one of the best antiseptic catarrh tablets for this purpose is one composed of Sanguinaria, Eucalyptol and Guaiacol, and sold by druggists under the name of Stuart's Catarrh Tablets.

These tablets clean the catarrhal secretion from the membranes of the nose and throat and act also very effectively upon the blood, their regular use for a few weeks entirely eliminating the catarr hal poison from the system.

The best remedies for any trouble are the simplest, and Stuart's Catarrh Tablets is a superior preparation for colds and catarrhal conditions because absolutely free from cocaine or oplates so commonly found in cheap cough cures and catarrh medicines.

There is a considerable sentiment in the second congressional district that Conressman McCleary has outlived his usethe state, if current reports are to be believed, and it is not improbable that the onvention to be held next month will rethe Republican standard bearer for the coming campaign.

There is no dearth of willing timber in the district.

Senator Henry J. Miller, of Rock county, and Representative J. F. Jacobson, of Lac qui Parle, are not conscious by reason of their activity in advocating lower railroad rates and similar meas.

"Yes, Kansas is the nome of n wspaper fakes, all right, but the fake business is not what it was in the great old days of the Spanish war," remarked the sporting editor. "Still, you can gamble on Kansas yet for tall corn stories. I shouldn't be surprised, either, if business looks up when the campaign begins. Dewey's comures of popular interest, and George W rom Brown county, is available, especial v since the advertising brought him by is bill to impose a tax on foreign corporations, which has netted the state con iderable revenue already, although in epration but a few months.

Still another active candidate is W. A. Funk, an attorney of Mankato, well known in the district, having before his esidence in Mankato been a resident of Lakefield, Jackson county, in the same district.

Mr. Funk's friends claim that the other three candidates have each pledged themselves not to contest with him for the congressional honor, and if he can come into the district convention, as his friends hope, with a majority of the Blue Earth county delegation, it will seriously weaken McCleary, whose home county has, by reason of its comparatively large popula-tion, and curlous local conditions, been able to influence in the past the politics of the district more than might have otherwise been the case.

The appointment of L. P. Hunt, as

postmaster at Mankato, on the recom-mendation of McCleary, has alienated a large number of the working politicians of the county from his support, as Hunt ridiculed McCleary's original candidacy up almost to the hour of his nomination, yet now he is honored with scattle. yet now he is honored, while earlier and stauncher friends of the former school-master are left by the wayside. He has aften-ated the younger generation by twice denying his presence to high school denying his presence to high school graduating classes, of the Mankato high school, although traveling around the country considerably to be present at banquets where there were distinguished gatherings of notables, and stenographic or other reporters. He has not shown, it is charged, the abiding faith in his home city that he should, although in the last decade he and his son have drawn from the pocketbock of Uncle Sam something like \$60,000, which some Mankato people believe might have been partially expend-

ed in that city.
"There are three reasons why Mankato does not want to see McCleary renominated," was the way it was put yesterday, by Joseph Reynolds, city editor of the Mankato Review, but a Republican in politics, personally. "First, because he has misrepresented the district; second, because he has theren does not because he has the control of the second. because he has thrown down his friends and third, because he has been there

The Populists having, according to Mr. Lamphere, made concession after concession in the interests of the fusion movement, and having repeatedly subordinated their own wishes in order to co-operate thor-

lift toward the vice presidential goal? I think not.

"It was a great convention and the Minnesota delegation was the whole thing from start to finish. We had some hustlers on our delegation, and no mistake. They got everything they wanted and had no kick goming on the final result. The nomination of Towne being due largely to their efforts. I believe that the Minnesotans are destined to play an equally important part in the deliberations of the Democratic party at Kansas City."

Crowds of people are on the way from Fort Sect. Mul. ple are on the way from Fort Scott, Mulberry and Yates Centre to lynch the sall-or. Great excitement prevails."

"New York bit," the old reporter went on impressively. "The managing editor rushed a telegram, saying: 'Send full particulars of the lynching, and, if possible, get the crowd to pull it off for the first edition of the paper.'"

It must have been six years ago, I reckon, when the facts were brought to my attention," continued the old reporter. "Jane Smith, the fugal, handsome, hard-working wife of a farmer living five miles from Wichita, fell into a bored well. She was walking along with a milk pail on her head, if I remember rightly, and, kerchug! she went feet first down that bored well. The well was only eighteen inches across, and if the handshe would have been killed, of c urse. As it was, she stuck in the well about six feet from the top.

"That much is true history, more or ess. Tonehka was to be executed at a less. Tonehka was to be executed at a little Choctaw village seventy-five miles from a telegraph station. A short time before the execution Judge Caldwell issued a reprieve. A messenger started on a stout Indian pony for the Choctaw village. Rains had swollen the creeks, washed away bridges, made the clay roads as slippery as glass. Would he get there in time?"

"I don't know," rejoined the old re-porter, cooily. "How should any of us newspaper boys know? In my paper, newspaper boys know? In my paper, just as Tonehka 'bared his brave Indian breast to the bullet,' the messenger rode in on his foam-covered steed and Tonehka was saved. Others of the boys preferred to guess that he was shot. We got together in a drug store and drew lots as to which of us should send the shot' and which the 'not shot' story. "Well, Rosa Whiteface had a poor but noble lover, who begged the savage father to delay the auction until he could develop a gold mine, in Arizona and enjoy a fair chance at the auction. Get onto the romance?"

"Sure," assented the telegraph editor.

"The savage father refused. The lover committed suicide—razor or drowning, don't remember precisely. All that took time, and gradually we got the country worked up to a pitch of excitement. One New York editor telegraphed an offer of \$1,000 for the rescue of Rosa-Whiteface. Whiteface has shut her up in an underground prison. I wired, and then the whole eastern coast, from Boston to New York, was convulsed with indignation. The day of the auction approached. Rosa fell into a decline. Nothing seemed to arouse her, and even government rations were left untasted. Finally oid Whiteface was bought off for a large sum, furnished by a New York newspaper. The newspaper got a great advertisement out of it, and the editor prides himself to this day on his chivalrous conduct."
