BISMARCK, N. D., May 26 (Special).—The evidence in the murder case against Rev. L. T. Cleary, and the father's case is now before the jury. TO FILL THE VACANT SEES

ADVICES FROM ROME CONCERNING COLUMBUS AND DUBUQUE ARCHBISHOPS

LOOKED FOR IN WASHINGTON

Difference of Opinion as to Who Should Be Honored is Causing the Delays at This Time.

WASHINGTON, May 27.—Important advices from Rome are expected here concerning the vacant sees of Columbus, Dubuque and Fort Wayne, over the appointment of which bishops there is considerable friction. When Bishop Watterson, of Columbus, died thirteen months ago it was generally supposed by the priests of that jurisdiction that the vacancy would be filled in a short time, but on account of differences that have arisen over the claims of Mr. Thomas, of Cleveland, and Denny Moeller, secretary of the Cincinnati archdiocese, to the succession, no appointment has yet been made. It is learned that the authorities in Rome favor the latter priest, who has received his theological training there and is still comparatively a young man. Rev. Dr. Rooker, of the papal legation in this city, knows Dr. Moeller well, but by reason of the antagonism against his appointment for certain quarters, he is not over sanguine as to that candidate's selection. Both Archbishop Martineau and Dr. Rooker would not be surprised if the present title, "Archbishop of Damascus," is only an honorary distinction, but the German priests of Dubuque are opposed to his selection.

The object of the council was to unite pure religion and perfect liberty and to increase fellowship and co-operation among the churches of the world.

Open the Books of Cuba.

Washington Post (Ind.). We have already advised the administration to inaugurate an inquiry into the regime in Cuba. The report offered in full knowledge of the facts—not only of the past, but of the present—has been months past we have been hearing slanders and rumors from the island. We have been told that the government seemed to be a good authority, of profligate and often times corrupt, wastefulness in the dispensation of the public funds. It has not always seemed to us that we were called upon to believe these slanders, and it has been ignored. But in our opinion the time has come for searching, determined and relentless investigation.

Black Heads on Face, No Cure.
Your druggist will refund your money if Pazo Ointment fails to cure you. 50 cts.

Several years ago I was troubled with an aggravated case of dyspepsia and, of course, the first thing I did was to consult a physician. As I had always enjoyed the best of health I was worried a good deal over this, my first illness, and my only desire was to get well as speedily as I could. I took regularly all the medicines as my doctor prescribed them. In a short time I felt all right, thought I was cured and stopped taking the medicine. But it wasn't long before I was feeling as badly as ever, and again I had recourse to the doctor. This kept up for some time until at last I made up my mind I would quit-doctoring and try some of the remedies I saw advertised. I had read so much of Ripans Tablets that I concluded I would give them a good trial. It said 'one would give relief, and I thought if one could give relief a whole lot might cure me. I purchased a dollar's worth, and when I had finished them I was feeling better than I had for years. I continued to use them, and to-day I believe I am a perfectly well man. Once in a great while I do have a slight touch of the old malady, but a single Tablet fixes it all right. I generally keep a supply at home.'
