

PERUNA ALWAYS CURES.

Some Remarkable Cures of Catarrh of the Stomach and Neuralgia.

Edwin A. Frost, Manager Windsor-Clifton House Chicago, Ill.

Hon. E. A. Frost, manager of the Windsor-Clifton House, corner of Monroe street and Wabash avenue, Chicago, Ill., says in a recent letter to The Peruna Medicine Co., of Columbus, O., the following words in praise of their catarrh remedy, Peruna:

The Peruna Medicine Company, Columbus, O. Gentlemen:—Before taking Peruna I had suffered for twenty years from malaria to the extent that I had chronic neuralgia of the stomach, and could not sit out in the night air without suffering the next day. I had tried many so-called remedies but with only partial and temporary relief. It has been two years since I used Peruna, but I am satisfied that my cure is complete and permanent.—Edwin A. Frost.

Nothing in the world produces more disastrous anæmia of the nerve centers than neuralgia. Any one who has ever had neuralgia will find himself constantly liable to nervous troubles. This is especially true if he has been subjected to taking much quinine. Peruna increases nutrition. Neuralgia is always an expression of nerve weakness. Some nerve centers have been deprived of nutrition, and neuralgia is the signal of distress which this center is able to make. Thus it is that neuralgia depends on a want of nutrition of the nerve centers. Peruna increases the nutritive value of the food and does it by correcting the digestive organs. After the digestive organs have been once put in good working order by Peruna then the food is able properly to nourish the body. This is how it happens that Peruna cures many cases of old neuralgia which have resisted all other forms of treatment. Peruna is not a specific for catarrh of the digestive organs. There is no remedy in the world that is so sure to put the digestive organs in good working order as Peruna.

Peruna strikes the source. All diseases, including neuralgia, that depend on a want of proper nutrition are curable by a course of Peruna. Peruna strikes at the foundation of all chronic

SCANDAL IN GRAIN DEPT.

ERIOUS CHARGES AGAINST E. W. KNATVOLD AND G. TUNNELL, OF MINNEAPOLIS.

TRIED TO INFLUENCE BENSON Charged That They Endeavored to Get Him to Grade Wheat Higher Than He Thought Proper.

Tuesday morning at 10 o'clock the railroad and warehouse commission will commence an investigation into certain charges preferred by B. F. Benson, a deputy grain inspector, against E. W. Knatvold, chief deputy inspector, and G. H. Tunnell, first assistant, all of Minneapolis. The charge is that Knatvold and Tunnell endeavored to influence Benson to grade a large quantity of wheat which had been marked "No. 2" up to "No. 3."

The wheat in question is said to have been mixed at the Union elevator by J. C. Adams & Co., and in amount aggregates several hundred thousand bushels. Benson claims it is said that Adams & Co. mixed about 150,000 bushels with the wheat in the Union elevator, and that in going "in" was graded from "No. 2" to "No. 3." After the mixing process Benson again graded the whole lot and marked it "No. 2."

It is claimed that the whole affair, in his opinion, would prove to be rather trifling, and not worth half the noise that has been made about it in the Twin City evening papers.

DO YOU REALLY KNOW Just "Where You Are At." For between "the mad dog scare" and "the smallpox scare" and the horrible pictures of the "mad dog" and "smallpox" it will soon require an unusually well-informed citizen to prevent one's being "scared" into "its" or "a" mad house. The daily papers, why not tell people how to prevent "scare"? The oxymoron will prevent many a case of tetanus, most of which are caused by the "scared" into "its" or "a" mad house.

Doctors Surprised. N. E. Bunker, Newman, Cal., writes: "I was sick for nine years with one of the worst cases of catarrh of the stomach possible. At that time I did not have a natural taste in my mouth. Could not eat, barely kept life in me by nibbling—could eat nothing of any substance, only soft foods, and little of that. I got as low as 108 pounds. The first cure was a gripper. By accident I used Peruna; began it last February. I have now been well six or seven months—entirely well. Am a heavier than for thirty years. Doctors are surprised as are all my friends. I have advertised Peruna extensively in many parts of the state; personally, many are helped. I am very thankful."—N. E. Bunker.

"Never Felt Better." Mrs. T. E. Frech writes from Excell, Tenn., as follows: "I have been afflicted with catarrh and stomach trouble for seven years. I tried four different doctors. They only relieved me for a little while. I gave up all hope of being cured, having been reduced to 120 pounds. I was so weak I could scarcely get out of the room. I was induced to try Peruna and to my great surprise I am now entirely well. My weight is now 138 pounds and I never felt better in my life. I shall always praise Dr. Hartman and his remedies."—Mrs. T. E. Frech.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. S. B. Hartman, Columbus, Ohio, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

3. Much of the wheat was missed and was badly enough to be classed "no grade." In the end nearly all of the wheat went out of the elevator and was loaded into cars with the "rejected" grading attached.

It is claimed that the difference between the grade which Benson was asked to assign the wheat and that which he did actually assign, meant a difference of 2 cents per bushel, or, on a total of 800,000 bushels, which it is claimed was involved, would amount to a difference of \$2,000.

Some of the wheat in question have been preserved and will be produced at the hearing, which will be public. B. F. Benson and the accused inspectors have been asked to produce all the evidence in their possession on the question, and the investigation will be as thorough as possible.

One of the commissioners declared last night that the whole affair, in his opinion, would prove to be rather trifling, and not worth half the noise that has been made about it in the Twin City evening papers.

THEY REFUSE TO MOVE

Occupants of buildings on New Market street want something.

Tenants on the Constans property, on Jackson street, which the city recently purchased for market-site purposes, refuse to move unless they are compensated for the value of their buildings.

At a meeting of the market committee some weeks ago the contract for the removal of the old buildings was let to J. H. McNamara for \$40, but that gentleman yesterday informed the committee that he could not get possession of them, as the occupants refused to move.

Mrs. Hogan, who resides at 544 Jackson street, is the disturbing element in the case, she contending that the city has no right to oust her without paying her for her trouble. She claims that she never was informed of the sale and the summary order of ejectment finds her unable to comply unless a heavy expense is incurred. The other three tenants make like excuses and demands.

With the consent of the city, the lots were purchased, informed the committee yesterday that legal proceedings for ejectment had been taken and the parties will be out in a few days, but it is understood that the tenants will go and will invoke the aid of the courts to sustain them in their demands for expense money.

The thirty-third annual convention of the National American Woman Suffrage association, which convenes in the First Baptist church, Minneapolis, May 30 to June 5 inclusive, will bring to the state all the prominent women suffragists of the country. It is expected that all of the national officers will be present, including Elizabeth Cady Stanton and Susan B. Anthony, the honorary presidents; Carrie Chapman Catt, president; Rev. Anna H. Shaw, vice president; Rachel Foster Avery, corresponding secretary; Alice Stone Blackwell, recording secretary; Harriet Taylor Upton, treasurer; Laura Clay and Catherine Waugh McCulloch, auditors. Minneapolis will provide entertainment for all officers and delegates. The hotel headquarters will be at the West hotel, where the general offices will be the guests of the Minnesota Woman Suffrage association.

The executive committee will meet at 8 o'clock Wednesday, May 29, in the West hotel, and will continue in session on the morning of May 30, the regular convention opening in the afternoon of the 30th. All the state presidents this year are to act as a committee on plan of work, and the presentation of the various suggestions for improved or new methods will be the chief business before the executive committee for these two sessions. In view of the fact that at several conventions it has been felt that not enough time was allowed for business, it has been arranged to give the sessions of the morning of Monday, June 2, and the afternoon of Wednesday, June 3, from 3:30 o'clock to the executive sessions of the convention. Monday morning the plan of work will be reported by the executive committee for action of the convention; part of this session will be given to deciding upon the use of the fund resulting from the national suffrage banner. On Wednesday morning amendments to the constitution and miscellaneous business will fill the session, and Wednesday afternoon will be given to unfinished business.

The largest social event of the convention will be the reception to be given at the West the afternoon of May 2. The state association will entertain all the members of the convention on a trolley ride, for which special cars will be reserved.

At the request of the business committee Rev. Anna Howard agreed to debate the question of woman suffrage with one of the prominent representatives of the anti-suffragists. For some months the programme committee has been actively searching far and wide to find such a person, but up to the present time the search has been unavailing. The committee has not yet given up hope, although the field has been pretty well covered without finding an anti-suffragist courageous enough to express his or her convictions in public debate. It is, however, possible that the first evening of the convention may be enlivened by this unusual feature.

Among the speakers and topics for the evening sessions are: "The Ethics of the Suffrage," Louis E. Post, editor of "The Public," Illinois; "The Feminine Factor in Society," Rev. Alice East Loomis, Wisconsin; "A Woman's Worth in the Community," Rev. Celia Barker Woolley, Illinois; "Constitutional Government," Elizabeth U. Yates, Maine; "Growth and Greedings," Lydia Phillips Williams, president of the Minnesota Federation of Women's Clubs; "The Table-Lamp," Mary C. C. Bradford, Colorado; "For the Sake of the Child," Elizabeth Boynton Harbert, Illinois.

The following will speak upon subjects not yet given: Laura Clay, Kentucky; Julia B. Nelson, Minnesota; Rev. Olivia Brown, Wisconsin; Frances Griffin, Illinois; Lila Hammond Butt, Mississippi; Gail Laughlin, New York; Laura A. Gregg, Nebraska; Dr. Julia Holmes Smith, Illinois; and Rev. William B. Riley, pastor of the First Baptist church, in which the convention will be held.

Consumption

Is a disease of civilization. When the Indian was a stranger to the white man he had no name in his vocabulary for this dreaded malady.

Without arguing as to the curability of consumption, it may be stated positively that Dr. Pierce's Golden Medical Discovery cures weak lungs, hemorrhages, bronchitis, deep-seated and stubborn cough, and other diseases which, if neglected or unskillfully treated lead to a fatal termination in consumption.

There is no alcohol in "Discovery," and it is entirely free from opium, cocaine, and all other narcotics.

Persons suffering from chronic disease are invited to consult Dr. Pierce, City, Kansas City, Mich. "Last spring I had a bad cough; got so bad I had to be in bed all the time. My husband thought I had consumption. He wanted me to get a doctor, but I thought I would try Dr. Pierce's Golden Medical Discovery, and before I had taken one bottle the cough stopped and I have since had no sign of its returning."

Dr. Pierce's Pleasant Pellets cure constipation.

In a little over thirty years, Dr. Pierce, assisted by his medical staff of nearly a score of physicians, has treated and cured thousands of men and women who had been given up as incurable by local physicians.

"Your medicine is the best I have ever taken," writes Mrs. Jennie Dingman, of Rapid City, Dakota, Mich. "Last spring I had a bad cough; got so bad I had to be in bed all the time. My husband thought I had consumption. He wanted me to get a doctor, but I thought I would try Dr. Pierce's Golden Medical Discovery, and before I had taken one bottle the cough stopped and I have since had no sign of its returning."
