DIocese of St. Paul

MINNESOTA CATHOLICS WILL CELEBRATE IMPORTANT ANNIVERSARY ON JULY 2

FIFTY YEARS IN NORTHWEST

Bishop Crein Arrived in St. Paul July 2, 1851, and Firmly Established the Catholic Faith.

July 2, 1861, will be an auspicious day in the history of the Catholic church in the Northwest. On that date all the faithful under the jurisdiction of the St. Paul diocese will celebrate the golden anniversary of the permanent establishment of the Catholic church in the Northwest.

The celebration marks the arrival just thirty years ago of Rt. Rev. Bishop Crein, who, armed with a commission from the pope, landed in St. Paul and proceeded to take charge of the diocese which then included a territory that reached from the St. Croix and the St. Louis on the east, to the Mississippi on the west, and from Iowa to the British possessions on the north. Bishop Crein came to St. Paul by boat and on his arrival here he was the guest of practically the only priest in Minnesota at that time, Rev. A. Favoux, a resident of this city. His residence and temporary cathedral was a log cabin which stood on Second street between Cedar and Minnesota streets.

Later, when the new cathedral was built on Wabasha street and was followed by the present edifice on the corner of Sixth and St. Peter streets. With the death of Bishop Crein came Bishop Grace, and following him was the present prelate, Archbishop Ireland.

While commemorative services will be held in every parish in the diocese, the principal celebration will probably be held in St. Paul, and will be attended by clergy from all over the state. Archbishop Ireland has directed a letter to the priests of the diocese calling their attention to the event and asking its proper observance. The plans for the celebration in St. Paul have not yet been determined upon, though they will be elaborate.

IN THE CITY CHURCHES.

According to the Episcopal church calendar today will be commemorated as "Palm Sunday," or the fifth Sunday in Lent. The church will observe the day with a special service, and the pastor will read the epistle, gospel, lessons and sermons.

Monday will be the feast of the annunciation of the blessed Virgin. The holy eucharist will be offered in most of the churches.

Sunday next, March 31, will be "Palm Sunday" and the beginning of "holy week."

There is great rejoicing at St. Peter's over Rev. Mr. Shutt accepting the rectorship which has been offered to him for the past six months. In the parish that he is leaving Schron Lake, N. Y., there is some sorrow over his departure. He is expected to be here for holy week.

The Memorial English Lutheran church, West Sixth street, near Exchange, Alex J. D. Haupt, the pastor, will preach at 8 p. m. upon the subject of "The Saviour, or the Priestly Office of Christ." At 8 p. m. Pastor Alfred Ramsey, of the St. John's church, will preach from the pulpit, preaching upon the theme, "Love's Propitiation." This will conclude the course of religious services arranged by the Twin City Pastoral association of the synod of the Northwest.

The service will be presided by a Lutheran league service at the church at 7:30 p. m. with the subject, "Christ Our Intercessor."

A missionary meeting will be held in the auditorium of the St. Paul church next Wednesday evening to be addressed by Rev. Charles E. Ewing, who will describe the sights of the Holy Land. Edward B. Haskell, who will speak of the conditions in Turkey. These men are members of the Lutheran league, and are visiting the leading cities of the country in view of the recent discussions and criticisms of foreign missions.

On Wednesday evening next, the choir of St. Paul's church, under the leadership of Thomas J. Farnsworth, organist and choirmaster, will render "The Passion Service" at 8 p. m. in the church. The words being selected and compiled by the Rev. J. C. Bussard, M. A. The service, though of a religious nature, will be of a character, was composed especially for the Lenten season, and while naturally of a serious and solemn nature, it is dramatic, at the same time retaining the theme of which at all times keeps the music of the work in touch with the solemn and beautiful words of the compiler.

The organist, Mr. Farnsworth, will fill any of the church, the exercises being under the direction of the Rev. Belton Bissan, priest-in-charge of the service. The organ volunteers at the church will be played by Mr. G. F. Fairclough, organist and choirmaster of St. John's church, and at all times keep the collection will be taken up in behalf of the choir fund.

The men's league of the First M. E. church will hold its regular monthly meeting in the church parlors Monday evening, April 2, at 8 p. m. The subject of the evening will be "The Individual vs. Himself." The ladies' aid society of the Memorial English Evangelical Lutheran church will hold a very interesting meeting at 8 p. m. at the Iglight, and the ladies will bring with them the amounts raised for the interest due April 1.

The Luther League of the Memorial English Evangelical Lutheran church will hold a very interesting meeting at 8 p. m. at the Iglight, and the ladies will bring with them the amounts raised for the interest due April 1.

The Ladies' Aid Society of the Memorial English Evangelical Lutheran church will hold a very interesting meeting at 8 p. m. at the Iglight, and the ladies will bring with them the amounts raised for the interest due April 1.

...THE... CARNegie BONDS.

Arrangements for Exchange into United States Steel.

PITTSBURG, Pa., March 23.—The holders of the \$100,000 bond issue of the Carnegie company are now considering the exchange of them for bonds of similar amounts and terms of the United States steel corporation. The matter has been brought to the attention of the stockholders by a circular signed by C. M. Schwab, president; W. W. Blackburn, secretary, and L. C. Phillips, treasurer. It was stated by good authority that Andrew Carnegie has agreed to sell the Carnegie company, that will be absorbed or exchanged for bonds if all of the others are retired at the same time as his own and the matter is being considered.

For the most part the bonds will be exchanged in the same manner as the Carnegie bonds, and it is the intention to retire all bonds that would be held by the Carnegie company. The Tube company, the National Steel company, American Steel and Wire company and other companies, in addition to the Carnegie company, that will be absorbed or exchanged for bonds if all of the others are retired at the same time as his own and the matter is being considered.

The Carnegie people. Of the total issue Andrew Carnegie will receive \$25,000,000 in cash for his total holdings of stock and bonds.

Chausson to Go East.

City Engineer Chausson will leave this evening on a trip to Detroit, Mich., Chicago, and a number of other large cities to look into the market for the purchase of building plots. He will help him in making the final plans for the new market site. At the still being advertised on the ability of the asphalt-paving pavements.

GREAT NORTHERN IS CARRYING CALIFORNIA ORANGES AT EXPRESS SPEED

STAR WILL ENLARGE.

CAPACITY OF THEATER TOO SMALL FOR THE CROWDS.

People who have patronized the Star theater the past week will not be surprised to learn that the management will enlarge the seating capacity of his house in the near future. Standing room was hard to find even at the matinees, and at some of the evening performances, particularly the beginning of the week, it was necessary to turn people away. The attraction was "The Jolly Grass Widow," produced by the J. J. Ranney, and to be one of the best of its kind for the season. Ever since the theater opened it has prospered.

It is accounted for by the fact that all of the vaudeville shows are well patronized, and the need of increased seating capacity is being felt every week. The remodeling of the structure when Manager Singer took charge of the remodeled theater, but a month had not passed before it was found necessary to put them in. When the time comes for the enlargement of the theater, every available inch of space will be made use of.

The surprising growth of the business of this popular theater in the city is easily accounted for. The Star now stands where the Olympic office stood. The remodeling of the structure not only saw a marvelous change in the architectural beauty of the place, but a change also in the class of shows put on. The shows are of a high order, and change was as marked as the other, and people were not long in discovering that a new management was in force.

O. P. Miller, the Milwaukee gentleman who is responsible for the Star, St. Paul's desirable place of amusements, is more than satisfied with the results of the venture.

TAKEN INTO L. O. F. HOME

MRS. RANEY, AN AGED WIDOW, GOES TO THE INSTITUTION.

The first woman to be admitted to the L. O. F. home lately established at Northfield, is Mrs. L. O. Ranney, of St. Paul. She is sixty-five years of age and quite feeble. Her husband, at one time a wealthy real estate dealer, with valuable holdings at Bear Lake and White Bear lakes, died about ten years ago. Mrs. Ranney's husband was a member of St. Paul Lodge of Odd Fellows No. 2, and she has been a member of the lodge members that she secured admittance to the home. Owing to a depreciation in value of his holdings, Mrs. Ranney, at the time of his death, was in a very poor financial condition. She is now practically alone in the world, her only daughter dying at Philadelphia several years ago, while her son, who is now at a health resort in the West, is an invalid. The home at Northfield which was dedicated last June, has five adult inmates and several orphan children.

SENSELESS RUMOR EXPLODED.

That New York Suicide Was Not Thomas Lowry's Daughter.

The sensational story printed yesterday in a St. Paul morning paper whose tenor was that the daughter of a prominent St. Paul citizen had committed suicide in New York, was exploded by a St. Paul paper announcing that the Twin City street car magnate, was promptly disposed of yesterday by a Montreal paper. The matter is now being investigated by the St. Paul police, and it is believed that the rumor is a senseless one.

The woman found dead in a New York boarding house answered to the name of Mrs. Robinson, and a physician acquainted with the case, has given his opinion that she was Mrs. Lowry's daughter. The rumor was spread by a telephone message was sent from New York to Mrs. Robinson at Baltimore, Md., and she has since been in St. Paul, where she is now being cared for by her relatives by the name of Robinson. Mrs. Robinson promptly acquainted her father-in-law, Mr. Arthur, grand and insufficient relieving facilities are alleged.

TROUBLES OF GRAND TRUNK.

General Strike of Engineers and Firemen Seems Imminent.

The Grand Trunk railroad is confronted with a possible general strike of locomotive engineers and firemen over its entire system. The grievance committee of both bodies, which has been in conference with the general superintendent of the road, and the situation is so serious that it is believed that a general strike is imminent. The engineers and firemen have been summoned to assist the disaffected mechanics in their deliberations. The situation is so serious that it is believed that a general strike is imminent. The engineers and firemen have been summoned to assist the disaffected mechanics in their deliberations. The situation is so serious that it is believed that a general strike is imminent. The engineers and firemen have been summoned to assist the disaffected mechanics in their deliberations.

TRANSFER OF MANITOBA LINES.

Northern Pacific to Surrender Control in a Few Days.

It was reported yesterday that the Canadian Northern railway, which is to be transferred to the Northern Pacific, will be transferred to the Northern Pacific in a few days, very probably before the first week in April.

IT IS THE WAY YOU USE IT.

It's the Method Employed Which Makes Success or Failure.

One man with pen, ink and paper can produce a landscape, another man with same pen and ink may not be able to write his own name legibly. It is all in knowing how.

It is equally true in the use of medicine. The same remedies may have to be given to thousands of years, but if their existence was known the knowledge of how to use them was lacking.

They became valuable to the human race only when experiment and science showed the way to use them to get results.

The grip is an old disease with a new name; it is really catarrhal in character and the usual symptoms are those of acute catarrh, but the old time catarrh powders, salves, and sprays do not cure it, neither does the application of antiseptics through an inhaler give anything more than relief for a short time.

The antiseptics are all right; they will kill the germs of catarrh and grip if they are applied rightly, but their local application to the nose and throat will not reach the germs in the blood and through the whole system.

Stuart's Catarrh Tablets contain many of these same antiseptics, that are used in sprays and inhalers, but instead of applying them to the inflamed membranes of the nose and throat, they are taken into the stomach and thus reach the blood; the real seat of the disease, and drive out the infectious germs through the natural channels of the bowels and kidneys.

In other words Stuart's Catarrh Tablets reach the cause of the mischief instead of merely local symptoms.

The remarkable success of these tablets in curing grip, catarrh and throat and lung troubles is because they drive the catarrhal poison from the system and the nose and throat become clear of the excessive secretion of mucus, which causes the hacking, spitting and coughing, because the secretion is not supplied from healthy blood.

Two years ago, Stuart's Catarrh Tablets were unknown, but today have become so popular through positive merit that druggists everywhere in the United States, Canada and Great Britain now sell them.

TO THE FRUIT GROWERS

GREAT NORTHERN IS CARRYING CALIFORNIA ORANGES AT EXPRESS SPEED

HEAVIEST YIELD IN YEARS

Thousands of Bushels of Fruit Are Rotting for Lack of Railroad Facilities to Reach Markets.

The dispatch appearing in yesterday's issue to the effect that the Great Northern has contracted to transport a trainload of oranges from San Francisco to Chicago in ten days, is confirmed at the general offices of that company. The fruit will be sent from the seaport to Seattle in three days, and will at that point be loaded into refrigerator cars and started on the route to Chicago at express speed. St. Paul will be reached in little over four days, and the final destination will be easily made inside the stipulated limit of ten days. Just at present the facilities of the Southern Pacific and Santa Fe systems are seriously crippled and shippers count themselves lucky if their fruit reaches Chicago in two weeks. This is over sixteen years of age, and is strong and hearty of the Great Northern to reduce the time nearly five days, over a longer and indirect route, is a more difficult one than might at first be thought.

The orange crop in California is this year one of the largest on record. It is many years since the growers have seen their labor and investment so profitably, and they are on that account anxious to reap the full benefit. Last year early frosts almost completely ruined the crops, and this season was disastrous from the standpoint. At present could all the oranges available be marketed in good condition, the growers would realize enough to repay them for many bad seasons. This, however, they will not do as reports from Los Angeles, San Bernardino, Pasadena and Pomona indicate that thousands of bushels of oranges are rotting for lack of adequate facilities to move them. These districts are the older fruit-raising points, and the yield in them has been simply phenomenal. Higher up, in the central portions of the state, extraordinary yields are reported from Porterville, in Tulare county; Centerville, in Fresno county, and in fact from almost all the fruit-growing points in the San Joaquin valley.

The Great Northern is likely to do considerable toward relieving the congestion, and additional contracts to transport train loads are expected. The shipment which this road is now taking charge of consists of sixteen car loads, each of which is 80,000 pounds weight.

LINE TO GOLD MINES.

Short Road From Colorado Springs to Cripple Creek Opened.

COLORADO SPRINGS, Col., March 23.—The Colorado Springs & Cripple Creek district railway, a new short line from this city to the great gold camp west of Pike's peak, has been completed to Cripple Creek and is now open for traffic. The road, for that place, carrying a party of invited guests, including President Hoover and General Sherman, to Cripple Creek and Victor. It is expected the road will be completed and ready to take traffic from the city to Cripple Creek, the southernmost city in the Cripple Creek district, in about two months.

The Colorado Springs & Cripple Creek district railway is a 20-mile line from this city to Cripple Creek, a forty-five miles, and its construction cost approximately \$2,500,000.

WILL BE READY APRIL 1.

Its men in the Maryland company, and they are now getting the settlement.

COURT NOTES.

Suit has been instituted in the district court by the St. Paul and Western Coal Company against William H. Stokes, to recover an unpaid coal bill amounting to \$17,170.

The Mankato Produce company has instituted suit in the district court against H. C. Lindeke, of St. Paul, to recover \$2270, which the claim is due them as commission for the sale of poultry and produce.

NEW FEATURE IN NORTHWEST

Pool and Billiard Tables, Bowling Alleys, Baths and Lunch Room Included Among Attractions.

The recreation department, which is to be one of the features of the St. Paul Y. M. C. A., will be opened to the members of the association the first of the coming month. The recreation department, which will be given over to this department, is now in the hands of carpenters and artisans, but work has progressed to such an extent that it is believed that the first of April will see the department ready.

Of the three pool and billiard tables installed, two are complete, while the three bowling alleys, all of full regulation length and width, are almost finished. The only work remaining is the installation of the shower baths, the toilet rooms and the lockers. Of the latter there will be 20 compartments, each of them of the keyless pattern.

There will be six shower baths, and these will be supplemented by a sweat room and a tub, included in the recreation department will be a lunch stand, from which the association hopes to realize handsomely.

Including the lease for the extra floor the entire cost will be a trifle in excess of \$3,000, and the completion of the department will see it practically free of debt. From the plans, a new swimming pool, a tennis court, a tennis court, and this has been further strengthened by the single seat saloon from the last two weeks.

YOUR SPRING SUIT

Should Be Selected Before the Rush.

We invite you to call and inspect our line of very desirable spring suits, overcoats, suitings, overcoats and trousers, newest and most popular styles at exceptionally reasonable prices. Duncaen & Co., 120 E. Fourth.

NOVELTY IN MAPS.

Unique Exhibit Preparing by Navy Department for Buffalo Expo.

WASHINGTON, March 23.—The navy department is preparing an instructive exhibit for the government building at Buffalo, N. Y., to consist of an eight by twenty-foot map of the world, on which will be delineated the principal maritime ports of the world, and the United States navy yards and stations, at home and abroad. The map will cover the globe, from the sixtieth parallel north to the sixtieth parallel south, and will be made of 30 miniature lead models, each representing a battleship, cruiser, monitor, sailing vessel, collier or tug of the United States navy, in submarine, or in ordinary, under repairs or under construction. The models of cruising vessels will be painted white, the torpedo boats green, the colliers and sailing vessels black, and the half inches in length. The largest of each model upon the map will show the location, and the name of the corresponding vessel of the navy.

TUGMEN TO STRIKE.

Owners of Lake Trust Tugs May Have Troubles of Their Own.

CHICAGO, March 23.—The Post today says: Protection association on all the boats belonging to the tug trust is threatened. It is contended that the men, wherever at work, will be called on early next week. In connection with the strike of engineers on all the boats belonging to the Lake Carriers' association the tugmen's strike may suspend the movement of vessels preparatory to the opening of navigation within a fortnight. The strike of the tugmen will be wholly sympathetic in character with the strike of the Lake Carriers' association. Officials of the tug trust say the threatened strike is unreasonable.

MAKE NO MISTAKE!

O. F. CLAY IS BADLY BROKE.

His Assets Are \$224 and His Liabilities \$600,000.

Bankruptcy proceedings have been commenced in the United States court by Odin F. Clay, who gives his occupation as railroad engineer, and who has the assets are only \$224, and the liabilities are \$600,000.

The Bank of Minnesota holds his note for \$15,000, and Mary W. Folker for \$5,000. The St. Paul Gas Light company is credited with being entitled to a balance on a note of \$8,000. The Security Trust company, with an unpaid mortgage for \$20,000, is named as one of the creditors. The liabilities also include a number of judgments for large amounts.

INSURED ITS EMPLOYEES.

N. W. Telephone Company Now Asks Them to Pay Premiums.

In special term yesterday in the district court was heard the argument in the case of the Northwestern Telephone Company against the Maryland Casualty Company to recover on an accident claim.

By reason of an accident suffered by O. N. Harrell while putting up some poles, the telephone company was compelled to pay \$1,075. As a protection against liability, the company insured all

Duffy's Cures Consumption.

NO FUSSEL OIL.

The World's Greatest Medicine.

Duffy's Pure Malt Whiskey cures consumption, coughs, colds, grip, bronchitis, catarrh, and all diseases of the throat and lungs. It also cures nervousness and indigestion. It gives power to the brain, strength and elasticity to the muscle, and richness to the blood. It is a promoter of good health and longevity, makes the old young, keeps the young strong.

It will cure almost any case of consumption if taken in time.

Mother died of Consumption. Daughter kept strong and well by Duffy's Pure Malt Whiskey.

"Gentlemen: In reference to your Malt Whiskey, I must say that it is excellent. I have had it in use for nearly one year, and in that time my family has been greatly benefited, especially my eldest daughter, who was always in delicate health. She is over sixteen years of age, and is strong and healthy. I have given her three tablespoonfuls a day. It was for her that I wanted the consumption cure. I think it was lucky that I got it, for the mother died of consumption when the daughter was six years of age and the physician said the child would not live to be over fourteen years of age. Now she is over sixteen and the doctor is dead. He died of consumption of the lungs. In conclusion, I will say that your DUFFY'S PURE MALT WHISKEY will save many lives if the people will take it. It is decidedly the most strengthening stimulant that I have ever seen, and we have tried a great many before we came to you. Very truly yours, MR. JOHN PHILGELDER, 538 Master street, Philadelphia, Pa."

Over 7,000 Doctors Prescribe It, and 2,000 Hospitals Use It Exclusively.

Guarantee: "We guarantee that the most sensitive stomach will retain Duffy's Pure Malt Whiskey when it will retain no other stimulant or nourishment."

FREE We will send free to any reader of this paper 2 of our patent game counters, for which, chess, etc., on receipt of 4 cents in stamps to cover postage. They are unique and useful.

DUFFY'S PURE MALT WHISKEY is the only Whiskey taxed by the Government as a medicine. This is a guarantee. All druggists and grocers, or direct, \$1.00 a bottle. Refuse substitutes; they are injurious.

DUFFY MALT WHISKEY CO., ROCHESTER, N. Y.

Will be ready April 1.

ARMY HORSES COME HIGH

TENDERS TO SUPPLY NEW THIRTEENTH CAVALRY REVEAL VERY HIGH PRICES

LOCAL FIRM IS THE LOWEST

Barrett & Zimmerman's Offer Seems to Be Most Satisfactory for Good Horses—Range Animals Come Lower.

Unexpectedly high prices were revealed in the tenders opened yesterday for horses to supply the squadron of the Thirteenth cavalry regiment, now being organized at Fort Meade. The chief quartermaster had expected to find the offers for really good horses possibly run as high as \$120 per animal, but, to his surprise, when the bids were opened, it was seen that for American horses all the way from \$124 to \$149 was asked. Several of the bidders submitted prices considerably lower, but that the purchase made in this country for the British army in South Africa and for the Germans in China have raised the market price of horses to an almost prohibitive mark.

Names Kinney's Successor.

Gov. Van Sant Appoints Alex McDougall on Commission.

Gov. Van Sant yesterday appointed Alex McDougall, of Duluth, to fill the vacancy on the Pan-American commission, which was resigned by O. K. Kinney, of that city, who was unable to serve on account of ill health. Capt. McDougall is extensively interested in the building of ships and has other large holdings, which together with his identity with the general welfare of the state, will make him a valued member of such a commission.

Morton and Capt. McDougall, first night for Buffalo, where they will make a definite view of the situation in order that they may be able to return to their duties. They will return to the city on Monday, and will proceed with the actual business of their offices.

RAIN STORMS ARE COMING.

Weather Observer Predicts a Season of Dampness.

Rain, and lots of it, is what Weather Observer Lyon promises St. Paul within the next few days. The thunderstorm and downpour of Saturday morning is a harbinger, he says, of what is to come and intimates that umbrellas and rain coats will be a necessity.

Kansas and Nebraska are now in the throes of the storm, and it is heading for this section at a lively rate. According to the predictions a rain storm today is a possibility.

Yesterday with the sun above pouring down its rays of rain, the thermometer at the weather station showing forty above, was almost summer-like, and investigation shows that the advantage of the welcome change. The only thing to mar the pleasure of a ramble was the wet and splash under foot.

CURED BY FOOD.

Nature's Way to Get Well and Keep Well.

People who do not know food to select the right kind of food to sustain them become ill, and some sort of disease will show forth. It is worth one's while to know these facts.

A young woman at Grindstone City, Mich., Mrs. A. P. Sase, began to run down while she was at school. She finally broke down completely and was taken seriously ill with a number of different troubles. The stomach trouble was the most serious one. Her heart also troubled her so she had to sit up as high in bed as possible. After some months I had never grown tired of it, and I seemed to get a little better, then I got worse, so that I finally was brought to the point of death from non-association of food.

At this time a lady recommended Grape-Nuts Food. She says: "Little did I think what a help it was to become to me. I became greatly interested when I read the description on the box, that the food was pre-digested and in the shape of grape-sugar."

I had been unable to digest anything starch at all, but I began on Grape-Nuts and it was so grateful to the taste, and soothed my stomach so well that I have been using it ever since, and have never grown tired of it, and I seemed to get a little better, then I got worse, so that I finally was brought to the point of death from non-association of food.

My stomach trouble is entirely gone. I am much stronger now and can ride a bicycle and take long walks, and have gained very considerably in weight, all of which I owe to Grape-Nuts Food.

LOCATED AN OLD CAVE.

Horse's Hoof Went Through Street and Disclosed Large Hole.

By accident R. G. Bjornstedt, 251 East Eighteenth avenue, South Minneapolis, discovered an old cave near the corner of Canada and thirteenth streets, yesterday morning. He was driving and his horse passed his foot through a hole in the pavement into the cave. The commissioner of streets had the hole fenced off, and an investigation was made. An old cave fourteen feet long, twelve feet wide and fourteen feet deep. The action of the melting snow had undermined the supporting ground and the street fell in. The sewer pipe leading to the gutter manhole in the corner of the street was broken off, and members of the sewer force have been engaged in mending it, after which the hole will be filled.

IT IS NOT A MEDICINE! IT IS NOT ELECTRICITY! IT IS AN INSTRUMENT!

It cures disease by the infusion of oxygen, thus purifying the blood and arresting the progress of disease at once.

Call and let us tell you about it.

C. S. WILSON, GENERAL DEALER, 610 and 611 New York Life Building, ST. PAUL, MINN.
