CITY NEWS.

The park board will meet Monday night. The Hibernian Knights will meet at Central hall this afternoon. The Koochling expedition of last summer against the Indians cost the state \$1000. City Engineer Clausen is taking down the election booths as fast as possible. The work will be completed in a few days. John W. Johnson will lecture before the Socialist-Labor party this afternoon at 8 o'clock in Assembly hall. Subject, "The Class Struggle." John W. Johnson will lecture before the Socialist-Labor party at 8 o'clock this afternoon in Assembly hall. Subject, "The Class Struggle." The Webster School union will hold a meeting at the school building Monday evening at 8 o'clock. Dr. C. Eugene Riggs will address the meeting. The Ladies' Austrian-Hungarian-German Unterstuetzung Verein of Minneapolis filed articles of incorporation with the secretary of state yesterday. E. B. Kirk, of the firm of Farwell, Ozmun & Kirk, is ill at Spokane, Wash., with typhoid fever. Mr. R. A. Kirk and wife are en route to that city. Michael and Jennie Elben were yesterday given permission by Judge Lewis to adopt a baby named Hoffarth. It has been in their charge almost since infancy. The funeral of Mrs. Annie Witte, who died Friday at St. Joseph's hospital, will be held at 2 o'clock tomorrow from the family residence, 257 Franklin street, followed by services at the Cathedral at 9 a. m. The deer hunting season closes Tuesday. State Game Warden John Bentner says that few deer have been killed this year. It was only since the recent snow storm that the animals could be tracked. There are free lectures at Pfeiffer's hall, Eighth and Wabasha, every Sunday afternoon at 2 o'clock, held by the Social-Democratic party. The subject for this afternoon is "Evolution, Social and Religious." The board of public works will have no special session before them Monday afternoon at its regular session. The summer work has been commenced to let up and next spring's contracts are scarcely started. Mr. and Mrs. R. J. Clarke wish to thank their friends, and especially the members of various fraternities, for their

SENATOR DAVIS' CONDITION HAS IMPROVED GREATLY YES—TODAY

TWO HOPEFUL BULLETINS

Dr. Stone Reports That the Kidney Disease is Making No Apparent Headway and Pulse is Stronger.

There has at last been a change for the better in the condition of Senator Davis, and Dr. Stone has felt justified in issuing two bulletins vastly more encouraging than any sent out for two weeks past. The latest, issued last night, reads as follows: "Senator Davis is resting quietly. He is from pain and taking nourishment and stimulants freely. Temperature 99-100, pulse 94, respiration 21." The bulletin issued yesterday morning reads: "For the first time since last Monday morning I am prepared to say that Senator Davis' visible symptoms show an improvement in his condition. At 10:30 this forenoon the temperature was 99-100, pulse, 94, and stronger; respiration, 21. Brain clear, rested well." The foregoing reports show that the senator is at least holding his own. The affection of the kidneys, from which so much was feared, is not making rapid headway. His temperature and pulse both exhibit encouraging improvements, and his respiration is not as rapid as it was two days ago. The mention that his brain is clear must be taken as a most favorable symptom, as it indicates that the delirium spoken of in earlier reports has passed away. It must also be borne in mind that in the senator's present still critical condition, too much weight cannot be attached to the apparent gain in strength; a relapse may set in at any moment, but his friends are hoping for the best, and all over the United States the progress of the senator's struggle for life is being watched with the keenest interest and solicitude. Among the cablegrams and messages received yesterday were the following: Rotterdam—Mrs. Senator Davis: How is senator? My sympathy, Listoe, Consul at Rotterdam. "Mankato, Minn.—Five hundred teachers of the Southern Minnesota Teachers' association send expressions of deepest sympathy in your present affliction, and hope for a speedy recovery. By order of the association, Minnie Van Blaricum, Secretary." "Washington, D. C.—Mrs. Cushman K. Davis: Please convey to Senator Davis assurances of my profound concern for his condition, in which Mrs. Longstreet joins with warm sympathy for you, and the hope that he may be long spared to the nation he has served with such distinguished ability. Gen. James Longstreet." Among those to call and make inquiries in person were: Charles W.

ANOTHER "OXYDONOR" VICTORY. (From Geo. P. Goodale, Secretary Detroit Free Press.)

DETOIT, MICH., May 2d, 1900. My Dear Doctor—Some years ago I put on paper a few words in which I tried to express my deep sense of the value of your discovery called OXYDONOR. I would like somehow to assure you and the public that I am still of the old faith; that Oxydonor is the chiefest single blessing with which I have made acquaintance on this earth and that I would not voluntarily forego its benefits for a deed in fee simple of Greater New York. Faithfully yours, (Signed) GEO. P. GOODALE.

At 10:30 this forenoon the temperature was 99-100, pulse, 94, and stronger; respiration, 21. Brain clear, rested well." The foregoing reports show that the senator is at least holding his own. The affection of the kidneys, from which so much was feared, is not making rapid headway. His temperature and pulse both exhibit encouraging improvements, and his respiration is not as rapid as it was two days ago. The mention that his brain is clear must be taken as a most favorable symptom, as it indicates that the delirium spoken of in earlier reports has passed away. It must also be borne in mind that in the senator's present still critical condition, too much weight cannot be attached to the apparent gain in strength; a relapse may set in at any moment, but his friends are hoping for the best, and all over the United States the progress of the senator's struggle for life is being watched with the keenest interest and solicitude. Among the cablegrams and messages received yesterday were the following: Rotterdam—Mrs. Senator Davis: How is senator? My sympathy, Listoe, Consul at Rotterdam. "Mankato, Minn.—Five hundred teachers of the Southern Minnesota Teachers' association send expressions of deepest sympathy in your present affliction, and hope for a speedy recovery. By order of the association, Minnie Van Blaricum, Secretary." "Washington, D. C.—Mrs. Cushman K. Davis: Please convey to Senator Davis assurances of my profound concern for his condition, in which Mrs. Longstreet joins with warm sympathy for you, and the hope that he may be long spared to the nation he has served with such distinguished ability. Gen. James Longstreet." Among those to call and make inquiries in person were: Charles W.

HE MADE A STRONG RALLY

SENATOR DAVIS' CONDITION HAS IMPROVED GREATLY YES—TODAY

TWO HOPEFUL BULLETINS

Dr. Stone Reports That the Kidney Disease is Making No Apparent Headway and Pulse is Stronger.

There has at last been a change for the better in the condition of Senator Davis, and Dr. Stone has felt justified in issuing two bulletins vastly more encouraging than any sent out for two weeks past. The latest, issued last night, reads as follows: "Senator Davis is resting quietly. He is from pain and taking nourishment and stimulants freely. Temperature 99-100, pulse 94, respiration 21." The bulletin issued yesterday morning reads: "For the first time since last Monday morning I am prepared to say that Senator Davis' visible symptoms show an improvement in his condition. At 10:30 this forenoon the temperature was 99-100, pulse, 94, and stronger; respiration, 21. Brain clear, rested well." The foregoing reports show that the senator is at least holding his own. The affection of the kidneys, from which so much was feared, is not making rapid headway. His temperature and pulse both exhibit encouraging improvements, and his respiration is not as rapid as it was two days ago. The mention that his brain is clear must be taken as a most favorable symptom, as it indicates that the delirium spoken of in earlier reports has passed away. It must also be borne in mind that in the senator's present still critical condition, too much weight cannot be attached to the apparent gain in strength; a relapse may set in at any moment, but his friends are hoping for the best, and all over the United States the progress of the senator's struggle for life is being watched with the keenest interest and solicitude. Among the cablegrams and messages received yesterday were the following: Rotterdam—Mrs. Senator Davis: How is senator? My sympathy, Listoe, Consul at Rotterdam.
