

UNVEILING OF A MONUMENT

UNVEILING OF THE STATUE OF GEN. JOHN A. LOGAN IN WASHINGTON

A MAGNIFICENT WORK OF ART

THE SCULPTOR, FRANKLIN SIMMONS, WAS KNIGHTED FOR IT BY KING HUBERT

MRS. LOGAN WAS PRESENT

As Were Many of the Survivors of the General's Comrades in Arms—Gen. Greenville M. Dodge Presided as Chairman.

WASHINGTON, April 9.—The historic bronze equestrian statue of Maj. Gen. John A. Logan, which rests on an imposing bronze pedestal in Iowa circle, was unveiled today in the presence of the president, the cabinet, the widow and relatives of the gallant soldier, many of his comrades in arms, and a vast multitude of people. The sculptor, Franklin Simmons, also was present. Master George Tucker, a grandson of the honored warrior, presided at the ceremony. At 2:55 o'clock the folds of the large American flag fell away and the dashing figure of "Black Jack" Logan, seated on his charger, stood revealed amid a roar of cheering that echoed far down the intersecting streets and avenues. The president and members of the cabinet had been escorted to the statue by a military parade under command of Francis L. Sturdevant, of the Fourth United States artillery. The procession included detachments from the artillery and infantry arms of the regular army, a battery of coast artillery, and a detachment from the navy yard, a provisional regiment from the District of Columbia militia, members of the societies of the army of Tennessee and the veterans of the war, and members of the local veterans associations.

MRS. LOGAN WAS PRESENT

Mrs. John A. Logan and other relatives sat upon a platform at the base of the monument. Mrs. Logan has been quite ill with the grip recently, but was able to be present. She was escorted by Col. Maxwell Woodhill, who was Gen. Logan's adjutant general during the civil war. With her were also Thomas M. Logan, of Murrenshorn, Ill., a brother of Gen. Logan; Mrs. M. E. Logan, of New Orleans; Mrs. M. E. Logan, of Boston; and the personal servant of Maj. John A. Logan Jr., who was with the latter when he was killed in the Philippines. The monument is a masterpiece of art and other distinguished guests occupied a flag-draped stand opposite this platform, while in another stand, extending around the monument, were other guests including many of Gen. Logan's old comrades, representatives of John A. Logan post, G. A. R., of St. Louis, the Logan Republican club of Brooklyn, and the Logan club of Philadelphia.

GEN. DODGE PRESIDES

Greenview M. Dodge, president of the army of the Tennessee, who is the only living general representative of the group on the bronze pedestal showing Gen. Logan in council of war with his commanding officers, presided over the ceremonies. He paid a high personal tribute to the dead chieftain and the monument which had been offered by Rev. Frank Bristol, introduced the sculptor, Mr. Simmons, to the assemblage. The statue was then unveiled amid great applause and the Fourth artillery band rendered "Columbia, Gem of the Ocean."

THE STATUE

The equestrian statue of Logan unveiled today represented several years of labor on the part of Franklin Simmons, the sculptor, and marks a departure in sculpture in Washington in that it rests upon a pedestal of granite. The statue, which cost \$50,000 for the statue and \$50,000 was contributed by the Grand Army of the Republic. The pedestal is twenty feet high. On the west face is a group of figures representing Gen. Logan, Evans, Conkling, Morton, Miller, Voorhees and Thurman. The south front of the pedestal is embellished with an allegorical figure of war and the north with another of peace. The equestrian statue rises above the pedestal fourteen and a half feet. Gen. Logan, facing south, is represented as riding along a line of battle, his hat on and sword drawn. The statue produces an impression of dignity, beauty and power. Humbert, late king of Italy, after a private view of the monument, knighted Mr. Simmons.

UNDER TONS OF ROCK.

FAMILY OF SIX BURIED ALIVE AT CRIPPLE CREEK.

CRIPPLE CREEK, Colo., April 9.—The family of James Smith, consisting of the father and mother and four children, were instantly killed in their home to-night by the sliding of the huge dump of the Granite mine. The Smith residence was located just below the base of the dump. The recent snows had softened the dump so that the top suddenly slid down, crushing the house and burying its inmates. Hundreds of men are now digging away the dirt and rock, and it is not thought possible that any of the victims will be found alive.

OPERATORS ON A STRIKE

NO AGREEMENT HAS BEEN REACHED IN THE INDIANA BLOCK COAL DISTRICT

STICK ON PRICE OF POWDER

OPERATORS REFUSE TO GIVE IN, AND MINERS ARE EQUALLY STUBBORN

NATIONAL OFFICERS ANXIOUS

Fear That the Disagreement in the Brazil Mines Means the Beginning of a Long and Costly Tie-Up.

INDIANAPOLIS, April 9.—The national executive committee of the United Mine Workers continued its work all day. According to a statement given out at national headquarters the condition of affairs in the block coal district of Indiana is extremely critical and all the mines are closed. The powder question is still the cause of the trouble, and it is said that the operators are unanimous in their attitude. The clause in the agreement between the miners and the operators recently made concerning the price of powder has practically broken the strike at Linton. A strike which violates any articles of an agreement will not receive the support of the national organization, and a strike against the block coal mine may encourage the bituminous coal miners, who have already evinced a tendency to evade certain regulations contained in the agreement.

WITH ANXIOUS EYES.

The situation in Indiana is attracting the attention of the national officers assembled here, and they await the outcome with anxiety. President Van Horn of the bituminous miners' organization, who is expected to arrive here, is under the conditions of the bituminous fields this afternoon, but failed to arrive. The officers of the Block Miners' association were in conference with the operators at Brazil this afternoon. Clay county contains nearly all the block mines in the state and the miners number nearly 3,000.

THE NATIONAL COMMITTEE TONIGHT WIRED THE COMMITTEE OF MINERS AT BRAZIL THAT IT COULD NOT ADVISE THEM TO SIGN CONTRACTS UNLESS THE POWDER QUESTION WAS ELIMINATED. THIS TELEGRAM WAS READ AT A JOINT MEETING OF MINERS AND OPERATORS AT BRAZIL AND CAUSED AN ADJOURNMENT.

THE OPERATORS REFUSE TO RECEIVE A STRIKE NOW ON AND A LONG LOCKOUT IS PREDICTED.

MINERS SAY THEY AGREED TO ACCEPT LAST YEAR'S SCALE AS PROVIDED FOR BY THE COALMINES AGREEMENT, BUT THE OPERATORS REFUSE TO CONCEDE, WHILE THE OPERATORS CONTEND THAT THE MINERS ARE ON A STRIKE BY REFUSING TO ACCEPT THE SCALE AS AGREED UPON IN DISTRICT II.

BRITISH FORCE HAS TAKEN PIETERSBURG

REGARDED AS AN IMPORTANT CAPTURE—BOERS ALSO TAKE SOME PRISONERS.

LONDON, April 9.—Lord Kitchener, reporting to the war office under date of Pretoria, April 8, says: "Plum has occupied Pietersburg with slight opposition. He captured two locomotives and thirty-nine trucks. He took sixty prisoners, capturing a seven-pounder and destroying 210 cartridges. 1,000 rounds of seven-pounder ammunition and a considerable amount of powder and dynamite."

The capture of Pietersburg is regarded here as important. The place is the terminus of the railroad and has been the capital of the Boer government since the evacuation of Pretoria. The whole northern railway is now in the hands of the British.

According to Lord Kitchener's dispatch, only one officer and one man were killed. The Boers evacuated the town during the night prior to Plum's arrival, after blowing up two trucks laden with ammunition. Lord Kitchener further reports the capture of sixteen prisoners, fifty horses and the depot of war stores at Boshmanskop, Orange river colony.

As an offset the commander-in-chief reports that a detachment of a hundred men of the Fifth London and imperial companies were attacked by 400 Boers to the northward of Aberdeen, Cape Colony, and that after several hours' fighting the British were surrounded and captured, with the exception of twenty-five who succeeded in making their escape.

MANILA, April 9, 2:35 p. m.—Though the officials are uncommunicative, it is generally believed that Aguinaldo signed the peace manifesto this morning. Chief Justice Arellano drafted the document. Aguinaldo strongly objected to two clauses of the manifesto and considerable argument was required to overcome his objections.

WILKESBARRE, Pa., April 9.—The employees of this division of the Central Railroad of New Jersey, it is said, have voted almost unanimously in favor of a strike, providing that Vice President Warren of the road still persists in refusing the brotherhood officials a conference. It is believed here, however, that Vice President Warren will ask the grand officers and various brotherhood officials to return to New York and discuss the conditions. The vote of the men was completed today. A strike in this region on the Jersey Central railroad would force about 12,000 miners to quit work.

FIRST FOREIGN STATION HAS BEEN ACQUIRED BY THE UNITED STATES

P. C. KNOX IN THE CABINET

New Attorney General Was Formally Presented to His Colleagues at the White House Yesterday.

WASHINGTON, April 9.—The first United States coaling station to be located on foreign soil has been completed at Pichonchic on the west coast of Mexico, and the coiler Alexander is now taking on 5,000 tons of coal at Baltimore to stock this latest acquisition of the navy. The station is on California bay, at the extreme southern tip of the peninsula which juts down from California, and is known as Lower California, although it is an integral part of Mexico. Admiral Bradford, chief of the naval bureau of equipment, has the long project of developing this point for the use of the navy. A footing was secured there many years ago through the assent of the local authorities, but it was desired that the Mexican government should give its full authorization to the project contemplated by the United States.

Through the state department, extended negotiations were carried on, resulting finally in complete authorization for the projected station. The work has been in progress for some time, about 100,000 tons of coal were landed in coal warehouses, warehouses and shops, and facilities for loading coal onto ships of war. The capacity of the station is 5,000 tons of coal. A Mexican custom official will inspect the ships before they enter the station.

CABINET TALKED CHINA.

The cabinet gave some attention to the question of the indemnity to be required from China, it being brought forward by Secretary Hay, in connection with the condition of business in the latter country. Great surprise was expressed at the enormous total of the claims which, being all before the minister at Peking, he had estimated at about a half billion dollars. Moreover, at least one of the powers insists on keeping the account open until it elects to withdraw entirely from Peking at a remote date to be fixed by the government. The total of its claim to be increased greatly hereafter. The opinion of the other cabinet officers completely accorded with that of Secretary Hay as to the desirability of securing a reduction of the claims.

Lawyers Mixed Up in Patrick Case Charge Sharp Practice Against Each Other

PROSECUTOR GETS AFTER HOUSE

Osborne Also Tells Moore He Doesn't Care for Up-the-State Rules of Practice.

NEW YORK, April 9.—A feature of the examination of Valet Jones in the day's session of the hearing concerning the death of William Marsh Rice, the Texas millionaire, was a line of question which led to a heated scene at the noon recess. When at last Mr. Osborne, who represents Lawyer Albert W. Patrick, and Assistant District Attorney Osborne. The cause of the dispute was Mr. Osborne bringing out certain testimony against Patrick, Frederick House is one of Patrick's lawyers. Previous to Jones turning state's evidence Mr. House represented the valet also. By a ruling of the court Mr. Osborne was allowed to ask the witness what he and Patrick had told their lawyer at the first interview in the Tombs. Jones replied that it was a complete confession of murder, differing not at all from his story at the hearing. During all the long cross-examination of Jones, which ended an hour before recess, Mr. Moore made it apparent that his sledge hammer questions were all directed at one point. He sought to show that Jones' story was concocted. The instigation of some of the men interested in disproving the second Rice will. He laid special stress on Jones' conversation with Capt. Baker, executor of the first will. The cross-examination was a long and bitter one, with recriminations against Jones, Mr. Osborne and Mr. Battle, the latter Jones' special counsel.

LIKE A THUNDERBOLT.

"Jones, to whom did you first tell the story of your having chloroformed Mr. Rice? I mean the same story you told here?"
"Mr. House," was the reply.
The question apparently was a surprise to the witness, who looked up at the table. Patrick tugged at his beard and Mr. Moore sprang to his feet.
"Objection to that question," he shouted. "We object to that question. It is a professional confidence which must not be revealed."

LAWYERS IN A SQUABBLE.

A few minutes later Justice Jerome went out and the court room was cleared of everyone but lawyers and reporters. Mr. Osborne arose from his side of the table and stepped to the door. Mr. Moore met him at a corner of the table.
"Mr. Osborne," he began in a quiet voice, "I want to tell you that your conduct in making Jones tell about his confession to me, was unprofessional and unbecomingly ungentlemanly. It was not right."
