ROCK FELL THROUGH ROOF

BOULDER ROLLS DOWN THE BLUFF ON THE WEST SIDE WITH DISASTROUS RESULTS

JAMES DORGAN HURT FATALLY

While His Younger Brother Is Badly Bruised—Stone Was Dislodged From Boulevard on Top of the Bluff.

Plunged over a precipitous bluff, a huge boulder rushed down the almost perpendicular incline and crashed through the roof of John Dorgan's home, 221 South Wabasha street, shortly after 8 o'clock yesterday morning, wrecking the rear part of the house and fatally injuring James Dorgan, fifteen years of age, while John Dorgan, Jr., was badly hurt. Three other boys, sleeping in the room into which the heavy rock crashed, escaped with slight injuries caused by falling timbers and flying debris.

The accident happened before the younger members of the Dorgan family had arisen. Mrs. Dorgan was down stairs engaged with the housework, while Mr. Dorgan had gone to his employment. The house is a two-story brick structure, built close to the bluff, at the foot of the Hall avenue steps. Above a crew of laborers, in the employ of Contractor Thomas Linnam, were at work grading and preparing to boulevard the street. The loose earth gathered up was being dumped near the edge of the bluff. The bluff slopes gently off for a short distance, when it becomes a steep incline for sixty feet. At the base of the first slope, it is said, an embankment of heavy stone and earth was being located as a retaining wall. The death dealing boulder slipped from this place and went crashing downward through the roof of the house.

There was no time for warning. A few seconds after the big rock started on its course it shot through the roof like a projectile from a large cannon, cutting a clean hole in the timbers. Sleeping alone in bed, directly under where the rock struck the roof, was Bennie Dorgan. His life was saved by a heavy scantling in the roof. The rock struck the scantling and cut it almost as though done with a knife, but the distance turned the heavy boulder slightly aside, and instead of falling on the boy it dropped nearer the middle of the room, between the bed where Bennie slept and another where his three brothers reposed. The rock did not strike any of the boys, but part of the heavy piece of timber was carried along with it and fell upon James Dorgan and failed of passage, no vote being recorded in the affirmative.

Easy... Enough

For anybody to sell Pianos at the prices we quote, but it's what we sell at those prices that makes them remarkable.

We back our prices with a quality that makes them distinctive, popular and best of all—profitable.

\$218 Is not a large sum, but it gets a New Upright, modern in style, thoroughly well built, finest tone and action; a much better Piano than is often sold by small dealers for \$300.

\$278 Is a moderate price for a large-sized, brilliant toned up-to-date Piano standard make, to-wit date Frano. Examine it.

You will want a Piano for your summer at the lake and can rent an excellent one for **\$4.00 per month.**

upon and failed of passage, no vote being recorded in the affirmative. The mayor's appointments of Edward Feldhauser, to succeed himself as a member of the library board, and of Gustave Williams, successor R. M. Newport on the park board, were received, and concurred in.

In the committee, during the afternoon, the paving of Rice street, from Cottage to University avenues, with brick, was recommended, and when presented in the board of aldermen was voted upon favorably.

An ordinance was introduced by Ald. Shepard providing for a fine and imprisonment for persons driving with heavy loads on that portion of Summit avenue

ALLEMANNA IS CLOSED

PUBLIC EXAMINER POPE TAKES CHARGE OF THE REORGANIZED BANK

TO BE HELD LIABLE ON STOCK

Proceedings Against the Stockholders Are Possible in Connection With Winding Up Its Affairs.

Public Examiner E. M. Pope yesterday closed the reorganized Allemanna bank and placed Deputy Commissioner in charge of the property of the institution. The bank was reorganized in 1898 and the depositors given certificates in five classes, due in one, two, three, four and five years. Over \$3,000 is still due the depositors on certificates of the first class, and the resources of the bank have not wholly adequate to meet the second of the five payments on certificates now past due. Several suits have already been started against the Allemanna bank by depositors holding these certificates, and Gen. Pope, to save further expense and further protect, if possible, the depositors, closed the bank shortly after noon yesterday.

Both the assets and liabilities of the bank were inherited from the old organization. The bank has received no deposits since its reorganization, when it was thought by the officers that a judicious conduct of its affairs would result in the depositors being paid in full. Certificates were issued, but the assets have not "worked out" in fact, a great deal of the paper now listed as assets is practically uncollectible. Almost all the immediately convertible assets, as well as that which was appraised for its full value, has been collected. When the bank reorganized it had liabilities amounting to \$642,496, and the trial balance of May 10 last showed the liability to stockholders for the original amount of certificates issued at the time of the reorganization.

A trial balance taken by the public examiner yesterday gives the statement of assets and liabilities as follows:

Assets—	
Stocks and bonds.....	\$2,020 11
Bills receivable.....	152,940 03
Old bank.....	22,372 75
Furniture and fixtures.....	1,345 68
Life Insurance.....	1,758 11
Scheffer and Rossum.....	100 00
From bank.....	154 50
Cash items.....	6,557 39
Cash.....	494 52
Total.....	\$188,519 99
Liabilities—	
Capital stock.....	\$100,000 00
Undivided profits.....	1,775 70
Certificate, first.....	\$3,215 85
Certificate, second.....	2,268 78
Certificate, third.....	2,268 78
Certificate, fourth.....	18,838 91
Certificate, fifth.....	18,834 35
Total.....	\$188,519 99

The principal item of bills receivable includes a large number of notes, the value of which can only be estimated, but it is not likely that a very large amount of cash will be collected. This is certain from the fact that in two years the officers of the bank could not realize enough money to pay off even the first installment on the certificates. The large reduction of liability since the reorganization of the bank does not represent the depositors' claims, but bills of exchange.

Gen. Pope stated yesterday that under the order of the court, allowing the reorganization of the bank, the stockholders of the old bank were liable for the full amount of their stock—\$400,000. When the reorganization took place the capital was reduced to \$100,000, but this, he says, does not affect the liability of the stockholders for the original amount of the capital of the old bank. The following is a list of the stockholders holding \$5,000 and over:

Henry Ahmanson.....	\$21,000
Anchor Investment company.....	22,000
John Grace.....	5,000
Investment.....	5,000
Moran Manufacturing company.....	5,000
N. W. Security Investment Co.....	14,000
Albert Scheffer.....	8,750
John T. Vitt.....	4,500

While the stockholders are liable, it is a question whether very much could be realized from that direction, as many of them are said to be execution proof. Edward Yanish is president of the reorganized bank, and E. J. Devitt is cashier. The Allemanna bank, and garnished Edward Yanish and the National German-American bank.

IT'S IMPOSSIBLE To Disprove Facts—It is Decidedly Easy to Verify St. Paul Opinion.

Nothing by way of an introduction could be added to the experience and opinions given below which could increase their value. St. Paul people can safely be left to draw their own conclusions based on such convincing proof as this citizen offers. What is there lacking in evidence like this to satisfy a dyed-in-the-wool doubting Thomas?

"Special Trains to Lake Minnetonka." WEST ST. PAUL HOUSE. Through Which the Boulder Crashed.

gen, who lay on the outside of the bed. The timber struck the boy on the right side, crushing his ribs so that the bones protruded through the flesh. The right arm was also broken, it also inflicting internal injuries from which the physicians say the lad cannot recover. The two boys, who were sleeping in the room, were unharmed. James Dorgan, the father, is employed as a laborer by the city railway company. The building occupied by the family was formerly known as Kuhl's castle. The family lived on the upper floor, while the other part of the building is used as a storeroom.

What caused the accident is not certainly known. Some of the workmen at the foot of the bluff say a scarpment of stone and sand fell down upon the roof, while others think the stone was loosened by one of the crew working with a shovel. Shortly after the first stone fell another boulder tumbled over the bluff and demolished a tool chest in the rear of the building.

The city engineer was apprised of the accident shortly after it happened and visited the scene, conducting an investigation and taking photographs of the wrecked portion of the house. The grading work at the top of the bluff was being done by property owners in the vicinity.

Dr. Brimhall reported last night that the injured boy had improved somewhat, and had a slim chance for recovery.

DRIST MONTH ON RECORD. May holds the palm for fecundity of Precipitation.

May, 1900, has been the driest month of all in the records of the weather bureau. There was registerable precipitation only three days, the 8th, 13th and 21st, and the total precipitation was only 34 of an inch.

The annual average rainfall is just ten times that much, or 34 inches.

Contrary to common belief, the month has not been much, if at all, warmer than the average. Some days have been hot, and the hottest was the 12th, when it was reached, while the coldest was the 4th, when the low mark was 33, or one degree above freezing.

SUSTAINED MAYOR'S VETO ALDERMEN HELD THEIR LAST MEETING LAST NIGHT.

The final meetings last night of the two branches of the municipal assembly were colorful. The assembly met and adjourned, and unless a special meeting is called, which was promised, the assembly will go out of existence next Tuesday at noon.

The meeting of the board of aldermen was short and without notable event. Some of the members had in mind the consideration of the vote by which the Broadway loop ordinance was repealed, but they lost heart, and the matter was not mentioned on the floor.

CITY NEWS.
