

A GENEROUS OFFER

George B. Wright Discovers a Cure for Lost Manhood and Sends it Free to Every Sufferer Who Will Write for it.

Gratitude is one of the noblest impulses of the human heart and in few instances has this fine quality been so conspicuously exemplified as in the case of George B. Wright, of Marshall.

Mr. Wright is a merchant and well-known citizen of Marshall, Mich., who was permanently cured of lost manhood and nervous debility after declining health for years. He now devotes his life to helping other men who suffer as he once suffered. Mr. Wright offers to send the medical prescription that effected a cure in his case to every reader of the Globe who is suffering today as he suffered. All who will drop him a letter asking for a copy of the prescription will receive it by return mail free of charge.

The following editorial by A. N. Tally, M. D., regarding Mr. Wright's prescription for lost manhood appeared in a recent issue of the International Health Reports, published at Washington, D. C.

We, as the highest American authority on all matters of health, sanitation and hygiene, are constantly receiving letters of inquiry about a reliable cure for lost strength in men.

Therefore we have ordered an investigation to be made into the subject and our medical staff found there were many excellent cures on the market, but that many were worthless and some actually harmful. Therefore when we came upon the prescription furnished free by George B. Wright, a merchant of Marshall, Mich., we instituted a most thorough laboratory examination and found that its wonderful efficacy depended upon its being exactly compounded according to proper chemical treatments in order to establish the proper chemical action and reactions in the human system, and that it should be used in the manner all, and not in the manner of an ordinary medicine.

Among the benefactors of the race may be mentioned the said George B. Wright, inasmuch that he gives this grand remedy free to all who write for it.

Taken according to directions it builds up the weak and restores to full size and vigor the nerves, restores the brain and cheer and lifts up the discouraged man so that he once more enjoys the benefits of nature and the pleasures of life. Failure in business and love surely falls upon him who is weakened physically and mentally.

It is at once relieved and a new man made of him who uses this prescription. Therefore, upon the receipt of the report of our medical staff we extend to George B. Wright's prescription for lost manhood the highest and most emphatic endorsement of the United States health reports.

As certain as a wound leaves a scar, and as sure as effect follows cause, men live to repent their follies and indiscretions in weakness and suffering. The tortured sufferer may bear no telling marks of ruin upon his face to betray his lost manhood. He goes to his grave a human wreck, and never tells his sufferings for fear of shame. Such mental anguish at times drives him to the verge of insanity, and he preys for those who have in human form—quack doctors—who hold out alluring hopes of cure only to disappoint, and who, therefore, upon the receipt of the report of our medical staff we extend to George B. Wright's prescription for lost manhood the highest and most emphatic endorsement of the United States health reports.

MR. KRUGER'S DAY IN PARIS

Venerable Ex-President Is Looking for Intervention—Resolution in Its Favor by Council of the Seine.

LONDON, Nov. 28.—While the reports of the condition of Cape Colony are regarded as somewhat unnecessarily alarming, there is little doubt that the Boers are too resolute view of the general situation. The constant dispatch to South Africa of reinforcing drafts and the daily reports of the Boer army, which are not over and, while the statement that Lord Roberts has demanded 20,000 fresh troops is incorrect, it is a fact that he has serious cause to believe that the more active the Boers are, the more they will be able to do. These reports will be dispatched, but they will be serious cause to believe that the more active the Boers are, the more they will be able to do. PARIS, Nov. 28.—The conversation which former President Kruger had with the French minister of foreign affairs, M. Delcasse, yesterday, was confined to the Boer situation in South Africa, but the probable attitude of France in certain eventualities. Mr. Kruger did not press for a definite statement and the conversation lacked any serious moment. Deceased let it be understood that France had not changed her attitude since he explained the government's position in the chamber of deputies last March. France will not take the initiative in intervention in South Africa, but will not discourage any other country from so doing. On the contrary, she will join in such an initiative if it is taken under such conditions as appears to her to merit acquiescence. Mr. Kruger did not formulate any proposition and did not brook any suggestion of a proposition. He believed he will take the official diplomatic step at The Hague.

THE GENERAL COUNCIL OF THE SEINE today adopted a resolution that the French government should take the initiative in the endeavor to bring about an arbitration of the issues between Great Britain and the Boers.

NEW YORK, Nov. 28.—Michael Davitt cables from Paris to the Evening Journal today that Mr. Kruger, replying to the question if he had any intention of making his future home in the United States, said: "I never contemplated going to America to live, although I have received several pressing invitations to do so. I am, however, seriously considering, however, a short visit to the United States. I would not deter me, did I am, if I thought it would accomplish any good for my oppressed country."
