

Walking to Work

Is the only way in which the business woman employed in store or office, can get open air exercise. It is any wonder that she often grows pale and thin and develops a tendency to "weak lungs"?

"I was very sick indeed," writes Mrs. Mollie Jacobs, of Pelton, Kent Co., Delaware, "and our family doctor said I had consumption. I thought I must die soon for I felt so awful bad. Had a bad cough, spit blood, and was very short of breath. I had pains in my chest and right lung, also had dyspepsia. Before I took your 'Golden Medical Discovery' and 'Pleasant Pellets' I was so weak I could not sweep a room, now I can do a small washing. I feel like a new person."

TROOPS ARE ON THE WAY

DETACHMENT OF FORTY LEFT DULUTH YESTERDAY MORNING

TO REACH RAINY LAKE TODAY

Cabinet Considered Gov. Lind's Dispatch Yesterday, but Will Await Further Information.

Late yesterday afternoon Gov. Lind received a telegram from Adj. Gen. Lambert, at Duluth, to the effect that a detachment of forty men and company officers, under command of Capt. Ewa, of Duluth, had started from that point for the scene of the Indian scare in the Rainy Lake country. The detachment went by train to Tower, Minn., and from there by water to Vermilion dam, to Harding by team, thence by water to the falls and portage to Koochiching. It is expected the detachment will arrive at its destination this afternoon at 3 o'clock. Telegraphic communication ceases at Tower, but preparations were made for the transmission of reports by couriers.

The orders are to prevent the sale of liquor to the Indians, and protect the lives of the settlers of that country. The soldiers carry two weeks' provisions, and are provided with 5,000 rounds of smokeless powder cartridges, and fifty extra rifles.

One serious phase of the situation is that the Indians assembled at the Big Glassy river left their women behind, a circumstance always looked upon as warlike among the Indians.

The following Associated Press dispatch relative to the threatened outbreak was received from Washington last night:

Washington, July 2.—The Indian scare in the Rainy Lake region of Minnesota was one of the subjects considered at the cabinet meeting held here yesterday afternoon. A telegram from the governor of Minnesota was submitted, saying that an uprising in the region was threatened, and expressing the fear that it might get beyond the control of the state militia.

It was concluded that more definite information as to the exact condition of affairs was needed before the federal authorities could properly interfere in the matter, and in order to procure this information the cabinet telegraphed to Brig. Gen. Wade at St. Paul to proceed once to Rat Portage and ascertain the condition and extent of the trouble.

STREET RAILWAY TAXES

ATTENTION OF COUNTY OFFICIALS CALLED TO ASSESSMENT

VALUATION MUCH TOO LOW

A Taxpayer Claims the Law Has Been Violated in the Returns Made on This Property.

The following communication was received by the county auditor and county attorney yesterday:

To the County Auditor and County Attorney of Ramsey County, Minnesota:

Dear Sirs: Your attention is directed to the following facts, in relation to the assessment of the St. Paul City Railway company, in your county, for the year 1900.

(1) Said company is a corporation organized, created and existing under the laws of the state of Minnesota.

(2) On the first day of May, 1900, and for many years prior thereto, it has been assessed for taxation on the value of its property in this county, as such, taxable in this county.

(3) On the first day of May, 1900, it was capitalized for \$5,000,000, consisting of 50,000 shares, at the par value of \$100 per share.

(4) On said day all of its stock was owned or held by the Twin City Rapid Transit company, a corporation organized under the laws of New Jersey, with offices in the city of Minneapolis.

(5) The stock of said company, as shown in the books of said company, is as follows: Common stock, \$5,000,000; preferred stock, \$2,000,000.

(6) In truth and in fact the actual value of the street railway in this city and county is more than the value of stock heretofore given.

(7) I call the attention of the auditor to the foregoing facts to enable him to do in the matter what was omitted by the assessor, as the law on that point is clear and cannot be evaded.

(8) I call the attention of the county attorney to the original return upon said assessment, and to the return thereon made by the assessor—all of whom, it is my opinion, are amenable to the law in said matter.

The state auditor has, by his circular dated April 24, 1900, called the attention of the county auditor and county attorney to the point that the law in respect to taxing corporations must be complied with, and the letter and spirit of said law manifestly violated. Yours truly,

Mortiz Heim.

Things a Woman Wants to Know

FACTS ABOUT SLEEVES.

Their Style Denotes the Up-to-Date or Passe Gown.

The "Comedy of Errors" harbors the Shakespearean injunction, "show us the sleeve that is on the arm of a woman, and we will know her."

There are some fresh models noted in the window displays at Newport and Bar Harbor. Here are a few:

A gown of turquoise blue crepon of silky weave has trimmings on the bodice of black Chantilly lace, and is fitted with long sleeves. These are of black chantilly.

They are rather close fitting, but show a lining of turquoise blue chiffon. Although the sleeves reach from shoulder to wrist, the long line is broken midway by a device which bestows an air of elbow-sleeve. At the elbow begins a series of bracelets of turquoise velvet, quite narrow. This is continued down the wrist. In fact, the forearm is strapped continuously by rings of blue velvet ribbon. Each ring is finished with a tiny blue tassel or one of turquoise velvet. The use of straps and buckles is apparent in the embellishments of the bodice.

A novel sleeve has been invented for a ball gown of mink silk net. The color is the liveliest shade of turquoise. The sleeve consists of a net foundation, very short and rather wider than is necessary. It is completely covered with ruffles and tiny ruffles of the same color. The ruffles must have her eyes open and not be cozened into belief that "double-fold" material is the same thing as double-width. You must fold the material down the middle if you choose, but this process would not convert it into true double-width, which seems to mean an average of 42 inches, but measures often 44, 46, 48, 50, 52 and 54 inches. A full skirt is easily made from wide material, as it only requires going at the upper part of the breadth.

The narrowness of dress silks has long been felt to be a disadvantage to the dressmaker. Why they were woven in such narrow breadths was a mystery left unsolved. The arrival of double-fold foulards is most welcome. Perhaps hereafter we can have double-width India and taffetas.

WHEN PURCHASING FOULARDS.

Hints for the Assistance of the Shopper.

It is a truism of dressmaking that double-width materials cut to far more advantage than your single-width goods. To be sure, the former purchase must have her eyes open and not be cozened into belief that "double-fold" material is the same thing as double-width. You must fold the material down the middle if you choose, but this process would not convert it into true double-width, which seems to mean an average of 42 inches, but measures often 44, 46, 48, 50, 52 and 54 inches. A full skirt is easily made from wide material, as it only requires going at the upper part of the breadth.

Lost Her Jewels in Spokane.

Chief of Police O'Connor yesterday received a letter from Mrs. J. A. Taylor, who claims residence here, stating that she had been robbed of \$800 worth of jewelry in Spokane last week. The police have been unable to locate anyone of that name in St. Paul who is known to be in Washington.

New Coinage.

WASHINGTON, July 2.—The annual statement of the coinage executed at the mint in the past year, issued by the director of the mint, shows the total coinage to have been 184,222,733 pieces, representing a value of \$411,301,960.

Northwestern Saengerbund.

NEW YORK, July 2.—Today's exercises of the Northwestern Saengerbund opened with a rehearsal of the orchestra. The chorus singing, under Arthur Larsen, followed. The orchestra numbers 185 pieces. This afternoon the total concert of the first class and of the Cities and Counties' association took place.

CLEVELAND, O., July 2.—As the result of a meeting of the executive committee of the Bessemer association held last Saturday the statement was given out today that every Bessemer furnace in the country would be shut down as soon as possible in order to stiffen the market.

DEATHS OF A DAY.

DETROIT, Mich., July 2.—Walter H. Lindley, superintendent of dining halls and ears for the Michigan Central and Lake Shore and Michigan Southern railroads, died this evening in Harper street.

CHICAGO, July 2.—Jacob Baker, of 111 N. La Salle, a local insurance man, died at 10 o'clock this evening in the hospital. He was 67 years of age. He was a member of the United States National Guard, and was discharged from the service in 1898. He was a member of the Grand Army of the Republic, and was a member of the Grand Army of the Republic, and was a member of the Grand Army of the Republic.

CHICAGO, July 2.—The Santa Fe system has withdrawn from the military agreement of the Western roads. This breaks the combination, and all roads will now bid individually for the movement of government troops.
