There was a new and prominent union formed in the city last night by the waiters, who turned out nearly a hundred strong and placed it on a sound footing. There has been a great development in the "hashers" of the past, whose chief qualification was the slinging of a string of beefsteaks in platters from the shoulder to the hand, to the gentlemanly waiter of the present day, whose duties are filled to the satisfaction of a discriminating public. There is a scarcity of waiters now in the city, which will increase as the season progresses on ac-

Will Hold Annual Business Meeting at Capitol and Afterwards Dine at the Merchants'.

Close on the heels of the meeting of the Territorial pioneers will come the annual convention and banquet of the Old Settlers' association, an organization which is looked upon with more respect and love each year by the ordinary "old resident." The members of the association pride themselves on being the real pioneers, inasmuch as no one is eligible to join unless he came here before January 1, 1850. In other words they are the "forty-niners," and can talk of old days without fear of being contradicted.

According to information gained in the historical library in the capitol building, there are now about sixty men who belong to the association, and many of these are out of the state, so it can be safely assumed that only the "old standbys" will be in evidence, June 1, the great day.
