RENDERED GOOD SERVICE.

Senator Clark of Montana has already rendered a more valuable public service than he is ever likely to render during the entire period of his service in the United States senate, even if he were to retain his membership in that body for the balance of his days.

LET IT BE A DEMOCRAT.

The intimation is offered from time to time that owing to disagreement among the Democratic members of the council there is a likelihood that a Republican attorney will be chosen as successor of Mr. Markham. The Globe does not know what the immediate occasion for difference of opinion may be as to the proper selection of the future corporation attorney.

MR. BRYAN AND HIS WEEKLY.

The introductory address with which Mr. Bryan ushers his publication, the Commoner, into public notice is a remarkable performance, considered with reference to its avowed object. As a defense of his adoption of the title which heads his paper, different views will be entertained of it; but as a presentation of the need or occasion for the publication itself, or of the principles in social and economic science which the paper is designed to advocate it is remarkable for its failure to offer the public any enlightenment.

TWO PROBLEMS OF EXPANSION.

Co-ordinate with the proposition to reclaim our arid domain by a system of national irrigation and of equal importance to the nation, is the preservation of what remains of our forests by national legislation carried into effect through an efficient board of forestry. Federal control should be supplemented by uniform state laws preventing the waste of the present forests by fire and lumbermen. And at the same time providing for the future, by a system of reforestation.

FRIDAY GLOBE GLANCES.

Children who do not show a scar on their arms are being sent home from school. The American people should be kindly to compulsion of any sort, and there are lots of people in St. Paul who prefer to take the chances, which are extremely remote, of getting the smallpox by deliberately allowing their faces to be inoculated with the virus of a poisonous virus, which has proven in many cases more deadly and dangerous than the disease it is supposed to prevent. There is a wholesale fear, and unreasonable so, of smallpox. There are more deadly diseases, and far more common. This fear is as unreasoning as the fear many people have of undertaking a new venture on Friday.

Murray Hall, the woman who recently died in New York, and who masqueraded for years in male attire, is still being talked about in the papers. She married

purely editorial publication which appears weekly or monthly were in more general vogue and were here capable, as it is there, of seriously influencing public thought on the great questions of the hour.

Mr. Bryan in identifying his future with the undertaking of publishing a weekly paper must be regarded as having withdrawn himself from active and close touch with the progress of current events in the United States, no matter how successful his undertaking may be with its immediate constituency.

"By properly shaping and passing the ship subsidy bill the present congress will leave behind an admirable record of good works," says an exchange. Yes, "by properly shaping."

GLOBE'S CIRCULATION FOR DECEMBER.

Ernest P. Hopwood, superintendent of circulation of the St. Paul Globe, being duly sworn, deposes and says that the actual circulation of the St. Paul Globe for the month of December, 1900, was as follows:

Total for the month - 533,250 Average per day - 17,201

Ernest P. Hopwood, Notary Public, Ramsey Co., Minn. (Notarial Seal.)

Thomas Yould, being duly sworn, deposes and says: I am an employe exclusively of the St. Paul Dispatch in the capacity of foreman of press room. The press work of the St. Paul Globe is regularly done by said St. Paul Dispatch under contract. The total number of copies ordered printed by said Globe from the 1st until the 9th of December, 1900, inclusive, was 156,150 and every day a slightly larger number than ordered was actually printed and delivered to the mailing department of said Globe.

THOS. YOULD, Notary Public, Ramsey Co., Minn. (Notarial Seal.)

John L. Brewer, being duly sworn, deposes and says: I am an employe exclusively of the St. Paul Dispatch in the capacity of assistant foreman of press room. The press work of the St. Paul Globe is regularly done by said St. Paul Dispatch under contract. The total number of copies ordered printed by said Globe from the 10th to the 31st of December, 1900, inclusive, was 377,100 and every day a slightly larger number than ordered was actually printed and delivered to the mailing department of said Globe.

JOHN L. BREWER, Notary Public, Ramsey Co., Minn. (Notarial Seal.)

FURTHER PROOF IS READY.

The Globe invites any one and every one interested to, at any time, make a full scrutiny of its circulation lists and records and to visit its press and mailing departments to check and keep tab on the number of papers printed and the disposition made of the same.

PERTINENT OR PARTLY SO.

Mr. Bryan's Commoner came out yesterday, but the senatorial leadleak in Nebraska does not seem to have been affected by it in the least.

As yet Charles W. Fairbanks and A. J. Beveridge are the only favorite sons that Indiana has urged for presidential candidates in 1904. But there are others who will enter before the state closes. Indiana can be relied upon to throw plenty of volunteers into the forefront of a presidential battle.

Those Wichita, Kan., girls who burned a sorority initiate's forehead with caustic have in them the making of several future Mrs. Nations.

Mr. Tawney has been interviewed in Washington and said that Clapp would make a good senator. Mr. Tawney may have remembered how good a fight he made.

The sausage men have a strong influence over education in the Northwest. Minnesota university has a professor named Frankfurter and the North Dakota agricultural college is presided over by a Wurst.

The Dublin corporation council voted 9 to 22 in favor of a resolution of condolence with the bereaved family of a man who has allowed their prejudices to run away with their decency.

Candy makers have decided not to introduce a chocolate drop machine, which would throw out of employment the chocolate drop girls. Not the chocolate drop girls who nibbles them daily, but the chocolate drop girl who drops the sugar into the chocolate.

AT THE THEATERS.

METROPOLITAN.

A peculiarity of the engagement of "The Sign of the Cross" at the Metropolitan this week, is the manner in which the business increases with every performance. The opening days of the week were comparatively dull, but as the end of the engagement approaches the crowds appear to be larger and more enthusiastic. The usual Saturday matinee will be an exceptionally farwell performance Saturday evening.

The Rogers Brothers, who have been written about and sung about probably more than any other comic team on the stage, appear at the Metropolitan on Friday night. John J. McNally, a Boston newspaper man, has made a fortune out of the skits he has written for these popular German comedians. His new comedy, called "The Rogers Brothers in Central Park," is the jolliest piece of the lot.

"A Hole in the Ground" offers one of the best laughing opportunities of the season. Harry Maxwell, as the landlord, Charles Cowles, as the stranger, and Nettie De Coursey, as the luncheonette girl, make a trio of entertainers hard to beat. The business at the grand this week has been very good.

Nellie McHenry, in "M'Lis" will be seen at the Grand the coming week.

STAR.

"Miss New York, Jr.," which is this week's attraction at the Grand, is making a decidedly favorable impression on patrons of that playhouse. The company includes a number of clever specialty artists, and the operatic selections of Miss Emma Krantz are of an ordinary level of vaudeville attractions.

Next week, "Wine, Women and Song."
