GOV. WHITE MAKES A LARGE NUMBER OF APPOINTMENTS.

WISH TO MOVE THE CAPITAL.

Pass Bill to Label Cigarettes as "Poison" - Still Fighting Over the Wolf Bounty.

BISMARCK, N. D., March 2.—(Special.)—The governor made a large number of appointments yesterday, and the suspension of the officers of the asylum board, and appointments will be made. Other appointments are generally satisfactory and indicate no change in the management of the principal state institutions. An entirely new penitentiary board was named, and it is expected that the present management of the institution will be continued. The appointments were confirmed without incident.

The introduction of a proposed constitutional amendment to locate the state capital at Fargo created some interest, but no excitement, as there is no possibility of its passage.

The state medical association will meet through the present city officers will hold sessions allowing the practice of osteopathy, Christian Science and magnetic healing. The bill as passed is a distinct failure so far as the desires of the state association, who introduced the bill, are concerned.

The house passed the cigarette license bill, providing that all packages of cigarettes sold in the state shall have the word "poison" printed with skull and crossbones in red ink.

The wolf bounty appropriation was reported by majority and minority committees, the latter favoring killing the appropriation, and the matter went to committee of the whole.

The Man at the Other End

We are firm believers in the idea that the proper way to build up a successful business is to please the people at the other end—that's you. We give easier terms than any other store in the West, and other merchants acknowledge that we sell goods lower than others. They say that we can't afford to do it. Perhaps we are on the wrong idea. If we are wrong, you had better buy as soon as possible before we change our methods—during

REPUBLICAN MACHINE WILL NOT LET THE PRIMARY ELECTION BILL PASS

WILL KILL IT BY AMENDING

Sidetrack the Osteopathy and Anti-Cigarette Measures—Solons Have Fun With the Dancing Masters.

MADISON, Wis., March 2.—(Special.)—It is practically conceded that if the primary election bill stands any chance of passage by this legislature it will have to be very materially amended, a thing which the promoters of the bill have all along insisted they would not consent to. Talks of compromises are going on daily, and sentiment is developing in favor of making the bill apply only to city and county officers and to the election of delegates to the various conventions. Unless some such change is made the bill stands no chance of passing. It ought to be labeled a bill for the relief of needy and hard-working capitol clerks.

The bill to permit graduates from the state university to practice law without examination has been favorably reported in the senate. It seems hardly a fair reward for the long and arduous examination required of those who have had the good fortune to have imbibed their legal training of the university.

The house appropriations committee has agreed on all appropriation bills passed by the senate, and on \$10,000 for the Pan-American exhibit.

The road machine bills that are in, are attracting their share of interest, and there is a lobby of machinery men in the capitol to prevent if possible the passage of the law whereby township boards must purchase road machines upon the petition of a certain number of residents. A good many of these bills are being introduced, and it is not unlikely that they will be passed. The bill for the creation of a new county, claiming it was passed solely in the interests of the machine men.

There is a number of important measures that have not yet come out of committee. The bill for the repeal of the penalty clause of the prohibition law is in the hands of the temperance committee, and is admitted to have no chance of passage. Another bill is in to permit settlements with bondsmen of defunct banks in which the state has funds. Senator Cachel has an important measure proposing for the sale of several hundred acres of school and institution lands of the state this year. This bill would bring in permanent sums to be invested, the interest to go to the maintenance of the institutions. It is also provided that enough of the state capital lands be sold to pay the \$20,000 bonds issued for the erection of the addition, in 1894, and enough of the soldiers' home lands be sold to pay for the improvements recently erected there. Worms

CASCARETS are a sure cure for tape worms and those other pests of worms that make the lives of children and their mothers miserable. Any variety of parasites that live in the human stomach or bowels, and feed on the substance which should properly nourish the body, are dislodged by Cascarets Candy Cathartic, and expelled. One or two tablets usually drive them out, and persistent use is sure to do away with the unwelcome intruders. Many children and older people suffer from worms without knowing it, and get thin and weak, although their appetite is good. The best way to find out is to take Cascarets. Never accept a substitute!

"A tape worm eighteen feet long at least came on the scene after my taking two Cascarets. The next day I was free of the parasite, and my health for the past three years. I am still taking Cascarets, the only cathartic worthy of notice by sensible people." Geo. W. Bowles, Baird, Miss.
