MONEY PACKAGE STOLEN

EXPRESS ROBBERY BETWEEN CHICAGO AND BURLINGTON. CHICAGO, Aug. 19.—Somewhere between Chicago and Burlington, Io., an express package, supposed to contain \$25,000, is alleged to have gone astray. The Commercial National bank of this city sent the package to the Burlington agent of the Chicago, Burlington & Quincy railroad a few days ago on orders given from the Burlington headquarters in this city. The money was sent by Adams Express company. When the money was expressed from the Chicago bank it was wrapped in the usual way by which money is transmitted. In the course of time the Burlington agent of the railroad received a similar package, but it contained nothing but brown paper. The wrapper containing the worthless paper was returned to Chicago, and the bank officials are certain it is not the one sent out by them.

Minister Leaves Republicans. LISBON, N. D., Aug. 19.—(Special)—Rev. J. L. Sizer, pastor of the Methodist church at Lisbon, is a prominent member of the executive committee of the state prohibition party, and as he was a former active supporter of the Republican party, and has recently announced himself against the re-election of McKinley, who is characterized as a wine-bibber and a friend of publicans, it is quite natural that he should call down upon him the vengeance of the administration wire-pullers and the machine in general. They are at it hammer and tongs just now, and as Rev. Mr. Sizer is an able man and as generally considered a moderate and vigorous, it is safe to say he will make a furor by before the snow flies in North Dakota.

ST. PAUL'S WREATH

BRADSTREET'S ESTIMATE BELOW THAT OF EXPERT JONES AND OTHERS HAS COVERED IT BY COUNTIES

Figures by Counties on Which He Has Based His Total—Yields of Past Years.

ST. LOUIS, S. D., Aug. 19.—(Special)—Now that the work of threshing this year's wheat crop is in progress throughout the state, there is much speculation as to the probable total wheat yield in South Dakota. In an interview yesterday, of Bradstreet's Commercial agency, said he was inclined to ridicule the estimate of 40,000,000 bushels contained in a Yankton telegram of a day or two ago. Neither does he agree with H. V. Jones, the Minneapolis Journal's crop expert, who now places his estimate for South Dakota at 30,000,000 bushels. In Mr. Hyde's opinion South Dakota will produce a total yield of 21,200,000 bushels, or three-fourths of an average crop.

"I have 103 replies to my inquiries," said Mr. Hyde, "sent to all parts of the state except the Black Hills, asking, 'What percentage of last year's yield of wheat will be produced in your county in 1900?' The estimates received average as follows: 'the per cent being of the 1899 crop: 'Union, 167; Clay, 100; Yankton, 135; Don Homme, 117; Charles Mix, 48; Gregory, 100; Douglas, 65; Hutchinson, 113; Turner, 100; Lincoln, 130; Minnehaha, 59; McCook, 67; Hanson, 55; Davison, 56; Aurora, 103; "

IS AT ONCE EXONERATED

Coroner's Jury Has Already Acquitted the Parricide, Who Gave Himself Up at Once.

LINCOLN, Neb., Aug. 19.—James M. Burnham, publisher of a paper at Wyoming, Neb., shot and killed his father, Capt. Collins A. Burnham, at their home today. A coroner's jury immediately exonerated the son. Both father and son were prominent political workers in the county in which they reside. The killing was in self defense. The son gave himself up to the officers.

This morning the captain came home in a delirious state and made an assault upon his son. The father used a butcher knife, and in the act of plunging the knife in his body there was no other alternative, the son drew a revolver and fired a shot which went through the father's heart, killing him instantly.

BEAT HER WITH A HAMMER. Catherine Scharf Murdered by Some One Unknown. NEW YORK, Aug. 19.—Catherine Scharf, aged twenty-two, was beaten to death with a hammer in her room on the second floor of 674 Second avenue, some time between 7 p. m. and midnight Saturday, the body not being found until early this morning. Her brother made the discovery when he came home after midnight.

The woman's body lay in a pool of blood, face downward. Near by, on the floor, was a bloody hammer, and the rooms had been ransacked of everything which she owned. It is believed that a thief entered the house and was surprised in his work by the girl, and that he killed her to prevent identification.

SHE IS A GHOST NOW. One of the Negroes She Was Searing Threw a Brick. PHILADELPHIA, Aug. 19.—While frightening a crowd of negroes tonight by pretending she was a ghost, Florence Almond, aged fifteen years, was struck on the head with a brick thrown by one of the negroes, and killed. The negroes were gathered on a lot at Fifty-seventh and Ludlow streets, and the girl, who lived near by, had wrapped a white sheet about her and suddenly appeared before the crowd. The latter scattered in all directions and the girl was about to return home when the brick was thrown. She died in a few minutes.

The negro suspected of throwing the brick has not been captured.

NOT FOR DISCIPLINE. President Zimmer on Scope of Ball Players' Association. PITTSBURGH, Aug. 19.—The Dispatch tonight will carry the following: "President Charles A. Zimmer of the Ball Players' Protective association, when seen last night, said it was not in the mind of the association to take any action upon the recent trouble at St. Louis, in which McGinn threw the ball at Wolverton, striking him in the head. The object of the association is to guard the interests of the players in their business relations with the clubs, and not to have any personal supervision of the players in regard to their actions toward one another on the ball field. He thinks the matter will be brought up by the Philadelphia players at the next meeting of the association to be held in New York September 1.

The president declared that the assertion that the players' association would demand the abolition of the reserve rule was ridiculous, as it was fully recognized that the club owners needed this protection for their money invested in the business. The chief objects of the association are to regulate the playing of the ball, the farming out of players, and to elevate the standard of the national game.

M. Zimmer said it was most probable that some action would be taken by the players in relation to the umpire question, as they realized that the double system would prevent much of the trouble over close decisions.
