In Labor's Field.

The Bricklayers' union held a well attended meeting last night which was presided over by President Buetow, when the application of John Morrison to be accepted as an apprentice was referred. The evening was devoted to an extended report of the international convention made by Charles Harpe, who attended as representative of the local union. The international voted down the referendum vote and laid over the consideration of a home for aged and disabled members, and refused to affiliate with the Building Trades council. The following important resolution was passed by the international: Resolved, That from and after the adoption of this resolution, in prosecution of work requiring bricklayers, the city engage only members of the Bricklayers and Masons' International Union No. 8 of Milwaukee, and pay the prevailing union wages. The following were elected officers of the international: President, G. P. Gubbins; first vice president, M. P. Canty; secretary, William Dobson; treasurer, P. Murray; editor of Journal, E. Moffatt. Receipts, \$25.50; disbursements, \$13.15.

ALDERMANIC COMMITTEE ON STREETS HAS A SPIRITED SESSION

WESTERN WARDS INFLAMED

Messrs. Dobner and Hunt Have a Passage-at-Arms With Respect to New School Locations.

The purchase of school sites and the erection of buildings in the First, Second, Fifth, Eighth and Eleventh wards, permission to do which is desired by the board of school inspectors is as far from consummation as ever.

At a meeting of the committee on streets of the board of aldermen yesterday afternoon, strenuous efforts were made to secure immediate approval of a resolution allowing them to proceed, Aldermen Dobner and Murphy interposed a stinging rebuke, and were sufficiently strong to bring to their aid a vote that sent the entire question over for two weeks.

The proceeding was productive of much discussion and several passages. Ald. Hunt impugning the motives of Ald. Dobner as not fair and impregnated with political bias. This provoked the question of submitting the Eleventh and Tenth wards, a proceeding made necessary, the school board said, by reason of a clerical error in the original draft of the measure. Ald. Hunt intimated that Ald. Dobner was making this a subterfuge to carry favor with his constituents. Zimmerman said it was a matter of principle with him and not political trickery.

President J. W. L. Corning, E. O. Zimmerman and Superintendent of Schools Metzger, this evening spoke exhaustively in support of the sites contemplated, and their desire for the passage of the resolution, but they had to give way before the opposition. It was the rule of the board to purchase sites that would allow the building of additions to all schools rather than the erection of separate buildings, and the committee called for the employment of much extra help, and ate into the revenues of the board.

Ald. Bonitz proposed to submit the matter to the board at its regular meeting, next Tuesday, but Ald. Dobner demurred and the motion was lost, the vote being 10 to 8 in favor of the resolution. The entire matter was laid over until the next regular meeting of the committee, which will be in two weeks.

TO ENJOY TRACKAGE ON THE WEST SIDE LEVEE.

The levee and streets on the West side above the Wabasha street bridge have gone up in value since the Omaha road was built, and it would not be a right-of-way for switching purposes.

At the meeting of the aldermanic committee on streets yesterday afternoon no less than a score of speakers, with their attorneys, and each made request that their particular road be given the preference.

Not less prominent was Dr. Ohage, who fears for the public baths, but as nothing was done beyond to refer the matter to the legal department he did not have a chance to interpose an objection.

The objection to giving the Omaha road the right-of-way along the river bank, from its bridge west to a point below the Wabasha street bridge, was led by Attorney Daniel W. Lawler, for the Great Western road. He contended that his road had been given this very same concession, and that the council records would sustain his position. A portion of the right-of-way was now in use, and the company intended to continue the extension. His company had been in undisturbed possession for sixteen years, and any action now would imperil their just ownership.

Pierce Butler, for the Omaha, asked that the petition be granted that it be considered, as the manufactories and warehouses along that side of the river had long-desired shipping facilities, and now that they were about to receive it, another road was endeavoring to step in with an adverse claim. He doubted the stability of the claim made by the Great Western, and said in substance that the record would show that the condemnation proceedings for levee and street purposes had failed, as the owners of the property, with the exception of a few, had not signed their holdings.

For the Milwaukee, Attorney Root appeared, and asked that in the event a right-of-way be granted that it be amended to permit of its use by all roads.

The question was finally referred to the legal department to pass upon.

A petition containing over 300 names has been filed with the city clerk praying for the passage of the ordinance granting to the Omaha the right-of-way along the levee on the West side.

Dr. Ohage is now preparing a petition opposing the grant, and says he will get many more signatures, 5,000 if necessary.

TEA SET FOR LAMBERT

RETIRED ADJUTANT GENERAL RECEIVES A HANDSOME PRESENT.

Former Adj. Gen. Lambert was presented with a magnificent silver tea set last night at the state house by the officers of the national guard. The presentation was made in the governor's office by Dr. J. A. Stone, who in a brief and appropriate speech, said that the former adjutant general was admired and respected and beloved by all the members of the national guard, and that he had made a record in his office that would be impossible to beat. He reviewed his work during the past years, and said that it had been of service to the whole country at large, as well as this state.

Mr. Lambert responded briefly and former Gov. Lind added a few words, commending the work done by the adjutant general, saying that it could not have been done better.

Gov. Van Sant was then called upon and he, in a brief and appropriate speech, said that he had been the recipient of the tea set. He concluded, as usual, by complimenting the ladies present.

Gen. Bend and Adj. Gen. Libbey also spoke.

Before the presentation, Gen. Libbey was sworn in as adjutant general and given his commission, and Mr. Lambert was sworn in as major of the First artillery.

The following were present in the governor's office at the above mentioned presentation: Mrs. Lambert, Miss Mayer, Miss Gravelle, Mrs. Van Duzee, Miss E. Bernheim, Capt. Washington Smith, Capt. C.

ANNUAL DAY OF PRAYER.

College Faculties and Students Observe a Yearly Custom.

The annual day of prayer for colleges was observed yesterday in all the local colleges. Dr. Bushnell, of Westminster church, Minneapolis, was the address at Macalester in the presence of the students and faculty. The address was followed by an hour of prayer. Dr. Bridgman had charge of the exercises at Hamline.

He delivered an address on "The Annual Day of Prayer for Colleges." Rev. Mr. Avison, of the Lutheran church, spoke and other members of the faculty made brief addresses.

ROPE COMES DOWN HARD

ORDERS COUNTY TREASURER NOT TO MIX UP HIS DIFFERENT FUNDS

CANNOT EVEN PAY SALARIES

There is a Deficiency in Revenue Fund, and County Officials Are Therefore Compelled to Wait.

Yesterday State Bank Examiner Pope after an examination of the county finances in the office of County Treasurer Metzger, advised that the county should be no further mingling of the several funds as has been the custom, and in consequence all payments on warrants drawn on the road and bridge funds, and the salaries of all county officers, have been stopped.

Because of his refusal to allow a mingling of funds to cover the salaries and roads and bridges have been depleted of cash and those having bills against these two funds will have to take them up nearly by their own means. There is a deficiency of \$40,000 in the road and bridge fund and a similar deficiency in the salaries fund. The salaries are paid. Gen. Pope has also ordered that all payments must hereafter be made by check instead of cash. Mr. Metzger's financial orchestra program entail much trouble as the greater part of the orders are small in amount.

WINE ROOMS A MENACE.

Grand Jury Reports Favoring an Ordinance to Control Them.

"There are wine rooms in St. Paul, and many of them are a menace to the morals and good name of the city."

The grand jury makes this statement, and in the report which was handed out to the city council yesterday, the words in passing upon the vice and immorality that emanate from their operations. "There are many of them in operation, and they are a report, 'frequented by old and young and productive of evil that is of the vilest kind.'"

An investigation of the city ordinances, says the report, fails to find an ordinance prohibiting such, and the members in conclusion advise the passage of an act similar to the one in Minneapolis, which prohibits wine rooms.

Relative to the system of scales, weights and measures now in vogue in St. Paul, the grand jury holds as ancient, productive of much annoyance and should be remedied at once. The passage of suitable laws and the appointment of a suitable board of inspectors are recommended. More frequent inspection of cream and milk is recommended. The remedy, the report states, will be found in an addition to the number of inspectors employed by the health department.

The market master comes in for a share of rebuke not as an individual but as a representative of the part of the city lawmakers that allow him to continue in office without a bond, and without keeping a record of collections placed on him by the market master. The report says, has no title to a fixed site for gardeners, and consequently has to rely to the generosity of property owners. In the collection of fees the city is dependent upon the market master's honesty to turn over what he collects. A permanent market place of \$2,000 to be required of the market master is recommended. The conduct of the fire department is commended.

The city hospital comes in for its share of criticism, it being directed at the contagious ward, which is old and not suitable for the use of which it is put. A portion of the hospital building should be made separate from the main building, it is recommended. The hospital management is lauded.

The most grievous entered against the poorhouse. The report says the building and its conduct is all that could be desired. The county jail comes in for its share of rebuke. The report says that the jail should be in the shape of better plumbing and the removal of some of the stench that was located on the second floor. The report says Sheriff Justice' attention was called to this fact, and the defect has been remedied to a certain extent. In speaking of the new jail contracted for, the grand jury holds as an opinion that the new structure will cost for building alone \$200,000 before completed.

Relative to the workhouse the management is complimented, and the recommendation made that the officials be credited with work done by the prisoners on the park, and a relative report in her officials the reports concludes with the statement that the new charter has made many changes for the better, and as a letter as can be found it is being observed to the letter. As to the trouble now on between the city treasurer and the comptroller additional relief is recommended for the latter official, that he may comply with the provisions of the charter relating to his department.

Could Not Recover It.

When Hannah Clonan, a much respected Irish lady, died some months ago, she left a large sum of money, which she magnanimously gave to the body given burial, incurring, he claims, an expenditure of \$100.

In the settlement of the estate he promptly filed his bill, but the executors objected, and their contentions have been fully sustained by a decision handed down yesterday by the court. The executors claimed that Clonan acted without duty or necessity, no one requesting him to do so, and that he was not under any responsibility. His action was in line with the familiar rule that a voluntary payment of a debt is not recoverable, and the facts, cannot be recovered. The decision was made on a demurrer interposed by the defendant, Margaret Conroy, to the complaint.

HAYES WOULD LIVE APT.

John H. Hayes has filed a petition in the district court asking to be released from the ties that bind him to his wife, Hildergard Hayes. They were married at Huron, Mich., Aug. 27, 1891, and are thirty-two and twenty-eight years of age respectively.

It is alleged, they parting company a year ago. They have one child, a boy, eight years of age.

Suicide Quiet Title.

An act to quiet title to real estate has been commenced in the district court by Thomas Gould against Margaret Conroy. The property in question is located in Summit Park addition to St. Paul.

"After suffering for two months from a severe attack of grip I found quick relief and a lasting cure by using Dr. Miles' Nerve, Pain Pills and Nerve and Liver Pills."—Harry Abbott, Cincinnati, Ohio.

TWO LAWS FOR BARBERS.

They Are Recommended by the Examining Board.

The second annual report of the Barber State Board of Examiners was filed in the secretary of state's office yesterday afternoon. The report makes two recommendations to the legislature, the first being to the effect that a law should be enacted requiring all vented buildings for barber shops, and the second asking for a law to prohibit the placing of toilet rooms near barber shops.

JUDGE BUNN'S DECISION IN SUIT OVER MROZINSKI CASE

KILLING NOT AN OFFICIAL ACT

Corbett's Action Was That of a Private Man—Game Commission Had No Interest in Defending Him.

"An echo of the Mrozinski murder trial was heard yesterday when Judge Bunn handed down a decision in the case of claim of E. J. Cannon and S. J. Donnelly against the State Game and Fish Commission for \$1,000 attorney's fees.

The court in giving its opinion holds that the compensation asked for in defending E. J. Corbett is reasonable, but the board has no power to expend the money of the state for such purposes.

In his memorandum, Judge Bunn passes into opinion on the question, Corbett in his opinion that the act of Corbett in killing Mrozinski was that of the man, and not the officer. He did so to save his own life, and not in suppressing any duty contrary to the laws of the state. It was not his duty to kill human beings, and his official position could not justify such an act or add strength to an excuse made on any other ground. Had it been in a civil action, upholding the laws of the board and acts of its officers, the case might have been different. In no way would the outcome of Corbett's case benefit the state or its people from sympathetic motives. Judge Bunn says that the attorney's fees should be paid, but that the commission had implied powers that would justify the payment, if it could be shown that any interest of the state was protected in establishing Corbett's innocence.

NEEDS OF NORMAL SCHOOLS

THEY WILL BE PRESENTED IN A BILL TO LEGISLATORS.

The state normal school board yesterday passed a resolution providing for continuous sessions of the normal schools of the state and the legislative committee was instructed to draft a bill and introduce the same in the legislature. The bill as drafted, Dr. Duluth of the board the right to make the necessary changes for that purpose. This action was taken to benefit teachers who have to work their way up the promotion ladder.

The matter of having additions to the buildings at St. Cloud and Moorhead, and completing the new state house at Duluth normal school was discussed. Plans for the erection of separate heating plants at Moorhead and Bemidji were also discussed. No estimate of the expense of these improvements could be made, and the matter was turned over to the legislative committee.

The legislature will undoubtedly be asked to make appropriations for the contemplated improvements in the near future.
