LIVERPOOL DECLINE, CONSTANT LIQUIDATION AND LACK OF IN-TEREST CAUSED WEAKNESS

RECEIPTS ARE VERY HEAVY

Recent Advance in Corn Caused Stoppage of Demand and Consequent Decline-Provisions Showed Strength.

CHICAGO, Aug. 18.—A decline at Liverpool, lack of outside interest and scattered liquidation caused a further recession in the price of wheat today, September closing %@%c under yesterday. Corn closed %c lower and oats %c reduced. Provisions closed firm. September nork

d.
At no time during the day were there
ny number of traders who believed that
wheat was going to recover, following
he recent steady slump. Trade was dull
a disheartening degree. Liverpool the recent steady slump. Trade was dult to a disheartening degree. Liverpool closed %40 %d lower; there was armost no outside business, receipts at Western markets were again very heavy and the shipping demand slack. Scattered liquidation, including selling on stop-loss orders, was the order of the day. For some time the only buying was by scalping shorts, who covered to secure profits. September opened %60%c lower at 72% 672%c, and after a few weary efforts to hold its head up, subsided at 71%c. It was under 72c that most of the covering by scalpers was done. This resulted in a recovery to 72%c, at which the market closed steady at %60%c loss from the previous close. New York reported 25 loads taken for export and 5 loads were sold here. Seaboard clearances in wheat and flour were equal to 115,000 bu. At primary Western markets receipts aggregated 1,040,000 bu, compared with 537,000,000 bu the corresponding day last year. Minneapolis and Duluth reported 229 cars, against 231 cars last week, and 232 cars a year ago. Local receipts were 477 cars, 55 of contract grade.

Corn felt the wheat weakness, and the stoppage of the shipping demand, caused

page of the snipping demand, caused the recent advance in prices for this the next month's delivery. Septemoffered at the close yesterday at 2, was offered at the opening today 8%c to 38%@38%c. A few minutes lathe market touched 38%c, but a drop to followed on selling here. at 38%c to 38%c38%c. A few minutes later the market touched 38%c, but a drop to 88%c followed on selling by an influential trader, who was supposed to be hedging against country acceptances, other people, however, reported the country offerings light. The market closed easy, September %c lower at 38%c. The reaction from the bottom was on a prospect of the decline brining out fresh shipping business. Receipts here were 120 cars.

Oas were very quiet, but comparatively steady. Receivers sold against fresh country acceptances, but later there was a fair amount of buying by outsiders. The trade generally, however, was local the character and devoid of independent features. September sold between 21%c and 21%c, closing %c down at 21%c21%c. Receipts were 284 cars.

Provisions were not active, but the market showed an undertone of firmness, the greater part of the session. Local buying, especially of short ribs, and the selling of manary delivery were nor features. At the close: September pork was

elling or country delivery were the features. At the close: September pork was 5c over yesterday at \$11.15; lard, 2½65c igher at \$6.62½, and September ribs, 17½c o 20c higher at \$7.02½67.05.

Estimates Monday: Wheat, 500 cars; orn, 90 cars; oats, 250 cars; hogs, 30,000 lead.

the West was represented by a gain of \$21,725, in Chicago Great Western.

The situation as a whole reflected an improved feeling early, and business enlarged. Optimism was expressed by some interests, and their efforts assisted a substantial rise. It was pointed out that the general situation did not augur well for a buil movement, the perplexities of the Chinese situation, the political problems, and the questions of the crops being cited as obstacles. Nevertheless a general and material rise was affected, in which the best class of railway stocks figured. London bought heavily, the relief to its money market and statistics showing decreased dividend payments by its railroads, causing a demand for dividend paying stocks here.

No change in local money rates occurred while the rise was on, but later call rates touched 1½ in anticipation of an unfavorable bank statement. Manipulation was a factor in effecting wide movements in the mercurial specialties. At times the professional operators experienced some difficulty in keeping special stocks within circumscribed limits, the movement becoming broader and outside orders being executed. Brooklyn Transit was jeggled on predictions as to its forthcoming annual report. Sugar vibrated on trade and divided prospects, and the Coalers were affected by vague reports.

Respecting the rise in the railroads, more definite facts were cited, including improvements in the crops and weekly earnings. Steel issues responded to the tenor of the trade news and the negotiations with labor bodies. As a result of these varied influences, prices rose from 2 to 5 points, and the general feeling hecame more confident. In the last half of the week, realizations by the interests who were most active in the rise and discussion of the Saturday bank statement, produced a general decline. Enough became more confident. In the last half of the week's advance, however, in the seneral list was retained to indicate many material gains.

Prices in the bond market conformed closely to the developments
