JOINT COMMITTEE OF AUDITORS AND TREASURERS DISCUSS NEEDED LEGISLATION

MEMBERS TO BE ASSESSED

Contributions Will Be Asked and Then Active Work of Framing Legislation Desired Will Be Begun.

The joint legislative committee of the County Auditors and County Treasurers' association, consisting of five members of each body, held a joint meeting in County Auditor Johnson's office at 2 o'clock yesterday afternoon. No definite steps were taken, however, as it was deemed best not to do anything until they had some money to pay the expenses of going ahead to secure the legislation wanted by them. J. L. Meyer, treasurer of Morrison county, was elected chairman; E. J. Miller, auditor of Big Stone county, secretary; Charles F. Scelme, treasurer of Searle county, secretary.

Questions in regard to securing better laws governing the work of county auditors and treasurers were discussed for a few minutes. It was decided that in order to do the work before them in an effective way county auditors and treasurers in the state would be asked to contribute \$2 each. It was also decided to pay the secretary of the committee something, as he would have a great deal to work on his hands in the line of correspondence and other matters. The joint committee will meet again in the near future.

ADDITION TO CITY BATHS

PLANS ARE PREPARED BY CITY BUILDING INSPECTOR.

Building Inspector Haas yesterday furnished Dr. Ohage a sketch of the plans that he is preparing for the proposed addition to the public baths on Harriet island.

The council has set aside \$10,000 for this purpose, but the plans as prepared by the building inspector only call for an expenditure of about \$7,500. The extension will be placed on the west side of the present building, and will be 230 feet long and 22 feet wide. Included will be a pavilion and hand stand 100 by 40 feet. The whole will be surrounded by a tower of handsome design. The capacity of the baths, in the event that the addition is built, will be doubled.

It may be necessary to do some dredging and to drive some piles in order to maintain a clean pool and a fair stage of water, but just now no arrangements have been made for such.

SNOW AS A BENEFACTOR

ENGINEER CLAUSSEN'S STREET SWEEPING SCHEME IS DEFEAT.

City Engineer Clausen yesterday's fight with much satisfaction yesterday's light fall of snow, as it relieves his department from the bother incidental to keeping the city streets clean, the debris and dust so annoying to pedestrians by reason of the winds.

The force of men at work the past two days has been removed for the present, but the force will be called out again if the nuisance continues.

In order to assist in the removal of snow and ice from sidewalks during the winter months, the city has decided to be printed a number of cards, headed "Observe the Law," and containing the city ordinance bearing on the matter. These cards will be distributed to the police, and they will be instructed to leave them at every house along their beats.

VACCINE POINTS NOT GOOD

HEALTH DEPARTMENT REJECTS A NUMBER OF THEM.

The consumption of vaccine points by health departments just now is considerable. The health department of the parochial schools, making vaccination of their pupils compulsory is meeting with a heavy response, and the office is daily receiving large quantities of children vaccine. An examination of the vaccine points on hand yesterday disclosed the fact that a number of them were impure, and were immediately shipped back to the manufacturer.

CAME BEFORE THE BEAK.

Small Fines and Short Sentences Imposed in the Police Court.

Joe Schmidt, F. Bergman, Gus Anderson and J. Packham were found guilty in the police court yesterday morning on the charge of selling milk containing less than 20 per cent fat. They were each given the minimum fine of \$10.

M. Huber and M. Wiskey, the two boys who were arrested for stealing a pair of pants from the store of E. J. Kraft, were sentenced to thirty days in the workhouse at the suggestion of their parents.

James Kenney, a newsboy, has been working the installment plan houses of the city by paying the first payment on a clock and then selling them. He bought a clock and watch from E. J. Kraft and a clock and watch from J. M. Kraft, before completing the payments. Burkett's complaint was heard yesterday, and Judge Orr held that nothing could be done in the case. The property was held by him until he had paid the balance.

James Harris and Fred Higgins were each sentenced to ten days for loitering.

GOOD BOOKS FOR CHILDREN.

Supt. Levison's Advice to Parents—Meeting at Grant School.

The children of the Grant school and their parents, together with the teachers, held a family reunion last night in one of the rooms of the school. Supt. Levison presided at the occasion with his presence, and at the close of the evening's programme spoke a few encouraging words of advice to the parents concerning the selection of reading matter for their children.

"I have been entertained by the speakers before me and gathered a few scattering ideas that may do me good in the future," said one of the mothers. "As it were, because they give parents the opportunity of becoming acquainted with the teachers of their children and vice versa."

"Most of the talk this evening has been about books. I think great care should be exercised in the selection of books for children. Simple, healthy, and interesting books are the kind you want. I remember when I was a child I had 'Little Women' read to me. I remember it as well as I remember anything from that time. It is no unimportant matter—this selection of books for children—so keep in mind that when you are going to buy a book for your little child, you should have a good reason to better him or her mentally and morally. Take advantage of that chance."

The superintendent then advised the parents to buy books for their children. He mentioned the names of some of the standard American poets or novelists.

Miss S. C. Brooks read a paper on "Child Reading." A paper written by Mrs. Hyde on "Reading" was read by Miss Alice Hyde. Miss Signa Dahl presented a series of views with a solo. Messrs. Filmer, Peterson and Simmons each spoke a few words.

HE MADE "GOO-GOO" EYES.

Policeman and Negro Furnish Exciting Free Entertainment.

The passengers on the Interurban car returning from the Grand opera performance in Minneapolis late Thursday night were very much frightened by a queer that took place between a colored man and a Minneapolis policeman. The colored fighter got the impression that the preserve of the law was making "goo-goo" eyes at his dusky lady companion and resented these attentions with considerable vehemence. Almost instantly the policeman drew his revolver and frightened some of the female passengers sick. The conductor, with some assistance, took charge of the combatants before any fatalities were registered.

The car was crowded and there was a general scramble to get from in front of the muzzles. The tickets to this PIT of the muzzles.

ON A SYSTEMATIC BASIS

PUBLIC EXAMINER POPE HAS ESTABLISHED MANY REFORMS

HIS BIENNIAL REPORT IS OUT

It is in the hands of the Governor and Records Work Done in Last Two Years.

Public Examiner Pope has completed his biennial report. He has forwarded it to Gov. Lind, before sending it to the printers. The report covers many interesting items.

Mr. Pope states in the beginning of the report that it was early found, after he came into office, that there had been a general neglect of the provisions of the "Accounting Act," chapter 20, General Laws, 1889, entitled "An act to establish a uniform system of accounting for public funds in the state educational, charitable and correctional institutions."

Not a single institution was in accord with the provisions of the act, and, while some had an intelligible and accurate system of accounting, others had imperfect and faulty methods, and there was no pretense of uniformity. Not a single institution of those who are required by law to give bonds had on file a bond which met the approval of the attorney general for form and execution.

The uniform system of registers and orders, cash books and ledger accounts with the several funds appropriated by the state, was prescribed and, with but one exception, has been put in effect. The result is that every superintendent, treasurer and accounting officer has been properly elected and legally bonded. Their financial records are kept on a system which does not conflict with the requirements of the board of corrections and charities is uniform and intelligible, insuring accuracy and simplicity while effecting a material saving in clerical labor.

If, hereafter, liabilities shall be incurred in excess of the amounts appropriated, it will not be for the lack of knowledge on the part of officials or managing boards. Large sums of money heretofore held out, without warrant of law, have been transferred to the state treasury. The funds of the institution treasurers have been confined to the limits prescribed by section 3 of the accounting act, and they have been careful to keep the accounts and records of the institutions, which work is now performed by the accounting officers, as by law required.

Following precedents and, in some cases, suggestions from the public examiner's department, the managing boards of state institutions have, as a rule, elected banks as institution treasurers. But this has suggested time and time again that, wherever practicable, state banks should be chosen as institution treasurers, but only one institution has so far adopted this suggestion. State banks are chosen because they are created and are incorporated under the state laws, because they are specially under the supervision of the state department of banks, and for all depositors accurate knowledge of their financial condition, because all deposits of state banks are insured by virtue of provisions of law, made preferred claims.

The regents of the University of Minnesota selected a state bank as institution treasurer, but other institutions selected national banks.

GOOD NEWS FOR CONVICTS

BOARD OF PARDONS REDUCED SEVERAL SENTENCES YESTERDAY.

At a meeting of the board of pardons in the state capitol yesterday afternoon the twelve-year sentence of Carl Kraft was commuted to ten years, which will enable him to leave the state prison.

John Quinn, Minneapolis, was given a conditional pardon on conditions that he forever refrain from the use of intoxicating liquors, and that he report to the state prison, as to parole prisoners.

The case of William Lenz, which has been under consideration for some time, was further considered yesterday, but nothing was done. Final action may be taken later.

Leonard R. Day, against the peace and dignity of the state and statutes in such case made and provided. And there was much more.

"Are you guilty or not guilty?" inquired Clerk Royce after completing the reading of the indictment.

Hamilton, who had listened quietly, said nothing, but Robert L. Penney hastened to ask for leave to hold Hamilton's case until Dec. 20.

This was satisfactory to County Attorney Reed, and Mr. Hamilton will be allowed until next Thursday to enter a plea. He has, of course, no intention of pleading guilty, but it is doubtless Mr. Penney's purpose to examine the document very carefully with the object of finding some flaw which will permit him to demur to the indictment.

After the Hamilton arraignment a large number of jail prisoners were brought forward to list to the indictments. Seven of the men arraigned promptly pleaded guilty, but one, undoubtedly led by his lawyer, as it would in case the men objected to being arraigned on Mr. Boardman's indictment.

The man who attracted most attention was Henry Sherman, who shot Belle Benson while in a fit of jealous anger.

The two men who intend to make the state prove the accusations of the grand jury were George McDonald, arrested for attempting to rob Edgar C. Cronin, and Joseph Pelick, accused of robbing Joseph L. Laurer of \$5. The trials of these men were set for Dec. 17.

The following pleaded guilty: John Anderson to burglary in the third degree for his attempt on the Hub Co. Mis-Grimes; Charles Craig and William M. Gilman, burglary in the third degree; Andrew Mead (colored), grand larceny in the second degree for stealing Irving W. Wyman's trunk containing personal effects worth \$37; Edward Wilham, grand larceny in second degree, for stealing a revolver and other property from John O'Brien at 233 First avenue south; William D. Congdon, grand larceny in the first degree for embezzling \$125 from the Metropolitan Music company.

HOLD THE SAME OPINION.

The Ministers Inghorse Ireland's Stand on the Canteen.

Several Minnesota ministers were interviewed yesterday upon Archbishop Ireland's defense of the army canteen before a congressional committee in Washington. The inquiry was in connection with the pressions of approval and requests that the speaker be not quoted for fear of needless opposition in the part of members of their congregations.

In the main they expressed the opinion that they believed the St. Paul prelate knew whereof he spoke, and many coincided with his statement that "it is useless to try to prohibit absolutely the use of liquor. If you try to be too severe and do away with it altogether in the army, the men will do it in ways that are illegal and harmful."

FUNERAL OF A SOLDIER.
Late Bandmaster Watson Laid to Rest by Soldiers.
Impressive ceremonies marked the funeral services over the remains of the late Charles H. Watson, which were held in the morning of the 14th at the St. Paul armory. The services in the afternoon commenced at 2 o'clock and were witnessed by between 200 and 300 of the friends and relatives of the deceased. The casket was draped with the Stars and Stripes and was covered with ferns and fresh cut flowers.
