzke was badly beaten. The police and deputies have been reinforced, and any further attempt at rioting will be promptly suppressed.

MAY-POLE QUEENS.

Hohenlohe, today gave a luncheon in honor of the Austrian minister of foreign affairs, Count Gouchevski, in which the Austrian foreign office officials in Emperor Francis Joseph's suite and the Austrian ambassador here, Count Szeczeny-Marich, Prince von Buelensberg, Dr. Miguel, president of the council of ministers and Prussian minister of finance; Count von Posadowski-Wehner, imperial minister for home affairs; Count von Fuchs, the minister of foreign affairs; Dr. von Lucanus, chief of Emperor William's civil cabinet; Count von Ballestrem, president of the reichstag, Max von Knechtner and Baron von Rittschien, under secretary of state for foreign affairs, were present.

The Berlin press, commenting today on Emperor William's and Emperor Francis Joseph's toasts, last evening, are unanimous in declaring that their utterances made evident the intimate and strong character of the dreibund before the world. The Tzechlin, besides, points out that the peculiar nature of the celebrations commemorating the crown prince's coming of age have never been equalled anywhere, as it is really a fête of crown princes and heirs to thrones, all of whom have come to pay tribute to the heir to the throne of the German empire. This paper also figures that this demonstration shows that the whole world realizes the German empire really means peace.

The exterior and interior of the opera house tonight was draped with silk and velvet draperies, showing the colors of Austro-Hungary in evergreens and fresh roses, the German colors often entwined. The emperor has taken special means to make the gala performance delightfully enjoyable. Some special scenery had been painted, the costumes were provided and during the rehearsals weeks ago his majesty indicated personally the improvements he desired. The ballet, which was interspersed through the performance was likewise fine. Emperor Francis Joseph left a number of costly presents to the women artists and decorations of gold watches or diamond pins for the men.

DEATH IN A NEW FORM

CHOLERA IS ADDING TO THE DISTRESS IN FAMINE-STRICKEN INDIA

APPALLING SCENES OF STREETS

FIELDS CROWDED WITH THOUSANDS SEEKING TO ESCAPE DREADED SCOURGE

RELIEF IS NOT ADEQUATE

Sufferings of the People in the More Seriously Affected Districts Can Only Be Imagined.

LONDON, May 5.—The report that cholera is strengthening its deadly hold on famine-stricken India brings the pitiful condition of that country more than ever to public view. About 93,500,000 people—for this is the population of the districts affected—are sweltering their squalid existence away amid pestilence and misery that show no signs of abating. Hundreds of thousands of pounds in good British gold, good German marks and American corn have been thrown into the country, but judging from the latest advices all this charity is merely a drop in the ocean.

The famine and its attendant complications appear to exceed in virulence any two previous visitations. The viceroy, Lord Curzon of Kedleston, and the government are making ceaseless exertions to meet the terrible emergency, but the stupendous difficulties confronting the movement prevent supplying of relief to more than 5,000,000. In the meantime the highways are dotted with dead and dying, and the fields are crowded with thousands of the famine-stricken, striving to escape from the territory, but who, from want of food and water, quickly succumb. One of the most heart-rending features of the whole affair is contained in a statement by a special correspondent at Simla, who writes: "Ten times the amount of total relief could be laid out in a single district, without fully relieving its distress. All we can hope for is a succession of good years that will put the people on their feet again."

The British sections are not so badly affected as the native districts, but that their situation is not enviable is shown by an account sent from Bombay describing conditions at Allahabad, a city of the presidency of Bombay. "About 200 famine-stricken people are seated around the market place. The small arising from their filthy rags had attracted myriads of flies. An old man was hony almost to the point of helplessness. A young girl was sucking two children, but the children had sunken cheeks, their skulls seemed to overbalance their emaciated bodies, and with wisp-like arms and legs were more dreadfully still. Many were suffering from disease, and numbers had the fever. Those who could work were sent on where tanks were being dug. Others were given a meal and passed on to the poorhouse."

This picture is from a less seriously affected part of the country. The sufferings in the remoter districts, where the famine is worse, where all the cattle have long since died, where the water is precious, and where cholera has now added its dread scourge, can well be imagined.

WINNIPEG WIRES AID TO DISTRESSED PEOPLE OF SANDON.

KASLO, B. C., May 5.—Sandon presented a frightful scene of desolation today, and to make it worse a tragedy is connected with the conflagration. Miles Rumbaugh, a gambler, perished in the Clifton hotel. He came from Finches, Can.

The property loss is now figured at \$70,000. J. M. Harris, owner of the townsite, is the heaviest loser. His loss will aggregate \$39,000.

Offers of assistance are pouring in. Kaslo took the lead with a special train of supplies. Vancouver, New Denver, Sitka, City, Nelson and other points came promptly to the rescue, while Winnipeg wired: "Draw on us for \$2,000."

Blake and Brender came out from Cape Nome overland by the Katmai route to the coast, and from thence they took a canoe to Kodiak, where they took passage on the Bertha. It took fifteen days to make the trip from the coast to Kodiak.
