

When the Lamp is Lit and the Children are in Bed

The tired mother gets out her mending basket and begins to darn the holes made in the hose by the restless feet of her little ones. It is so good to be quiet for a little she thinks. But very soon the over-wrought nerves assert themselves. She feels dizzy, her head throbs, and she has to lay aside the work and creep wearily to rest.

All work brings a natural weariness, a healthy tiredness. But there is a weariness which is not natural and a tired-

answered my letter then and told me what to do—I followed your advice, and to-day am cured. I tell everybody that with God's help, Dr. Pierce's medicines cured me. If these few words are of any use to you you are welcome to use them. They might help some other poor, suffering woman."

Mrs. Shearer's case is a fair example of the average cure effected by the use of "Favorite Prescription" of the cure. Of course, in complicated and chronic cases the cure may be slower but it is none the less sure if the medicine is faithfully used as directed. The records show that ninety-eight women in every hundred who have given "Favorite Prescription" a fair and faithful trial have been perfectly and permanently cured.

UNNATURAL CONDITIONS. Every woman should remember that a diseased condition is unnatural. The natural condition of the womanly organism is a condition of health and "Favorite Prescription" works with nature on nature's lines to re-establish that condition of perfect health.

"I never courted newspaper notoriety," writes Mrs. E. A. Bender, of Keene, Coshocton Co., Ohio, "yet I am not afraid to speak a good word for 'Favorite Prescription' and 'Pleasant Pellets.' Over a year ago I suffered terribly for nearly four weeks with prolapsus and weakness. After using one bottle of 'Favorite Prescription' and one of 'Pellets' I was a well woman again."

When the womanly health is re-established, the general health at once improves. There is no more backache or headache. The nerves are quiet, the sleep is sound and the appetite natural.

Dr. Pierce's Favorite Prescription establishes regularity, dries the drains which weaken women, heals internal ulceration and cures female weakness. It is the best preparative for maternity, giving muscular strength and elasticity and rendering the baby's advent practically painless. As a tonic for weak and "run-down" women it is unequalled, and nursing mothers will find it superior to any of the medicines or beverages commonly believed to have a tonic and strengthening value. "Favorite Prescription" contains no alcohol, neither opium, cocaine or any other narcotic.

SICK WOMEN are invited to consult Dr. Pierce, by letter, free. All correspondence is treated as strictly confidential and the written confidences of women are guarded by the same strict professional privacy observed by Dr. Pierce and his staff in personal consultations with women at the Invalids' Hotel and Surgical Institute, Address Dr. R. V. Pierce, Buffalo, N. Y.

FREE MEDICAL BOOK. Dr. Pierce's Common Sense Medical Adviser, containing more than a thousand large pages is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the book in paper covers, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

recognition of courtesies extended by the daily papers, the Commercial club, the trade press and the railroads, the principal features were an unqualified demand for the passage of the Grout bill, and the endorsement by the association of those members in the senate and house who had given it their vote.

The bill had its inception at the hands of the National Dairy association and their work and that of the men at Washington who had fathered the measure was recognized in the following resolution offered by ex-Gov. Hoard, of Wisconsin:

Resolved, That this association cannot fully express its obligations to the National Dairy association, and particularly to the officers of that organization for their able and gallant fight in favor of the Grout bill. We recognize that the fight has been the supreme battle of the last two sessions of congress, and the guilt of the person accused was fully proven. That is all I can say."

URGENT PASSAGE OF GROUT BILL. Delegates to the Convention Give It Their Unqualified Indorsement. Telegrams bearing on the Grout bill now before the senate, resolutions for its passage and a letter from Charles V. Knight giving a resume of the fight that has been made against the measure, formed a large part of the proceedings of the buttermakers at their business session yesterday afternoon.

MILWAUKEE VS. KANSAS CITY. Though rumor has credited Kansas City with having clinched the convention for 1902, President Haskell discredited this report yesterday and said the executive committee in whose hands the matter lay had by no means selected a place for the holding of the next convention. The committee would be influenced by the desires of the delegates and no action would be taken until the sentiment was obtained.

The race for the honor is between Milwaukee and Kansas City and representatives of these two cities in the persons of William Sieg and J. H. Wilds were accorded the privilege of addressing the delegates in behalf of their respective cities.

Mr. Sieg was backed up by telegrams from Gov. La Follette, of Wisconsin, Mayor Ross of Milwaukee, and the presidents of the several commercial bodies of the Cream City. As a further inducement ex-Gov. Hoard spoke for Wisconsin, he stating that it was eminently fitting the association should celebrate its wedding in the state that gave it birth.

What Mr. Wilds, of Kansas City, lacked in support in the way of telegrams from influential men, he more than made up in wit and a winning personality, his sallies having a marked effect on the delegates. Dwelling on ex-Gov. Hoard's remarks the evening previous that the dairyman's success lay in the education of the man that owns the cow, he stated that Missouri was one of the principal homes of the lowly bovine and quoted statistics to show that Missouri owned 650,000 more cows than any other state.

"Well," interrupted ex-Gov. Hoard, "Wisconsin has a million cows." Mr. Wilds was ready in repartee, and came back with: "Wisconsin is a wonderful state, but Missouri can't be beat, and I would not be surprised if the number of cows owned there has increased to a million and a half since I left home Saturday evening."

The selection of a convention city will not be determined upon for some months and in the meantime it will be a lively race between two cities for the prize.

PAPER CUT SHORT. Two papers, one on "Starters and Favorites," and "Moisture in Butter," by Prof. E. H. Farrington, Madison, Wis., were read, but owing to the lateness of the hour, Prof. McKay's paper was devoted to showing the proper temperature and method of adding salt to the butter, and subsequent proper flavor of butter. Two essentials necessary, he said, were clean appliances and the sanitary condition of the cow, the latter because of germ-carrier legs of adulterators, often contaminating the butter product to the extent that it was ruined for food consumption.

The paper by Prof. Farrington was of a technical nature, and was intended to show the relative amount of water, salt and unsalted butter. The Danish standard of moisture allowed in butter is 14 per cent.

While every state in the Union has representatives in the national organization few have state associations and a deficit in this respect was corrected, when late Wisconsin delegates held a meeting Wednesday evening and organized. The organization has fifty charter members and is officered by F. B. Fullmer, president; M. J. Michaels, treasurer; and Dr. Will Goodrich, secretary. It is thought that a number of other states will fall in line and organize before the convention closes.

The following state vice presidents have been named up to date: California, Henry F. Lyon, Alameda; Connecticut, F. C. Gerrit; Illinois, Arthur H. Hildner, Edward; Iowa, H. S. Myers, Kansas, Dr. A. G. Reid; Massachusetts, Fred S. Mead; Michigan, Wm. H. Fullmer; Minnesota, Haugbald; Missouri, Mr. J. E. Brady; Nebraska, Charles Harding, New Jersey, F. G. Utrique; New York, J. H. S. Scott; North Dakota, E. E. Kaufmann; South Dakota, C. P. Sherwood; Ohio, Oscar Reed; Pennsylvania, J. H. Fullmer; Philadelphia, Vermont, Mr. Nelson; Wisconsin, Thomas Witt; Utah, H. J. Faust.

HONORS FOR MINNESOTA.

It Now Enjoys Distinction of Being Banner Butter State. Minnesota is now the peer of them all. Honors unstinted were heaped upon her at the meeting of the butter-makers last evening. The delegates enjoyed the distinction of being the banner butter state of the Union. Two gold medals and an equal number of silver emblems are her portion of the honors accorded, and few could ask for more.

Of the business transacted at the meeting last evening, the most interesting to the delegates and those who entered the butter contest was the reading of the official scores and the distribution of the printed copies of the same. To read the entire list of entries and the scores accorded each was a task beyond the ability of the secretary, and instead only those entitled to medals and the banner were read. It was with bated breath the delegates listened to the reading, and when the announcement was made that Minnesota led, the cheering from the delegation was deafening in the extreme. The contestants, one by one, were summoned forward and given the prizes, and although speeches were demanded by the crowds, the surprises were too great and the winners generally voted to overcome to talk beyond uttering their thanks.

SOME OF THE WINNERS. To E. O. Quenold, of Owatonna, Minn., credited with the remarkable score of 97, was presented the first prize, a handsome gold medal. It was for butter made from separate cream and water, and he has the highest score in that class. For butter made from gathered cream, W. C. Noble, of South Waterford, Me., was given the second gold medal, his score being 92. Other prizes, which consisted of silver medals, were given to the following: C. J. Jensen, of Bernadotte, Minn., and Magnusson, of Bee, Minn., were announced as the winners of the second prize, being 90% and 90% respectively. Both gentlemen, as they stepped forward to claim the medals, displayed on their breasts medals secured in similar contests, showing that honors were not new to them.

Of silver cups, delegates from Iowa, Wisconsin, Illinois, South Dakota, and Vermont were announced as winners, the delegations from each state making the hull ring with their cheers as the names were read off.

Kansas, with twenty-nine entries and an average score of 84.4, was presented with the handsome banner, but as this delegation failed to be present when the announcement was made, her customary war whoop was not heard.

While the entries were greater than on any previous years, the scores, as a rule, were less, and Chairman of Boardman, of the executive committee, in presenting the prizes, commented on this fact.

GIFTS FOR OFFICERS. Two pleasing surprise took place at the meeting when President H. A. Beardman and J. W. Shepard, in behalf of the Commercial club, presented to President Haskell and Secretary Sudentzoff of the association, two handsome wicker easy chairs. Both gentlemen in neat speeches gave thanks and lauded St. Paul's hospitality in substantially treating her visitors comfort and going. The spirit of the occasion was taken up by the delegates and cheers were given for St. Paul and her Commercial club.

The programme gave notice that J. J. Hill would be one of the speakers. President Haskell was compelled to announce that gentleman's inability to be present owing to sickness. Instead, Mal. Henry E. Alvord, chief of the dairy division of the United States department of agriculture, was introduced and made an interesting address relative to the dairy exhibits at the Paris exposition. Mr. Alvord was in charge of the American exhibit and his talk on the difference between the exhibits from European

countries and the United States was entertaining in the extreme. To Sam Hobb, of New Sweden, was awarded the grand prize for the best individual exhibit and his butter, which was examined by a number of Parisian buttermakers, was pronounced wonderful, because of its keeping qualities.

Oauge Wind, of Pittsburg, Kan., a young buttermaker, read a paper on "The Apprentice in Creamery Work;" C. L. Passmore, on "Being Before and at Christ;" and P. W. Snow, of De Smet, S. D., on "Little Creamery Leaks." All three papers were quite short and contained much of profit to the delegates.

Entertainment was furnished by a colored quartette, and C. L. Cole, of St. Paul, who indulged in funny sayings. Today will see the close of the convention, which has been successful beyond expectations. While a number of the delegates left for their homes last night, many still remain. Butter hall will be thrown open this morning, and the delegates given an opportunity of examining the entries of butter. At 11 o'clock the butter will be sold at auction, and the proceeds turned into the association treasury. The butter of the best quality and the highest prices are expected to prevail. In the afternoon the final session, a paper by C. L. Flich, of Kansas, will be read and a general discussion indulged in.

MINNESOTA A WINNER.

List of Northwestern Exhibitors Whose Produce Took Prizes. As was generally expected, Minnesota was the lion's share of the prizes for the best exhibits shown at the ninth annual convention of the National Creamery Buttermakers' association. The gold medal for the best individual exhibit, a tonna, Minn., and the silver medal to C. H. Jensen, of Bernadotte, Minn. Their scores were, respectively, 97 and 92.

The gold medal for the gathered cream prize was won by W. C. Noble, of South Waterford, Me., and M. Magnusson, of Bee, Minn., took the silver medal. The scores were very close, Noble being awarded 92 to Magnusson's 89.

Other states were, of course, represented, but their scores did not entitle them to prizes. Individual exhibitors in Minnesota and the Dakotas whose products were awarded a pro rata share of the prize money are as follows:

If you use paper plates or films, an American Developer and also the Green Hypo Fixing Bath made only by C.A. Zimmerman.

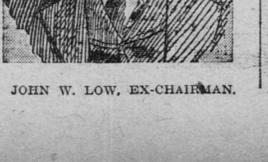

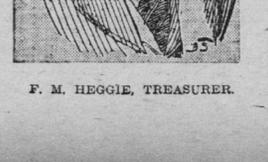

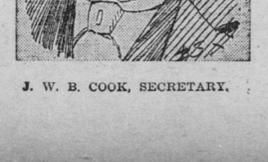

TRIED TO BRIBE JUDGES

EXHIBITOR AT BUTTERMAKERS' CONVENTION ANXIOUS TO WIN GOLD MEDAL. Continued From First Page. An attempt was undoubtedly made to bribe one of the judges, but the person who was approached as a go-between, not only refused to entertain the proposition, but warned the judge of what was on foot. The executive committee instituted a searching investigation, and the guilt of the person accused was fully proven. That is all I can say."

URGENT PASSAGE OF GROUT BILL. Delegates to the Convention Give It Their Unqualified Indorsement. Telegrams bearing on the Grout bill now before the senate, resolutions for its passage and a letter from Charles V. Knight giving a resume of the fight that has been made against the measure, formed a large part of the proceedings of the buttermakers at their business session yesterday afternoon.

MILWAUKEE VS. KANSAS CITY. Though rumor has credited Kansas City with having clinched the convention for 1902, President Haskell discredited this report yesterday and said the executive committee in whose hands the matter lay had by no means selected a place for the holding of the next convention. The committee would be influenced by the desires of the delegates and no action would be taken until the sentiment was obtained.
