HE CALLED THE SPEAKER

MR. SULZER CREATES A SENSATION IN THE HOUSE OF REPRESENTATIVES

CHEERED BY THE GALLERIES

Sought to Bring Up His Resolution Expressing Sympathy for the Boers, but Failed in the Attempt.

WASHINGTON, May 7.—This was suspension day in the house, and quite a number of bills were passed. The most important was the senate bill to amend the general pension laws, so as to provide for aggregating disabilities under the act of 1890, without regard to service origin, and increase the net income a widow may have without destroying her right to a pension from \$5 to \$250. The purpose of the bill is to modify rulings of the pension office in accordance with the recommendations of the G. A. R. It was passed without a dissenting vote. The bill to increase the appropriation for the national guard from \$40,000 to \$1,000,000 also was among those passed.

Mr. Sulzer (N. Y.) attempted to secure action upon his resolution expressing sympathy with the Boers, but was cut off by the speaker.

"For what purpose does the gentleman rise?" inquired the speaker.

"This being suspension day," replied Mr. Sulzer, "I rise for the purpose of moving to suspend the rules and adopt the resolution expressing sympathy with the patriotic Boers, who are fighting for liberty in South Africa." (Applause in the galleries.)

"The chair declines to recognize the gentleman for that purpose," replied the speaker.

"I rise because the chair is opposed to the resolution?" asked Mr. Sulzer.

"The gentleman is out of order."

"A parliamentary inquiry," shouted Mr. Sulzer.

"The gentleman will state his point."

"I desire to know whether a member of this house has not the right to make a motion in accordance with the rules of this house?"

"The chair," replied the speaker, "must perform its duties in making recognition to suspend the rules. The gentleman is out of order and will take his seat."

Thereupon Mr. Sulzer subsided.

HAWAIIAN SELECTIONS.

It is understood that the president has practically decided upon John C. Batro, of Wyoming, as United States attorney for Hawaii, and Daniel A. Day, of Illinois, as United States marshal. The internal revenue officials are taking measures to extend to the islands the internal revenue system of the United States, and the probabilities now are that they will be made a part of the first collection district of California, with a deputy stationed at Honolulu.

SYMPATHY FOR BOERS.

Senator Teller Urges That It Be Extended.

WASHINGTON, May 7.—At today's session of the senate Mr. Teller delivered a speech in which he strongly urged the senate to extend their sympathy to the Boers in their struggle with Great Britain. The adoption of his resolution of sympathy, he maintained, could not be considered as an unfriendly act by the British government.

During the remainder of the session the senate had under consideration the naval appropriation bill.

Mr. Chandler's amendment to curtail the increase in the marine corps created some debate, and was finally laid on the table—30 to 14.

The bill was not completed. Notice was given that the armor plate provision would be considered in secret session on account of certain facts that were to be called to the senate's attention.

LA CROSSE PLUMBERS' DEMAND.

Want an Eight-Hour Day With Nine Hours' Pay.

LA CROSSE, Wis., May 7.—The journeymen plumbers, of this city, have made a demand for an eight-hour day, instead of nine, with the same pay as now received for nine hours. A committee from the union will confer with the master plumbers tonight. They are backed by the Gas and Steam Fitters' unions. The demand will probably not be granted.

ROCK COUNTY'S PROSPERITY

THE PROSPEROUS CORNER OF MINNESOTA CATCHING MANY EMIGRANTS THIS YEAR

LIVERNE BUILDING ACTIVITY

More Improvements Being Made Than in Any Small Town in the State—Willmont's Sudden Growth.

LIVERNE, Minn., May 8.—(Special Correspondence.)—The state of Minnesota in general and the southwestern portion of the state in particular would not be judged from present indications, to have bright promise in store for it during the year 1900. The building and improvement activity of the state has already assumed a pace of which few states in the Union can boast; and the volume of immigration indicates that the influx of new settlers this season will assume larger proportions than during any year since the early pioneer days on the frontier of Minnesota.

From different sources comes the suggestion that the North Star state will this season enjoy the greatest prosperity in its history. Estimates conservatively made from these items and from information furnished by the railroad companies whose lines extend within the borders of the state place the increase in population this year at from 5,000 to 6,000.

While the great influx extends throughout the entire state, the southwestern section is probably receiving the greater majority of the new comers. Rock, known as the "banner county," is certainly getting its share of new settlers, and is receiving a healthy building boom. Liverne, the county seat, will probably do more building the coming summer than any one town outside the Twin Cities. Thousands of dollars worth of improvements are already well under way. Among the principal new enterprises in store for Liverne this season are the building of a new school house, and for which plans and specifications have been drawn are the new jail for Rock county, to be located on the court house square, to cost \$12,000, and, when completed, will be a superb model of architectural achievement; a first-class sewerage system, for which Civil Engineer George J. Wilson, who, for the past fifteen years, has assisted in the supervision of the city sewerage system in St. Paul, has been in this city for the past week for the purpose of establishing grades and drawing up plans and estimates for the local system.

In connection with these independent elevators will be built by a stock company incorporated under the laws of Minnesota, with a capital of \$100,000. The company is composed of the business men of this city and farmers residing in the country tributary to Liverne. The object is to have a capacity of 50,000 bushels, with the latest and most modern equipment. The object in view is to give all who bring their produce to Liverne the full benefit of the Eastern markets, after deducting the actual expense of shipping, etc. Many new and handsome residences, ranging in price from \$1,000 to \$5,000, are being built by contractors in this season.

A large amount of cement sidewalk will also be put in, both in the business and residence portions of the city. Factories, business blocks and a large three-story brick hotel, plans for the latter having already been drawn, thanks to the enterprise of C. B. Macfadden, Sioux City, are some of the projected improvements. The erection of this hotel has heretofore been considered unwise, owing to the absence of a public sewerage system.

Among other towns in Rock county that anticipate extensive and an unusual amount of building this season are Hardwick, where several fine new houses, including business establishments, are now in course of construction; Beaver Creek, Hennepin, and Wadena, where the large and well equipped new Burlington, Cedar Rapids & Northern railroad extension west from Wadena, Nobles county, to Conova, S. D. A most substantial evidence of the extensive growth of Minnesota during the year 1900 is found at Willmont, in the B. C. R. & N. extension. Three months ago Willmont was a thing of the future. Today it is widely known. The town sprang up in an open field and unfenced prairie seemingly in a single night; five elevators, varying in capacity from 25,000 to 20,000 bushels, three lumber yards, several farm implement houses, stores of all descriptions, restaurants, residences, banks and livery stables have appeared as if by magic, and the traveler returning to Willmont has the impression can scarcely believe his own eyes. Such has been the short but wonderful history of Willmont, located but twelve miles northeast of Liverne. Not the least noteworthy feature of this town is the fact that its citizens, with very few exceptions, came direct from Iowa, Illinois, Nebraska and Wisconsin—and the large majority of them are well educated young business men, who have chosen Minnesota as a safe place in which to cast their lots. Exaggeration is unnecessary—the bare facts speak only too plain for the great future of Minnesota.

STILLWATER.

A Large Quantity of Logs on Snake River Burned.

Mrs. John Sinclair, who resided with her son on Oak Park, died Sunday evening of ailments incident to old age. She was seventy-eight years of age and had resided in this locality about twenty years. Deceased was a sister of David Knover, a well known logger and lumberman. The funeral will be held this afternoon.

John Green was yesterday apprised of the fact that about 500,000 feet of Snake river logs had been burned in the forest fires which have been raging along the banks of that river. The logs were on the landing and Mr. Green had arranged to have them shipped to Willmont. The Wanderer departed yesterday with a raft of logs for C. Lamb & Sons, Clinton, Ia.

Frank Whittier, state agent for the employment of convicts, who also looks after paroled convicts, was in this city yesterday and brought with him Thomas Crowley, a paroled prisoner, who had violated the conditions of his parole. Crowley was arrested in June last and went to his home at Lambert, Minn., where he was rearrested. He was sent to the Stillwater prison in the first degree when paroled and has about sixteen months longer to serve.

Due to the fact that there are no more logs in Nevers dam the boom at the head of Lake St. Croix will shut down tomorrow evening and work will be suspended until new logs arrive.

Funeral of an Odd Fellow. LONG PRAIRIE, May 7.—(Special.)—Charles Ernst, of this village, died Saturday morning of cancer of the stomach. The funeral took place Sunday at the Baptist church, under the auspices of the Odd Fellows' lodge of Long Prairie. It was a very impressive affair. A large delegation from the Odd Fellows' lodge of Brownsville was present, as was also H. C. Miller and wife and eighteen of Mr. Ernst's clerks were down from Staples. Mr. Ernst was married to Mrs. O. F. of this place and of the Woodmen of the Stars, where he has lived for a number of years. The delegates chosen were instructed for J. P. Cowan for judge, M. J.
